SRI LANKA DIRECTORY OF ORAL HEALTH 1989

The Sri Lanka Directory of Oral Health 1989, aims at providing comprehensive information relating to oral health facilities and services, which we expect will be of value to both health professionals and the general public.

The data in the Directory is corrected upto 30th June 1989, and was collected by questionnaires followed up by telephone and personal interviews, and from official sources.

The Directory is divided into several sections - administration of oral health facilities; oral health facilities provided by the state sector, the armed services and the university; education and training and professional and voluntary associations.

Within each section the arrangement is by district, and within each district by location. An alphabetical arrangement is followed in all listings.

Alphabetically arranged indexes on consultant dental surgeons, dental surgeons in the state sector and general dental practitioners and hospital dental clinics provide an easy reference to the contents.

Many supported and assisted us in the preparation of this Directory. We thank Dr D.de Fonseka and Dr H.W.M.Cooray for providing access to information on oral health facilities, lists of dental surgeons and making valuable suggestions.

Our thanks are also due to Dr M.H.B.Anandalal, Dr S.F.Jayasinghe, Dr S.Yogendranathan, Dr L.D.Tekuwana, for their assistance.

While every effort was made to ensure the accuracy of data included in the directory, we apologise for any errors and omissions that may have occurred inadvertently, and assure all concerned that these will be rectified in the next edition.

It would not have been possible to compile this Directory without the cooperation of all those who responded so readily to our questionnaires and telephone inquiries and we thank them for giving us their valuable time.

We also acknowledge with thanks the support given to us by our advertisers.

THE LANKA DIRECTORY OF ORAL HEALTH 1989

The Lanka Directory of Oral Health 1989, aims at providing comprehensive information relating to oral health facilities and services, which we expect will be of value to both health professionals and the general public.

The data in the Directory is collected up to 30th June 1989, and was collected by questionnaire followed up by telephone and personal interviews, and from official sources.

The Directory is divided into several sections - administration of oral health facilities; oral health facilities provided by the state sector, the private sector and the university; education and training and professional and voluntary organizations.

Within each section the arrangement is by district, and within each district by location. An alphabetical arrangement is followed in all listings.

Alphabetically arranged indexes on consultant dental surgeons, dental surgeons in the state sector and general dental practitioners and hospital dental clinics provide an easy reference to the contents.

Many suggestions and assistance in the preparation of this Directory. We thank Dr. H. de Fonseka and Dr. H. M. L. Senarathne for providing access to information on oral health facilities, lists of dental surgeons and making valuable suggestions.

Our thanks are also due to Dr. H. M. M. Vithanage, Dr. S. J. Jayasinghe, Dr. S. Jayasinghe, Dr. L. D. Sumanaratne, for their assistance.

While every effort was made to ensure the accuracy of data included in the Directory, we apologize for any errors and omissions that may have occurred inadvertently, and assure all concerned that these will be rectified in the next edition.

HERBAL DENTAL POWDER

Supirivicky®

BASED ON AYURVEDIC FORMULA

"Supirivicky" is a herbal dental powder based on an ancient ayurvedic formula perfected after several years of research and development by Sri Lanka's leading manufacturer of ayurvedic medicinal products - the Siddhalepa group.

Aralu, Bulu, Nelli, Munamalpothu, Sathsanda, Pilamul, Suwandakottan, Madampothu, Velmee and pepper are some of the Ayurvedic drugs used in the manufacture of "Supirivicky".

"Supirivicky" herbal dental powder has effective remedial properties that prevent dental decay, unpleasant odours, acidity and its harmful effects on the protective enamel coating of teeth, loss of taste and appetite due to dental discomforts.

"Supirivicky" herbal dental powder comes in a handy plastic phial for your convenience. You can carry it easily in a travel bag or keep it daintily on the bathroom shelf.

SOUND INVESTMENT
IN DENTAL HEALTH CARE

WHY SO MANY DENTAL SURGEONS
RECOMMEND THAT

Sensodyne (10% STRONTIUM CHLORIDE HEXAHYDRATE)

BE USED DAILY IN PLACE OF
REGULAR TOOTHPASTE FOR TREATMENT OF
TOOTH HYPERSENSITIVITY

SENSODYNE HELPS BLOCK THE
PAIN OF TOOTH HYPERSENSITIVITY

Stain removing toothpolish _

HI·WHITE

Helps remove tobacco stains gently and effectively.
HI·WHITE tackles the stains that ordinary toothpastes leave behind.
The Kaopolite in HI·WHITE breaks down stains caused by food, drink
and tobacco without harsh scratching. Its minty taste leaves your mouth
feeling fresh and clean.
DIRECTIONS: By brushing with HI·WHITE morning and night you will notice
the stains gradually disappear.

Extra Strength
Polident
Denture Cleanser

Power Cleans:
• stubborn stains
• between teeth
• bacterial plaque
• odour-causing film

Teething problems

You can confidently recommend

bonjela

because

bonjela is easy to use

Mother simply puts the pleasant tasting gel on her fingertip and massages it into the baby's inflamed gums, not more often than every three hours.

bonjela is effective

Clinical trials ^{1 2 3} with teething children established efficacy in 85% to 96% of cases and the rapid relief helped to induce a quick return to normal sleeping habits.

bonjela works fast

In a study ² involving 48 teething children (aged 1-3 years) fast relief was shown with 83% of the children obtaining relief in 2 minutes or less and 43% showed immediate relief.

Safety

No side effects have been reported in any of the clinical trials conducted with Bonjela. It produces relief from pain, but avoids the danger of an anaesthetised mouth.

Indication

Infant teething symptoms.

Packaging

Bonjela is available in 10g tubes.

Active Constituents

Choline Salicylate 8.7%

A highly soluble analgesic anti-inflammatory agent

Cetalkonium chloride 0.01%

A non-irritant antiseptic agent effective against gram-positive and gram-negative organisms.

Contra indications

History of salicylate sensitivity.

CLINICAL TRIAL DEMONSTRATES ANALGESIC SUPERIORITY OF CODIS

"A mixture of aspirin with Codeine gave significantly more pain relief over the test period than did a paracetamol - dextropropoxyphene mixture and this in turn was more effective than 50 mg. of pentazocine" (1)

Your prescription for Codis is the clinical assurance of

- **Two way action** — The Codeine in Codis acts on the pain receptors in the brain while aspirin brings local relief.
- **Faster onset of Analgesia** — because "the soluble aspirin in Codis achieves effective blood levels more rapidly" (2)

- **Proven Anti-inflammatory action** — of Aspirin, since "Aspirin in its soluble form of calcium aspirin is the drug of first choice" (3)
- **Safety from gastrointestinal side effects** — Since "The soluble aspirin in Codis avoids the possibility of gastrointestinal irritation resulting in hyperaemia and ulceration" (4)

SRI LANKA ORAL HEALTH ASSOCIATION
(SRI LANKA MUKHA SUWA SANGAMAYA)

Dental Institute,
Ward Place,
Colombo 7.
Tele: 693106

PATRONS

MRS. RENUKA RANAWEERA
Hon. Minister of Health and Women's Affairs

DR. P.M.B. CYRIL
Hon. Minister of State Health

MR. W.J.M. LOKUBANDARA
Hon. Minister of Education

OFFICE BEARERS

President	-	Dr. S.F. Jayasinghe
Vice-President	-	Gp.Capt. T.P. Ratnayake
		Dr. K.H.T. de Silva
Hony. Secretary	-	Dr. (Mrs.) Kusum Wijetunge
Hony. Treasurer	-	Mr. K.S. Bopitiya
Hony. Asst. Treasurer	-	Mrs. P.M. Gunawardena

The Sri Lanka Oral Health Association, a registered non-governmental service organisation was formed with the aim and objective of getting non-professional and professionals to participate in oral health activities by engaging in public education, conduction of clinics, using the mass media for the reduction and control of three main oral disease conditions - Dental caries, Periodontal diseases and Oral Cancer.

Membership which exceeds 500, counts a large number of life members. Dr. S.F. Jayasinghe, Dr. K.T. Sumanasuriya, late Dr. D.E. de S. Gunawardena, Dr. C. Godakumbura are among the many who contributed to the formation and work of the association. Dr. Jayantha Dias, Dr. (Mrs.) K. Wijetunga, Mrs. K.S. Bopitiya and Mrs. P.M. Gunawardena are some of the active members.

The association has plans to launch a programme of activities to achieve its objectives and includes the conducting of a health campaign in collaboration with the Ministry of Health by establishing oral health centres in all electorates, conducting oral health campaigns, especially in remote areas and launching a school oral health education programme throughout the country.

SRI LANKA PAEDODONTIC SOCIETY

79, Station Road,
Mount Lavinia.

OFFICE BEARERS

President - Dr. W.G. Wimaladharma
Secretary - Dr. S.L. Perera
Treasurer - Dr. H.W.M. Cooray

The Society was established in 1984 on the initiative of Dr. S.L. Perera to further the knowledge relating to dental health of children and to promote oral health education.

Activities have been carried out on its own and in collaboration with the Children's Secretariat and have included a training of trainers programme. It generally directs its activities at school children via the newspapers, television and radio.

SRI LANKA SOCIETY OF DENTISTRY FOR THE HANDICAPPED

7, Castle Lane,
Colombo 8.

Tele: 692882 (Office)
433948 (Surgery)

OFFICE BEARERS

President - *Dr. W.G. Wimaladharm*
President Elect - *Dr. M. Karunajeewa*
Secretary - *Dr. M. Mukthar*
Treasurer - *Dr. H.W.M. Cooray*
Council Members - *Dr. R. Goonetilake*
Dr. S.L. Perera

The Sri Lanka Society of Dentistry for the Handicapped was formed on the initiative of three dental surgeons - Dr. H.W.M. Cooray, Dr. S.L. Perera and Dr. R. Goonetilake who convened the first meeting of the Society on 4th March 1983. Prof. G.B. Winter, Dean of Eastman Postgraduate Institute and founder President of the British Society for the Handicapped was present at the inaugural meeting.

The Society's activities included the following :

- Dental health education programmes for the Deaf and Blind School;
- Establishment of dental clinics for the care of the handicapped;
- Donation of dental equipment to the dental clinic for the handicapped at Sarvodaya
- Donation of X'Ray equipment to the Faculty of Dental Science;
- Participation in international meetings and conferences.

EMSO

EMSO LIMITED

50, HYDE PARK CORNER, COLOMBO 2.

NO MORE PAIN...

PANADEINE

Analgesic Antipyretic

Combines the peripheral analgesic action of a full therapeutic dose of paracetamol with the centrally-acting analgesic, codeine

Paracetamol

inhibits the transmission of pain signals from their source.

Codeine

favourably alters the perception and analysis of pain messages in the central nervous system.

How supplied

Cartons of 100 tablets. For complete prescribing information, consult package circular.

A product from

Winthrop

Pharmaceuticals of merit for the physician.

Manufactured by
Mackwoods - Winthrop Ltd.,
3rd Floor
Carson Cumberbatch Building,
67, Dharmapala Mawatha
Colombo 7. Tel: 549790
