TOURISTS, WILL YOU PLEASE READ THIS ?

TOURISTS when coming out to India invariably visit as many places of interest as they possibly can, and are often desirous of getting Photographic Souvenirs of such places to take home to show to their relatives and friends, to do this they frequently

MAKE A VERY COMMON MISTAKE

by going to the local salesmen, many of whom stock rejected photographs, which they obtain from some indifferent Photographers. Herein is the one very common error that Tourists drop into, i.e., getting a cheap and nasty article for their money, and as often as not after purchasing this rubbish which has been foisted on to them they come across REAL GOOD work in some of the larger Presidency towns and cities, then the

DISAPPOINTMENT IS GREAT.

To avoid this kind of thing, Tourists are advised to apply for a Catalogue of Views, &c, to

THIS handbook is published with the view of affording in a compact form a variety of useful information for Travellers going to or returning from India, Burma, and Ceylon, and for Tourists or Residents in those countries, on all matters appertaining to travel in the East, and from the East to any part of the globe.

With Offices and Correspondents in every quarter of the World, we are prepared to extend exceptional facilities to Travellers, and are enabled to offer unequalled advantages as Bankers, Army, Civil Service, Colonial and Shipping Agents.

Acting under the special authority of the Government of India, and of the Secretary of State for India, as well as of the Railway Administrations of India, Australasia, and the Cape of Good Hope, and being the recognized Agents of the principal lines of steamers and of the railways in all parts of the world, it will be evident that our Passenger and Tourist system, based on an experience of over fifty years, may be relied on as complete and practical.

Our Army Agency, Banking and Exchange Department in Bombay is under the management of a gentleman from London of large experience, and we are in a position to transact every description of business in this branch on favourable terms.

Our numerous representatives are prepared to render useful assistance to Passengers and Residents; our Interpreters, in uniform, will be found in various large cities and Tourist centres; and at Bombay our steam launch is placed at the service of our clients for landing or embarking.

The information contained in the following pages has been revised to the date of publication, but changes and modifications, over which we have no control, may occur at any time, *and all fares published herein are subject to alteration without notice.* We shall esteem it a favour if those who use this book will point out any inaccuracies or deficiencies for correction in future editions.

PART I.

GENERAL INFORMATION FOR PASSENGERS
TO INDIA, Etc.

SINCE the opening of the Suez Canal and the consequent development in the number and size of steamers running between England and India, and owing also to the reduction of fares and to the superior accommodation now obtainable, the traffic is not so strictly confined to certain short periods of the year as was formerly the case. Speaking generally, however, it may be said that the *Outward Passenger Season* commences in September and continues until February, during which time the steamers are full, and passages should be secured at least some weeks in advance.

The cool season in the Plains of India extends from the end of October to March, and from March to June the Hill districts are enjoyable places of resort. The Rains (S W Monsoon) generally set in early in June, after a period of intense heat, and continue for ten or twelve weeks.

We shall be happy to advise passengers as to the most convenient route, and to secure Passages and Berths, without charge for commission, by any line of steamers that may be selected.

Passengers are recommended to forward us their instructions at the earliest possible moment, so that we may secure the best

available accommodation and register names for places in the Sleeping Car between Calais and Brindisi if required.

We arrange to collect and ship baggage, as fully explained on page 17.

Transports and Passenger Steamers met on arrival, and every assistance rendered by our representative on board, who will also undertake the clearing of baggage.

In our **Banking Department** we issue Circular Notes and Letters of Credit, payable at any of *our own Offices*, and by our Correspondents throughout the world. We also supply Indian Currency and other Foreign Moneys at favourable rates, issue Drafts on our various Offices, and make Telegraphic remittances. We open current accounts and make advances against approved securities; purchase and sell stocks and shares, and undertake Banking transactions of every kind.

Information for Travellers from India to any part of the World will be found on pp. 107—147.

SPECIAL NOTICE TO BRINDISI PASSENGERS.

1. Notice to Passengers who proceed by the P. & O. Calais-Brindisi Express, via Mont Cenis.—A Special Train leaves London (Victoria Station, London, Chatham and Dover Railway, and Charing Cross Station, South Eastern Railway) at 8.15 p.m. each Friday, connecting at Calais with the Peninsular Express proceeding direct to Brindisi. The train proceeds direct, without calling at Paris, and is due at Brindisi at 7.50 p.m. on Sunday, there being no change of carriage between Calais and Brindisi. This service consists of a Restaurant Car, fitted with all necessary appliances for cooking, hot meals being served in the dining saloon during the transit, in the same manner and style as in the best Continental and English Services; and Sleeping Cars provided with every convenience for the journey—the whole being of the most modern description. The fare, including Railway Ticket, £12 9s. 8d., and Sleeping Berth between Calais and Brindisi £4 6s. 10d., is £16 16s. 6d. (Meals extra. See p. 126.)

A similar Train leaves Brindisi every week immediately after the arrival of the P. & O. Mail Steamer at Brindisi with the India, China, and Australian Mails, see pp. 125-127.

The P. & O. Express Train takes the place of the Indian Mail Service, and no passengers are conveyed by the Indian Mail Train, which reaches Brindisi shortly after the Special Train.

In the interests of travellers no luggage will be admitted into the Sleeping Car itself under any circumstances, excepting a hand-bag (which must not exceed 20 inches long, by 12 inches wide, by 10 inches high) and a bundle of rugs, so that these may go in the space provided under the berth. *The bag, etc., taken into the car is usually subject to examination at Modane by the Customs' authorities.*

Through Registration of OUTWARD Baggage to Italy by the P. & O. Brindisi Express.—Passengers, by special arrangement, are now able to register their Luggage through from London to Brindisi at Victoria by the P. & O. Express on each Friday evening, thus avoiding all trouble and Customs' examinations *en route*, provided—(1) they hold the Special Railway Ticket issued for this Service, the price of which will include the free conveyance of 25 kilos. of baggage (say 56 lbs.) on both the French and Italian lines; or (2) if they hold the Company's Special Brindisi Return Ticket, have the same stamped at the P. & O. Company's Offices as being "Exceeded for 25 kilos. of free baggage across the Continent," for the conveyance of which 25 kilos. an extra charge of lire 13.50 (=10/9) is made on this account.

If Passengers by the P. & O. Train have with them, on registering their baggage through to Brindisi, a greater weight than 56 lbs., the excess charged at the departure Station is as follows: for 25 kilos. to 30 kilos. fcs. 6; above 30 kilos. each increase in the charge is per 10 kilos., viz., 12 fcs. per 10 kilos.

On the Italian and French Railways the amount allowed free is limited to 56 lbs. only, as previously mentioned, and Passengers by the P. & O. Express should therefore ship their Heavy Baggage in the Steamer from London.

The above notice has no reference to the examination of hand-bags, &c., in the Car, which, it is understood, will take place at Modane.

2. Special Notice to Passengers who do not travel by the above-mentioned P. & O. Brindisi Express.—Passengers travelling by Ordinary Express Train, other than the above, must leave London not later than Thursday evening. Passengers are often under the impression that luggage by Ordinary Trains is not examined *en route*. This is not so, and they must be present at the Customs' examination of their baggage, which, in the case of passengers proceeding by Ordinary Trains via the Mont Cenis, takes place at TURIN, or in the case of passengers proceeding via the St. Gothard, at CHIASSO, otherwise it will be detained there, and will miss the steamer.

There is no Registration of Baggage through to Brindisi by Ordinary Trains.

All baggage (whether registered or not) by the St. Gothard route to Brindisi will be examined at CHIASSO, and the passenger must be present at this examination, otherwise the baggage will remain there.

On the Italian railways there is no free allowance of baggage, and the charge from Modane to Brindisi is 4s. 4d. per 20 lbs., but between London and Modane, 56 lbs. are allowed free, any excess above such 56 lbs. being charged at the rate of 5s. 3d. for each 20 lbs., or part of 20 lbs. (See p. 124.) Passengers should ship their heavy baggage in the Steamer from London.

At Brindisi our Interpreter, in uniform, will be in attendance and render assistance to passengers, and will also accompany them to the steamer, and see that they are not annoyed or imposed upon in any way.

Railway Tickets issued at any of our Offices, and Sleeping Car Tickets can be procured through any of our Offices.

Instructions to collect baggage should reach us not later than four days previous to sailing, and all baggage or parcels sent to us for shipment should be delivered at our offices four days in advance of sailing date. Coloured labels showing the port at which baggage is to be landed will be supplied, and passengers are advised to place two of these labels on each package before sending same for shipment. All old labels should be removed or obliterated. Printed labels for address, "Cabin," "Hold," etc., will be supplied by us on application.

The baggage of passengers must contain only their personal effects. Packages containing jewellery, plate, and other valuables, must be specially declared and registered prior to ship-

The voyage from Suez to Aden, 1310 miles, occupies about four days, and from Aden to Bombay, 1664 miles, from five to six days.

The Gulf of Suez, an arm of the Red Sea, is 180 miles long, with a width of 8 to 10 miles. At Shadwan Island the Red Sea proper commences, and is 1100 miles in length, varying from 16 to 200 miles in breadth, and communicates at the South end with the Indian Ocean at the Strait of Bab-el-Mandeb. The weather is generally very hot in the Red Sea, especially so during the months of May, June, July, and August.

ADEN.

Local time 3 hours before Greenwich.

Distance from London, via the Suez Canal, 4,610 nautical miles.

Population 42,000, including Perim and Cantonment.

Aden, a British possession under the government of the Indian Presidency of Bombay, is situated on the south coast of Arabia. It is a natural fortress, and has been rendered almost impregnable by additional fortifications. It was acquired by the British in 1839, under whose administration its trade has developed immensely, and its commerce, both European and Asiatic, since the opening of the Suez Canal in 1869, has grown rapidly.

The rainfall of the year is very small, varying from $\frac{1}{4}$ inch to 6 inches, with an average of about 3 inches, and the mean temperature is 81° F. The mortality among Europeans is not excessive, but for a prolonged residence the climate is very debilitating. The town and camp at Aden are situated within the crater, but the principal residence of Europeans is at Steamer Point, where are situated the Hotels, Parsee Stores, and English Church.

The outer anchorage is a mile from the shore, the inner anchorage about a quarter of a mile. A boat inspector attends at the landing wharf. P. & O. passengers for Bombay have to change steamers at Aden every alternate week.

The currency is the same as in India, viz., Rupees.

More than a quarter of million of camels enter Aden yearly with produce from all parts of Yemen. Water is obtained from

wells within the valleys of the crater—by condensation from sea water—and by means of an aqueduct from Shaikh Othman, an oasis and old Arab village, eight miles from Aden, which may well be visited by carriage if the steamer is detained several hours for coaling or other purposes.

Postage to London, India, Australia, $2\frac{1}{2}$ annas.

Telegrams to London, 3s. 9d. a word ; to Bombay and Calcutta, 2 rs. 4 annas ; to Adelaide and King George's Sound, 4s. 9d., etc.

Refreshment Rooms.—Victoria Terminus (G. I. P. Ry.).

Population, 821,764. Distance from London: by sea, round the Cape, 11,200 miles ; by sea and Suez Canal, 6274 miles ; via Brindisi and Suez Canal, 5467 miles. Local time, 4 hours 51 minutes before Greenwich.

Bombay was ceded by the Portuguese to Charles II. in 1661, as part of the dowry of his Queen, Catherine of Braganza. It was transferred by the king in 1688 to the East India Company on payment of an annual rental of £10 in gold.

Bombay, unlike most other seaport towns of importance, is not situated upon a river. It is one of a cluster of islands, which, being artificially connected with each other, and with the "mainland," by causeways and railway viaducts, now forms a peninsula, lying nearly north and south, which makes the bay so created one of the finest harbours in the world.

The principal buildings are the Victoria Terminus of the G. I. P. Railway, the Municipal Offices, Presidency Magistrates' Courts, the Town Hall, the Mint, the Cathedral, the Sailors' Home, Post Office, Public Works Office, the High Court, the University Buildings, the Sassoon Institute, the Markets, etc., etc.

Steamers on arrival proceed either to the Prince's Dock, when the tide permits, or anchor near the Apollo Bunder.

Passengers by the Mail Steamers are landed at the Ballard Pier, where all baggage is examined

Our Representative boards every passenger steamer and transport, takes charge of baggage, telegrams, etc.

Most articles are now liable to import duty. Particulars of which, see pp. 102, 103.

CALCUTTA.

Office.—11, Old Court House Street.

Hotels.—Great Eastern, Spence's, Grand, and Continental.

Distance from Bombay by rail, 1400 miles. Duration of voyage from Madras, about three days. Local time, 5 hours 53 minutes before Greenwich. Distance from London by sea, 7,967 miles. Population (with suburbs), 861,764.

Calcutta, in Lower Bengal, with a population of 980,000, including suburbs, is the capital of India, the seat of Government, a splendid city, extending four or five miles along the banks of the river Hooghly. Situated almost at the limits of the Torrid Zone and within a degree of the Tropic of Cancer, the climate is less uniform than that of Madras and other places nearer the Equator. At the same time, owing to its maritime position, Calcutta is far from presenting those strong contrasts of season that are felt by residents of the North-West Provinces, and generally in the interior.

Three seasons may be distinguished, namely :—the hot season, lasting from the middle of March to the setting in of the rains in June ; the rains, which usually set in about the middle of June and last till the end of September ; and the cold season from November to the early part of March.

The chief objects of interest in Calcutta are :—Fort William, built 1773. In form it is an irregular octagon with five sides towards the land and three towards the river. It is surrounded by a dry ditch, which, however, can be filled with water by a sluice from the river. The whole of the defences are faced and palisaded with great care and are kept in admirable condition. The fort mounts several guns of various calibres. The Post Office, a handsome structure, situated on the west side of Dalhousie Square, at the corner of Koila Ghât Street, being a portion of the site of the Old Fort of Calcutta. The nearest approach to the site of the Black Hole is the northern end of the eastern verandah of the Post Office. The Telegraph Office (opposite Thos. Cook & Son's office) is an extensive structure and one of the finest public buildings in the city. It is situated at the corner of Dalhousie Square South and Old Court House Street. The style of architecture is one admirably suited to the requirements of the climate, and somewhat resembling its neighbour the Currency Office, but differing in its external decorations. Government House, built about 1804 at a cost of about thirteen lakhs of rupees. The idea of the design is taken from Keddlestone Hall, Derbyshire, but the resemblance does not extend beyond

the plan. It occupies a fine position on the north of the Esplanade, having a clear view of two miles over the Maidan. The grounds occupy about six acres, and are very prettily laid out to the south. The Town-hall, a fine building in the Doric style of architecture, is situated on the Esplanade to the west of Government House. The ex-King of Oudh's Palace at Garden Reach ; the Cathedral and other churches. St. Paul's Cathedral occupies a fine site at the extreme south of the Maidan. The style of the building is Indo Gothic, that is to say, Gothic adapted to the exigencies of the Indian climate. The interior fittings are handsomely carved, and there are some fine monuments in the vestibule and transepts. The original east window was the gift of the Dean and Chapter of Windsor, the subject being "the Crucifixion," after a design by West. This was destroyed by a cyclone in 1864, and the present one was erected by subscription. The University. The Indian Museum, 27 and 28, Chowringhee, as at present constituted, is not an integral constitution, but is rather a group of departments forming parts of a very comprehensive scheme which is intended to supplement the Scholastic Institutions in the scientific and technical education of students in India. The building has a frontage of 300 ft. to the Chowringhee Road, with a depth of 270 ft. The façade has two storeys of great height, in the Italian style of architecture, the two projecting wings and the central porches having elegant Corinthian columns. The Museum is open to visitors from 10 a.m. to 5 p.m. from 1st February to 1st November, and from 10 a.m. to 4 p.m. from the 16th November to 31st January. The Statues of Sir James Outram, Lord Bentinck, Lord Hardinge, Lord Lawrence, etc. The Botanical Gardens. The Zoological Gardens. The Eden Gardens, for which the inhabitants are indebted to the liberality and taste of the Misses Eden, sisters of Lord Auckland, once Governor-General of India. An elegant band-stand has been erected on the west side of the garden where the Town Band or Bands of the European or Native Infantry Regiments stationed in the Fort very frequently play. The Maidan presents a most refreshing appearance to the eye, the heavy night dews, even in the hot

season, keeping the grass and foliage green. The Native Bazaar is not without interest.

The principal short excursions, involving a day's journey, are to the Zoological Gardens, to Barrackpore, Serampore, Chandernagore, Chinsurah and Hooghly.

The **Hotels** are near Government House, or in Chowringhee, the Great Eastern being the largest. The East Indian Railway Company's terminus is at Howrah (on the opposite bank of the river), and conveyances now drive to it over a floating bridge.

Passengers arriving by sea have sometimes to land in boats, but generally land at the jetty where the steamer is moored.

Our **Messenger**, in uniform, boards every Passenger Steamer, and will clear baggage, etc.

Baggage is examined on board directly the vessel arrives. Articles liable to duty will be landed at the Custom House. For particulars of Import Tariff, see pp. 102, 103.

Visitors are invited to make use of the **Reading Room** at our Offices, 11, Old Court House Street, where the latest Telegrams, Newspapers, etc., may be seen free of charge. Letters and Telegrams may be addressed to our care, and every facility is provided for the writing and despatch of Letters.

Telegram and Postal Rates to England are the same as from Bombay, viz., 3 rs. 12 as. per word, and 2½ annas per half ounce.

Conveyances, called Gharries, cost 12 annas the first hour, and 6 annas an hour afterwards.

Payments are made on **Letters of Credit**, Circular Notes cashed, Current Accounts opened, and all other Banking transactions effected at our Office, 11, Old Court House Street.

The **Currency** is the same as in Bombay, Madras, and other parts of India.

Steamer Sailings.—Frequent departures for the coast; also for Ceylon, Burma, China, Japan, Australasia, America, Africa, Europe, etc., see pp. 86, and 136-139.

Mail Service Calcutta to Rangoon.

Steamers leave Calcutta with mails on Mondays, Tuesdays, and Fridays.

The English mail generally arrives in Calcutta on Tuesdays or Wednesdays, in which case passengers can join the Tuesday's steamer at Diamond Harbour by special train from Sealdah Station.

BURMA, RANGOON, etc.

Burma, both Lower and Upper, is a charming country, and may be visited in perfect safety and confidence; but visitors should be careful to whom they entrust their hand-bags or other luggage, both in the railway and on board the river steamers. Cook's Interpreter, in uniform, meets all steamers, and Passengers would do well to hand over their baggage to him and his coolies. Travellers whose time is limited, and who are proceeding east from Calcutta, can spend three days in Rangoon during the stay there of the British India steamer, but those who can spare ten days can arrange to go on in the next weekly steamer, thus securing the necessary time for several interesting excursions. After thoroughly exploring Rangoon, a start should be made, via Toungoo (166 miles) by rail (23 hours, 386 miles) to Mandalay, where two or three days would be profitably employed, and a short visit should be paid to Mingoon, going and returning by one of the Irrawaddy Flotilla Company's steamers, arranging with the manager of the company for the *down* steamer to stop at Mingoon, as in the ordinary course they do not call.

The principal drives and sights in Mandalay are Fort Dufferin, Queen's Golden Monastery, the Arakan Pagoda, the 450 Pagodas, the Palace, Mandalay Hill, and the Ruins of Amarapura, about 5 miles south of Mandalay

From Mandalay a delightful excursion can be made to Bhamo, through the grand scenery of the defiles, the double journey occupying about a week. The railway is now open from Mandalay to Katha, thence by steamer, 10 hours, to Bhamo, and returning by steamer, down stream all the way, to Mandalay and Rangoon, 900 miles, the whole length of Middle Burma is traversed

Returning from Mandalay to Rangoon, visitors can travel the entire distance by rail in twenty-three hours, or go by steamer to Prome (three days), then rail from Prome to Rangoon in nine and a half hours, or go all the way by steamer to Rangoon in five days. Tickets for these excursions issued at our Offices

Rangoon and Maulmein and back to Rangoon is a pleasant three days' excursion by British India Steamer, allowing one clear day in Maulmein, the second seaport in Burma, in point of importance. The scenery in the district well repays a visit, the hills being covered with rich forests studded with famous pagodas and monasteries. The Kyaikthalan and the Usina Pagodas are the principal religious buildings in the town, and of the many caves within easy reach of Maulmein, which were formerly celebrated Buddhist temples, the Fairn Caves on the Attaran River are only ten miles' distance

There is frequent communication by steamer between London or Liverpool and Burma, fortnightly by the Peninsular and Oriental Steam Navigation Company, via Calcutta, or weekly by the same Company, via Bombay and Madras, every three weeks by the Bibby Line, fortnightly by the British India Steam Navigation Company, via Calcutta and Madras, and at intervals by P. Henderson's direct Steamers. Between India and Rangoon the British India Steam Navigation Company have bi-weekly services to and from Calcutta, Madras, Colombo, and Bombay; from Rangoon weekly to Penang, Singapore, etc. The Bibby and P. Henderson's Line have

direct services to Europe, and communication westward can be obtained by the regular Lines via Calcutta, Madras, etc.

The Irrawaddy Flotilla Company have a service from Rangoon to Upper Burma twice a week, and a Mail Service to Mandalay every Monday and Thursday.

Distance from London, 7663 miles. Duration of voyage from Calcutta (787 miles), about four days. Local time, 6 hours 25 minutes before Greenwich.

Our Messenger, in uniform, boards every passenger steamer on arrival, to render travellers assistance or information.

Rangoon, the capital of Burma, is situated 21 miles from the sea; population, 181,071. The town is laid out in wide, handsome streets, and is well supplied with water and markets. The commons, pleasure-grounds, and parks are numerous and well kept. The Royal Lakes and Dalhousie Park, consisting of 160 acres of water and 295 acres of beautiful park, are extremely fine recreation grounds. The most ancient and magnificent building in Rangoon is the Shwe Dagon Pagoda, the most revered of all the Buddhist shrines in the furthest East; another remarkable pagoda is the Soolay Pagoda, which is octagonal in shape instead of round. The Suratee and Municipal Bazaars, and the trained elephants in the timber yards at Ahlone are interesting and curious sights that must not be omitted.

Currency.—Same as in India, viz., Rupees. The real medium, however, in nearly all business transactions in Burma is silver; and to avoid trouble, travellers should exchange any Indian currency notes they may hold, on arrival at Rangoon, either for silver or small local currency notes. This may be done at our Office, A1, Phayre Street.

Boat Hire.—Travellers seldom require to use boats on the Rangoon River, as passenger steamers generally come alongside the wharves. Sampans usually carry two passengers and about half cwt. of luggage. The customary fare, from steamer in midstream to wharf, or from wharf to steamer, is 4 annas per passenger per trip; but rates vary according to the distance to be traversed and the state of the tide. The fare should, however, in no instance exceed 8 annas for the single trip, whether carrying passengers or luggage.

Coolie Hire.—The charge for conveyance of baggage from steamer (alongside wharf) to carriages is 3 annas per package, irrespective of the number of packages carried. The same rates apply when unloading packages from vehicles at railway station or at hotels.

MADRAS.

Hotels.—Buckingham, Elphinstone, Victoria.

Population, 460,000.

Distance from London, by Sea and Suez Canal, 7,313 miles.

Local time, 5 hours 21 minutes before Greenwich.

Madras, the third city and seaport of British India, the seat of government, and headquarters of the Madras army, stretches for 9 miles along the coast, and $3\frac{1}{2}$ miles inland, suburbs and villages included. Amongst the principal buildings are the Cathedral, Scotch Kirk, Government House, Senate House, Memorial Hall, and Chepak Palace. Fort St. George, or the White Town, contains the Arsenal and the principal Government Offices. The Observatory, founded in 1792, gives the standard time to all India, and is the fixed point of departure of the Trigonometrical Survey. The recreation grounds are the South Beach Promenade and the People's Park.

Madras is in railway communication with Calicut on the west coast, and via Bangalore with Goa, Poona, and Bombay. Also with Hyderabad, via Bezwada ; from which point a railway has been authorized to Cuttack, which will doubtless be extended to Calcutta.

The Southern Indian Railway Company, with a view of accelerating the traffic between Madras and Colombo, have organized an express service between Madras and Tuticorin (via Trichinopoly and Madura), thence by one of the British India larger steamers to Colombo, the entire journey occupying 36 hours instead of 48 hours as hitherto. This railway affords travellers from Madras or Ceylon convenient facilities for visiting the historical districts and temples of Southern India, the centres of the greatest of the ancient Hindu dynasties. Unfortunately there is an absence of hotels, and the accommodation at the stations is very limited, but at Madura, Salem, Tanjore, Trichinopoly, etc., there are the usual travellers' bungalows.

Ootacamund, about 350 miles from Madras, is the chief Sanitarium of the Presidency, and during the summer months the headquarters of the Government and of the Commander-

in-Chief. The nearest railway station is Methupalaiyam. The Sanitarium lies 7,228 feet above sea level in an amphitheatre encircled by hills, and ornamented by an artificial lake nearly a mile and a-half long. A splendid vegetation combining tropical and English plants, flowers, and fruit, with an annual rainfall of 45 inches, and a mean temperature of 58° F., afford a delightful and refreshing retreat for residents in the plain.

Bangalore is a large town with a population of 170,000, the capital of the State of Mysore, and one of the most favourite military stations in India, the climate being noted for its healthiness. The chief buildings are the Maharajah's Palace, Government House, the Public Offices, the High School, and the Fort south of the old native quarter, about a mile east of which is the Lala Bagh, a beautiful pleasure garden.

Seringapatam, the old capital of the State of Mysore, under Hyder Ali and Tippoo Saib, one of the most historical places in India, is situated on an island formed by the river Cauvery. The fort, which overhangs the river, contains the ruins of Tippoo's Palace, the old Temple of Ranga Natha Swami, and the Jama Musjid built by Tippoo. The Darya Daulat Bagh a summer palace of Tippoo just outside the fort, contains the pictures representing the defeat of Baillie at Conjeveram in 1780. The Lala Bagh contains the mausoleum of Hyder Ali and his son Tippoo.

Madura, the chief town of the district of the same name, was the political and religious capital of Southern India from time immemorial. The Great Pagoda or Temple sacred to Siva, a profusely ornamented and magnificent structure, was decorated as it now stands by Terunala Nayak early in the seventeenth century. Some of the carving is superb, and the New Gallery is said to have cost a million sterling. The old Palace of Terunala Nayak has been restored and is used as public offices, forming one of the finest public buildings in India. Numerous other religious and non-religious edifices may be visited, and the principal drive is round a fine Teppa Kulam, or tank, which is fenced with stone, and has a temple in the centre.

Trichinopoly consists of a fort, military cantonment, and seventeen villages. Inside the fort on the north side of the town is the Rock, rising abruptly to a height of 273 feet, at the top of which is a small temple. The Nawab's Palace has been restored, and at the foot of the Golden Rock, outside the town, is the Central Jail, one of the largest in India. The most important local industries are gold and silver manufactures, weaving and cigar-making. About two miles north from the Rock is the town of Seringham, with a remarkable Temple to Vishnu, called the Great Temple of Sri Rangam, with well-preserved painted ceilings, and ornaments of diamonds and other precious stones in one of the pavilions. In the court round the central hall is the so-called Hall of One Thousand Pillars, the number of which is now much reduced. At about a mile from this temple is a smaller one, sacred to Shiva, called the Temple of Jambukeshwar. It is built on an artistic plan, and is worth a visit, but has a neglected look.

Tanjore, situated in the garden of Southern India, was the last capital of the Chola dynasty, contains two Forts, much dismantled, enclosing the chief part of the native town. The principal sights are the Great Pagoda in the Little Fort, the Palace of the Rajah in the Great Fort, and Schwartz's Church. The Great Pagoda is considered the most remarkable of all the Temples of Southern India, and, having been preserved with little alteration, is the best specimen of the style of architecture peculiar to India, south of Madras. At the north-west corner of the outer enclosure is the wonderful Shrine of Karttikeya, the son of Shiva, an exquisite piece of decorative building. The Palace of the Rajah is a vast edifice of masonry of no architectural merit, containing statues and pictures, and a library of some 18,000 Sanscrit MSS., of which 8,000 are written on palm leaves. Schwartz's Church contains a very fine group of figures in white marble, by Flaxman, representing the death of the aged missionary, Schwartz. Tanjore is noted for its artistic manufactures, such as jewellery, copper ware, pith models, carpets, silks, etc.

Railway Travelling.—The Indian railway carriages are constructed so as to enable each passenger to recline at full length during night journeys, and are also fitted with lavatories and W.C. Passengers should provide themselves with a pillow and razai (quilt), soap and towel. Rugs and warm clothing should also be taken, as although the days are warm, the nights, during the tourist season—November to February—are usually very cold.

Railway Time.—Madras time, which is 30 minutes in advance of Bombay, and 33 minutes behind Calcutta time, is kept at all stations.

THE CAVES OF ELEPHANTA.

The steam launch leaves the Apollo Bunder, Bombay, on days and hours which can be ascertained at the office, 13, Esplanade Road, Bombay, for the Island of Elephanta. Tickets, 5 Rupees each. The Cave Temples are three in all: the largest, which is in the centre, is 133 feet by 130½ feet by 20 feet high, supported by huge pillars with ornamental capitals. A gigantic three headed bust, supposed to represent the Hindu Trinity, faces the main entrance. Here once stood a stone elephant 13 feet long, from which the island derived its name. A flight of stone steps and a pathway, a quarter of a mile from the landing-stage, lead to these curious idolatrous structures of bygone generations.

and there is no need to trouble the Resident with references on the subject, or to apply to him for passes until arrival at Jeypore.

THE BRAHMAPUTRA, THE RHINE OF INDIA.

A most interesting excursion, and one which no traveller to India should omit, is a visit to the important tea-bearing

districts of the country, situated in the valley of Assam, intersected by the world-famed Brahmaputra. But a few years ago this trip was impossible to ordinary travellers, the journey up and down occupying considerably over a month; but now a rapid daily mail service has been established, which brings the return journey to Gáwhatti within five days from Calcutta.

Leaving Calcutta by the Darjeeling Mail in the afternoon, the interesting little station of Dhubri is reached on the following afternoon, through some of the richest seed-bearing districts of Bengal.

At Dhubri the traveller proceeds on one of the well-appointed mail boats of the River Steam Navigation Company. The scenery here is very fine, the gently sloping Garo hills being seen on the south bank, and beyond on the right bank are the thickly-wooded Bhutan Hills, behind which rise the snow clad Himalayas.

The snowy range runs fairly parallel with the Brahmaputra, and the early riser will admit that no scenery can be compared to the rising beams of the sun striking on the snow-clad mountains. Before noon on the first day Goalpara is reached, picturesquely situated at the foot of a conical hill.

Numerous muggers or man-eating alligators will be seen basking their ugly carcasses on the many sand-banks, and the sportsman will doubtless amuse himself by shooting some of these dangerous reptiles, which simply swarm in the river the whole way up.

Late on the same night, or early next day, Gáwhatti is reached, the prettiest station in Assam. There are many most interesting places to visit in the neighbourhood of Gáwhatti, among others an old Hindoo temple, situated on a hill a short distance from the town, rising to a height of over 700 feet from the base. The temple is approached by high granite steps encircling the hill, at the top of which 100 virgins are said to reside. The beautiful scenery and the curious temples which can be visited, where oxen and sheep are daily sacrificed to the presiding deity well repay a visit. There is another temple on Peacock Island, in the centre of the river close to

the station, and although the place does not swarm with these holy birds as formerly, yet the temple is curious.

The most important industry carried on by Europeans in Assam is tea culture, and although finer bushes can be seen further up the valley than at Gáwhatti, still it is here that real tea gardens are first met with. These are mostly situated on the hill sides, and the little bushes are visible from the river bank dotting the slopes, and the grass-thatched bungalow in which the manager lives. A call at any of the gardens will well repay the trouble of getting there, when the whole process, from the plucking of the leaf to the withering, rolling, fining, and packing of the tea, may be inspected.

The Excursion may be extended by proceeding next day as far as Tezapore, and from thence a two days' further run to Debrughur. The scenery is fine the whole way, and the further up the wilder it gets, and nowhere is the snowy range lost to view. From Debrughur can be seen tea stretching, in many cases, for over 2,000 acres in one block; and, if desirable, the Assam coal-fields and petroleum springs can be visited.

The journey downward only occupies three days.

PART IV.

INFORMATION FOR TRAVELLERS FROM INDIA.

THE following information will be found useful for passengers, either tourists or residents, leaving India either for Europe, Australasia, China, Japan, United States, or Canada.

BANKING DEPARTMENT.

In our Banking Department we issue Circular Notes and Letters of Credit payable at any of our own offices, and by our correspondents throughout the world. We also supply English money at favourable rates, issue Drafts on our various offices, and make Telegraphic remittances between our principal offices.

PASSAGE DEPARTMENT.

Passages secured and berths selected to any part of the world, by mail and other lines of steamers. For this we make no charge, and passengers travelling under our arrangements have facilities for breaking the journey at different places of interest *en route*, and receive the assistance of our Agents and Interpreters in the principal cities or ports visited.

A deposit of *half* the passage money should be sent by first post after decision, as no berths are actually considered as secured until receipt of deposit money. Berths provisionally reserved, subject to reply by telegram.

Berths are allotted in the different steamers in the order of application, intending passengers are therefore recommended to telegraph us their instructions at the earliest possible moment,

so that we may secure the best available accommodation and register names for places in the sleeping car between Brindisi and Calais if required.

Forward Bookings and Grouping of Passengers in the Second Saloon Cabins of the P. & O. Company.—Since the great improvements in the second saloons of the P. & O. Co.'s steamers, we keep a register of forward bookings, and berth together officers and gentlemen of the different services in specially selected cabins.

Cheap Passages.—In addition to booking for the P. & O., Messageries Maritimes, British India, Rubattino, Austrian Lloyds, and the steamers of the regular liners, we also arrange for passages by the better class of "outside steamers" to the principal continental and home ports, at rates varying from Rs. 250 to Rs. 450.

Special Notice to Passengers from Madras, Bangalore City, Karachi, Sind, the Punjab, etc.—The P. & O. Company's Calcutta steamers do not always call at Madras, but passengers and their native servants resident in the Madras Presidency, booking by the Company's steamers from Bombay to European ports, will be supplied with a free railway ticket to Bombay, allowing 3 cwt. first class, and $1\frac{1}{2}$ cwt. second class, luggage free, to or from any station on the direct main line of the Madras railway between Madras and Raichore. This does not apply to passengers from Hyderabad or the Godavery districts travelling over the Nizam's Railway via Wadi.

Arrangements have also been made by which first and second saloon passengers booking from Bombay to European ports by P. & O. steamers are granted free railway passes between Bangalore City and Bombay (via Harihar, Hubli, and Poona). These tickets include free baggage to the extent of 3 cwt. first class and $1\frac{1}{2}$ cwt. second class on the Southern Mahratta Railway Co.'s lines, and 120 lbs. first class and 60 lbs. second class on the G. I. P. portion of the journey. This concession applies to Bombay and Bangalore City only, and not to intermediate stations.

Passengers from Sind, the Punjab, etc., booking by P. & O.

steamers from Bombay, are also supplied with a free ticket by B. I. Co.'s steamer between Karachi and Bombay.

Passengers by the Messageries Maritimes S. S. Co. from Bombay are also supplied with free tickets from Madras and Bangalore.

Early application should be made for these tickets, which will be sent on receipt of deposit of half passage money, as under no circumstances can any refund be made to passengers who have paid their own Railway or Steamer fare to Bombay.

Passengers taking return tickets and who are entitled to free passes to either of the above places, are particularly requested to see that they are furnished with the tickets *before leaving London*, as they are obtainable there only and cannot be had in Bombay.

BAGGAGE DEPARTMENT.

We arrange for the collection and shipment of baggage, and will forward upon application every information on this subject, for the guidance of intending passengers by any line of steamers.

All packages should have the passenger's name and port of destination plainly marked *in paint*.

Packages containing ammunition, liquors, or goods of a dangerous or damaging nature, must not be shipped as personal baggage; and gun cases must be accompanied by a declaration that they contain no explosives.

Passengers by P. & O. steamers are allowed the following quantities of baggage free of charge:—

1st class, 3 cwt. 2nd class, 1½ cwt. Children, half quantity.

Excess is charged at the rate of 10s. per cwt., which is collected by the purser during the voyage.

Heavy goods, and packages not suitable for conveyance as baggage, should be sent to us for shipment as cargo; the cost of which is £2 per ton of 40 cubic feet.

Passengers forwarding baggage to us to be shipped either as "unaccompanied baggage" or as cargo, should send us, with the railway receipt, a description of contents and value.

Passengers proceeding by the Overland Route can obtain from the Purser of the vessel, before arriving at Brindisi, baggage declaration forms to be filled up with instructions as to the delivery of their heavy baggage in England. These forms, together with the keys, should be given to the Purser, who will hand them on arrival at Gravesend to our representative, who will clear the baggage through the Customs, and deliver or forward it according to the passengers' instructions.

Unless insured, all baggage is at passenger's sole risk.

INSURANCE OF PASSENGERS' BAGGAGE.

All baggage carried by sea is at the passengers' risk, but we are in a position to offer exceptional advantages to travellers using our tickets for insurance of their baggage against loss.

The Insurance not only covers the baggage whilst being conveyed by sea, but also covers it whilst travelling on land, staying in hotels, etc., in accordance with the conditions printed on p. 119.

Jewellery and other valuables must be specially declared, and are only insured against loss or damage arising from the stranding, sinking, or burning of the ship.

The Insurance is effected for a given time, as shown below, and holds good during any journey, covering the baggage whilst on the railway, in hotels, and, in fact, in any place in which it may be during the journey. Partial loss of baggage is covered by the Insurance.

CONDITIONS OF INSURANCE ON PACKAGES FROM INDIA.

The Insurance covers the packages by sea and land, and in all places and situations during the journey; against loss or damage, from whatever cause, whilst on shipboard; and on land against loss (unless directly attributable to negligence of owner), including theft and pilfering; but the Insurers are not liable for depreciation of, or damage to, any package or its contents unless caused by fire after leaving shipboard, nor for any loss in respect of the confiscation by Custom House Officials or other Officials or Authorities, nor for any Cash, Bank Notes, Bonds or Negotiable Instruments, Title Deeds or Securities of any kind, nor for sticks or umbrellas, nor for loose articles that did not form part of the contents of the packages enumerated. Jewellery, valuables, pictures, glassware, and other fragile articles, must be specially declared and valued, and are only insured against loss or damage arising from the stranding, sinking, or burning of the vessel. Claims for damage must be accompanied by a certificate from the Master of the vessel, or a Surveyor at the port of discharge. Notice of any claim must, when practicable, be given forthwith to the nearest agent of Messrs. Thos. Cook and Son, and no claim will be payable to the Insurers until after 60 days from the receipt of such notice by Messrs. Thos. Cook and Son in London. In the event of detention consequent upon accident to or delay of the vessel on the voyage, the Insurance will hold good until arrival of the baggage at its original destination by such vessel or other conveyance in connection therewith.

AGENCY DEPARTMENT.

Members of the Indian Services proceeding to Europe are invited to apply to us for any information or assistance they may need; also for documents necessary for drawing pay, reporting arrival, etc. Forms for reporting arrival can be obtained from our offices at Port Said, Brindisi, Marseilles, Naples, Malta, Southampton, and London.

Information for Travellers

Forms for clearing baggage, on arrival in England, will be furnished in Bombay, Calcutta, Rangoon, or Port Said.

Telegrams and letters addressed to the care of our Agent at Port Said will be delivered to passengers on board.

Passports obtained and *vised*, without personal application, for intending travellers on the Continent.

Particulars of steamship accommodation required for Europe, China, Australia, etc., only need be sent by wire, and information as to kind of tickets may follow by post.

Deposit of half-passage money must be made by first post, as no berths are considered actually secured until deposit has been received. Particular attention is requested to this arrangement, as berths cannot be retained after a sufficient time has elapsed to enable the remittance to reach us.

We make no charge whatever for securing berths in steamers, sleeping cars, etc.

THROUGH TICKETS TO LONDON via BRINDISI.

The tickets, which include the various railway and steamer fares between Brindisi and London via Modane and Paris, and *vice versa*, will be found noted at page 129, and rates will be furnished on application.

The railway coupons require stamping at the Brindisi railway station before starting. Second class tickets are not available by the P. & O. Express, which has no carriages of that class attached.

The tickets are available for one month, including the day of issue, from date of departure from Brindisi, and allow passengers to break the journey at any six stations on the Italian Railway, and at any station between Modane and Paris, also at Calais or Boulogne, and Dover or Folkestone.

Passengers holding return tickets should forward the same to our Office, Ludgate Circus, London, as soon as possible after arrival in England, stating at the same time by what mail they desire to leave on the return journey. Their passages will then be booked, if there is room, and tickets for the outward journey will be issued. The attention of passengers, who wish to ensure

travelling by any particular mail, is specially called to this arrangement.

THROUGH TICKETS TO LONDON via BRINDISI, TARANTO, NAPLES, ROME, AND GENOA.

We issue steamer and railway tickets from Bombay to London via Brindisi, Taranto, Naples, Rome, and Genoa, so as to afford passengers wishing to visit these places an opportunity of doing so.

The special advantage of this new route is that next to the mail service it is the quickest service to England.

There is a daily train from Brindisi at 9.45 a.m. by this route, arriving at Naples 8.30 p.m.

TO LONDON via BRINDISI, NAPLES, ROME, &c., RETURNING BY THE MAIL ROUTE.

The attention of those wishing to vary the route home, travelling from Brindisi via Foggia, Naples, Rome, Florence, and Bologna, and returning by the mail route or *vice versa*, is called to the special tickets issued by us, the fares for which, available for three or six months, will be quoted on application. Holders of these tickets also have the option of travelling between Bologna and Turin via Milan, instead of by the direct route, without extra cost. Travellers are recommended to provide themselves at Brindisi with a luncheon basket (which can be obtained at the Grand Hotel de l'Orient), as there is no convenient stopping place between Brindisi and Naples for obtaining refreshments.

MESSAGERIES MARITIMES S.S. COMPANY.

The above Company, which has for some years past been running a monthly service of steamers via Karachi, has now instituted a service direct from Bombay to Marseilles.

The new line is to be maintained by some of the largest and finest steamers of the Company's fleet. Fares (which include wine) will be found on page 115.

THROUGH TICKETS TO LONDON via MARSEILLES.

Passengers are booked to Marseilles, and to London via Marseilles, at through fares from Calcutta by P. & O. Steamer direct. After calling at Marseilles, the steamers continue their voyage to London, calling at Plymouth, and passengers landing at Marseilles are at liberty to send any portion of their baggage on to London in the steamer free of charge. Passengers are also booked from Bombay by special steamers, leaving direct for Marseilles at intervals during the passenger season. For single and return fares, see page 116.

There is a daily fast train from Marseilles to London, leaving at 7.55 p.m., and arriving at Victoria at 7.30 p.m., occupying only 23½ hours on the journey. This is the only through train.

The other trains are :—

Leave Marseilles	9.5 a.m.	...	11.20 p.m.
Arrive Paris	10.5 a.m.	...	5.14 p.m.
„ London	7.30 p.m.	...	5.40 a.m.

The ordinary fares are, First Class, £6 14s. 8d. ; Second Class, £4 12s. 1d. ; but special reduced rates are charged in connection with through tickets from India. Children over three and under seven years, half fare ; Infants free ; 60 lbs. of luggage are allowed free to each passenger on the French Railways.

Passengers taking through tickets to London via Marseilles, must obtain coupons for the railway journey across France before leaving India. The P. & O. steamers call at Marseilles outwards during October and November, and at occasional intervals.

There is a sleeping car to Paris attached to the fast train, and the charge per berth is about £2. There is no second class on the fast train leaving at 9.5 a.m.

Passengers wishing to travel from Marseilles to Paris in the sleeping car should give intimation to the Purser before arrival at Port Said, whence a telegram will be sent by the P. and O. Company's Agent to Marseilles. The cost of the berths should be paid to the Purser at the same time, but the Company's Agent at Marseilles cannot guarantee to obtain the full number asked for, as the number of berths in the car is limited.

The railway tickets allow the passengers to break the journey at intermediate stations between Marseilles and Paris, and at Amiens only between Paris and Calais.

Before proceeding to Paris passengers can visit the Riviera, taking care to have their tickets stamped at the Marseilles railway station when they commence their journey to London.

The P. & O. services from India to London via Marseilles will be greatly changed and accelerated in 1898.

The P. & O. Express trains have no second class carriages. Passengers of this class proceed by the ordinary daily train from Brindisi.

All baggage is taken direct from the steamer to P. & O. examination room for registration. That belonging to through passengers by the mail route to London is not examined. All other baggage is examined before registration.

In order to prevent detention of their luggage, passengers must be present and ready to open their packages (whether registered or not) for Custom House examination at the places where it occurs.

Passengers can break the journey by the ordinary trains at the principal stations *en route*.

Our Agent at Brindisi will store, at a small charge, deck chairs or any baggage which passengers may not wish to take across the Continent. He will also assist passengers in making arrangements for having linen washed and kept until passengers return to Brindisi.

The Customs authorities will not allow deck chairs to be landed from the Steamer unless in charge of the owner, and passengers should see for themselves that chairs intended to be left at our Office are handed over to our Agent.

Passengers are allowed free of duty 25 grammes (one ounce) of tobacco, or eight cigars. The duty on tobacco is 55 centimes per ounce, and on cigars and cigarettes one franc per ounce. Any tobacco found in the baggage after the declaration has been made will subject the owner to a fine of 71 francs, and the baggage will be detained until the amount is paid.

Registration of Passengers' Luggage from Brindisi.

Baggage can be registered through, without examination, to the principal towns in France, Germany, Austria, and to London, but to no other town in England. Written instructions should be given to our Agent.

On the Italian railways there is no free allowance of baggage, and the charge from Brindisi to Modane is fcs. 5-40 (4s. 4d.) per 20 lbs.

Between Modane (the junction between the French and Italian railways, and where baggage is examined) and London, the free allowance is 56 lbs. Excess baggage is charged for at the rate of 5s. 3d. for every 20 lbs. or fractional part thereof.

For example, the charges from Brindisi to London for baggage weighing—

30 kilos. or	66 lbs.	would be fcs.	23-80
40	88	"	36-60
50	110	"	41-95
60	132		62-35
70	144		75-20
80	166		88-10

Labels for registration can be obtained on board the P. & O. steamers between Port Said or Alexandria and Brindisi, and passengers are requested to see their packages duly labelled and

stacked near the gangway, as on arrival at Brindisi, P & O baggage will immediately be landed by the railway porters and conveyed to the Sala Visite in the P. & O office, Palazzo Montenegro, where it is examined by the Customs and booked by the Railway Administration

Passengers would save themselves considerable trouble with the Customs by having all tobacco, cigars, fire-arms, weapons (of any description), curios, etc, packed in their registered packages. These always go forward with the mails, and are not opened until arrival at Dover

All hand packages, also all the baggage of passengers who intend remaining for a time in Italy, must be landed and placed in the Sala Visite, the Custom House officers will point out what packages they wish opened. These will be placed after examination in the Railway Company's Omnibus, or anywhere else the passengers may direct

Passengers, after declaring what tobacco they may be possessed of, in their unregistered baggage, have no right to throw any of it away, or destroy cigars or cigarettes, if they do not wish to pay duty on it, it will be retained by the Customs' authorities on account of the Government

The duty on tobacco is 55 centimes, and on cigars or cigarettes 1 franc per ounce

Cases nailed or screwed down can only be sent as merchandise through a licensed shipping agent

No fees are due to the porters for registered baggage. The railway company charge 4d a package for carriage of same from the ship to the station, which amount is collected at the time of registration, and a Customs fee of 5d. a package is also charged

"P & O Express" from Brindisi

The "P & O Express" will leave from the Town terminus about an hour after the arrival of the steamer. It includes Sleeping Cars with 60 seats, which run through to Calais, and a Restaurant Car fitted with all necessary appliances for cooking, meals being served in the Dining Saloon, the whole being of the most modern and perfect description

No travellers, excepting P. & O. passengers holding through first class rail tickets from Brindisi to London, and Sleeping Car tickets from Brindisi to Calais, are, under any circumstances, allowed to proceed to London in the Sleeping Car accompanying the Homeward Indian mail. The cost of the Sleeping Car ticket (which should be procured before leaving Bombay) is £4 6s. 10d.

No charge is made for infants under 3 years of age with the parent; children occupying a berth pay the full rate, but for two children, provided they are under 7 years of age, occupying the same berth, only one fare is charged. There are no second class carriages or fares by this train. Servants, European or Native, pay the same as other passengers.

No luggage will be admitted into the Sleeping Car itself, excepting a hand-bag (which should not exceed 20 inches long by 12 inches wide and 10 inches high) and a bundle of rugs, this regulation being in the interests of travellers, so that these may go in the space provided under the sleeping berth. *The bag, etc., taken into the car is usually subject to examination at Modane by the Custom authorities,* and in order to prevent detention, passengers must be present and ready to open their hand-bags.

There will be a luggage van attached to the train to admit of the conveyance of an ordinary amount of baggage for each passenger, which is charged for by the company, and all such baggage by this service must be registered in Brindisi through to London.

There are separate lavatories in the cars for ladies and gentlemen, and separate compartments can be reserved for ladies, if required.

The Sleeping Car is heated, and well provided with bedding.

Breakfasts, luncheons, dinners, etc., are served in the Dining Car at the following prices:—

Breakfast, 1s. 6d.	Luncheon, 4s.	Dinner, 5s. 6d.
--------------------	---------------	-----------------

Other refreshments at reasonable prices.

When it is certain that the Sleeping Car berths are not all taken by through passengers to Calais, at the time for start-

ing the train, passengers for portions of the journey, either to Bologna or Turin, can travel in the Sleeping Car, but this privilege cannot, in any case, be secured beforehand. Travellers wishing to avail themselves of these berths when there is room should apply to our Agent, in writing, on the arrival of the steamer.

The P. & O. Express stops at the following stations :—Bari, Foggia, Ancona, Bologna, Piacenza, Turin, Modane, Aix-les-Bains, Chambéry, Culoz, Maçon, Pierfite (for Paris), Amiens, and Calais.

Passengers holding through tickets to London and Sleeping Car tickets can break journey at Paris, but by doing so they sacrifice the Paris-Calais portion of Sleeping Car ticket.

Ordinary 1st Class Carriages are attached to this train as far as Turin, but passengers travelling in them are not allowed to take their meals in the Restaurant; they should provide themselves with lunch baskets. Telegrams to England cost 26 centimes (about 2½d.) per word, plus one franc for ground tax. Passengers having these written out can leave them with our Agent, who will send them off immediately after the departure of the Express train.

EGYPT, PALESTINE, etc.

Passengers desirous of breaking their journey in Egypt on the homeward voyage can, under ordinary circumstances, disembark at Ismailia in our steam launch, see p. 39. The season in Cairo and on the Nile commences in November and ends in March.

Spring is the best time for a tour through Palestine, and travellers who intend to visit Palestine as well as Egypt, should select January or February for their Nile journey, and March, April, or May, for Palestine.

Intending passengers for the Nile Steamers of Thos. Cook and Son (Egypt), Ltd., are requested to communicate with our Agents at Bombay, Calcutta, Rangoon, or Colombo, who will reserve berths and make all necessary arrangements for the trip.

Tours by the Company's steamers from Cairo to Luxor and the First Cataract and back may be accomplished as follows :—

- (1) **First Class Tourist Steamers** (at fixed dates) from **Cairo to Assouan and back**, time occupied, twenty days, including three or four days at Luxor **First Class Fare, £50.**
- (2) **special Steamer** (at fixed dates) from **Cairo to Assouan and back**, time occupied, four weeks **First Class Fare, £65**
From Philæ (First Cataract) to the Second Cataract and back, in connection with the above Tours, **£23**
- (3) In addition to the above services the Nile journey may be made on the comfortable and well appointed steamers at present attached to the Mail service, which offer facilities for visiting the principal points of interest on the river. The fares by these steamers, which are considerably less than by the first class tourist steamers, and the days of departure, which are twice weekly, may be ascertained by reference to the Company's Nile Programme, to be obtained at all Thos Cook & Son's Offices

Travellers wishing to go up the Nile by ordinary or by steam Dahabeahs will find a choice of comfortable, roomy, superior boats at the Company's Boulac Arsenal, Cairo. Berths in steamers may be secured, and plans of Dahabeahs obtained at our offices in India, or at the Company's Offices in Cairo, near Shepheard's Hotel.

Homeward-bound P & O. passengers landing at Ismailia to visit Cairo and the Nile must return to Ismailia or Port Said if they wish to continue their voyage by the through steamers to Brindisi or Marseilles and long sea route to England. Those wishing to proceed by the P & O local steamers to Brindisi and Venice, or to Marseilles, can embark at Alexandria as per the Company's time table

In Egypt, tours to Palestine can be conveniently arranged. These may be of long or short duration, and adapted for one or more passengers by any route.

Want of space prevents our giving a list of Specimen Tours,

a large number of which may be found in our pamphlet devoted to Spring Palestine Tours, which can be obtained at our Indian Offices, also at the Offices of Thos Cook and Son (Egypt), Ltd., Cairo, Port Said, Ismailia, Alexandria, and at our Offices in Jaffa, Jerusalem, etc.

First Class ..	•	32s 6d
Second Class	•	22s. 3d

In addition to a great saving of expense, these Coupons ensure special advantages to passengers landing from the steamers at Plymouth

These Coupons must be stamped at the booking office at the Docks.

In the event of a passenger having omitted to provide himself with a Coupon abroad, he can obtain an order from the Company's Agent, who boards the steamer at Plymouth, for presentation at the Great Western Railway booking office on shore, which will be exchanged for a railway ticket, ensuring similar privileges and advantages.

The Great Western Company now allow the friends of Ocean Passengers landing or embarking at Plymouth, to travel from any station on the main line between London and Exeter inclusive, and Penzance and Truro inclusive, to Plymouth at a single fare for the double journey, according to class, upon production of a voucher (which can be obtained at our Offices), to be issued by the P. & O. Co., certifying that the persons in whose favour they are given, will be travelling for the sole purpose either of accompanying Ocean Passengers joining steamers at Plymouth, or of meeting Ocean Passengers landing at that port.

Orders obtainable from the Company's Agent boarding the steamer will also enable passengers proceeding by the Great Western Railway to stations other than London, to obtain tickets covering all Dock and portorage dues.

Our representative will afford information to passengers, despatch telegrams or letters, and cash Circular Notes, Letters of Credit, Drafts, etc.

Baggage.—London passengers disembarking at Plymouth can send on their heavy baggage in the ship, and in that case should give our representative full instructions as to clearing and forwarding the same from the Docks in London.

The baggage of passengers landed at Plymouth is landed from the steam tenders by the Great Western Company's servants, who convey it to the baggage warehouse, perform the unpacking and re-packing required for the Customs' examination, and convey the baggage from the Custom House to the Great Western Railway Station.

Private Omnibuses at Paddington.—The Great Western Company provide one-horse omnibuses, capable of conveying six persons inside and two outside, with the usual quantity of luggage, from and to Paddington station, at a charge of 1s. per mile within a radius of four miles from Charing Cross, or 1s. 6d. per mile without the radius, with a minimum charge in any case of 3s. For more than eight persons, or when the

luggage is exceptionally heavy, two-horse omnibuses are supplied at double the above rates of charge

Passengers wishing for an omnibus should inform our Agent, or the station masters at Plymouth or Swindon, who will arrange, *free of charge*, for one to be in readiness on their arrival at Paddington.

LONDON.

To those passengers who do not land at Plymouth, but who prefer continuing in the steamer to London, every assistance will be afforded at the **Royal Albert Docks**. A frequent train service is kept up between the Docks and the Termini at Fenchurch Street and Liverpool Street.

When on account of the tide the steamers anchor off Tilbury (Gravesend), occasional opportunities are afforded to passengers to land and proceed to London. The steamboats of the London, Tilbury, and Southend Railway Company convey passengers to their station at Tilbury, or to the pier at Gravesend.

Steamers, on arrival in the Docks, are met by our Representative, in uniform, to whom those passengers who have not already done so at Plymouth, or earlier, should hand keys and a list of packages, with written instructions as to forwarding, etc.

Letters and Telegrams for homeward bound passengers can be sent to our care for delivery on board.

Members of the Indian Services are invited to apply to us for information respecting pay, pension, furlough, forms for reporting arrival, etc., which forms can also be obtained of our Agents in India, or at the several ports of call.

Passengers wishing to telegraph their safe arrival in England to friends in India can do so on payment in Bombay of Rs. 6. The rate for every additional word is Rs. 3. Telegraph Tickets can be obtained on application to Thos. Cook & Son at Bombay. Passengers applying by letter are requested to state both their own address in England and that of their friends in India.

**INDIA TO ENGLAND,
VIA AUSTRALIA, CHINA, JAPAN, UNITED STATES,
AND CANADA.**

The route homeward via Australia, China, Japan, United States, or Canada, is becoming very popular with Anglo-Indians, and, considering the cheapness of the trip and the different countries teeming with interest which are passed through, we anticipate a large and steady increase of traffic by these routes.

The P. and O. Company have entered into an arrangement with the Canadian Pacific Railway Company and various Atlantic Steamship Lines for through Round the World traffic, connecting with the steamers for or from Vancouver. First Class Fare, via China and Japan, £120.

The Pacific Mail and Occidental and Oriental Companies have frequent sailings between China, Japan, and San Francisco.

The Canadian Pacific Railway Company (Mail service between Vancouver and Hong Kong) own three new steamers, which proceed via Shanghai and then Yokohama, usually through the Inland Sea of Japan. Sailings every three or four weeks.

The Northern Pacific Steamship Company have a sailing about every three weeks from Hong Kong for Tacoma, U.S.A., via Shanghai, Yokohama, &c.

The Oceanic Steamship Co., and Union Steamship Co. of New Zealand, Ltd., have, jointly, sailings every 28 days between Sydney and San Francisco, calling at Auckland, Apia, and Honolulu.

The Steamers of the Canadian-Australian Line sail at monthly intervals between Sydney and Vancouver, calling at Wellington, Suva, and Honolulu.

Through tickets, giving a large choice of routes in America or Canada, and affording opportunities for breaking the journey at all places of interest, are issued by us at greatly reduced rates. Special reductions made to missionaries, and to officers of the civil, naval, and military services booking through to Liverpool or London.

TRANS-PACIFIC ORDERS.

Passengers holding Trans-Pacific Orders from China or Japan via San Francisco must have them exchanged at Hong Kong for tickets, according to current arrangements, which will be available to travel from San Francisco to New York by one of the undermentioned routes, as follows : -

No. 1.—San Francisco, Ogden, Cheyenne, Omaha, Chicago, Niagara, New York (Mail route).

No. 2.—San Francisco, Ogden, Salt Lake City, Denver, Omaha (or Kansas City), Chicago, Niagara, New York.

*No. 3.—San Francisco, Vancouver, Canadian Pacific route to Winnipeg, Port Arthur, Montreal, Albany, New York, or from Port Arthur via Toronto, Niagara and Albany to New York.

No. 4.—San Francisco, Berenda (for Yosemite Valley), Los Angeles, El Paso, New Orleans, Cincinnati, Washington, Baltimore, Philadelphia, New York.

No. 5.—San Francisco, Berenda, Los Angeles, Albuquerque, Kansas City, Chicago, Niagara, New York.

NOTE.—We would particularly call the attention of Trans-Pacific passengers to the fact that facilities as to routes across America, by which travellers from Trans-Pacific points can obtain forwarding, are constantly changing, and frequently it is not possible to obtain definite information on this point until the port of debarkation in the United States is reached, therefore we can accept no responsibility in regard to the overland routes named herein. Latest obtainable information and facilities will always be cheerfully furnished by the representatives of Thos. Cook & Son, with whom our clients are recommended to place themselves in communication as occasion may necessitate.

VIA AUSTRALIA AND AMERICA TO EUROPE.

Passengers reaching San Francisco from Australia have the option of various routes across America, but as the precise details are subject to frequent fluctuation they are recommended to consult Thos. Cook and Son's Melbourne or Sydney Managers in reference to this, when making arrangements for the reservation of berths for passage beyond Australia.

Our representative at San Francisco, 621, Market Street (under Palace Hotel), is always prepared to give information and to assist passengers travelling with our tickets. He will, if required, secure Pullman accommodation by any route selected, it being of course understood that the cost thereof is not included in the through overland fare. Side trips can be arranged for visiting the Yosemite Valley, Calaveras Big Trees, Alaska, Yellowstone Park, Grand Cañon of the Colorado, &c., &c.

Travellers for Europe passing through the United States will do well to reduce the baggage they will require during the journey to a reasonable limit, and will save themselves a great

* At an additional charge of £4.

deal of trouble and unnecessary expense by checking, under the baggage check system, any large pieces, such as trunks, Saratogas, etc., through from San Francisco to New York, there to await their departure for Europe.* Our Agent in San Francisco will explain the system for the checking of baggage, and point out the various available routes through the States, with their respective scenic and other advantages; a call at our San Francisco Office is recommended.

Passengers' letters and cablegrams, if addressed to the care of our San Francisco or other American offices, will be kept until called for, or dealt with as the passenger may instruct.

Sleeping and Drawing-room Cars are attached to all through trains, and an extra charge over the railway fare is made for their use. The accommodation is limited, and travellers on arrival in San Francisco should give immediate attention to the reservation of their berths for the date on which they wish to leave the city. The charges for sleeping berths vary according to the journey being performed; berths can sometimes be obtained as low as 8s. (2 dols.) per night, but usually rates are charged according to the journey performed and to combine use of the Pullman car during the day.

It should be noted that there are some trains on the American Railroads composed exclusively of Pullman or Wagner (*i.e.*, Drawing Room, Dining, and Sleeping) Cars, and, before being valid for travel by such trains, ordinary tickets must be supplemented by the necessary extra payment for travelling thereon.

American Money, Drafts, etc.

Our Offices in India issue Letters of Credit, Circular Notes, and Drafts payable in America. Our San Francisco Agent, at 621, Market Street, will always exchange any money, cash letters of credit and circular notes, at the current rates of exchange.

* The duty on curios and bric-a-brac is very heavy in San Francisco; consequently, to avoid such expense, through travellers to Europe are advised to ship home direct any articles they may buy on their travels through India, China, and Japan, etc., and not carry their purchases with them through America.

INDIAN ARTS & CURIOS.

S. J. TELLERY & Co.,

**The Largest Wholesale and Retail Dealers in
India.**

Messrs S J TELLERY & Co, in inviting attention to their collections of Indian Art Wares and Curios, beg to remark that their **PRICES** often appear higher than those of petty dealers, hawkers, etc., this, however, is not really so, for an inspection of our Stock, and comparison with goods sold by Bazaar dealers, will satisfy any intelligent buyer that, quality for quality, our prices are lower than those of any other Firm or dealer in similar goods. Our wares are **FROM ALL PARTS OF INDIA**, and are selected goods, purchased from the best makers, at the actual places of manufacture. We often find it necessary to return more than half a consignment owing to the quality being below the standard we have set up for all goods we sell, hence it will be seen that while the Bazaar dealer buys whatever he can get—the cheaper being always the better for him—our Stock is by this process of selection always the best procurable at the town or village where the articles are made.

PRICES are fixed and marked in plain figures on all articles, which saves bargaining

TWO MINUTES FROM APOLLO BUNDER.

Western Hotel,
FORT, BOMBAY.
FACING THE SEA.

Opinion of the Press of 1896.

THE GREAT WESTERN HOTEL.—Some time back attention was called in our columns to the very poor accommodation provided by the Hotels of India, and a general feeling was expressed that this was one of the reasons that tourists and others did not visit the East in the numbers that could be wished by those who were desirous of seeing India attract the wealthy tourists of the West. Realising that great efforts made to secure the approbation and the increased comfort of travellers would be appreciated, the proprietors of the Great Western Hotel of Bombay have sunk a large capital in improvements by fitting up all bathrooms with marble wash-stands and tiled floors, and, what is more important than these luxurious fittings, the latest sanitary improvements. The marble entresol and staircase have been much admired, while the spacious dining-room, with its tiled flooring, new upholstery, incandescent light, renders this apartment one of the finest in the East. Bedroom accommodation, it is claimed by the proprietors, is of the best, the ridge ventilation rendering the rooms cool and pleasant even in the hottest weather. This enterprising foresight and investment of capital has filled the hotel all this season, proving that the public thoroughly appreciate generous treatment and attention to primal needs.—*Times of India*, 22nd February, 1896.
