PREFACE

This Hand-Book on STATISTICAL INFORMATION OF THE NORTH-EAST PROVINCE is an updated edition of the first version of the first edition of 1989. In view of the urgency the Planning Division of the Ministry of Finance and Planning of the North-East Province had to bring out this document within a short time. Lack of communication facilities and response from the Central Agencies had been the constraints in compiling a Statistical Hand-Book of acceptable standard. Even though certain statistics are outdated these are included in this Hand-Book as these will serve as good indicators of the sectors' status.

I have no doubt that the statistical information presented in this Hand-Book is a need of time and will be of immense use to Administrators, Planners, Researchers, N.G.OO and others who are interested in the development of the North-East Province. Suggestions to improve the quality of this Hand-Book is welcome from all concerned.

I hope the situation will improve so that a comprehensive Hand-Book will be prepared in future. I take this opportunity to thank all staff and the organizations who made this publication possible.
