

*Jaffna District
Statistical Hand Book
2011*

District Secretariat Jaffna
Annual Publication

Jaffna
Statistical Hand Book
2011

*District Planning Secretariat,
Jaffna.*

Preface

I am pleased to present the statistical hand book for the year 2011 in time and in an attractive size. The information's in the handbook reflect the changes that had taken place in the District due to the Government far sighted planning of assistance. I am confident the document will provide the necessary information for the planners, humanitarian, recovery and development workers by which needs of the District population could be efficiently met.

I do take this opportunity to thank the Mrs.R.Mohaneswaran Director Planning, Mrs.S.Kularanjani Development Coordinator, District Planning Secretariat Staff, Divisional secretaries and Local heads of Departments who had actively provided the necessary information in time.

I do have to thank the Local Governance Programme Senior Staff and also the secretary and Addl. Secretary of Ministry of Public Administration and Home Affairs for granting financial support for the printing of the hand book .

I do have to thank the UNDP Early recovery unit for providing the necessary assistance and Mr.K.Partheeban for his relentless support in the divisional GIS map preparation work. These maps with the administrative boundaries and land use will be an immense use for all.

Kindly make use of this hand book for your future planning endeavors. I do welcome creative comments for future improvement.

We do have pleasure to share the PDF version on request by e mail to dpsjaf@slt.net.lk

Mrs.Emelda Sukumar,
Government Agent / District Secretary
Jaffna District.

Chapter 1: Geographic Features

Location and Area

Jaffna District is the northern end of the Northern Province of Sri Lanka, about 410 km away from Colombo. It consists of the peninsula and seven inhabited Island. North, East and west boundaries of the District are Indian Ocean, South is Jaffna Lagoon and Kilinochchi District. The total land area including Island waters is 1025 Sq.km. Jaffna District is divided into four Sub divisions. They are Islands, Valikamam, Thenmaradchi and Vadamaradchi. The Land in Jaffna District could be characterized as flat with less than 5% slop. There are over 631 ponds and 2.433 ditches scattered all over the District with connected channels to conserve rain water. Excess water easily drained into the sea/lagoon. The levels are Point Pedro 15.24m. Myliddy 10.8m. Chankanai 3.04 m, and Kokuvil 6.09m above the Sea level.

Climate

Jaffna District falls under dry zone. Peak rainfall is during the months of October to December during North East Monsoon and the Scattered during April to May. The inter Monsoon rain is uncertain. The District received 14,666 mm of rain during the year 2010. The average temperature during the year fluctuated between 25.50 and 31.70 centigrade with an annual average of 28.60 centigrade.

Soil

The soil and water resource of the Jaffna Peninsula are both related to the lime stone geology of the land. The soils are formed on the marine deposits and sendiments under the influence of sea waves and winds on lime stones. Tile lime stone being a porous rock is the source of ground water for the Peninsula.

Well drained and high productive calcic Red Yellow latasol and

Red Yellow latasol soil types are found in central areas (60,000 Ha). Alkalin saline soil and Regasol are found in costal areas (26000 Ha) and Alluvial soil is in Valukai Aru area (10000 Ha). In Certain areas coral lime stone is available. This different soil types offer scope for cultivation of exotic as well as local crops. Tile depth of soil varies from 90cm - 150cm.

Water

Jaffna peninsula has a source of Ground Water store in the Sub terrain layer of limestone. The limestone is the main aquifer. This aquifer has several isolated caves and caveins capable of storing ground water without evaporation losses. It is a excellent aquifer. The entire ground water is generated from percolated rainfall and it forms a fresh water lens beneath the peninsula. It is found that the fresh water lens do not extend below the base of the lime stone. The fresh water lens is sustained by the buoyancy of fresh water in relation to sea water. Difference in density, (1.0, 1.025) giving a ratio of 40:1. That is every meter of fresh water above the sea level requires a depth of fresh water lens of 40m when no mixing between fresh and sea water takes place. There is no sharp interface between fresh and sea water.

Ground water recharge has been viewed as a function of effective rainfall in the Jaffna Peninsula, this occurs only during the annual monsoon rainfall during the period September to January. After losses by direct run - off (about 10-15 percent), only 30 to 32 percent of the rainfall is left over for ground water recharge. In the past three decades the quality of water in the region has deteriorated due to various reasons. Variability of the rainfall over the region has directly contributed to this as rainfall is the only source of recharge.

The ground water in Jaffna peninsula is in danger due to salinity problem. A significant factor that has contributed to increased salinity in the well water has been the indiscriminate extraction of water from the underground aquifers. This has been exacerbated by the increase in population and the rapid rate of extraction using

pumps both electric and kerosene driven for domestic and agricultural purpose. Because of low fresh water heads in the under ground aquifers large amount of withdrawals from wells cause heads to further decline and the fresh water salt water interface to rise resulting in salt intrusions in several areas in the peninsula. The Intensive agricultural pattern adopted in the last three decades also led to the increase of salinity in the water. Several wells once used to supply potable water are not in use now due to the increase of salinity.

The unrestricted use of insecticides, pesticides and chemical fertilizers unplanned latrine construction has led to the pollution of underground water.

It is an essential to study the ground water hydrology in the peninsula to provide suitable and sustainable potable water to the people in salinity prone area.

Valukai aru

The peninsula has a wet stream (seasonal river) in the western sector called Valukai aru. This surface stream is active only during the height of the monsoon. Valukai aru. starts at Tellipallai west at 20 ft. above sea level in calcic soil. As it goes down towards the sea at Araly it drops in level and its bed becomes clayey. This clay region gets wider and wider as Valukai aru. goes down.

It is 15 km length and it is connected with 45 ponds and several channels. Around 1300 hectors of paddy land and 150 hectors of high land from Tellipalal. Uduvil, Sandillpay and Chankanai DS Divisions are benefited by this seasonal river. Total population of the basin is around 60 000 persons comprising of 15 000 families in which 4950 farm families around 5.000 farm labourers are involved in agriculture and the major crops cultivated in this area are Onion, chilles and vegetables.

Chapter 2: Administrative Divisions

Jaffna District is divided into 15 Administrative divisions (11 Divisional secretariat divisions and 4 Assistant Government Agent Divisions). There are 435 Grama Officers divisions in this District. Seventeen Local bodies (Municipal council- 1, Urban councils - 3 and Pradeshiya saba-13) are functioning in Jaffna district. Activities of the local bodies are water supply and drainage, Health and maternity clinics. Community centers, Public libraries and rural roads etc.

Other Institutions such as Education, Health, Postal, Registrar, Police, Fisheries etc., have their own divisions in the district. Education Department divided the district in 5 zones which are further divided into 15 education divisions, Health Department have 11 MOH divisions. Postal department have 20 Post office division which are further divided into several sub post office divisions etc.

The District was ably administrated by government / District Secretaries. The details are given in table.

Chapter 3

Demography

Population by DS/AGA Division and year 1981, 2001 - 2010

Population by DS/AGA Division, Gender and Sex Ratio 2010

Area and Population Density by DS/AGA Division for 1971, 1981, 2007 and 2010

population by DS/AGA division and ethnicity, 2010

population by DS/AGA division and Religion, 2010

Population by Sector 2010

Population of DS/AGA Division by Age group and Sex 2010

Population by year and Gender 1871 - 2010

Population at Census years 1871-1981, Estimated mid year Population 1996-2007 and actual Population 1998-2010

Vital Statistical Indicators of Jaffna District 1988 - 2010

Number of births registered by DS/AGA division, Registrar division and year 2010

Number of deaths registered by DS/AGA division, Registrar division and year 2010

Number of marriages registered by DS/AGA division, Registrar division and year 2010

Population by Grama Officer's division, Gender and family 2010

Chapter 3: Demography

According to the 1981 census, the population of the District was 831,800 (including Kilinochchi District which was part of Jaffna District in 1981) and based on the natural growth rate, its projected that the population of Jaffna District would be more than 1,000,000 in 2006. But present population collected through DS./AGA divisions for 2010 is 614,342. The difference between projected population and present population is due to following reasons.

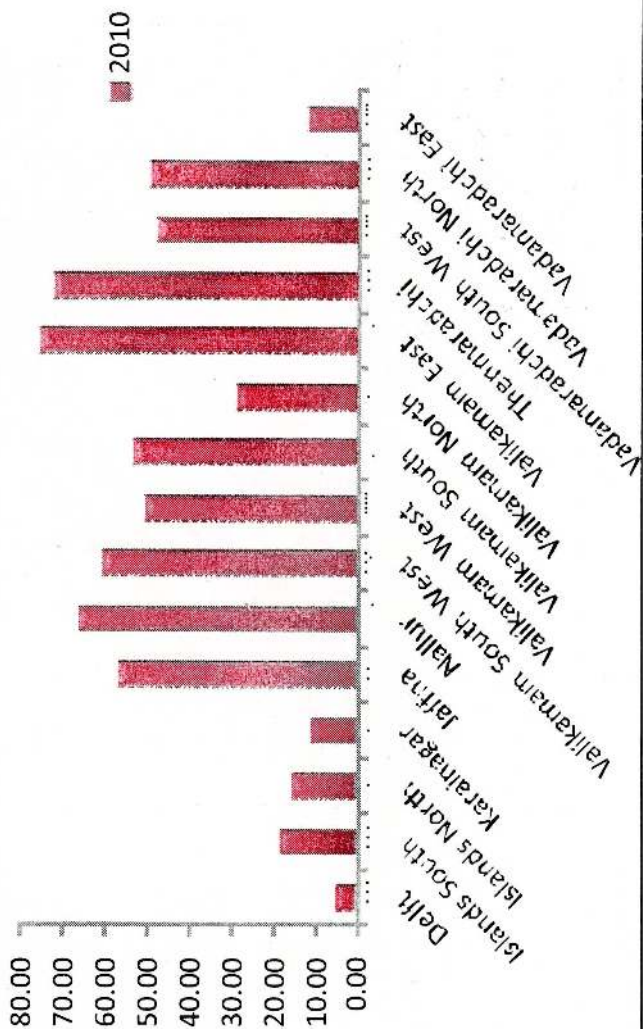

- * Migration to out of the district and foreign countries. Migration to foreign countries such as Canada, Britain, Germany, Norway, Switzerland, India, France etc.
- * The family size is reduced due to frequent displacements of the family members on account of the unsettled conditions. Displacement outside the district but within Sri Lanka (Internal displaced persons) such as Mulaitivu, Kilinochchi, Vavuniya, Mannar and other districts of the country.
- * Decline in natural growth trend.
- * A higher rate of abnormal death particularly among the youth.
- * Delay of marriage among youth.
- * Stagnation of economic developments
- * Unemployment

Table 3.1: Population by DS/AGA Division and year 1981, 2001 - 2010

Chapter 4 : Agriculture, Livestock and Fisheries

Agriculture and Irrigation

Jaffna District is predominantly an agricultural area and always has been an area with high potential in agriculture. Crops such as red onion, chillies, potatoes tobacco, vegetables, banana and grapes cultivated for commercial purpose. Other crops such as paddy, pulse, coconut cultivation in subsistence level, palmyrah, products also a subsistence source of income.

About 62,269 families and 30,408 farm Laborers are involved in agriculture and livestock in the District. In addition a large share of the population is involved in home gardens. Paddy is cultivated in 8,948.5 hectares and other field crops are also cultivated in Jaffna District. About 19,261 agro wells and 2.433 ditches are being used for agriculture purpose.

Paddy is produced during the Maha season order the rain-fed conditions while vegetables are produced nearly all year around under rain-fed or irrigared conditions. Mainly ground water resources are being used for agriculture purpose. There are two Lagoons in Jaffna district. One is Vadamaradchi Lagoon and other is Upparu Lagoon. Vadamaradchi Lagoon is situated in a North South Easternly direction from Thondaimanaru in the North and Chundikulam in the South East. It is about 47 km sea water intruded the peninsula through Thondaimanaru in the North and Chundikulam in the South. The Upparu Lagoon is situated in Atiyalai. It is about 9 km. Originally sea water intruded through Ariyalai at high tide and the lagoon became saline. The Valukkai Aru is the natural stream to rain flood from Thellipalai caused by the North East Monsoon rain through Araly into the sea. It is 13 km long from starting point. There is the tidal well at Nilavarai in Valikamam East division. It is inter connected with underground caverns and solution channels. In addition over 631 small ponds are also in Jaffna district.

Chapter 6. Education

The long tradition of dedication to education and the resulting high priority given to Education from colonial period, Jaffna has been one of the districts with high literacy rate in Sri Lanka. Education is one of the major concerns for the people of Jaffna. The student population is 128529 In 2010 (according to Zonal education offices' figures).

The number of teachers serving In schools In 2010 was 7380 with a pupil Teachers ratio of 17.39 According to Zonal education office figures in 2010. 418 schools are functioning in Jaffna District. Due to the protracted civil war and consequent displacements the education sector suffered set back in teaching, learning process and infrastructure. Still many schools are in high security zone. Major constraints in Implementing the rehabilitation and development programme are lack of adequate financial resources. presence of land mines. inadequate infrastructure. acute shortage of skilled manpower resources, teaching aids and equipment.

Chapter 7: Health

Jaffna Teaching Hospital is the main public health and medical institution for the people of Northern Province and for teaching of medical students of the university of Jaffna and Nursing and midwife students. 42 public health care and medical institutions are functioning under the Deputy provincial Director of health services (DPDHS). 40 Ayurvedic Dispensaries are under local bodies. One Ayurvedic Teaching Hospital is also available at Kaithady. The District is divided into 07 Medical Officers of Health Divisions (MOH) for preventive care services under whom 106 Public Clinics centers are functioning. In addition 8 private Medical institutions and 35 registered pharmacies are functioning in Jaffna District.

The cancer unit, Tellipalai was commenced in 1983 and it served the whole population in the Northern Province. Unfortunately following the conflict situation functions of this unit discontinued and people had to travel to Colombo to receive the cancer care services. After the Memorandum of understanding this cancer unit had been reconstructed with Government and foreign Agencies fund. Now, the Cancer Unit, Tellipalai and Chest Clinic, Jaffna are functioning under the administration of Regional Director of Health Services.
