General Notes of the weather at Cochin, the temperature about 86° Fahr. monthly variation never exceeding 3° Fahr.

JANUARY.

This month may be conveniently taken as the commencement of the meteorological as well as of the civil Year. The rains which accompany the setting in of the N. E. monsoon are usually just over, the soil is moist, the sky is clear and the nights cold, with an along-shore or land wind blowing, which must be guarded against.

FEBRUARY.

The along-shore wind (a strong parching wind from the N. E.) often continues to blow the greater part of this month night and day. It carries off the moisture of the ground and the skin rapidly and gives rheumatism &c. to those who expose themselves incautiously to it. The difference between the wet bulb and the dry thermometer sometimes amounts to 12°.

MARCH.

The dry earth now receives far more heat from the sun than it parts with by evaporation or terrestrial radiation. The weather is becoming very warm. The calmness of the ocean however and the alternate sea breezes by day and land winds by night give a pleasing variety. But the heat is oppressive compared with that of the rest of the Year.

APRIL.

Indications of the approach of the S. W. monsoon are to

be observed in a ground swell in the sea and S. W. breeze more steady than the sea breeze of last month. The temperature however continues to rise and all who can afford it obtain leave or escape are among the mountains, some time ago.

MAY.

By the middle of this month genial showers usually begin to fall. The wind is steadily in the S. W. and towards the close of the month there are usually thunder and lightning every afternoon in the S. W. with heavy showers, each preceded by a squall.

JUNE.

It now rains heavily with squalls from the S. W. The sky is often clouded for a fortnight; but it seldom rains 24 hours without intermission.

JULY.

The rains are now over and a steady S. W. wind blows day and night, perfectly balmy and innocent, the difference between the wet and dry thermometer seldom exceeding 6°.

AUGUST.

Weather the same as July but somewhat warmer in consequence of the smaller amount of evaporation.

SEPTEMBER.

Weather the same as July and August but still warmer in consequence of the still smaller amount of evaporation. These months are usually cool however compared with March April and May and towards the end of this month heavy showers usually fall, which are thankfully accepted.

OCTOBER.

The first half of this month is usually marked by rains which are very heavy though of short duration. By these the air is cooled and the soil refreshed, though extensive inundations often result.

NOVEMBER.

The pleasant weather of the latter part of October is usually continued to the middle of this month when thunder clouds gather every afternoon in the N. E. and night rains fall followed by land winds. It is the N. E. monsoon.

DECEMBER.

The Rains from the N. E. of the preceding month often continue during this, usually with much thunder and lightning and with alternate sea breezes and land winds so that the new year usually sets in with the soil saturated with moisture and cooler than at any other time, from the enjoyment of which however the along-shore wind now set in a blowing fresh detracts not a little.

The Year 5608 of the Jewish Era commences on September 11, 1847.

Ramadan (Month of Abstinence observed by the Turks) commences on August 13, 1847.

The Year 1264 of the Mohammedan Era commences on December 9, 1847.

ECLIPSES.

On the 1st of April, a partial Eclipse of the Moon visible in Ceylon, commencing at 22m. past 1 in the morning and ending 29m. past 3 A. M.; about one-fourth of the Moon's northern limb eclipsed.

On the 15th of April, a partial Eclipse of the Sun visible over the south-eastern extremity of Ceylon (invisible at Galle or Batticaloa;) it will commence at Hambantotte at $\frac{1}{2}$ past 11 and end at noon, and will require very good instruments to distinguish it, as it is little more than a mere contact of the limbs.

On the 24th of September, a partial Eclipse of the Moon visible in Ceylon; it will commence a little after the Moon rises at $\frac{1}{4}$ to 7 P. M. and will end at 9 P. M. about 2-5 of the Moon's southern limb eclipsed.

On the 9th of October, an Eclipse of the Sun visible in Ceylon, commencing at 29m. past 11 A. M. and ending at 9m. past 4 P. M.; about 8 digits will be Eclipsed. This Eclipse will be central and annular across the centre of India about latitude 18°.

CHRONOLOGICAL CYCLES.

Dominical Letter.....	C	Julian Period.....	6560
Epact.....	14	Roman Indiction.....	5
Golden Number.....	5	Solar Cycle.....	8

The Solar Cycle, or Cycle of the Sun, is a period of 28 years, in which all the varieties of the Dominical Letters will have happened, and they will return to the same order as they did 28 years before. This Cycle commenced 28 years before the Birth of Christ.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden Number, (and sometimes the Metonic Cycle, from Meton, an Athenian, who invented it about 432 years before the Birth of Christ,) is a revolution of 19 years; in which time, the conjunctions, oppositions, and other aspects of the Moon, are within an hour and a half of being the same as they were on the same days of the months 19 years before. The prime, or Golden Number, is the number of years elapsed in this Cycle. At the Birth, the Golden Number was 2.

The Roman Indiction is a period of 15 years, used by the Romans for the time of taxing their provinces. Three years of this Cycle had elapsed at the Birth of Christ.

The Julian Period contains 7980 years, and arises by multiplying together 28, 19, and 15, being the Cycles of the Sun, Moon, and Indiction. This was also contrived as a period for Chronological matters, and is assumed as a correct and fixed rule in calculations, by all the astronomers and chronologists throughout the Christian world. Its beginning is supposed to have commenced, 710 years before the usual date of the creation of the world, or 4714 before the commencement of the Christian Era.

The letters for the first, second, and third years after every bissextile, are the three single letters placed under the double letters, in the same column with the bissextile they immediately follow. For example, as the Dominical letters for 1600 were B A, so the Dominical letter for 1601 was G, for 1602 F, and for 1603 E. So for 1796 the Dominical will be C B; consequently, 1797, 1798, and 1799 must have A, G, and F; and the letter for 1800, (which is to be accounted a common year,) will be E; therefore 1801, 1802, and 1803, must have the subsequent letters D, C, and B; and then 1804, being bissextile, will come under the letters A G; and from thence every fourth year will be Leap-year.

Under the word years, find the year; above which is the Dominical letter for that year: then against the months find the same letter, over which are placed the days of the month, for every Sunday in the month. In Leap-year, for January and February, use the letter above the blank space before the year; for all the rest of the months, use the letter for the year.

To find out when it is Leap-year, divide the year by 4; if there is no remainder, it is Leap-year; and if any remainder, it is 1, 2, or 3 years after Leap-year.

The Longitude is derived from that of Madras, and other well fixed positions on the Coast, from runs of the *Mechelle Curacao* and *Rye-later*. A comparison of very exact observations made during the year 1810 has required the Longitude formerly given to be increased 6".

On superscription to be written, "Immediate" when it will forthwith be attended to.
- 2.—The Chairman of the Committee, on receiving an application for Loan will forward the same together with the Title-deeds to the Trustees, who if satisfied as to the legality, will cause the property to be appraised, and examine the securities as to their sufficiency.
- 3.—On the Trustees acquainting the Committee that they are satisfied with the security tendered, the applicant will be entitled to receive as a loan one-third, and in case he gives two or more securities, two-thirds of the sum at which his property may have been appraised.

4.—The applicant must deposit with the Accountant the appraisers' fees on the sum applied for, at the time of making his application; but should a Loan of less amount than that applied for be sanctioned, the surplus fees will be returned.

LOAN OFFICE.

TREASURER TO GOVERNMENT
REGISTRAR OF THE SUPREME COURT
G. M. PARSONS, Esq. 2001 } Commissioners.

RULES.

1st.—Respecting Loans

1. The titles must be produced, where real property is offered as security.

2. The articles themselves, where gold, silver &c. is offered.

3. The property hypothecated must appear to be equal in value, if real property, to one-third more than the sum required to be borrowed; or, if it consists of gold, silver &c. one-fourth more. But if the property offered for hypothecation by the borrower, fall short of that amount, the property of another person, may be received to make up the deficiency. In such case, the person so contributing must be a party to the bond, which will state the circumstance of the case.

4. Every applicant must, besides the property hypothecated, enter into a bond with two securities for the repayment of the principal sum borrowed, whenever the same shall be demanded, and of the interest as it becomes due.

5. Each of the sureties will be required to give such an account of his property as may satisfy the Board that he is worth the amount of half the sum borrowed, after payment of all his debts; and should the Board deem it necessary, he shall be required to make affidavit to the truth of his statement.

Original rules framed in accordance with an order of the Supreme Court, dated 16th July 1834.

Order of the Supreme Court dated 21st November 1833.

Original rules as above.

6. If the borrower should be unable to procure persons to become securities for him, the Board will at its discretion waive this condition on the borrower pledging property to double the value of the sum required.

If either of the securities should not have property to the value of the sum borrowed, others may be added, not exceeding four in all, to make up the deficiency.

Where the securities intend to rely on landed property in procuring themselves worth the sum required, they should bring with them the title by which they hold such landed property, (provided it be not mortgaged) when they attend for the purpose of justifying.

Original rules as above.

7. A certificate, a copy of which will be given by the Clerk of the Board, must be obtained from the Collector of the District, (Agent of the Province) in which the applicant resides, that neither himself nor either of his securities is a Government Debtor or Security for a Government Renter.

Order of Court—
21st November 1833.

In all cases in which the Board may deem it necessary, the oath of the parties (principal or security) will be required, in addition to the Collector's certificate, to the effect that he is not a Government Debtor or Renter, or Security for any such persons.

Original rules as above.

8. The property offered for hypothecation must in all cases be valued at the expense of the applicant by appraisers to be appointed by the Board; and the applicant must, if required, deposit with the Clerk of the Board the percentage, to which the appraisers will be entitled, and which, will be settled by the Board.

N. B.—The rate allowed in ordinary circumstances is $\frac{1}{2}$ per cent on the amount of the Loan.

Order of Supreme Court dated 15th December 1833.

Government Regulation No. 9 of 1824.

9. The Interest to be paid on all Loans is 7 per cent, which is to be paid monthly; in default of whichparate execution may be taken out for the recovery of the same.

2d Respecting Dividends of Interest.

Order of Supreme Court dated 21st November 1853.

1. The Loan Board will have one head of account with each Court; such account shall include all sums in deposits from that Court, whether the same be Suitors' monies, Estate monies, or otherwise; but the Loan Office will only take account of the aggregate sum.

2. The accounts of the Office will be made up, and the interest divided quarterly, commencing from 1st January 1854.

3. Every pound sterling of principal, which has been for one complete quarter available for the purpose of making Loans, shall be entitled to a dividend of the Interest; such quarter is to be calculated from one dividend day to the subsequent dividend day, (i. e. 1st January, 1st April, 1st July and 1st October.

4. Dividends shall not be calculated of lower fractions than one farthing on a pound sterling of principal, and any sum, the retaining of which would render such calculations necessary, shall be set over till the next dividend day.

5. The funds of the Weeskamer and Boedelkamer shall be kept separate from the accounts of the different Courts—the interest derived therefrom being wholly paid over to Government.

6. At the end of each quarter the Board will audit the accounts of the interest received, and declare the dividend to be allowed; in the first place setting over two-sixth thereof to the use of Government, towards the expenses of the establishment, as heretofore.

7. The surplus fund which has been accumulated by deductions from interest received in former years and now amounts to £720 or thereabouts, or about 8 per cent on the capital lent out; and as it is equitable that the Cash in the District Courts, now about to receive the protection of that fund, should contribute towards it, a deduction of one-sixth of the interest received on monies from District Courts shall be made quarterly, until such deduction shall have accumulated to a similar amount per cent on the principal sums

Government Regulation No. 6 of 1827 Clause 4.

lent out on account of those Courts; after which such deduction shall cease, and the whole shall be formed into one general fund to provide for unforeseen losses of principal lent out.

8. After the deductions have been made the residue of interest received shall be divided as declared in the 4th and 5th Rules: and the amount set over to the credit of each Court according to the total sums which they may have in deposit, and entitled to interest under article 3.

N. B.—The average rate of Dividends (eighteen in number) paid over to the use of the Intestate Estates and Suitors since the establishment of the Loan Office in 1824 amounts to six pounds two shillings per cent per annum, but as the rate of interest charged on Loans has been reduced from 9 to 7 per cent it is not expected that future dividends will average more than 5 per cent per annum.

The leading features of this Company are Participation in the Profits and lower rates of Premium than those of most Societies which do not give Profit to the assured.

The division of one half of the Profits at the end of every five years amongst the first thousand Policy holders who are assured for the whole term of life, in Sums amounting to £500 and upwards, and amongst the first thousand annuitants who have paid £500 or upwards for their annuities.

To the Purchasers of Annuities this Society holds out advantages never before offered, a much higher rate than can with safety be granted from English investments, and participation to the extent of one half in the profits as above stated, including those of Life Assurance, for which an equivalent additional Annuity will be granted, at each quinquennial rate.

Premiums charged for residence in India are immediately reduced to the English Scale on the return of the Assured Life to England for permanent residence.

The rates upon which Policies are granted, and any information as to the details of the Company, to be obtained upon application to.

The Society is supported by voluntary monthly contributions and occasional donations. Its design is to relieve by pensions or otherwise cases, which, upon the personal investigation of the visitors, are considered real objects of charity. Strangers in distress have also received its aid, many of them having had the means afforded them to return to their native country. The circumstance of the society continuing prosperous enables it to meet all claims in the sphere of its operation. The society has now on its list 34 fixed and 2 provisional pensioners.

Sick paupers are admitted and treated in the society's hospital a commodious and well ventilated building, with separate wards for the accommodation of patients of different sexes, according to the character of the diseases. The patients are regularly attended by the resident medical attendant, and have also the benefit of the advice of the consulting surgeon. They are directed under the immediate supervision of one of the members of the hospital Sub-committee, are clothed at the expense of the society, and are also allowed every medical comfort the nature of their respective cases requires—medicine is also afforded gratuitously in particular cases to out-door patients.

The Committee have lately made arrangements for the establishment at Trincomalie of a general dispensary under the auspices of the Friend-in-Need society, on the same principle as that of the Colombo General Dispensary. The society expect to receive its stock of medicine (for which application was made to England in June last) before the end of this year.

The Committee meet for the transaction of business at the Trincomalie Government Rest-house (late Trincomalie Library) on the first Monday of every month at 6—30 P. M.

The Society for the Propagation of the Gospel in Foreign Parts
was incorporated by Royal Charter, in the reign of KING WILLIAM
III, A. D. 1701, for receiving, managing and disposing of such funds
as might be contributed for the religious instruction of His Majesty's
Christian subjects beyond the seas, for maintaining Clergymen in the
British Colonies, Plantations and Factories, and for the general pro-
pagation of the Gospel. It has been engaged in its appointed sphere
of duty for upwards of 141 years; and during a whole century, it
was the only Missionary Society in connexion with the Church of
England. In regard to its constitution, it is under the immediate
control of the Bishops of the United Church and is uniformly
conducted on Church principles.

The Society has at present in its employment, Missionaries in the
four grand divisions of the British Empire, viz., North America, West
India, East India and Australia, and the whole number on its List
amounts to 302, besides 230 Catechists and Schoolmasters; indepen-

dently of all which its funds are made available for supporting Colleges and building Churches and Schools. It was in 1818 that the Society extended its operations to the East. Here it has more than 82 Missionaries in its service. It has moreover established a College at Calcutta, called BISHOP'S COLLEGE, for the education of an indigenous Clergy, and the diffusion of sound and useful knowledge; and Grammar Schools at Madras for the instruction of the middle and lower classes.

At COTTA there is an Institution called the *Christian Institution*, where a number of Youths, of good promise selected from the other schools, are boarded and educated, with a view to their becoming useful Schoolmasters, Catechists, and Assistant Missionaries. This Institution contains *Twenty-two* Youths. The course of study pursued by them comprises Singhalese, English, (including Grammar, Composition, History, and Geography) LATIN, GREEK, ARITHMETIC, ALGEBRA, GEOMETRY, and THEOLOGY. There is also a Preparatory class, connected with this Institution, containing *Six* Boys.

At CHUNDICULLY there is a *Seminary* containing *Twenty-five* Youths, and another at BADDAGAMA, containing *Fifteen* Youths. From these Seminaries, Youths are selected for the COTTA *Christian Institution*.

The Youths in the *Christian Institution* and Preparatory class at COTTA, and in the *Seminaries* at CHUNDICULLY and BADDAGAMA, amounting to *sixty-eight* are boarded and educated at the expense of the Society, with the exception of a few who pay a monthly sum towards defraying the expense of their board.

At KANDY and at NELLORE there are *Female Boarding Schools*, the former containing *Thirteen*, and the latter *Thirty-three* Girls. The expense of these two Schools is borne, partly by the Society, and partly by Subscriptions and Donations.

The Holy Scriptures, and the Book of Common Prayer, have been translated into the familiar Singhalese, and printed at the

Cotta Press besides many elementary School Books, and a large number of Religious books and Tracts, which have been gratuitously circulated among the Natives.

It is proposed to form a Church Building Society in connection with this Mission, for the purpose of erecting churches in villages connected with the different Stations, where the inhabitants of such villages may request them, and where they themselves come forward with such readiness and liberality to further the object, as shall, in the judgment of the Committee justify them in rendering the desired assistance. To this fund, the contributions of both European and Native Inhabitants are solicited.

The Wesleyan Institution at Jaffna has been strengthened by the addition of two European Missionaries recently appointed by the British Conference.

The course of study adopted in the Day and Boarding Schools includes, in addition to the ordinary branches of a plain education, Ancient and Modern History, Algebra, Geometry, Natural Philosophy, the Elements of Mental and Moral Science, and Latin.

BAPTIST MISSION.

The Baptist Missionary Society has in the Island 4 European, and 19 Native Missionaries who occupy two principal and 20 Sub-stations. Besides these agents there are 45 Schoolmasters and other Native Assistants. In 44 Schools instruction is given to about 995 children in their vernacular tongue. English is also taught in 3 of them. At Colombo there is a School in which 12 Singhalese girls are boarded, clothed, and educated gratuitously and at Kandy there is a Day School for girls in which English only is taught. The Stations are supplied with Tracts and School Books from the Mission Printing Office at Kandy, where both Letter Press and Lithographic Printing are done. In all the Stations the Gospel is regularly preached in the Singhalese Language, to which in some, are added Portuguese and Tamil; and, in the 2 Head Stations, English. The Coffee Estates around Kandy and Matelle are visited by Tamil preachers and Tracts distributed among the Coolies. The Mission is entirely supported by voluntary contributions received here and in England. The following List will show the number of Stations, and by whom each one is occupied.

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to direct that the Government Advertisement of the 13th April 1839, the Notice of the 29th May 1841, the Minute of 3d August 1841 and the Minute of the 29th June 1844 be cancelled, and that in lieu thereof the following Rules be observed in respect to the Survey and Sale of Crown Lands.

1.—All Crown Land will be Sold by Auction, and no Waste Land will be exposed for Sale at a price below Twenty Shillings per acre.

2.—The Government Agents, in conjunction with the Principal Officer in charge of the Survey Department, will make arrangements for bringing forward for Sale, from time to time, such portions of Waste Land as they may consider expedient.

3.—The preceding Rule shall not be held to preclude parties desirous of purchasing any particular tracts of Land, from applying to the Government Agent for the Sale of them accordingly. But the Government Agent will exercise his own discretion in respect to complying with any such application—and the applicant will not be at liberty to enter upon the Land for any purpose without his permission. It will also be distinctly understood that the making such application will give the applicant no claim whatever to the Land, if put up to Sale, in preference to any other person.

4.—The boundaries of all Crown Land will be cleared by Officers employed by the Principal Officer in charge of the Survey Department—and the expenses attending the same will be recovered as hereafter mentioned.

5.—The following Fees will be recovered by Government for Surveys executed under the directions of the Principal Officer in charge of the Survey Department.

9.—The Sales will be held when practicable at the Government Agent's Office once a month, after public Notice by Proclamation in the Government Gazette—and care will be taken to prevent the days of Sale in the several Provinces from interfering with each other.

10.—On the day of Sale the Government Agent will specify, in three separate items, the upset price of the Lands, the expense of clearing the boundaries and the Fees for Survey recoverable under this Minute—and will stipulate that the two latter must be paid in full by the purchaser on the day of Sale, together with 10 per cent on the amount actually bid for the Land.

11.—The balance of the purchase money must be paid within one month from the day of Sale, and in default of such payment the sale will be considered void, the 10 per cent will be forfeited and the Government will be at liberty to re-sell the Land.

12.—The Colonial Secretary will be entitled to the following Fees for the preparation of the Title Deeds.

On all grants of Land sold for a sum not exceeding £5—one shilling.

On all grant of Land sold for more than £5—four per cent. But he is in no case to receive more than forty shillings for any one grant.

And the Secretary of the District Court of the District in which the Land granted shall be situate, will be entitled to a fee of five shillings for enrolling the grant.

13.—On the receipt of the purchase money in full and of the Fees allowed by the preceding Rule, the Government Agent will apply to the Colonial Secretary for a grant in Duplicate. One Copy shall be delivered to the purchaser, who shall forthwith be put in possession of the Land, and the other enrolled in the District Court.

14.—The Crown reserves to itself the right of making and constructing such Roads and Bridges as may be necessary for public purposes in all Lands purchased as above, and also to such indigenous timber, stone and other materials, the produce of the Land, as may be required for making and keeping the said Roads and Bridges in repair, and for any other

public works. The Crown further reserves to itself all mines of precious metals.

By His Excellency's Command,
Colonial Secretary's Office,
Colombo, 22d November 1845.

P. E. WOODHOUSE,
Act. Col. Sec.

MINUTE BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to direct that the following rules for the payment and adjustment of Costs attending the Survey of Lands intended to be brought to sale, be substituted for those laid down in the Minute of the 7th October 1844.

The Treasurer will, on his application, furnish the Principal Officer in charge of the Survey Department with the necessary funds to meet the expenses of Survey; and he will debit these sums as Advances, for the settlement of which the Principal Officer in charge of the Survey Department will be responsible.

The recovery of these sums from the purchasers of Land will be made by the Government Agents and remitted to the Principal Officer in charge of the Survey Department, and by him forwarded to the Treasurer in liquidation of the Advances outstanding.

If any Land is not sold within one year from the date of its being advertised for sale, the expense of Survey on account of such Land is to be brought to account as a Charge by the Principal Officer in charge of the Survey Department—in order to which it will be necessary in all cases, that proper Vouchers should be obtained for every payment as incurred.

Should any such Land be afterwards sold, the costs of Survey recovered are to be paid by the Principal Officer in charge of the Survey Department to the Treasurer to be accounted for as an Incidental Receipt.

The Principal Officer in charge of the Survey Department will transmit to this Office quarterly a Return of all unsold Lands, the expenses of surveying which shall have been charged as an expenditure—making a note of such as may have been subsequently sold.

He will also furnish the Auditor General with a quarterly Account of all payments made by him out of the Advances received from the Treasurer, and of the recoveries on account—accompanied by a separate Account of the payments finally brought to account, and of the recoveries since made.

These rules are not however to apply to the Advances already made to Government Agents by the Treasurer, which they will settle in terms of the Minute of the 7th October 1844—returning to him any Balance that may be now in their hands.

By His Excellency's Command,
Colonial Secretary's Office,
Colombo, 24th November 1845.

THE NATIVE LAND MEASURE.

Lahas.

8 = 1 Coornie.

80 = 10 = 1 Peyla.

320 = 40 = 4 = 1 Ammonam.

Among the Natives the extent of Land is defined by the quantity of Seed required to sow it, computed at the Ammonam Measure and its subdivisions. In fertile Lands the Seed is not strewed half so thickly as in poor soil; an Ammonam of good ground therefore will sometimes measure twice as many square feet as an Ammonam of poor soil.

In the name of Her Majesty VICTORIA, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith:

PROCLAMATION.

By His Excellency Lieutenant General Sir COLIN CAMPBELL, Knight Commander of the Most Honorable Military Order of the Bath, Governor and Commander in Chief in and over the British Settlements and Territories in the Island of Ceylon with the Dependencies thereof.

C. CAMPBELL.

WHEREAS by an Ordinance No. 10 of 1843 entitled "An Ordinance for the Establishment of Courts of Inferior Civil Jurisdiction to be called Courts of Requests;" it was enacted that it shall be lawful for the Governor for the time being by any Proclamation or Proclamations to be by him for that purpose from time to time issued to establish Courts of Inferior Civil Jurisdiction which shall be called Courts of Requests and shall exercise Jurisdiction and be holden within such limits as the said Governor in such Proclamation or Proclamations shall appoint, and to revoke after and amend any such Proclamation or Proclamations as occasion may require.

And whereas by a certain other Ordinance No. 11 of 1843 it was enacted that it shall be lawful for the Governor of the said Island with the advice of the Executive Council by any Proclamation or Proclamations to be by him for that purpose issued to establish from time to time Courts of Inferior Criminal Jurisdiction to be called Police Courts which shall be holden and shall exercise Jurisdiction within such limits as shall be specified and defined in such Proclamation or Proclamations and from time to time to revoke after and amend any such Proclamation or Proclamations as occasion may require. And we do further direct and appoint that the said Courts of Kandy and Kurnegalle and of Avishawelle and Madawalatenne and Kurnegalle shall, respectively be holden and exercise jurisdiction

within and over the Districts or Limits set opposite to their names, any thing in the said Proclamation of the First day of October One Thousand Eight Hundred and Forty-five to the contrary notwithstanding.

Given at Colombo, in the said Island of Ceylon this Twenty-fourth day of December in the year of Our Lord One Thousand Eight Hundred and Forty-six.

By His Excellency's Command,

“GENERAL POST OFFICE.

“SIR,

London, 30th September 1846.

“Much inconvenience and delay being frequently experienced, in consequence of parties residing in the British Colonies and other parts abroad (who may have occasion to complain of undue detention of their letters, or of such letters, being charged with a higher amount of postage than that to which they are liable,) omitting to forward to this office, with their complaints, the covers of the letters so delayed or overcharged; the Postmaster General is pleased to request that whenever application is previously made to you on the subject, (and in all cases when you have an opportunity of recommending the proper course to be pursued,) you will point out how important it is that the covers should invariably be transmitted; as much time will then be saved in investigating the complaint, and material assistance will be afforded to this department in ascertaining where the error has occurred.

I am, Sir, &c. &c.

W. L. MABERLY,”
