## NOTICES TO MARINERS.

HIS EXCELLENCY THE GOVERNOR has been pleased to direct that the following Notices to Mariners be published for general information.

By His Excellency's command,

E. NOEL WALKER,  
Colonial Secretary's Office, Colonial Secretary.  
Colombo, February 21, 1895.

### GOVERNMENT OF JAPAN.

#### Kii Channel—Hinomisaki Lighthouse.

Notice is hereby given that a lighthouse has been erected on Hinomisaki, in the Kii channel, east coast of Japan, the light of which will be exhibited on the night of January 25, 1895, and every night thereafter from sunset until sunrise.

According to the Japanese Admiralty chart No. 111, the position of the lighthouse is in latitude  $33^{\circ} 52' 40''$  north, and in longitude  $135^{\circ} 4' 20''$  east of Greenwich.

The lighthouse is built of iron, circular in horizontal section, and is painted white. It is 35 ft. high from the base to the centre of the lantern.

The light will be a second order revolving light, showing a white flash once every 30 seconds. Its arc of illumination will be  $241^{\circ}$  between the bearings of south  $69^{\circ} 20'$  east and north  $8^{\circ} 20'$  west. The bearings are true, and as observed from the lighthouse.

PART IV.—Page 135

The elevation of the light above the sea will be 261 ft., and in clear weather it will be seen from a distance of 20 nautical miles.

COUNT KURODA KIYOTAKA,  
Minister of State for Communications.

Tokyo, January 7, 1895.

#### Shimonoseki Straits—Moji Bay, South-west Buoy— Intended Change of Colour and Position.

Notice is hereby given that the black buoy moored to mark the south-western extremity of the shoal in Moji bay, Shimonoseki straits, which was notified under the date of December 7, 1894, as having been sunk by a vessel, will be replaced on an early date in a position one cable to the north-eastward of its former position, with its colour changed to black and white horizontal bands. The buoy will be moored in  $3\frac{3}{4}$  fathoms of water at low water spring tides.

COUNT KURODA KIYOTAKA,  
Minister of State for Communications.

Tokyo, January 7, 1895.

#### Woosung Outer Bar.

The channel has shifted considerably to the southward, and according to a recent survey by the Harbour Master, the leading mark through is the lighthouse on a S.  $61^{\circ}$

W. (Mag.) bearing, or the two chimneys of lighthouse-keeper's dwelling-place in line with the south end of gate on Prince's wharf.

"Centurion," at Ketau, E. R. FREMANTLE,  
December 24, 1894. Vice-Admiral.

*Kintang Channel—Ko Channel.*

The following information has been received from H.M.S. "Peacock."

"Peacock" reports having obtained soundings of 8, 8½, and 9 fathoms. North, 1½ cable from west end of Kamun or Dumb island.

*Makassar Roads.*

Information from British Consul, Batavia :—

The buoy on Hoofd reef is reported by the Harbour Master to lie on the eastern side instead of on the western as shown in chart 2,662.

*Huquang Winter Channel.*

Information from Harbour Master, Hankow :—

Notice has been given that on or about December 3 the Huquang winter channel was to be marked and lighted during low water, as follows :—

1. The Huquang and W. C. de Vries rocks were each to be marked by a common black painted spar buoy.
2. Two range poles erected on the rocky shore (Chung-chih kuan) opposite the W. C. de Vries rock,

one high and one low—the lower being the nearer to the channel—will lead clear of the Huquang rock and give a nearly mid-channel course.

From the high pole a 360° red, dioptric 6th order light, was to be exhibited from dark to daylight visible about 4½ miles, and from the short pole an ordinary white anchor light. These lights will, when kept in a vertical line as stated above, lead clear of the Huquang rock and give a nearly mid-channel course.

3. Two range poles erected on the right bank of the river, opposite the Huquang rock, one high and one low—the lower being the nearer to the river—each pole carrying an ordinary white anchor light, will, when kept in a vertical line, lead clear of the W. C. de Vries rock, and give a nearly mid-channel course.

*Chinkiang District.*

Information from Commissioner of Customs, Chinkiang, Chinkiang District :—

Torpedoes.—A light is shown on the buoy at each end of a line of torpedoes, and a red flag by day 2 miles below Silver island and opposite a recently constructed fort on the south bank of the river.

Vessels are advised to keep close in to the south bank and to slow down on passing.

"Centurion," at Ketau, E. R. FREMANTLE,  
December 31, 1894. Vice-Admiral.
