- On page 209—insert against Code No. 114 "Kakuwelligama B. D."
- On page 212—insert against Code No. 297 "Yakgahapitiya"
- On page 241—insert after Kaithady C. D. "Kakuwelligama B. D., S. H. S., Colombo 114"
- On page 258—insert after Wewagampattu C. D. "Weweldeniya B. D., S. H. S., Colombo 113 & Yakgahapitiya C. D., S. H. S., Kandy 297"

RULES REGARDING REQUISITIONS, INVOICES AND BILLS

INSTITUTIONS will draw their supplies of Drugs and Materials and Printed Forms twice yearly. All requisitions for Drugs and Materials should be drawn up with the aid of this Price List, and the Stock Reference Numbers (S. R. Nos.) given against each item should be quoted except in the case of Section "J" items. Issues to Institutions will be made only from Sections A, B, C, D, H, J, OP and Q.

A. Divisions of Civil Medical Stores

The Civil Medical Stores is divided into the following Sections for the convenient issue of drugs, instruments and other articles stored therein.

Section A—Drugs (Solid).

Section B—Drugs (Liquid).

Section C—All other Drugs not coming under A and B, Biologicals, Dressings and Materials.

Section D—Surgical Instruments, Appliances and Equipment.

Section DU—Instruments Repair.

Section E—Despatch.

Section F—Reserve Stores.

Section G—Preparations.

Section H—Provisions, Medical Gases and Empty Cylinders.

Section I—Work Shop.

Section J—Printed Forms and Counterfoil Books.

Section OP—Opium and Dangerous Drugs.

Section Q—Quinine and other Anti-Malarial Preparations.

B. Requisition Register

(i) Separate requisitions should be prepared for each Section. Requisitions for each Section should be registered separately in a register opened for the purpose and a running serial number given for each requisition by the institution. The approximate cost of items appearing in the requisitions should be noted in column 4 of this register by reference to this Price List. This register should contain the following particulars:—

- (1) Serial No.
- (2) Date.
- (3) Section.
- (4) Cost.
- (5) Initials of Indenting Officer.
- (6) Invoice Number.
- (7) Date of Invoice.
- (8) Date of certifying Received Copy of Invoice.
- (9) Initials of Certifying Officer.
- (10) Bill Number.
- (11) Actual Cost.
- (12) Date of Certifying Bill.
- (13) Initials of Certifying Officer.

A.M.N. Suriyabandara
Provincial Superintendent Pharmacist
Uva Provincial Directorate of Health
Badulla

(ii) The Institution Code Number allotted by the Civil Medical Stores appearing in this Price List and this Serial Number should be quoted in all Requisitions sent to Civil Medical Stores for compliance.

(iii) Requisitions or Indents for special items (non stock items) which are to be obtained locally or from abroad and supplied to the institutions by the Superintendent, Civil Medical Stores should also be recorded in this register and a Serial Number given for same. The prices of Special Items, obtained for particular institutions and not shown in this Price List, should be entered on the blank leaves at the end, by the Officer-in-Charge of the institution concerned.

(iv) Since requisitions are not required for Gas (Oxygen, &c.) supplied by the Civil Medical Stores, all institutions should note in the Requisition Register the despatch of the Cylinders for refilling by allotting a Serial Number and posting up columns 1 to 5.

(v) Heads of Decentralised Units should see that all requisitions received by them from institutions bear the Institutional Code Number and the Requisition Register Serial Number before they are forwarded to the Superintendent, Civil Medical Stores for compliance.

C. Requisitioning Dates

The half yearly requisitions are due at the Civil Medical Stores on the following dates: --

<i>S. H. S. Area</i>		<i>1st Half Yearly</i>		<i>2nd Half Yearly</i>	
Colombo	} March	1	..	October 1
Kalutara		15	..	October 15
Puttalam and Chilaw	March 15	..	October 15
Kurunegala	May 1	..	November 1
Ratnapura	} May	15	..	November 15
Kegalla		1	..	November 1
Kandy	} June	1	..	December 1
Matale and Tamankaduwa		15	..	December 15
Badulla and Nuwara Eliya	June 15	..	December 15
Mannar and Mullaitivu, Vavuniya, Anuradhapura and Trincomalee	} July	1	..	January 1
Batticaloa		15	..	January 15
Galle	} August	1	..	February 1
Matara and Hambantota		15	..	February 15
Jaffna	August 15	..	February 15

D. Allocation

(i) The expenditure of every institution will be limited by an allocation controlled by the Heads of Decentralised Units.

(ii) There will be one allocation for Drugs, Surgical Instruments, Quinine and Opium and a separate allocation for provisions (Milk Foods, Barley, &c.)

(iii) The period covered by the allocation is the Financial Year.

E. Half Yearly Supplies

(i) Excepting Quinine, Sera and Oxygen, the requirements for the half year (the cost of which should not exceed half the allocation) will be obtained on the half yearly requisition (Form Health II) and it should not be necessary to submit any supplementary requisitions except in abnormal circumstances. The Officer-in-Charge should regulate the consumption so that it is kept within the half yearly supply. Great care must be taken in drawing up the half yearly requisitions. All instructions on the form must be complied with. Special items should

not be included in this form. Balances on items partly supplied on half yearly requisitions by the Civil Medical Stores should be applied for on the special form (Health 108) sent for the purpose. These should bear the original serial number in addition to the new serial number. All requisitions other than those on (Form Health 108) should be forwarded to the Civil Medical Stores through the Heads of the Decentralised Units.

(ii) Supplementary Requisitions on Form Health 166 may be forwarded for items not supplied at all on the half yearly requisitions as directed by the Superintendent, Civil Medical Stores, through the Head of the Decentralised Unit. These should also bear a serial number.

F. Estimating Requirements

In the case of hospitals and dispensaries the half yearly Expenditure Record (Form Medical 629 or 630) should be examined as a guide in estimating the requirements for the half year. Definite quantities of certain items may be fixed by the Heads of Decentralised Units as the half yearly supply for certain institutions. In such cases the Officer-in-Charge will be notified and such quantities must not be exceeded.

G. Available Balance

On every requisition there must be entered the:

Denomination of quantity: _____.

Already expended: _____.

(in that Financial Year)

Now in stock: _____.

Now required: _____.

Value: _____.

H. Supplementary Requisitions

(i) These should only be necessary in exceptional circumstances and for essential items. Form Health 166 should be sent for the purpose. Separate requisitions should be sent for each Section and also bear a registered number as indicated in B (ii) of these instructions. This form should also be used for special items.

(ii) It must be clearly explained why the half yearly supply was not sufficient. "None in Stock" and "Stock Low" are not explanations. Increased attendance must be supported by figures.

I. Telegrams

(i) Telephoning of requisitions should as far as possible be avoided. Telegrams are generally only necessary for Sera and Oxygen urgently required and should be used only in an emergency.

(ii) When a telegram appears to be unjustified the officer responsible will be called upon for an explanation.

(iii) A covering requisition as per B (ii) of these instructions should be forwarded through the Heads of Decentralised Units in all cases where applications have been made either by telephone or telegram to the Civil Medical Stores.

J. Invoices and Despatch

Invoices will be sent in duplicate by the Civil Medical Stores. The consignee's copy will be sent in the package and the receipting copy by post. Non receipt of any of these copies by the institution should be immediately reported to the Superintendent, Civil Medical Stores. The articles on receipt should be checked carefully with the invoice and the receipting copy should be returned to the Civil Medical Stores duly receipted within three days of receipt. Columns 6 to 9 of the Requisition Register as per para. B should be posted at the same time.

The stores will be despatched by rail or by post (small packages). The responsibility of the Civil Medical Stores ceases with the correct delivery of the stores to the Railway or Postal authorities or consignees taking delivery at Civil Medical Stores. In case of breakages and losses in transit, the full quantity invoiced should be taken on charge and acknowledged by the institution and authority should be obtained from the D. H. S. (Accounts) through the Head of the Decentralised Unit to write off such breakages or losses. A full report regarding the nature of breakages or losses should be forwarded to the D. H. S. (Accounts) through the Head of the Decentralised Unit and the Superintendent, Civil Medical Stores. No remarks should be made on the body of the invoice.

K. Correction Slips

Correction Slips will be issued from time to time. These will be numbered in serial order. All Officers in Charge of institutions should see that these are filed in serial order of the serial number after making necessary alterations in the Price Lists. Non receipt of Correction Slips should be intimated to the Head of the Decentralised Unit.

L. Settlement of Bills

(i) Bills for goods supplied on invoices by the Civil Medical Stores will be rendered monthly in duplicate to the Heads of Decentralised Units together with a summary for settlement. One copy of the bill will be sent by him to the institution concerned for certification. On receipt of the bill at the institution, the Officer in Charge will fill in columns 10, 11, 12 and 13 of the Requisition Register referred to in para B (i), certify the bill and return it to the Head of the Decentralised Unit with the least possible delay.

(ii) All payments to the Civil Medical Stores will be credited to the Impersonal Account—Civil Medical Stores Advance Account through the monthly summary and an Advice of Credit forwarded to the Superintendent, Civil Medical Stores in terms of F. R. 391. If the bill is not settled in full a detailed statement showing the amounts settled and the amounts yet to be settled should also be furnished by the Paying Officer with the Advice of Credit to the Superintendent, Civil Medical Stores.

M. Recovery in Case of Loss

(i) The prices given in this Price List are based on the Invoice Cost. A further 10 per cent. to cover up Ocean Freight and Packing Charges will be included in the bills by the Superintendent, Civil Medical Stores, at the time they are rendered to the institutions for settlement. For recovery in case of loss a further 40 per cent. should be added to make up the recoverable cost (i.e., Customs Duty 15 per cent. and Departmental Charges 25 per cent.). As Customs Duty is not charged on T. B. Drugs, in arriving at the recoverable cost 15 per cent. Customs Duty should not be included.

(ii) If the lost article was purchased within the Financial Year, the cost plus 10 per cent. and the departmental charges 25 per cent. recovered should be credited to the Head of Expenditure from which it was purchased, and the Customs Duty 15 per cent. should be credited to Head I, Sub-head 1 (9). If the article was purchased during the previous years, the recovery (cost plus 10 per cent. and the 25 per cent. Departmental Charges) should be credited to Head XI—Sub-head 1, Sale of Old Stores, &c.

N. Weighing of Solid Drugs and Fluids

(i) All solid drugs are issued by Avoirdupois Weight, and all fluids, with the exception of strong Acids, Aether, Chloroform Anaesth., Glycerine and Ichthammol by measure, i.e., 16 fluid ounces to 1 lb. Tetrachlorethylene is issued in bottles of 500 cc.

(ii) Quantities of a quarter pound and over are priced at pound rates. Quantities under a quarter pound at ounce rates.

O. Using of Ampoules, Sera and other " dated " Biological Products

(i) As it is necessary to conserve stocks of " DATED " biological products and use them before they became out-dated, all officers should note carefully the date of expiry of such products, when supplied by the Civil Medical Stores or M. R. I.

(ii) If any of these products are not frequently used in any institution, the Officer in Charge, should arrange to return the unused preparation to Civil Medical Stores or M. R. I. at least one month prior to the date of expiration and obtain a fresh supply.

(iii) This will enable the supplying officer to issue the returned supply to other institutions where these products are in frequent use and so prevent waste.

(iv) Products which have already become out-dated should not be returned to the Civil Medical Stores, but should be entered in an unserviceable return and dealt with in the same manner as unserviceable Surgical Instruments, which are condemned by a Board of Survey.

(v) All officers should therefore note this requirement and take order accordingly. Officers in Charge of Institutions will be held responsible for any loss caused to Government by failure to observe these instructions.

D. L. J. KAHAWITA,
Director of Health Services.
