Enter the table at the side with the Greenwich time, and at the top with the difference of the quantities for the given day and that succeeding it in the Column headed "Difference for 1 hour." If the "difference for hour" be increasing subtract the correction, if decreasing add it.

Example.

Required the Sun's declination at Colombo May 5th 1842, at sunset.

	H. M.	
Longitude Colombo .....	5 20	
Time of Sunset .....	6 8	
Greenwich time .....	11 28=11.467	H.
Sun's declination noon at Greenwich .....		10° 12' 55".7
Difference for 1 hour, May 5, 42''55 multiplied by 11.467. †		8 8.03
..... May 6, 41.38		
The difference of the above—68	Table .....	2.04
		16 21 5.77

Here entering the table at the side with 11 28, and at the top with 0''68 we take out the correction, thus:

H. M.	
11 28 and 0''6.....	correction 1''80
11 28 and 0.08.....	.239

Entire correction required ..... 2.039

This is to be added, because the hourly differences are decreasing.

In precisely the same manner the correction for Right Ascension or Equation of time may be found, the amount however never exceeds 0.10 and is therefore usually neglected.

The latitude is the mean from 348 altitudes, taken at Mr. Templeton's house, and reduced to the Flag Staff. The longitude is derived from that of Madras, and other well fixed positions on the Coast, from Run's of the *Melville, Curassao, Benares, and Stoga/Tiger*. A comparison of very exact observations made during the year 1840 has required the longitude formerly given to be increased 6".

A comparison of Observations observed at Madras, the Cape, Greenwich, Cambridge, and Edinburgh, afford the following results for the Longitude of Madras —

	<i>H. M. S.</i>
Madras and the Cape	5 20 56.6
Greenwich	51.9
Cambridge	53.9
Edinburgh	58.0

The Longitude 5 20 55.1 or in space 80 13 47 has been adopted for Madras and an equivalent alteration been made in all the Longitudes given in the Calendar of former years, to agree with it.

The Officers of Her Majesty's Navy and the Masters of Merchant Vessels are earnestly requested to forward, under cover to the Colonial Secretary, any information they may collect, which can tend to increase the accuracy, or extend the limits of the preceding Table.

The letters for the first, second, and third years after every bissextile, are the single letters placed under the double letters, in the same column with the bissextile they immediately follow. For example, as the Dominical Letters for 1600 were A B, so the Dominical Letter for 1601 was G, for 1602 F, and for 1603 E. So for 1796 the Dominical will be C B; consequently, 1797, 1798, and 1799 will have A, G, and F; and the letter for 1800, (which is to be accounted a common year,) will be E; therefore 1801, 1802, and 1803, must have the subsequent letters D, C, and B; and then 1804, being bissextile will come under the letter A G: and from thence every fourth year will be leap-year.

Under the word years, find the year; above which is the Romanical letter for that year; then against the months find the same letter, over which are placed the days of the month, for every Sunday in the month. In leap year, for January and February, use the letter above the blank space before the year; for all the rest of the months, use the letter for the year.

To find out when it is Leap Year, divide the year by 4; if there is no remainder, it is Leap Year; and if any remainder, it is 1, 2, or 3 years after Leap Year.

## RULES TO BE OBSERVED ON APPLICATION FOR LOANS.

1.—Any person desirous of obtaining a loan from the Colombo Savings' Bank must make an application by letter addressed to "The Chairman of the Superintending Committee" in which he is to state the sum required, the nature of the security he intends to offer,—whether immovable or moveable property, the Title-deeds are to be forwarded at the same time. On superscription to be written "Immediate" when it will forthwith be attended to.

2.—The Chairman of the Committee, on receiving an application for Loan, will forward the same together with the Title-deeds to the Trustees, who if satisfied as to the legality, will cause the property to be appraised, and examine the securities as to their sufficiency.

3.—On the Trustees acquainting the Committee that they are satisfied with the security tendered, the applicant will be entitled to receive as a loan one-half, and in case he gives two or more securities, two-thirds of the sum at which his property may have been appraised.

4.—The applicant must deposit with the Accountant the appraisers' fees on the sum applied for, at the time of making his application; but should a Loan of less amount than that applied for be sanctioned, the surplus fees will be returned.

5.—Where moveable property is offered to be pledged, the applicant will be informed when and where it is to be produced for the purpose of being appraised.

6.—The fixed allowance of the appraisers to be employed one-half per cent, on the amount lent, and where the property to be appraised is situated without the Pettah and Fort of Colombo, then each appraiser is allowed in addition one shilling per mile travelling expenses.

## LOAN OFFICE.

COMMISSIONERS OF THE TREASURY  
REGISTRAR OF THE SUPREME COURT & } Commissioners.  
J. STEUART, Esq. £200.

## RULES

## 1st—Respecting Loans.

Original rules framed in accordance with an order of the Supreme Court, dated 16th July 1834.

1. THE Titles must be produced, where real property is offered as security.

2. The Articles themselves, where gold, silver &c. is offered.

3. The property hypothecated must appear to be equal in value, if real property, to one-third more than the sum required to be borrowed; or, if it consists of gold, silver, &c., one-fourth more. But if the property offered for hypothecation by the borrower, fall short of that amount, the property of another person may be received to make up the deficiency. In such case, the person so contributing must be a party to the bond, which will state the circumstance of the case.

4. Every applicant must, besides the property hypothecated, enter into a bond with two securities for the repayment of the principal sum borrowed, whenever the same shall be demanded, and of the interest as it becomes due.

Order of the Supreme Court dated 21st November 1833.

5. Each of the sureties will be required to give such an account of his property as may satisfy the Board that he is worth the amount of half the sum borrowed, after payment of all his debts; and should the Board deem it necessary, he shall be required to make affidavit to the truth of his statement.

Original rules as above.

6. If the borrower should be unable to procure persons to become securities for him, the Board will, at its discretion, waive this condition, on the borrower pledging property to double the value of the sum required.

If either of the securities should not have property to the value of the sum borrowed, others may be added, not exceeding four in all, to make up the deficiency.

Where the securities intend to rely on landed property in proving themselves worth the sum required, they should bring with them the title by which they hold such landed property, (provided it be not mortgaged,) when they attend for the purpose of justifying.

Original rules as above.

7. A Certificate, a copy of which will be given by the Clerk of the Board, must be obtained from the Collector of the District, (Agent of the Province,) in which the applicant resides, that neither himself nor either of his securities is a Government Renter or Security for a Government Renter.

Order of Court—  
21st November 1833.

In all cases in which the Board may deem it necessary, the oath of the parties (principal or security) will be required, in addition to the Collector's certificate, to the effect that he is not a Government Debtor or Renter, or Security for any such persons.

Original rules as above.

8. The property offered for hypothecation must in all cases be valued at the expense of the applicant by appraisers to be appointed by the Board; and the applicant must, if required, deposit with the Clerk of the Board the percentage, to which the appraisers will be entitled, and which will be settled by the Board.

N. B. The rate allowed in ordinary circumstances is 1 per Cent on the amount of the Loan.

Order of Supreme Court dated 15th December 1830.

Government Regulation No. 9 of 1834.

9. The Interest to be paid on all Loans is 7 per Cent, which is to be paid monthly; in default of which parate execution may be taken out for the recovery of the same.

*2d.—Respecting Dividends of Interest.*

Order of Supreme Court dated 21st November 1833.

1. The Loan Board will have one head of account with each Court; such account shall include all the sums in deposit from that Court, whether the same be Suiors' monies, Estate monies, or otherwise; but the Loan Office will only take account of the aggregate sum.

2. The accounts of the Office will be made up, and the interest divided quarterly, commencing from 1st January 1834.

3. Every pound sterling of principal, which has been for one complete quarter available for the purpose of making Loans, shall be entitled to a dividend of the Interest; such quarter is to be calculated from one dividend day to the subsequent dividend day, i. e., 1st January, 1st April, 1st July and 1st October.

4. Dividends shall not be calculated of lower fractions than one farthing on a pound sterling of principal, and any sum, the retaining of which would render such calculations necessary, shall be set over till the next dividend day.

5. The funds of the Weeskamer and Boedelkammer shall be kept separate from the accounts of the different Courts,—the interest derived therefrom being wholly paid over to Government.

Government Regulation No. 6 of 1827  
Clause 4.

6. At the end of each quarter the Board will audit the accounts of interest received, and declare the dividend to be allowed; in the first place setting over two-sixths thereof to the use of Government, towards the expenses of the establishment, as heretofore.

7. The surplus fund which has been accumulated by deductions from interest received in former years, now amounts to £720 or thereabouts, or about 8 per Cent on the capital lent out; and as it is equitable that the Cash in the District Courts, now about to receive the protection of that fund, should contribute towards it, a deduction of one-sixth of the interest received on monies from District Courts shall be made quarterly, until such deduction shall have accumulated to a similar amount per cent on the principal sums lent out on

account of those Courts; after which such deduction shall cease, and the whole shall be formed into one general fund to provide for unforeseen losses of principal lent out.

8. After the above deductions have been made, the residue of interest received shall be divided as declared in the 4th and 5th Rules; and the amount set over to the credit of each Court according to the total sums, which they may have in deposit, and entitled to interest under article 3.

N. B. The average rate of Dividends (Eighteen in number) paid over to the use of the Intestates and Suitors since the establishment of the Loan Office in 1824, amounts to six pounds two shillings per cent per annum, but as the rate of interest charged on Loans has been reduced from 9 to 7 per cent it is not expected that future dividends will average more than 5 per cent per annum.

Agent of the Company in Ceylon, GEORGE LEE, Esq.  
 Medical Adviser, R. TEMPLETON Esq. R. A.

1—The EAGLE LIFE ASSURANCE Company is empowered by Act of Parliament, and its establishment is of older date than that of most of the Societies now in existence; certainly older than any offering terms equally advantageous.

2—The Public is secured by an ample subscribed capital, now exceeding a Million Sterling, on which ten per cent has been paid since 1807.

3—All payments are set apart to accumulate in a distinct and inviolable fund; the payments which have been calculated expressly for the Institution from the data published by order of the House of Commons, though lower than most of the other established offices, have yet been kept sufficiently high to protect them from the fluctuation of the laws of mortality and of interest, and by all these precautions, security, the first great object of the assured, is effectually provided for, and the possibility of mischance for ever removed.

4—The rank and character of the Directors, no person being placed in that situation who is not himself assured to a large and specified amount; and the same law applying to the Auditors, the government of the Company and the inspection of its affairs, are placed in the hands of the assured, who are the most deeply interested in its welfare.

5—At the end of every seven years a strict investigation is made into the funds, the full value of each existing claim determined, its amount retained, and the surplus apportioned. Four fifths of the profits of these periodical divisions are then allotted to the Assured, and they have a right to apply it either to the reduction of the premium, or the increase of the future claim.

6—All claims are paid within three months after death, and no fine whatever is imposed for entrance or non-appearance.

7—Persons whose lives have been assured in this company in England have a right to go to whatever part of the world they please, at a pre-established and published rate of Foreign assurance, and are not, as in many other similar Institutions, obliged to ask permission, and to submit to pay an arbitrary and often extravagant rate.

8—When persons assured in any Colony or Foreign settlement return to Europe, they pay only the British premium of their age at the commencement of the Assurance. A general annual premium is laid down, calculated upon the dangers incidental to the profession of the person insured, and permitting him to fill all the duties of his vocation in any part of the world to which he may be destined; or a special premium, to meet a particular risk, is determined, to commence at the departure of the person assured from England, and to terminate at his return.

The leading features of this Company are, PARTICIPATION IN PROFITS, and LOWER RATES OF PREMIUM THAN THOSE OF MOST SOCIETIES WHICH DO NOT GIVE PROFITS TO THE ASSURED.

To accomplish the union of these desirable objects, the Directors will invest each portion of the Funds of this Company as they may think fit in deposits or otherwise, in the Joint Stock Banks of the Australasian Colonies, the Incorporated Australasian Bank, and in mortgage.

Mortgages of the first class in Australasia are as secure as those upon English lands, with this great advantage, that the latter have probably attained their maximum of value, and may be much depreciated by alterations of the Corn or other laws, whilst in these Colonies the money so borrowed is usually laid out in extended and improved cultivation, whereby the security is increased year by year; to which may be added, that a public registry of all mortgages affords both facility and security to this mode of employing Capital.

The subscribed Capital of the Company, whilst it affords ample security to the assured, will, by yielding a higher rate of interest than is paid to the share-holders, contribute to the general profits; whereas in the case of some of the English Companies, with Capitals unnecessarily large, the premiums paid by the assured are materially drawn upon to supply the difference between the interest paid to Shareholders, and interest yielded by investments; thus diminishing, instead of increasing, the security of the policy holder.

In addition to the advantage of the low rate of premium required by this society, one half of the profits will be divided among the ASSURED and ANNUITANTS; but in the first instance one-fifth of the whole will be retained to form an extra precautionary fund.

Two Directors and one Auditor may be chosen from the ASSURED.

For the Profits to which the ASSURED may become entitled, at each quinquennial rest and division, a separate policy will be issued, which being unincumbered by the payment of premium, will be an absolute reversion, payable at the death of the assured, and increasing without cost, in value every year, and therefore readily available for private sale or deposit; and which the Society will always purchase on equitable terms, or receive in commutation of future premiums on the original policy.

To the purchasers of ANNUITIES this Society holds out advantages never before offered—a much higher rate than can with safety be granted from English Investments, and participation to the extent of one half in the profits as above stated, including those of life Assurance, for which an equivalent additional annuity will be granted at each quinquennial rest.

Participation in Profits to ANNUITANTS has not been offered, with one recent exception, but to it they are as much entitled, if they have paid a proper price for their Annuity, including a fair allowance for the selection of life, as their converse associates the contributors of annual payments to secure sums payable at their decease.

Two Directors and one Auditor may be chosen from the ANNUITANTS, thereby giving them cognizance of, and control over, the disposal of the fund.

The benefited members of the Company will consist of the first 1,000 POLICY HOLDERS for the time being, for the whole life for £500 or upwards, in one or more policies, and of the first 1,000 ANNUITANTS for the time being, who have paid £500 or upwards for their Annuities:—every vacancy in the 1,000 benefited Policy holders to be filled up by the next oldest policy of Assurance, on the plan of the equitable Society of London; and, in like manner, every vacancy in the 1,000 benefited Annuitants, by the next oldest Deed of Annuity. The ASSURED and ANNUITANTS however, will only succeed to the vacancies in their respective Class.

Such reduction of premium will be made to persons whose lives are assured for residence in India upon their arrival in England or in the Australasian Colonies for the purposes of permanent residence, as shall appear safe and equitable to the Board of Directors, on the appearance of such persons before the Board, or its Agents and Medical advisers.

Premiums on policies WHEREVER EFFECTED, may be paid at any settlement in Australasia, where there is a Bank authorized to receive the same, but always at the same Bank, unless permission to change shall have been given.

Policies, whether effected in India, in England, or the Australasian Colonies may be made payable in either by endorsement, provided the party do not quit the country in which the policy is made payable, without notice to the Directors.

## TABLES.

NOTE.—The age of the Individual is always in ASSURANCE cases, taken at his age NEXT birth day, and in ANNUITY cases at his age LAST birth day.

Its design is to suppress mendicancy, as far as possible, in the Town of Jaffna and its immediate vicinity by relieving either by donations or monthly subscriptions cases of real distress, which cases are to be personally investigated and reported upon by members of the Committee, who meet once a month at the Government House for the despatch of business. The Society has at present 60 pensioners on its list; its funds, it is gratifying to state, are in a flourishing condition.

## CENTRAL SCHOOL COMMISSION.

*Extract from a Minute dated 19th May 1834.*

It will be the duty of the principal Commission at Colombo to superintend the School Establishments generally throughout the Island, and to submit to the Government the measures they consider it expedient to adopt for the establishment of efficient Schools and for the extension of education.

The Committees at outstations will inspect the Schools in the several divisions and report to the Central Commission upon their efficiency and management.

To the Commission will be entrusted also the duty of fixing the proportion in which the funds, which Government may be enabled to appropriate for purposes of education, should be distributed in the several Provinces.

The Schoolmasters will be appointed on the recommendation of the Commission, and will in all cases be required to possess a competent knowledge of English.

## MINUTE

*BY THE RIGHT HON'BLE THE GOVERNOR.*

UNDER instructions from the Right Hon'ble the Secretary of State for the Colonies, the Governor is pleased to declare that the School Commission constituted by the Minute of the 19th May 1834 is dissolved, and a new Commission substituted under the following Regulations:

The new Commission shall be denominated "The Central School Commission for the instruction of the population of Ceylon," and shall consist of, not exceeding, nine Members, three of whom when practicable shall be, a Clergyman of the Church of England, a Presbyterian Minister and a Roman Catholic Priest or Layman; to this Commission will be attached a paid Officer who shall act as Secretary to the Commission and Inspector of Schools under their orders.

A diary shall be kept of the proceedings of the Commission which shall be submitted to the Governor monthly for his information.

A half yearly report shall be printed and published in the months of January and July of each year, and laid on the table of the Legislative Council at the first meeting of that body after the report becoming due, and shall be brought under their consideration before the annual grant for the support of Schools is voted.

In execution of the above instructions, the Governor has the sanction of the Secretary of State to declare that the Commission shall be composed as follows:

1. The Hon'ble P. ANSTRUTHER, Esq., to be President of the Commission.
2. A Colonial Chaplain.
3. The Revd. Mr. MACVICAR.
4. A Roman Catholic Member.
5. P. E. WODEHOUSE, Esq., Acting Government Agent for the Western Province.
6. A Non-official Member of the Legislative Council.
7. A Member of one of the Missions in Ceylon.

Two additional members may be nominated by the Governor and submitted to the other Members for their approval. If by a majority they reject the members named by the Governor, they must lay before him for the appointment the names of two other members who shall have been selected by not less than 5-7ths of the members.

G. LEE, Esq., to be Secretary and Inspector of Schools, on a salary of £200 per annum and his travelling expenses.

The Secretary to the School Commission hereby dissolved will be pleased to hand over all the documents in his charge to Mr. LEE, and the Central Commission will enter upon its duties forthwith.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, 27th March 1841.

P. ANSTRUTHER,  
Col. Secretary.

### MINUTE

BY THE GOVERNOR.

THE Central Commission of Education having now been established under direction of the Right Hon'ble The Secretary of State, the Governor proceeds to offer some observations for their guidance.

The Commission has been generally composed of Gentlemen selected, not with reference to their official position, but to their disposition to exert themselves in promoting the highly important object confided to them.

The Government Agent for the Western Province is a Member, because through his Agency it is desired that their pecuniary transactions should be conducted.

It will be necessary to constitute Sub-Committees at outstations on the same principles. The Government Agent in each Province will conduct the pecuniary transactions of the Commission there, he should therefore be a Member of the Sub-Committee; the other Members are to be selected by the Central Commission on the same principles upon which they have themselves been appointed.

Members have been selected for the Central Commission from the Clergy and some of the Missions in Ceylon, in addition to the lay Members—The Committee will understand that it is their duty, by every means in their power, to promote the education in the English language of their fellow-subjects of all religious opinions in the Colony. They will therefore be particularly careful to introduce into their Schools no books or system of instruction which might have the effect of excluding Scholars of any religious belief whatever.

Whatever may have been the defects of the late Commission, it will be found that in their Schools the Scriptures are read without objection by all; it will be the especial care of the Central Commission to exercise such caution as to raise no religious scruples on the part of any.

But tho' the general education of the whole population is the duty of the Commission—it will also be a most important portion of their duty to promote the religious education of such of the community as belong to the Christian faith, and the funds under their management will therefore be equally applicable to this purpose. It is highly desirable that Sunday Schools should be established, and perhaps that an hour daily should be set apart for religious instruction, and such instruction may be conducted by the Schoolmasters of the Establishment, provided it is most clearly and distinctly made known that it is not obligatory upon those Scholars (who bring forward conscientious objections) to attend the Sunday Schools, or at the hour set apart for religious instruction, which should be arranged so as not to interfere with secular Education. The Commission would also do well to consider whether an attempt might not be made to establish Infant Schools.

Subject to these observations the Commission will undertake the administration of the funds voted by the Legislative Council for purposes of Education; the appointment of all Schoolmasters—the fixing of their Salaries—the purchase of school-books, furniture &c. will be vested in them, but they are not to incur any charge for erecting or repairing buildings without the usual sanction of Government. Besides the establishment of Government Schools, the Commission will be at liberty to grant sums in aid of any Private Schools which they may consider deserving of encouragement, but always on condition that they shall have full right of inspection and examination without interfering in any way in the management.

Referring to the circular letter of the 1st March, 1838 of which a copy is annexed, the Commission should endeavour, as far as possible, to maintain a friendly communication with all Educational Institutions throughout the Colony, and obtain permission to inspect their Schools, as well as any Private Schools

which may be established from time to time, in the manner therein proposed, but without exercising the smallest right of interference.

For the execution of this duty the Secretary of the School Commission has also been appointed Inspector of Schools, and the Commissioners will be good enough to frame rules for his guidance in the execution of his duty.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, 26th May, 1841.

P. ANSTRUTHER,  
Col. Secretary.

*Circular.*

Colonial Secretary's Office,  
Colombo, 1st March 1838.

GENTLEMEN,

HIS EXCELLENCY THE GOVERNOR having it in contemplation to remodel the Education Commission, established some time ago in Ceylon, and being desirous that it should be the medium of obtaining more extensive information as to the progress of Education in this Island, as well as to secure for it the advice which the experience of the Members of the different Educational Societies enables them to afford, directs me to address you on the subject.

One of the objects His Excellency would have in view, independent altogether of the spread and diffusion of instruction generally throughout the population, would be to constantly obtain from the different Members of the several Educational Institutions in the Island correct information as to the exact state of instruction and the extent of their efforts in instructing that portion of the Inhabitants, with whom they are each more immediately conversant and connected.

To invite the heads of the Educational Institutions to become corresponding Members of the School Commission, with the view of enabling the Commission to obtain the assistance and suggestions of the Members of these Institutions as to furthering the general object of Education.

To fix an annual examination at which the Archdeacon and certain of those who constitute the Education Commission, in conjunction with the persons belonging to the other Educational Institutions above alluded to, should ascertain the relative qualifications of the Scholars from the several places of instruction, who had attained such a proficiency, and were of such age, as would fit them either to be sent to Bishop's College, Calcutta (and to the number of three, His Excellency would be desirous to send thither annually) or to commence attendance at a Normal Institution, to be established at Colombo as shall be here-

after arranged for the purpose of instructing Teachers, having in view, in the case of those who go to Calcutta, that eventually some of them might enter the Ministry and become Colonial Chaplains, and in the other case, that after a period, not exceeding eighteen months, of instruction at the Normal Institution, such as have attended so long, should be sent as Schoolmasters to the different outstations in the Island, according to the selection made, and to the order fixed upon by the Examiners at the annual examination.

With a view to the efficiency of these arrangements, in addition to the Secretary to the Education Commission, through whom its correspondence is conducted, it is proposed that a Visitor should be appointed, whose special business and duty will be, to visit every School and Station of whatever character, where youths are instructed, and regularly to report to the Secretary of the Commission, the state of such School, by whatever funds or from whatever society supported.

His Excellency requests therefore that he may be informed by you in reference to the object above explained, whether you consider that the Rules and Regulations of the Society which sent you to this Island would allow of your giving the assistance above prescribed, and whether your other avocations would admit of your doing so. The Governor would wish you, not to consider this enquiry as confined to yourself only, who are the head of but also to extend to the several Members, your coadjutors in the work of Education, who have been sent out by your Society to Ceylon.

His Excellency would further be glad to know, if the Rules and Regulations of your Society would admit of the above-proposed periodical inspections of your Schools, it being distinctly understood that no interference or controul whatever is contemplated on the part of Government, either through the medium of the Visitor, or in any other way—the object being simply to place Government and the Public in possession of complete information, as to the progress of Education generally in the Island.

When you reply to these several enquiries, His Excellency would be glad to receive at the same time an Abstract, from you, of the Names and Stations of your Teachers, of the number of Scholars at each station, and the nature of the education afforded, the amount of Expenditure from the Funds of the Society of in each year, and the date of your Society's labour in this Colony.

I have the honor to be,  
Gentlemen,

Your most obedient Servant,

P. ANSTRUTHER,  
Col. Secretary.

The Society for the Propagation of the Gospel in Foreign Parts was incorporated by Royal Charter, in the reign of KING WILLIAM III., A. D. 1701, for receiving, managing and disposing of such funds as might be contributed for the religious instruction of His Majesty's Christian Subjects beyond the seas, for maintaining Clergymen in the British Colonies, Plantations and Factories, and for the general propagation of the Gospel. It has been engaged in its appointed sphere of duty for upwards of 141 years; and during a whole century, it was the only Missionary Society in connexion with the Church of England. In regard to its constitution, it is under the immediate controul of the Bishops of the United Church, and is uniformly conducted on Church principles.

The Society has at present in its employment, Missionaries in the four grand divisions of the British Empire, viz., North America, West Indies, East India and Australia, and the whole number on its List

amounts to 302, besides 230 Catechists and Schoolmasters; independently of all which its funds are made available for supporting Colleges and building Churches and Schools. It was in 1818 that the Society extended its operations to the East. Here it has more than 32 Missionaries in its service. It has moreover established a College at Calcutta, called, BISHOP'S COLLEGE, for the education of an indigenous Clergy, and the diffusion of sound and useful knowledge; and Grammar Schools at Madras for the instruction of the middle and lower classes.

At COTTA there is a *Christian* Institution, where a number of Youths, of good promise both for piety and capacity, selected from the other schools, are boarded and educated, with a view to their becoming useful Schoolmasters, Catechists, and Assistant Missionaries. The Cotta Christian Institution contains *Thirty* Youths. The course of study pursued by them comprises SINGHALESE, ENGLISH, (including Grammar, Composition, History, and Geography) LATIN, GREEK, ARITHMETIC, ALGEBRA, GEOMETRY, and THEOLOGY: in all of which branches some of the Youths have made considerable progress, and shew as good a capacity for acquiring knowledge, and as great a thirst for it, as Youths of the same standing in England.

There is a *Seminary* at NELLORE containing *Twenty-five* Youths, and another at BADDAGAMA containing *Fifteen* Youths. From these Seminaries, Youths of good promise are selected for the Cotta Institution.

These three Institutions contain *Seventy* Youths and Seminarists, who, with the exception of *Three*, are boarded and educated at the expense of the Society.

At KANDY and at NELLORE there are *Female Boarding Schools*, the former containing *Fourteen*, and the latter *Twenty-four* Girls. The expense of these two Schools is borne partly by the Society, and partly by Subscriptions and Donations.

The whole of the Holy Scriptures, and the Book of Common Prayer, have been translated into the familiar Singhalese, and printed at the Cotta Press; besides many elementary School Books, and a large number of Religious Tracts which have been circulated, and readily received by the Natives.

The British and Foreign Bible Society have authorized a new Edition of 2000 Copies of the Cotta Version of the Scriptures to be printed at the Cotta Press, and this work is now in progress. A new Edition of the Book of Common Prayer, consisting of 1000 copies is nearly finished at Press; and an Edition of 2000 copies of the Psalter, in Singhalese, has been already completed.

The prospects of the Mission are encouraging in all its branches of labour. The Congregations, though in some places small, are very attentive. The School Children and Seminarists are making creditable progress in the acquirement of both religious and general knowledge; and many new Schools might be established, at the request of the Natives, if the Mission had the means of supporting and superintending them: fresh Stations might be occupied, and additional labourers would be welcomed by the Natives.

The expenditure of the year ending June 30th has been £5,691—13—1. The School and Educational expenses for the period amount to £1,532—4—4½.

### WESLEYAN MISSION.

INSTITUTED 1814.

THE Wesleyan Mission in Ceylon is divided into two Districts, the Northern or Tamul District, and the Singhalese District. The stations in the Tamul District are:

The stations of Matura, Dondra and Goddapitiya are under the Superintendence of the European Missionary residing in Galle.

The Rev. D. J. GOGGERLY is the Chairman of the District, and the Revd. W. BRIDGEMAN the Secretary.

There are 726 persons under the pastoral charge of the Missionaries, who are met weekly in classes, apart from the general Congregations.

A new Chapel has been opened during the year at Morotto, which is well filled on Sundays. Another Chapel has been completed at Ba'tapolla, near Amblangodde, and is ready for opening. A Chapel is nearly completed at Nagalagan, near the Bridge of Boats, and another one is in progress at Morotto Mulle, at the expense of the inhabitants.

The educational department consists of 3 English Schools, 2 Schools for English and Singhalese, 1 for English and Portuguese, and 68 Singhalese Schools, containing 2,840 boys and 478 girls, who are taught by 82 Masters and 10 Mistresses.

In places where there are no Chapels, Divine Worship is celebrated on Sundays in the village School rooms.

#### BAPTIST MISSION.

*Established in 1812.*

Four European Missionaries and twelve Native Assistant Missionaries are employed in thirteen different stations—in and around which, in various places, the Gospel of Christ is proclaimed. It has forty-five Schools in which about thirteen hundred children are

instructed chiefly in the Singhalese language. Some few are taught in Tamul and English. The expenditure of the Mission now amounts to about £1,800 per annum.

THE RIGHT HONBLE<sup>d</sup> THE GOVERNOR is pleased to direct that the following Rules for establishing a Parcel Tappal be published for general information.

By His Excellency's Command,

P. ANSTRUTHER,  
*Colonial Secretary.*

Colonial Secretary's Office,  
Colombo, 24th November, 1837.

It having been found expedient to establish for the public convenience a Parcel Tappal between Colombo and the principal Outstations, Notice is hereby given that from the 1st of January next, such a Tappal shall be established under the following Rules and Conditions, with a proviso, however, that the conveyance of parcels through the Post Office will be given up as soon as any establishment of the same nature shall be set up by private persons—and with the exception of the road between Kandy and Colombo, on which a conveyance of that nature already exists.

The following Rules will be strictly abided by:

1. The Tappal will be despatched twice a week, namely, each Tuesday and Friday, from Colombo, and arrangements will be made with the Post Offices at Outstations for parcels being brought to Colombo also twice a week, on days to be fixed by the several Government Agents.

2. All private parcels, not exceeding 5lbs. in weight, and being made up in a form which can be conveniently carried, which may be brought to the Post Office before 5 on the days above-mentioned, will be duly forwarded.

3. In order that the Parcel Tappal may not interfere with the regular post, the Post Master General, or Government Agent or Assistant Government Agent at Outstations, will be authorized to call on any person sending or receiving a parcel in which he may suspect letters to be enclosed, to open it at the Post Office in his presence.

4. No parcel can be franked; all below one pound shall be charged as if they were of that weight, and the following rates will be levied:—

Double letter postage for every parcel of a pound weight, or less than a pound, and two pence for every extra pound for each distance of 72 miles, and an additional charge of ten shillings for every single letter found in any parcel.

5. The Post Office will be answerable for no parcels containing money or jewels, but for additional security any person sending such parcels should give notice at the time to the Post Office Clerk, and take a receipt in writing, specifying the weight of the parcel.

General Post Office,  
Colombo, May 14th, 1838.

NOTICE is hereby given that in cases where private individuals may be desirous of sending EXPRESSES from Colombo to outstations, or vice versâ, on sufficient notice being given at this Office, or at the Post Offices at the chief Outstations, arrangements will be made for despatching such expresses, unless something should at the time occur to render it inexpedient for the Public Service that they should be sent, in which case information will as speedily as possible be given to the applicants.

The charges will be as follow :

For an express from Colombo to Kandy, or vice versâ .....	£ 0 12 0
_____ Galle . . . . .	0 13 6
_____ Jaffna . . . . .	3 4 6
_____ Point Pedro . . . . .	3 9 0
_____ Trincomalie . . . . .	2 10 0

But it is strictly to be understood that the weight of such despatches is to be limited to 8ozs—and that, in order that they may not injure the revenue of the Post Office, which derives no advantage from this arrangement, a declaration will be required that the despatches convey no other letters but those of the party at whose instance the Express is sent.

GEORGE LEE,  
Postmaster Genl.

NOTICE is hereby given, by Order of HIS EXCELLENCY THE GOVERNOR IN COUNCIL that it is intended to make the following charges upon all Letters and Newspapers &c. sent or received by any Steam Packet to or from Bombay—from this date and until further notice, viz.

## STEAM REGULATIONS, BOMBAY.

## NOTIFICATION.

*Marine Department.—Bombay Castle, 6th December, 1841.*

The Honorable the Governor in Council has been pleased to direct, that the following Rules for the regulation of Passages and Passengers in the Government Steam Packets, be published for general information, and that these Rules be brought into operation on the 1st January next, in supercession of those at present in force.

The names which have been already registered for the January and succeeding Steamers, will be placed on the list of applicants for Cabins, in the order in which they now stand.

*Rules for the engagement of Passages and accommodation of Passengers in the Government Steam Packets between Bombay and Suez.*

1. Application for Passage is to be made at the Office of the Master Attendant in Bombay, and at other Ports to the Commander.

2. The vessel which conveys the Mail intended to reach Suez on the 19th of any month, is to be designated the Steamer of that month; for instance the January Steamer is the one which is destined to reach Suez on the 19th January, although leaving Bombay possibly before the end of December.

3. Passengers are to be divided into two classes, viz:

First class, who sit at the Commander's Table, and are entitled to all the privileges of the Quarter Deck.

Second class, who are not entitled to walk aft of the paddle boxes, who berth forward, and either arrange for their own provision, or mess with the Warrant Officers or Engineers.

4. Every Passenger of the 1st class shall pay the following sum, as Table Money, for the voyage from Bombay to Suez, or from Suez to Bombay, viz:

A Lady or Gentleman . . . . .	Rs. 200.
A Child ten years of age and above five years . . . . .	100
A Child five years and above one . . . . .	80
A Child one year and under . . . . .	50
A Child under one year, and with the Mother. . . . .	Free.

These rates apply to the Steamers of every month throughout the year, with the exception of those of July and August, in which the Table Money from Bombay to Suez will be as follows, viz:

A Lady or Gentleman . . . . .	Rs. 300
A Child under 10 . . . . .	150
A Child under 5 . . . . .	120
A Child under 1 . . . . .	75
Do. with the Mother . . . . .	Free.

But the rate from Suez to Bombay will be the same in all months. It is to be understood, that for the above sums, the Passengers are to be provided with a plain substantial Table; but no person is entitled to more than one pint of Wine and one bottle of Beer per diem. Cabin Passengers have the first choice of seats at the Table, and after them the Saloon Passengers in preference to those on the Deck, whose priority will be arranged according to their standing on the passage list. The seats will be arranged by the Commander, and once taken they cannot be changed, without his permission, during the voyage.

5. In addition to the Table Money the following sums will be charged for the accommodation engaged by first class Passengers, viz.

A treble Cabin .....	Rs. 1000
A double Cabin .....	800
A single Cabin .....	500
A Saloon berth .....	350
A Deck passage ..	300

6. Every second class Passenger shall pay Rupees 150.

7. For each European Servant 50 Rs. must be paid as Subsistence Money and 50 Rs. as Passage Money; for Native Servants the charge will be one half the rate for an European; but none are to be considered and taken as Servants unless they actually accompany their Masters or Mistresses.

8. Three lists for each month's Steamer will be kept at the Master Attendant's Office, viz. one for Cabin, one for Saloon, and one for Deck Passengers. A statement of the number of each class, which each packet is calculated to accommodate, will be open at the same place, to the inspection of the public.

9. Every applicant may register his name in which ever of the lists he pleases, but the name of the packet will not be declared until 10 days prior to the appointed day of sailing, when choice of accommodation will be given, according to priority of standing on the lists. Ladies having the preference for the first three cabins.

10. In the event of a greater number of names having been registered than the Steamer, when declared, is calculated to accommodate, the supernumerary names on the Cabin lists may be transferred to that of the Saloon or the Deck, and those of Saloon lists to that of the Deck, or they may be withdrawn and the deposit repaid, at the option of the parties. In the case of a transfer under this rule, the name will be placed in the same position in which it would have stood by date of registry had the original application been for a Saloon or a Deck passage, instead of for a Cabin, or for a Deck instead of for a Saloon. Should any of the Cabin or Saloon berths remain open, after the

vessel has left the harbour, the Saloon or Deck Passengers may be allowed to take them on paying into the hands of the Commander the regulated difference of price.

11. Ladies and Children can take passages in Cabins only, and female Servants cannot be accommodated otherwise than in the Cabins engaged for the family they accompany.

12. A passenger who has engaged a Cabin may make what arrangement he likes for its occupation; he may either keep it entirely to himself, or admit to share it with any one that he pleases, provided only that the name of the person so admitted (if an adult) must have been previously on one of the lists, and subject to the following restrictions, viz.

Children under five years of age may be taken extra to the complement of a Cabin; on payment of 50 Rs. for each, additional.

13. Passages for intermediate places can be engaged only when there is accommodation not taken up for the entire voyage, unless the parties are willing to pay the price of the whole voyage, in which case they may register their names in the same manner as all other Passengers.—The vacant accommodation will be declared three days before the sailing of the vessel. The passage between Aden and Mocha, and Bombay and Suez, respectively,

will be counted as one half of the whole passage between Bombay and Suez;—between Judda and Suez, will be counted as one third, and between Judda and Bombay as two-thirds—Cossier and Suez are considered to be alike.

14. The engagement of a passage will not be considered valid unless a deposit of the following sums be made at the time of application, viz.

For a Cabin passage . . . . .	Rs. 360
For a Saloon . . . . .	150
For a Deck . . . . .	125

This deposit, should the party not proceed, will invariably be forfeited, except under the provisions of art. 10, and in cases where, by the production of a Medical Certificate, it is satisfactorily shewn that the person was compelled, by sickness, to abandon the passage. A deposit is not required on the registry of the names of Children, except when the Children are to occupy a Cabin by themselves, in which case the same deposit must be made as for the Cabin passage of a Lady or Gentleman, viz. 300 Rupees.

15. To prevent unnecessary trouble, the Master Attendant is authorized to receive and pass receipts for the deposit Money.

16. Ten days prior to the appointed day of sailing, each Passenger must pay to the Master Attendant the remaining portion of the passage Money, in default of which the deposit will be considered forfeited, and any claim to passage invalid. When the cabins are finally allotted, an adjustment will be made with the party or parties to whom they are appropriated, the difference between the value of the place occupied by each individual and the deposit made under article 14, being paid up or returned, as the case may be. When the passage Money has been paid up, no portion of it can, on any plea, be returned, except under the provisions specified in article 14.

17. Persons who, from non-arrival at Bombay, may have omitted to pay the balance of the passage Money, may be re-admitted as Passengers, if before the period of departure the balance is paid. They however will be placed at the bottom of the list of the class of Passengers in which they are registered.

18. No transfer of accommodation in the Steamers by an individual who has taken a passage to one who has not taken his passage, will be permitted, but after the list has been filled up, any person wishing to stand the chance of succeeding to a vacancy caused by a lapse of any kind may do so, by registering his name and paying the required sum, which will be refunded to him should no vacancy occur.

19. It is to be understood, that Government reserves to itself the right of appropriating a Cabin or Cabins for the use of public functionaries or others proceeding on duty or by special order of Government as Passengers in any of the Honorable Company's Steamers.

20. Passengers on a Steamer that may from accident or other cause be obliged to return to Port, will be entitled to the refund of the amount that has been paid, deducting therefrom a sum for the Table Allowance of the Commander according to the number of days that the vessel may have been at sea, calculating the average time occupied in a voyage to or from Suez to be 18 days, and Aden 10 days.

21. It is necessary for Passengers not belonging to the Honorable Company's Service, to make the requisite arrangements at Suez or other intermediate Port with the Commander before, or at least at the time of their embarkation, for the payment of the passage Money.

22. For the convenience of Passengers from the Red Sea to India, the Commanders of the Honorable Company's Packets are authorized to receive payment of passage Money at Suez or any Port between Suez and Bombay in Sovereigns, Spanish Dollars, or German Crowns, at the following rates of exchange viz: Sovereigns at 10 Rupees each, Spanish Dollars at Rupees two and three Annas each, German Crown at Rupees two and two Annas each.

23. The Baggage of each Passenger must not exceed four boxes of the following dimensions, viz.

Length.....	2 feet 5 inches
Breadth .....	1 do. 5 do.
Depth.....	1 do. 8 do.

and the total weight must not be more than four cwt. Second class Passengers are allowed half the above quantity.

24. Each Cabin Passenger may, if he pleases, put all his Baggage into his Cabin. The Saloon and Deck Passengers will be allowed to keep one Box or Bag above. The rest of the Baggage is to be in the Baggage room, and Passengers will be allowed access to it twice a week, on a day and hour fixed by the Commander, who will appoint a person to have charge of the Baggage

25. Any applicant may be refused a passage, without any cause being assigned either by the authorities at Bombay or by the Commander of the Vessel when away from Bombay, but a report of the rejection is to be communicated to Government.

26. All persons who take passage either themselves or through their Agents, will be considered as thereby binding themselves to comply with these Rules, which will be shewn by the Master Attendant or by the Commander of the Vessel to parties who engage passage.

By order of the Honorable the Governor in Council,

P. M. MELVILL, Lieut. Col.

Secy. to Government.

GOVERNMENT ADVERTISEMENT.

Notice is hereby given that it is the intention of Government to hold monthly Sales of the Government Cinnamon Gardens, commencing from the second Tuesday in July 1840, and to continue the same until the whole of the Gardens are disposed of, in the following order—Morottoo, Kaderani, Ekelle, Welli-

sere and Marendahn. The Government reserves to itself however the power to dispose of Building Lots from the Marendahn Garden at any time.

The Gardens will be sub-divided into Lots of about ten Acres each, and each Lot will be surveyed at least three months prior to the Sale. The Morottoo Cinnamon Garden has been surveyed, and arrangements will be made for surveying the others, in succession, and due notice will be given of the completion of each survey.

The following are the Conditions of Sale.

1st.—The quantity to be put up at each Sale shall be Thirty Lots, of the numbers whereof with reference to the Survey notice shall be given ten days prior to the Sale, and each Lot shall be peremptorily sold to the highest bidder, subject to the following restriction. After the whole of the Lots shall have been separately put up at each Sale, if any party shall be desirous of purchasing collectively two or more contiguous Lots, and shall before the termination of the proceedings of the day make an application to that effect to the Government Agent specifying the Lots, such Lots shall be immediately put up at the sums previously bid for them; and if at the conclusion of such second Sale, an application shall be made for a larger number of contiguous Lots, even if it shall include those exposed at the second Sale, the whole of the Lots so applied for shall be put up together, at the highest prices bid for all the Lots included in the last application. And any further applications made at that Sale for a still larger number of contiguous Lots shall be disposed of in like manner.

2nd.—Ten per cent of the amount of the purchase money must be paid within ten days from the day of Sale. The remainder of the purchase money must be paid in three equal instalments, the first in four months, the second in twelve, and the third or last in eighteen months from such day of Sale.

3rd.—Where the purchase money of any Lot exceeds Two HUNDRED POUNDS, Government will be prepared to take into consideration any application to enter into a special agreement for the payment of a portion of the purchase money not exceeding one-half being deferred for three years from the date of the Sale. Provided always that mortgage of the property is given, and that the balance shall remain subject to payment of interest at nine per cent, until paid up.

4th.—In failure of any of the aforesaid payments being made, the Land will be resold at the risk of the purchaser who in such case shall be liable for any loss that may occur upon such resale, but he shall have no right or title to any advantage if the new Sale shall produce a larger proportional price; and any part of the purchase money he may have paid shall be forfeited.

5th.—After payment of the second instalment, or in those cases where the purchaser may have entered into agreement with Government, to defer the payment of such portion of the purchase money as shall have been agreed on as mentioned in article 3d upon mortgage of the property being given, the purchaser shall be put in possession of the land and be allowed to peel Cinnamon, but he shall not be allowed to root up any Cinnamon bushes until after the payment of the third or last instalment, and any purchaser so doing shall be liable to a penalty of one third value of the property, besides forfeiting all right to the lands and trees purchased and to the instalments paid.

6th.—Upon payment of the third or last instalment a title deed shall be prepared free of expence to the purchaser, after which he shall have full power and liberty to clear, cultivate, let out, or sell at any time, and in his option all or any part of the land so purchased by him, but always subject to such Regulations and Taxes as are now in force and that may hereafter be enacted relative to the tenure of landed property in general in this Colony.

7th.—The Government will pay the expence of the Surveyor proceeding on at a time appointed if required to point out the limits of the Lots; but, should his attendance be afterwards required for that or any other purpose, the purchaser must himself pay the cost of such attendance.

8th.—Each purchaser shall on payment of the third or last instalment, secure the boundaries of his land by a ditch or strong fence as may be agreed on within three months after the payment of the last instalment, in failure the same will be done by the Government Agent and the cost be charged and recovered against the purchaser by Sale of the land.

9th.—All roads and public paths and drains appearing in the survey or which shall be noted at the back of the duplicate conditions delivered to the purchaser at the time of Sale, shall be fully kept open.

10th.—Each purchaser shall be bound to tender two or more persons of good and sufficient security at the time of Sale, who with himself shall sign the list of Sale and thereby bind themselves conjointly and severally for the payment of the purchase amount or he shall deposit ten per cent, which will be taken in lieu of the ten per cent specified in clause 2d.—And no offer will be taken down unless two or more such securities are given at the time to the satisfaction of the Government Agent of the Western Province, or a deposit payment of ten per cent be then made.

NOTE.—About 8,618 acres of the Morotto, Wellisere, Kaderane and Palanchina Cinnamon Plantation, have already been disposed of under the above Advertisement, by monthly Sales for the Sum of £20,203. 15.

HIS EXCELLENCY THE GOVERNOR has directed the following Extract from Her Majesty's Instructions to be published for general information.

And it is Our Will, and We do strictly enjoin and require you that you do not under any pretence whatsoever grant, convey, or demise to any person or persons any of the Lands which may be specified as fit to be reserved as aforesaid, nor permit or suffer any such Lands to be occupied by any private persons for any private purpose.

*Forty-second.*—And We do further charge and require you not to make any Grant of Land to, or in trust for, or for the use of any private person unless in consideration of payment in money for the same after such Land shall have been pre-

viously put up for sale by Public Auction at such an upset price per acre as shall from time to time by Our authority be fixed for the same, and for this purpose you shall cause such Lands as from time to time shall remain unoccupied and ungranted to be put up for sale by Public Auction from time to time as you shall judge proper and the highest bidding which shall at such Public Auction be made for any such Lands shall be accepted, provided that such bidding shall at least amount to such upset price per acre as aforesaid. Provided nevertheless that no such bidding shall be finally accepted until the person or persons making the same shall have actually paid a Deposit of ten per cent on the amount thereof, and shall have signed a Contract for the payment of the balance within one calendar month next thereafter. And it is Our Pleasure that all Grants of Land to be made by you in Our name to any person or persons in consideration of the payment of money for the same shall be made to such person or persons, and to his, her or their Heirs and Assigns to be by him, her or them held in fee and common soccage, yielding and paying to us, Our Heirs and Successors a Quit Rent of one Pepper Corn by the year for the same, and every such Grant shall pass in Our name under the Public Seal of Our said Island of Ceylon, and shall be executed and delivered to the purchaser or purchasers at the office of the Surveyor General of Our said Island on the payment of the purchase money for the same, and not before and then and not before the purchaser or purchasers shall be let in possession of the Land so bought by them and for the delivery of every such Grant, and the preparing the same, the Colonial Secretary shall be entitled to charge a fee amounting to forty shillings sterling money and no more or of such smaller amount as you from time to time with the advice of the Executive Council of Our said Island shall appoint, and every such Grant shall previously to its being so delivered be enrolled in the Court of the District where such Land may be situate, and for making every such Enrolment the Registrar of such Court shall be entitled to receive from such Grantee or Grantees a fee of five Shillings Sterling money and no more.

NOTICE is hereby given, that the Rules laid down in the Royal Instructions, clauses 41 and 42, relative to the sale of Crown Lands, are to form the conditions of sale in all cases except sales under the Advertisement of the 14th December 1839, which are provided for by special Instructions.

As soon as any purchaser has made the deposit of ten per cent, Government Agents are to transmit the surveys and necessary information for the title-deeds being prepared to the Colonial Secretary with a certificate of the deposit being paid.

On the final payment of the purchase money and fees for preparing and enrolling the grant, the Government Agent will transmit a certificate thereof and a draft for the fees payable for the preparation of the deed to the Colonial Secretary, who will immediately complete the grant in duplicate, and forward it to the Government Agent, one copy to be delivered to the purchaser who is to be put in possession forthwith, the other to be lodged in the District Court, and a certificate of enrolment obtained from the Secretary, to whom a fee of five shillings is to be paid.

The fees payable for preparation of deeds have been reduced by order of the Governor in Council as follows—

On all grants of land not exceeding £5—one shilling.

On grants above £5, four per cent, but in no case to exceed forty shillings.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, May 29th, 1841?

P. ANSTRUTHER,  
Col. Secretary.

The Government Agent

SIR,                      Colombo.  
No. 322.

Colonial Secretary's Office,  
Colombo, May 31st, 1841.

I have laid your letter No. 360 of the 10th instant before the Governor.

No alteration is to be made of the Advertisement of 14th December 1839 under which Government Cinnamon Gardens are sold.

The Conditions under which Abandoned and Tunhawul Gardens and all other Crown lands are sold, must, however, be altered in conformity with the Royal Instructions.

The purchase money of land is payable to the Government Agent—and on granting Certificate of payment and conforming to the Minute of the 29th instant, he will be absolved from all responsibility for the preparation of the title-deed. The fees are altered and are to be recovered with the purchase money as specified in the Minute above referred to.

I have the honor to be,  
Sir,

Your most obedient Servant,

P. ANSTRUTHER,  
Col. Secretary.

For a ground plan, in duplicate, of a house and out offices—surveyed in the Block—3s.

For a ground plan, in duplicate, of a house and out offices—surveyed in the Block, with garden, or premises under one acre in extent—6s.

For a plan as above, in duplicate, with interior divisions shewn, and sections and elevations of the buildings for each apartment—additional 6d.

1st. In addition to the above fees, one shilling per mile will be allowed in lieu of all travelling expences, when the ground to be surveyed lies beyond 3 miles from the principal town of the Province or place of residence of the Surveyor. This allowance is to include the hire of the persons employed by the Surveyor to carry baggage and instruments, draw-chain, &c., and if several surveys are made in one trip, that trip alone will be charged, and the amount distributed in fair proportion amongst the costs of the several surveys.

2nd. In cases where one or more contiguous lots have been, or are required to be surveyed, the Surveyor will be paid for the survey of each lot in proportion only to the extent of boundary requiring actual measurement.

3rd. For surveys of roads, canals, rivers, &c. special terms will be made.

4th. When Surveyors are required to appraise lands, houses, or other property, they will receive one half per cent of the value of the land or house &c. appraised, with travelling charges as above; provided the amount shall in no case exceed £10, excepting under special agreement.

5th. Surveyors will provide their own stationery, instruments, &c. and will be required to furnish to the Surveyor General's Office, four figures of every survey, immediately on its completion, neatly drawn on good paper, with a full description of the land and its boundaries, describing the Province, district and village in which it is situated, its distance from the principal town, and the nearest carriage or cart road, or navigable river or canal?

6th. When copies of surveys are specially called for, one shilling will be paid for a mere outline of the boundaries with appropriate description; and 5 shillings for a map shewing minutely the interior detail, with a full description of the land, &c.

7th. Surveyors employed by Government will be entitled to 15 shillings a day *batta*, including all charges whatsoever, when detained by the absence, or other remissness, of the parties who should be in attendance during the survey, or if the boundaries are not so cleared as to admit of the survey being proceeded with without interruption.

8th. All questions as to the land being the property of the Crown must be disposed of, before the services of a Surveyor can be placed at the disposal of an Applicant, and no application for land which may be received by any Government Agent after the date hereof, will be advertised in the Gazette till the boundaries are properly cleared, and the land surveyed. The survey however may be undertaken at the expence of Government, for the purpose of investigating claims, the cost of survey of any portion of land ultimately sold, being charged against the purchaser.

9th. On application being made for land, the Headman will be directed by the Government Agent to meet the applicant or an accredited Agent on the spot on a certain day; should the Headman pronounce the land applied for to be the property of the Crown, the Applicant or such Agent attended by a licensed Surveyor and the village Headman will proceed to clear the boundaries at his own cost, and with laborers provided by himself. The Government Agent will decide upon the remuneration that should be allowed to Headmen, according to circumstances, for their attendance, and this charge is to be paid whether the land proves to be Government or private property. If the land is pronounced to be the property of the Crown, and charges are incurred in clearing boundaries &c. a memorandum thereof must be produced to the Headman, who will certify whether they are reasonable or otherwise. If he certifies to their being reasonable, the Government Agent will on approval, sign the Memorandum, but should the Headman refuse to certify the Agent will fix the amount admissible. The Applicant or his Agent will then be required to pay the Headman his charges and to deposit the estimated amount of fees &c. for the Surveyor, and for the attendance of Headmen,

if further required during the survey, and the Government Agent will pay the Surveyor his fees and charges out of the sum deposited on presenting his bill, taxed by the Surveyor General.

10th. The day on which the Surveyor is appointed to attend will be intimated to the Applicant, and that notice shall be binding on him, and shall render him liable to the charges defined in the 7th clause, if he, or the party deputed by him, does not attend.

11th. Should either the clearing of boundaries or the progress of the survey be impeded by the absence of Headmen duly ordered to attend, Government will similarly pay the costs of detention incurred by the Applicant and the Surveyor, and hold Headmen responsible for the same; and in like manner should any impediment or delay be occasioned by the absence or other negligence of the Surveyor, duly warned, the loss incurred by the Applicant and Headmen will be charged against him; unless by timely notice given by any one of the three parties, the day of meeting is postponed by the Government Agent.

12th. On the day of sale the Government Agent will specify, in three separate items, the upset price of the land, the cost of clearing boundaries, &c. and the charges of surveying allowed by this Minute, and stipulate that if the Applicant is not the ultimate purchaser, the two latter items must be paid down, with the 10 per cent, by the actual purchaser, and the claims of the original Applicant will be adjusted by the Government Agent out of that payment. Should the original Applicant however be the ultimate purchaser, he will pay the price bid for the land, and settle with the Agent for the other two items, paying to, or receiving from, that officer, as the case may be.

13th. Should Surveyors be paid not according to these rates, but according to a special agreement, the Surveyor General will reduce the agreement to writing, and will apprise the Government Agent thereof, and Government Agents as well as the Surveyor General, will be at liberty to accept of lower terms than those specified in the Table of Fees, should competition reduce the charge for surveying.

14th. Persons wishing to be employed by Government as Surveyors will have to undergo a strict examination in the several branches of the Art. On their being certified by the Surveyor General to be duly qualified, they will receive Licenses to survey Crown lands, notice whereof will be given in the Government Gazette, and no surveys but those made by Officers of Government, or licensed Surveyors, will hereafter be authenticated at the Surveyor General's Office.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, 3rd August, 1841.

P. ANSTRUTHER;  
*Col. Secretary.*

## RULES FOR THE SURVEY AND SALE OF WASTE LANDS.

1. That as soon as arrangements can be made, all lands shall be surveyed by Officers appointed by the Government, and paid either by fixed salaries or by fees. The Surveyors' fees to be added to the minimum price of the land and paid into the public chest.
2. The lands to be sold by Government are to be surveyed, as nearly as practicable, in lots not exceeding 640 acres, but under special circumstances the Government will authorize lots being put up not exceeding 1,280 acres, and parties may apply for lots of a smaller extent or to have any number of lots put up, in which case they are to deposit the usual Surveyors' fees.
3. The Government Agent, in concert with the Surveyor General, will then make arrangements to have the land surveyed, attending as far as practicable to the desire of the Applicant, but they will in all cases take care, that no party is allowed to pick out only the fertile spots leaving out the inferior land which may intersect the ground—nor to select any lot in such a manner as to injure the adjoining lots—for instance where the boundary of a lot comes near a stream, it should generally be taken as the boundary.
4. No survey of lands not applied for having yet been made, the Surveyor General is to proceed forthwith to survey such tracts of land as it may be desirable to sell immediately, selecting in the first place those in situations where applications have been most numerous.
5. The surveys, when completed, will be lodged in the Surveyor General's Office, where they are immediately to be marked off in a general map, and charts and registers shall be kept for public inspection at the office of the Surveyor General, and the respective Government Agents, in such form and manner as to exhibit to all persons applying for the same, full and authentic information of all appropriations of land and all surveyed lands not appropriated.
6. Any lots so surveyed, which the Government may deem it proper to sell, may be applied for, and will be put up to sale under the conditions published from time to time.
7. No surveys of insulated lots are to be made without special directions from Government.
8. The Surveyors are to lot off as expeditiously as they can, the tracts of land they are sent to survey, paying particular attention to the direction contained in the 41st clause of Her Majesty's Instructions; they are also carefully to note the character and description of soil of each lot, and all streams, remarkable rocks, or summits of hills by which the boundaries of the lots may be more readily identified, with such further information as may appear useful for the information of purchasers,

also any lines of road which it may appear advisable to mark off as principal roads.

9. In cases where any high road, already made or proposed to be opened, intersects the tract of country to be surveyed, it will be advisable to give the lots adjacent a frontage to the road, and the same may often be the case in regard to streams of any magnitude.

10. The Surveyors will not, without special directions from Government, leave one part of the country to commence a survey in another, so long as there are any tracts of land applied for and remaining unsurveyed, on which it may be considered desirable to survey.

11. Sales are to be made in all cases where it is practicable at the Government Agent's Office, and if necessary, once a month.

12. All such sales are to be made after public notice in the Government Gazette, by Proclamation signed by the Colonial Secretary by the Governor's command.

13. The days of sale will be fixed for the different stations with the view as far as possible of the sales at one station not interfering with those at another.

14. The above are the rules under which it is intended that the survey of waste lands shall be conducted in future.

15. When any claims are made to portions of land under survey, the Government Agent will take steps to bring such claims to decision as speedily as possible, without waiting till applications are made.

16. In submitting applications, the Government Agents will be careful to state the upset price they recommend to be fixed under the Advertisement of 13th April 1839 and the 41st and the 42d Clauses of Her Majesty's Instructions, and they will not submit any offer for acceptance, nor let any purchaser into possession of the lands, until the 42nd Clause of Her Majesty's Instructions have been fully complied with.

17. The purchase money and fees for enrolment are to be paid to the Government Agent, and upon his giving notice to the Colonial Secretary, he will cause the necessary grants to be prepared and enrolled with surveys duly authenticated by the Surveyor General attached, and transmit them to the Government Agents for delivery.

18. Government Agents are directed to make every effort to procure correct returns of Government waste land in their Provinces, with reports of the nature of the soil and all other information which may be of use to Applicants for the purchase of waste land.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, 3d August 1841.

Col. Secretary.

An officer obtaining a commission in any corps of cavalry or infantry of the line, or fencible corps, is to be charged with the fees thereof by the regimental or district Paymaster, or by the Agent, accordingly as he shall commence receiving the pay of his new appointment from the one or the other. Where the fees, or a proportion thereof, shall have been received by the Paymaster, he is immediately to remit the same to the Agent.

Second the Paymaster, or Agent by whom the officer's pay shall have been first issued, cease to issue the same previously to the payment of the full amount of the said fees, he is immediately to signify what proportion thereof shall have remained unpaid, to the Paymaster, or Agent, by whom the officer's pay is likely to be issued in future; who is to receive the same accordingly, and to remit it to the agent, by whom the fees shall have been paid."—*Vide collection of Regulations dated War Office 35th April, 1807, page 162.*

\* It has been generally assumed that the theory of "the king never dies," has been in practice since the Norman Conquest; consequently William I's reign has been usually dated from the day of the battle of Hastings, October 14 1066, and all subsequent reigns from the death or deposition of the previous king. But the reigns of the first eight kings after the Conquest did not commence till their coronation. The principle of hereditary right was first distinctly recognized on the accession of Edward I, whose reign, however, did not commence till the day on which he was proclaimed king, four days after his father's death. The reign of Edward IV is dated from the day on which he deposed Henry VI; but it did not become law and practice to date a reign from the death of the previous king until the accession of Edward VI, on the death of his father Henry VIII.—a practice only since interrupted by the events following the death of Charles I and the expulsion of James II.

Total Population .. .. 130,786,355

Total Shipping belonging to the Colonies, 6,075 ships, 497,793 tons ; employing 34,020 men.

Of the total Exports or Imports of the Colonies to all parts there is no official account published, nor is there any separate account of the Colonial produce imported into this country, by which its amount can be ascertained by any but the Custom-House authorities. Mr. Martin, in his work on the Colonies, gives the following amounts —

Total Exports from the Colonies to all parts .. .. £29,953,000

Of which to Great Britain .. .. 14,276,500

Total Imports from all parts into the Colonies .. .. £25,545,500

Of which from Great Britain .. .. 9,935,800

But these are evidently incorrect at the present time, for the Export of British and Irish Produce and Manufactures from the United Kingdom to the Colonies, in 1839, exclusive of India, amounted to .. .. £11,489,707

India .. .. 4,748,607

Total .. .. £16,231,314

N. B. Stated exclusive of the late addition of 5 per cent.

Besides these a protective duty of about 120 per cent. is imposed on hides and skins; furs also are protected, if from North America (chiefly Hudson's Bay). Spice, and in short all tropical productions, have likewise high differential duties in favour of the colonies.

#### PROTECTING LAWS IN FAVOUR OF BRITISH SHIPPING.

The above List shows the amount of protection which is given to the productions of our Colonies against Foreign Competition in British Markets, but the protection to British Shipping is of a still more important and conclusive character.

I.—No Foreign Vessel can be engaged in, or in any way interfere with our Coasting Trade.

II.—No Foreign Vessel can import into this Country for Home Consumption any other than the Produce of its Own Country; for instance—a French Vessel cannot load a cargo of Tallow at any Russian Port and import it into the United Kingdom for Home Consumption. It may bring such a cargo here and warehouse it, as is the case with many articles, but it must be re-exported, and cannot be entered for consumption in this country. If the Grower cannot carry his own produce the English must, but no other is permitted.

III.—In some instances, as in the case of Olive Oil, the Duty is even prejudicial to the right of the Grower to carry his own produce, for the Duty, if imported in a British Ship, is £4 4s. per tun; but if in a Ship belonging to any of the subjects of the King of the Two Sicilies, £6 6s. per tun.

IV.—Our Fisheries are in like manner protected from Foreign interference. The Duty on Whale Oil, if caught and imported by a British Vessel, is *one shilling* per tun; if Foreign, £26 12s. per tun.

V.—No article, the produce of our Colonies, can be imported and entered for Home Consumption in any other than British Ships manned by British Seamen.

*Such is the great principle which runs through our Navigation Laws. It laid the foundation, and has been the cause of all our maritime greatness.*

## THE EMPIRE OF INDIA.

THE British Empire on the Continent, of Asia is without a parallel in the history of the world. At the commencement of the 17th century a few English merchants skirted the coasts of the far famed peninsula of Hindostan, as humble suppliants to establish mercantile residencies on its fertile and wealthy soil, and in 1602. "*The United Company of Merchants trading to the East Indies*" are in possession of a territory extending over more than a million of square miles of the richest portion of the earth, and exercising dominion over an active and intelligent population of one hundred millions of souls, which they have restored from unheard of anarchy and bloodshed to comparative order, peace, and prosperity. The following outline of its history may be serviceable to the reader:

1599. Dec. 31. The first charter of the company was granted by Queen Elizabeth, and bears this date.

1606. Only three ships had been fitted out.

1608. The company subscribed £33,000 for a fourth voyage.

1616. The company raised a new capital of £1,629,400. Among the subscribers were sixteen dukes and earls, thirteen countesses, eighty-two knights, including judges and privy councillors, in all, 954 subscribers.

1632. The Mogul Emperor Shah Jehan granted permission to the English to trade and establish a factory at Pepley, a port in Orissa, now almost washed away and scarcely to be discovered.

1635. Charles I. granted a licence to Sir Wm. Courten and others to trade where the existing company had no settlements, but it led to such collision that shortly after a compromise was effected.

1639. The spot on which Madras now stands five miles along shore and one mile inland, was ceded to the company, with permission to erect Fort St. George.

1653. The East India trade was thrown open by Cromwell, but in 1657 he found it expedient to reinstate the company in all their privileges. Madras was raised to the rank of a presidency, the military force of which consisted of twenty-six soldiers, which the directors in 1654 ordered to be reduced to ten.

1656. Owing to the skill of an English doctor (Boughton,) the company received the Mogul's sanction to establish a factory on the right bank of the Hooghly.

1661. Charles II. granted a new charter. The Island of Bombay was ceded by the Portuguese to Charles, as part of the fortune of the Infanta Catherine.

1665. The company commenced a trade with China, and among the orders to their factors at Bantam, in 1667 was, "100 lbs. weight of the best *say* he could gett."

1668. Charles II. transferred to the company the Island of Bombay, for which they agreed to pay to his Majesty £10 in gold every year, on the 30th day of September.

1669. The company received two caskets, containing 143½ lbs. of tea, which is supposed to have been the first importation of this article. It was given away in presents, and used in the refreshment of their committees.

1676. The accumulation of profits enabled the company to double their capital.

1683. Bombay was erected into a Presidency.

1686. The exactions of the Mahomedan officers brought about a rupture with the English chief at Hooghly, and on the 20th of Dec. the company's factors quitted the place considering it insensible, and removed their residence to Chuttanutty village, now Calcutta, containing 1,500,000 inhabitants.

1687. The native population had flocked into the company's settlement at Fort St. George and the city of Madras to such an extent, that, on taking the census, it amounted to 300,000 souls.

1696. The company obtained permission to erect defences round their factories.

1698. The Government being in want of money, established a rival Joint-stock Company.

1700. The company paid Azim Ushaun, Viceroy of Bengal, a large sum for the township of Chuttanutty and the adjacent lands of Calcutta and Govindpoor.

1702. Under Lord Godolphin's arbitration, a union of the two contending companies was effected under their present title.

1704. The whole stock of the company was removed to Fort William, the garrison of which consisted of 129 soldiers, only 66 of whom were Europeans.

1707. Fort William was erected into a Presidency.

1746. Sept. 7. The English Garrison of Fort St. George, amounting to 200 soldiers, surrendered to a strong French Force under Labourdonnais.

1749. It was restored to the company at the peace of Aix la Chapelle. During the occupation of Madras by the French, the company carried on their concerns at Fort St. David, a fortress on the sea coast, about 100 miles from Madras.

1756. The company up to this time had carried on a peaceable and prosperous trade, but they were now attacked by Musom Surrajee and Dowlah, who invested and captured the company's factory of Fort William, placed Mr. Holwell and his 145 companions in the "Black Hole," only eighteen feet square, and in less than twenty-four hours, not more than twenty-four Englishmen, and those prisoners, remained of the British Presidency in Bengal.

1757. Feb., 2. The company, after a sanguinary battle, recovered possession of Calcutta, and strongly fortified it. They concluded a peace with Surrajee, but this was of short duration, for Colonel (since wards Lord) Clive, having reduced several of the French settlements, and discovering that Surrajee was intriguing with the French for the destruction of the English, resolved on attacking him, and on the 22nd of June he came up with him, and fought the celebrated battle of Plassy; with only 2,000 Sepoys and 900 Europeans he utterly defeated Surrajee, at the head of 50,000 foot, 12,000 horse, a body of French officers, and fifty pieces of artillery, and took the Nabob prisoner. The loss on the part of the English, were eight Europeans and sixteen Sepoys killed, and twelve Europeans and thirty-six Sepoys wounded. From this extraordinary battle may be dated the downfall of French influence and the commencement of the British Empire in India.

1758. The French attacked Fort St. David, and on the 1st June razed it to the ground. They then proceeded to again attack Madras, but, on the arrival of a reinforcement from England, they precipitately retreated, and on the 14th Jan. 1761, were made prisoners by Colonel Coote.

1765. The Mogul Emperor resigned all pretensions to Bengal, Bahar, and Orissa, for an annual stipend of £325,000 sterling.

1767. Hyder Ali wasted part of the company's territory with fire and sword.

1779. The company presented to the nation three 74 gun ships, besides a large sum of money in bounties to 6,000 seamen.

1780. At the head of 90,000 men, Hyder Ali approached Madras, and carried on a war with the company, with varied success, till he died in 1782.

1784. Mr. Pitt carried a bill, placing the Government of India under the Board of Control.

1792. Lord Cornwallis invested the formidable fortress of Seringapatam in Feb. with 41,000 men and 86 guns, in front of which Tippoo Saib gave battle, with 50,000 chosen infantry and 5,000 cavalry. The result was his utter defeat, with the loss of 23,000 men in killed and wounded, the surrender of half his dominions, the payment of four millions, and the delivery of his two sons as hostages.

1794. Tippoo received back his children and immediately commenced intriguing against the English.

1798. The Marquis Wellesley was appointed Governor General, under whom General (afterwards Lord) Lake broke the Mahratta confederacy, and by his success in arms a vast accession of territory accrued to the company.

1799, Feb. The Marquis Wellesley declared war against Tippoo Saib. Colonel Wellesley (now his Grace the Duke of Wellington) led the attack on the Sultan's army, which lay within thirty miles of the fortress of Seringapatam. He completely routed it, and compelled Tippoo to take refuge in the fortress, before which the British army encamped on the 5th April. On the 4th May, at one P. M., a storming party under the gallant General Baird, moved to the attack; the parapet was soon gained, and the fortress carried with immense slaughter. The body of Tippoo Saib was found among the dead. The Marquis Wellesley took possession of his dominions, and thereby added a great extent of territory to the company's possessions.

1803, Sept. 30. General Wellesley fought the battle of Assaye, and with 4,500 men attacked and defeated the Mahratta forces, consisting of 50,000 men, assisted by a well organized French artillery. General Lake also, with a similar force of 4,500 men, took up a position under the walls of Delhi, defeated 20,000 Mahrattas and their French auxiliaries, and took possession of the imperial city of Delhi. He also fought many other daring and brilliant engagements, and added 33,000 square miles to the company's territory.

The Great Mogul, his family, and the descendants of Tippoo Saib, were placed on the pension list of the company.

During the alarm of an invasion, the company came to the resolution to present the nation with 10,000 tons of shipping to guard the coast and to be maintained at their own expense.

1804. Lord Lake captured the formidable fortress of Bhurtpore, and reduced Holkar to such extremities that, although his standing army amounted to 150,000 cavalry, 40,000 foot, and 200 pieces of artillery, he was obliged to flee, almost unattended, for his life.

1813. An act passed, opening the trade to India, under certain restrictions, to private individuals, but continuing the exclusive Monopoly of the China trade in the company.

1817. The Marquis of Hastings took the field at the head of 81,000 infantry, and 33,000 cavalry, with a numerous and efficient artillery. He exterminated the Pindarris, and compelled many states to become tributary to the company.

1826. The Burmese were forced to sue for peace, resign all pretensions to 50,000 square miles of country, and pay 10,000,000 of rupees for the expenses of the war.

1833. The last charter was granted to the company, in which they agreed to place their commercial rights in abeyance, while they hold the political Government and patronage of India, which is extended by this charter to the 30th April 1854.

The court of Directors enjoys full initiatory authority over all matters at home and abroad relating to the political, financial, judicial and military affairs of the company. But its proceedings are subject to certain acts of Parliament, to the superintendence of the Board of Control, and in several matters to the approval of the Court of Proprietors.

*Court of Directors*—Consist of twenty-four persons, chosen by the proprietors, who must hold £2,000 of the company's stock. Six directors retire annually by rotation and are eligible after twelve months' absence, thus the proprietors have a review of each director every four years. He must not be a director of the Bank of England or South Sea Company, and by a by-law of the company, is liable to be removed if he should promote his own or the elevation of any other director by promises of reward, collusive transfer of stock, or payment of expenses, or receive any pecuniary or other remuneration whatever for any appointment in his gift or patronage as a director.

*Proprietors*.—Holding stock for twelve months, to the extent of

£1,000	is entitled to one vote
3,000	„ two „
6,000	„ three „
10,000	„ four „

At a recent calculation, the number of proprietors was 3,579. Persons holding stock to the extent of £500 are allowed to debate on any question, but cannot vote; and all under £500 can neither debate nor vote.

*Preamble.*

WHEREAS it is expedient to amend the Ordinance No. 16 of 1840, entitled An Ordinance "For the better regulation of Servants, Labourers and Journeymen Artificers under Contracts for Hire and Service."

*Former Ordinances repealed.*

1. It is therefore hereby enacted by the Governor of Ceylon, with the advice and consent of the Legislative Council thereof, that the said Ordinance No. 16 of 1840 shall be and the same is hereby repealed, except in so far as it repeals any other Ordinance, or part of any other Ordinance, and except in so far as respects all Offences which have been heretofore committed against the same.

*Term of verbal Contract of a Servant, &c.*

2. And it is further enacted, that every verbal or unwritten Contract or Agreement for the Hire of any menial or domestic Servant or Labourer in the Service of Government or of any Person or Persons, except for any Work usually performed by the Day, by the Job or by the Journey, shall be deemed and taken in Law to be a Contract or Agreement for Hire and Service for the period of at least one month, and to be renewable from month to month, and shall be

deemed and taken in Law to be so renewed by the parties, unless a Week's previous notice or warning be given by either party to the other of his or her intention not to renew the same, and the Wages for such Service shall be payable monthly, and any Master, Mistress or Employer shall be entitled to discharge any Servant or Labourer from his or her Service under any such Contract or agreement without previous notice, provided such Servant or Labourer be instantly paid his or her Wages for the time he has served, and also for fifteen days from the time of such discharge. Provided always, that any such Contract or Agreement may at any time be determined by the Misconduct of either Party in their relative capacity of Master and Servant, which may be proved by either Party against the other.

*Term of verbal Contract for Journeyman Artificer.*

3. And it is further enacted, that every verbal or unwritten Contract or Agreement for the Hire according to Time of any Journeyman Artificer (where no special Contract or Agreement for any shorter Period shall be made and duly proved), shall be deemed and taken in Law to be a Contract or Agreement for the Hire of such Artificer for One Day, and no longer.

*If Service continued after Contract.*

4. Provided always, that nothing in the two preceding Clauses of this Ordinance shall be construed to prevent any Servant, Labourer or Journeyman Artificer, who may continue in the Service of his or her Master, Mistress or Employer beyond the Period for which any verbal or written Contract or Agreement entered into by him or her is respectively declared binding only in Law, as aforesaid, from recovering his or her Wages according to the full Period or Time of his or her being in such Service; Nor to prevent any similar subsequent verbal or unwritten Contract or Agreement being respectively implied in Law from the Continuance of such Service, or otherwise.

*Written Contracts to be signed by and explained to parties.*

5. And it is further enacted, that no Contract or Agreement for the Hire or Service of any menial or domestic Servant or Labourer, to be employed in the Service of Government or of any Person or Persons for any longer Period of Time than One Month, nor for the Hire or Service of any Journeyman Artificer, for any longer Period than One Day, shall be good and valid in Law so as to subject any party thereto to the Provisions of this Ordinance for not performing the same, unless such Contract or Agreement shall be in writing and shall clearly express the Terms or Conditions thereof, and shall be signed by both Parties, or, if they cannot write, by some Person or Persons duly authorized, by them; and unless every such Agreement or Contract be also acknowledged by such Servant, Labourer or Artificer in the presence of one or more Witnesses, who are hereby required in every such case to previously explain or cause to be fully explained to the said Servant, Labourer or Artificer the Terms of such Contract and Agreement, and to certify on the back thereof that such Servant, Labourer or Artificer fully understands the Terms of such Contract or Agreement, and is desirous to fulfil the same.—Provided always, that every

*Written Contract how determinable.*

written Contract or Agreement for the Service of any Servant, Labourer or Journeyman Artificer for any longer Period than One Month shall be determinable by either Party on One Month's previous Notice, unless any other Period for such Notice be stated in such Contract, or some other Agreement be expressly made therein to the Contrary.

*Ordinance not to affect Contract for more than one year.*

6. And it is further enacted, that no contract or agreement in writing for the hire or service of any menial or domestic Servant, Labourer or Artificer shall be valid and binding under the provisions of this Ordinance, if made for a longer period of hire or service than one year. Provided always, that nothing in this Clause contained shall prevent a renewal of such contract or agreement from year to year, nor affect any contract or agreement whatever entered into for any longer period which does not fall under the provisions of this Ordinance.

*Servants, &c. refusing to work or guilty of Misconduct.*

7. And it is further enacted, that any menial or domestic Servant, or Labourer or any Journeyman Artificer who, without reasonable Cause, shall neglect or refuse to attend at and during the Time and Hours, or at the Place where and when he shall have contracted or agreed to attend, in commencing or carrying on any Work, or, in case of no special Contract or agreement in that Behalf, during such Hours as, according to their respective Trades and Occupations, it shall be usual so to attend, or who, without reasonable Cause, shall leave unfinished, or refuse to finish any Work contracted to be done, or who shall be guilty of any Drunkenness, wilful Disobedience of Orders, Insolence, or gross Neglect of Duty, or other Misconduct in the Service of his, or her Master or Mistress, or Employer, or who shall quit the Service of such Master or Mistress, or Employer without Leave or reasonable Cause, before the end of his or her Term of Service or previous Warning as required by the Second Clause of this Ordinance or of such longer Period as may be specially stipulated in his or her Contract, shall be punishable at the discretion of the District Court by Forfeiture of all Wages then due, if not exceeding the Wages of One Month, or for the Period of Warning specially stipulated for, and in addition thereto, by Imprisonment, with or without hard Labour at the discretion of the Court, not exceeding three months.

*Servants &c. engaged for a Journey deserting or guilty of Misconduct.*

8. *Penalty on Employers refusing without cause to act up to Contract.*

768 = 192 = 48 = 16 = 8 = 1 Ammonam.

7200 = 1800 = 375 = 150 = 75 = 37½ = 1 Last.

The English Bushel is equal to 34 Seers or 1 Parrah and 10 Seers.

## THE NATIVE LAND MEASURE.

Lahas.

8 = 1 Coornie.

80 = 10 = 1 Pey'a.

320 = 40 = 1 = 1 Ammonam.

Among the Natives the extent of Land is defined by the quantity of Seed required to sow it, computed at the Ammonam Measure and its subdivisions. In fertile Lands the Seed is not sowed half so thickly as in poor soil; an Ammonam of good ground therefore will sometimes measure twice as many square feet as an Ammonam of poor soil.

## SANATORIUM OF CEYLON.

## NUWERA-ELLIA.

NUWERA-ELLIA was first brought into notice and established as a Sanatorium in 1828 by the late Lieut. General Sir EDWARD BARNES, then Governor and Commander of the Forces in Ceylon—His Excellency's attention having been drawn to it by the report of some Officers accidentally directed here while on a shooting excursion by the Natives. Sir EDWARD shortly afterwards visited it in person, when the lowness of its temperature and the apparent salubrity of its climate, suggested to him the advantages that might be derived to the Command from its being made a Convalescent Station. At this period it was quite uninhabited, the only evidence of former occupancy being the remains of a small Building supposed to have been a Temple; the approach to it was difficult, consisting merely of a foot path used by the Natives who came here for the purpose of Elk hunting. It is situated on the Southern half of the Island, so far inland that in no direction is it nearer the sea than fifty miles, and is a table land at an elevation of 6200 feet, surrounded by lofty Hills which are covered with jungle to their very summits, the highest of which (being the most elevated point in Ceylon) rises 2000 feet above the Plain, for such an appellation has been applied altho' incorrectly to Nuwera-Ellia; a ridge of Hills running from S. W. to N. East, divides it into two unequal portions, the larger one being about  $2\frac{1}{2}$  miles in length and  $\frac{3}{4}$  in breadth; through this a considerable Stream, formed by the union of several smaller ones from the neighbouring Hills, flows in a serpentine course, and forms one of the principal sources of the Mahaveliganga River; the other portion, in which the Military Buildings are situated, is an extensive ravine—the sides consisting of undulating hillocks; this is much exposed to the violence of the S. West Monsoon, which often blows with terrific violence at this elevation; there is a third division of intermediate size, which is a bleak barren and lifeless waste—the soil is a black peat or substrata of Gravel, Marl and Caluk; no Lime stone is found nearer than eight miles from the Plain—the soil when cultivated is very prolific, yielding almost all European Vegetables in abundance and of excellent quality; Wheat, Barley and Oats have also been cultivated on a small scale. Its botanical productions are nearly allied to those of the temperate regions; the Rhododendron is scattered in great abundance over the Plains and neighbouring Hills, while in the Flower Garden may be seen the Mignonette, the Dahlia, Heart-ease and a most every variety of the Rose—the long continued rains, with the absence of any decided change of season, will probably prevent the successful cultivation of most European Fruits; the Peach seldom ripens and the Cherry tree scarcely blossoms—the Barbary, Bramble and wild Raspberry are however, abundant, and Strawberries are little inferior in flavour to those at home. There are excellent Roads from Galle, Colombo and Kandy on the one side, and from Badulla on the other; from Galle the distance is about 184 miles, from Colombo 112, from

Kandy 48 and from Badulla 36—this as well as its being in the neighbourhood of a rich and fertile Country, and being abundantly supplied at all seasons of the year with excellent Water, may be considered as decided local advantages.

The present Establishment consists of a Commandant, two Subalterns and a Medical Officer; one Subaltern commands the Detachment of European Troops, the other is stationed 12 miles off, in immediate command of a Company (Cassrees) of the Ceylon Rifle Regiment, who are employed as Pioneers on the Roads; the average number of European Soldiers (including Convalescents) is about 70, the Cassrees about the same number. The Military Buildings consist of a Commandant's and 2 Subalterns' Quarters (one occupied by the Officer commanding the Detachment, the other by the Medical Officer), a good Barrack capable of containing 100 men, and a Hospital capable of containing 18 patients; these Military Buildings have unfortunately been placed in a most ineligible position, completely exposed to all the violence of the S.W. Monsoon, and scattered as much as the extent and nature of the ground would admit of—the Commandant is nearly half a mile from Barracks, and the Medical Officer, for many months in the year, has almost to wade through a swamp to get to his Hospital, which is fully a quarter of a mile, from his Quarter. The Cutcherry and Commissariat are also at a distance from Barracks, the former half a mile, the latter nearly a mile, which causes much unnecessary exposure to the men when mounting and being relieved off Guard. The duties of the Troops consist in furnishing daily, the Main, Cutcherry and Commissariat Guards—the number of men on Garrison duty being 12; there are also Garrison fatigues according to the established rules of the Service; formerly the men when off duty were allowed to work for the private residents, but this system has been very properly put an end to, as the additional facilities thereby afforded for intemperance, rendered it highly prejudicial to health and discipline; part of the Detachment, however, are still employed under the Royal Engineer Department, as the difficulty of procuring native labour renders their employment on the public works indispensable.

In addition to the Military Buildings there are several private residences, as well as a Rest-house, Cutcherry Establishment, Jail, &c. and the Bazaar is, now of considerable extent, the Natives who inhabit it having betaken themselves to the cultivation of Potatoes for which they find ready and profitable markets in Kandy and Colombo.

It now remains to add, what may be considered of the greatest importance, viz. a few remarks on the Physical and Medical qualities of the climate, and we may observe that in the salubrity of its climate, this Station is perhaps unsurpassed by any within the tropics; here in the immediate neighbourhood of the Equator, even Solar heat is rarely unpleasant, while the temperature in the shade is generally much below the summer heat of England; the mean annual temperature may be taken as at 6 A.M. 53½ noon 63½ 6 P.M. 60½

The seasons are divided into the wet and dry, the former corresponding to the S. W. the latter to the North East Monsoon—the wet season consequently prevails from May to November or December, the dry from the latter to the former period. The Thermometer never rises in the shade beyond  $74^{\circ}$ , while during the dry season when clear calm nights succeed brilliant days, it may often be seen in the open air at daylight down to  $35^{\circ}$ , the grass covered with frost and ice half an inch in thickness. During the setting in of the South West Monsoon heavy and continued rains prevail, but when their violence has somewhat abated, the weather at this season, though gloomy, is pleasanter and probably more healthy than during the other period of the year, during which, a cloudless sky causes (in the open air) extreme degrees of the Thermometer; but even then, with a tropical and at times vertical Sun shining in all his meridian splendour, the Europeans may be seen employing themselves in the open air, at all hours, without any protection from his rays. During a period of three years during which I have been in Medical charge, I have seen no bad effects from solar heat to which men, women, and children (the latter generally with bare heads) so unhesitatingly expose themselves. With all these advantages, however, the climate though delightful after the heat of the Coast, wonderful and invaluable within the tropics, has no pretensions to be considered English—its influence on the healthy constitution is stimulant and exciting, improving the appetite and digestive organs, and producing an increase of bodily and mental energy; but here, as in all Mountain climates, there is a sense of dryness and constriction of the skin, the inevitable consequence of diminished atmospheric pressure, and which as has been well remarked, must always, not only distinguish Climate cold from elevation from those whose temperature is the effect of Latitude, but must also render them inferior in therapeutic efficacy; notwithstanding this however, as a Sanatorium, Nuwera-Ellia has been found of considerable benefit to this Command, and many individuals, who, in the absence of such a climate in the Island, must have returned to Europe, have by a residence here been saved the trouble and expense of such a step. Cases, however, have occurred (and not a few) that have progressed so slowly as to render an entire change of climate and above all a sea voyage indispensable—even in these latter, perhaps a more timely removal to this climate, might have had more beneficial effects. The diseases most likely to be benefited by a residence here, are functional derangements of the gastric, hepatic, enteric and nervous systems unaccompanied by organic lesion—fevers uncomplicated with local affections—debility arising from tedious convalescence or long residence within the tropics, and almost all the diseases of children—the chief advantage however, to be derived from a temporary residence, is more the prevention than the curing of disease; by a residence of four months during the hot season the constitution is invigorated and braced, thereby enabling it to resist more effectually those derangements which are the usual effect of long continued high temperature on the various organs and functions of the European constitution—this applies especially to children whose delicate frames

so frequently succumb; in a tropical climate, under those acute attacks incidental to Intancy in all situations—and whose constitutions are generally rendered permanently weak and delicate by birth and long continued residence in a tropical climate.

*Nuwera-Ellia, 26th December 1842.*

NOTE—The results of the cases of two Officers, the one lately and the other still under my care, have increased my favourable impressions of the restorative powers of the climate of Nuwera-Ellia—the first mentioned was a case of ununited fracture of the arm of six months standing; two months' residence here produced firm and complete bony union—the other case was a compound and comminuted fracture of the right Patella, of so serious a nature that a less favourable climate must have rendered amputation necessary to save life; it was thought prudent in this climate to make an attempt to save the limb, and the result is most satisfactory—in several other cases of fractures both of the upper and lower extremities, I have always found union to proceed most favourably.
