Could the hon. Parliamentary Secretary please read the Answer to (c)?

(c) In view of the fact that appointment of officers to carry out administrative functions in government departments is not done on the basis of nationality or language, it does not appear desirable to appoint officers to this department too on such a basis.

Does the hon. Parliamentary Secretary admit that the requirements of the department demand that an officer who knows Tamil languages and literature be appointed?

If the hon. Member goes through the rest of the Answer I have tabled, he will find that those requirements have been met.

Sinhala Language, Sinhala Culture, Tamil Language, Tamil Culture: A sum of Rs. 1,419,879 under Vote 4, Head 150, was spent for a number of varied activities. It is difficult to categorize under heads like "Sinhala and Tamil" the total amount expended under items "language", "literature" and "culture". The Department of Cultural Affairs is concerned with general advancement of the cultural activities of the entire Island. However, allocations have been made suitably on special occasions for Tamil literature, language, music and drama. To effect these services a Tamil music and drama panel of the Arts Council of Ceylon and a Tamil literature panel of the Sri Lanka Sahitya Mandalaya have been established. The National Theatre Trust is taking action to organize performances of a high quality in Tamil drama. (c) In view of the fact that appointment of officers to carry out administrative functions in government departments is not done on the basis of nationality or language, it does not appear desirable to appoint officers to this department too on such a basis.

Tamil teachers are by regulation—because they are Tamil teachers teaching in Tamil schools—not re-

On a point of Order, Question No. 3 was asked in English by a Tamil Member. Will he reply either in Tamil or in English?

කථානායකතුමා

(சபாநாயகர் அவர்கள்)

(Mr. Speaker)

There is no compulsion. You cannot compel a person to reply in English or in Tamil. There is an earphone through which you can listen to the translation.

වෛදනාචාර්ය නාශනාතන්

(டொக்டர் நாகநாதன்)

(Dr. Naganathan)

No. Ordinary parliamentary convention is to answer the Question in the language in which it is asked or in a language which the questioner can understand. But this reply is a highly impertinent way of answering it.

කථානායකතුමා

(சபாநாயகர் அவர்கள்)

(Mr. Speaker)

The word "impertinent" is considered unparliamentary in the British House of Commons.

(Mr. Speaker)

The position is this. The hon Parliamentary Secretary said he was tabling this. If there is any particular point that you want cleared, you might refer to it in English in order that he might answer.

ඉරත් තිනම් මයා.

(திரு. இரத்தினம்) (Mr. Ratnam)

If the hon. Parliamentary Secretary is prepared to answer in English, I am prepared to refer to it in English.

I want an answer to Question 3 (e) only so that I can ask a supplementary question.

The vacancies for Assistant Teachers and English Assistants will be filled to a great extent by the beginning of next year. The vacancies for permanent Headmasters have been noted for necessary action when the promotions to those grades have been finalized.

"That this House resolves that a Commission of Inquiry under the Commissions of Inquiry Act, Chapter 393, at least one of whose members shall be selected from a panel of names submitted by the Leader of the Opposition, be set up to inquire into and report upon whether, and if so in what manner and to what extent, the Associated Newspapers of Ceylon Ltd., or any company associated with it or any director of any of the said companies did, during the period 1st July 1960 to 31st August 1969, use or dispose of any of the funds of the said companies or any other earnings from transactions of these companies in breach of the Exchange Control Regulations of Ceylon or in circumvention thereof, in breach of the Revenue laws of Ceylon or in circumvention thereof, or in any other illegal, irregular or improper manner."

Mr. Speaker, the Motion stands in the name of a number of hon. Members of the Opposition. I want to make it quite clear that this is not a Motion of Censure on the Government. This is a Motion asking for a Commission of Inquiry in order to inquire into certain allegations made by me in particular during the course of the Debate in the House on 1st September 1969. On that occasion I placed before the House certain facts that came to my notice. I placed before the House photostat copies of certain documents that were made available to me, stating that a number of malpractices have

Digitized by Noolaham Farakein place, stating that moneys

[ආචාර්ය එන්. එම්. පෙරේරා]

have been illegally accumulated in foreign countries, stating that bank accounts have been opened without the knowledge and consent of and without prior information being given to the Exchange Control authorities. I drew attention to the frauds alleged to have been committed by some of the Directors of Lake House or the Associated Newspapers of Ceylon Ltd. In particular I drew the attention of the House to the activities of three directors, Mr. Gomes, Mr. Gunaratne and Mr. Wijewardene. I gave the numbers of the accounts in the Swiss Banks. I do not propose to go into all those documents which I read out on that occasion. I want to place before the House the reasons why we urge that a Commission be appointed to go into this whole question.

I think hon. Members will agree with me that Lake House is no ordinary institution or establishment. On the admission of the Government itself, it is producing national papers and is almost treated as a national institution. For a generation and more this institution has been ferrying news, information sheets, to the country and trying to maintain that it is of the highest integrity. It talks of very high standards and it has been treated almost like a paragon of virtue.

What I want to know is this. brought this to the notice of this House on the 1st of September 1969. Actually as far back as April 1969 the Exchange Control authorities and the Income Tax Department had been made aware of these transactions that have been taking place. I will read out a letter now. I made it clear on a previous occasion that I am indebted to Mr. Aelian Nugara for much of the information I have and I would like in the end, when I draw attention to certain subsequent events, to pay a tribute to Mr. Nugara for the sincerity with which he has acted in this matter. Notwithstanding a tremendous amount of pressure aham Foundat (American and Centinental)?

එක්සත් පුවෘත්ති පනු සමාගමට වීරුද්ධව චෝදනා පරීකුෂා කිරීමට කොමිසමක්

that has been brought, he has maintained a particular standard which we must admire. I am one of the persons who have a right to be aggrieved by the past actions of Mr. Nugara and I think he admitted, when I met him in London, that that was so, but I cannot help admiring the steadfastness sincerity of purpose that animates him now.

There is a letter sent by Mr. Nugara on 10th April 1969 to the Controller of Exchange, Central Bank of Ceylon:

> "10, Birchington Road, Hornsey, London N. 8., Reg. Airmail Post, April 10, 1969.

The Controller of Exchange, Central Bank of Ceylon, P. O. Box 883, Queen's Street, Colombo 1, Ceylon.

DEAR SIR,

I believe it is a violation of the Ceylon Exchange Regulations for any Ceylonese individual, or for that matter for any Ceylon company or organization, permanently domiciled in Ceylon, to have unapproved accounts abroad.

If your answer is in the affirmative, could you please advise me what steps could be taken if it is brought to your notice that-

- the Ceylonese Directors of a limited liability company incorporated in Ceylon have over a period of years been systematically, through various devices, syphoning large sums of foreign exchange into their individual private accounts both in England and Switzerland?
- (b) that such illegal funds have been used for other illegal money transactions with individuals not resident in Ceylon while a good proportion of such moneys have and continue to be used for the personal benefit of the individuals concerned on their annual visits abroad ?
- (c) Can a Ceylonese invest large sums of foreign exchange, through his or her overseas holdings referred to under (a) for the purchase of shares in foreign airlines

Naturally, documentary evidence, including Bank statements and advice notes (originals), as well as letters to the respective Banks in the individual's own handwriting would be made available to support such complaints.

I also understand, certain aspects of a complaint of this nature would fall under the jurisdiction of the Companies Act of Ceylon, in that all shareholders may not be aware of the activities of those concerned. Perhaps, also the Commissioner of Inland Revenue would be a third party interested.

From a national point of view, I wonder what the Opposition Members of the present Government would think of the situation if these matters even accidentally came to their notice?

I await an early reply.

Yours faithfully, (Sgd.) Aelian Nugara "

Mr. Nugara knows now what the position is. About eight or nine months back I brought this matter to the notice of the authorities concerned, particularly the Exchange Control Department. But what have they done, what action have they taken, to set the law in motion?

I ask the Hon. Minister of State: What action did he take when these matters were brought to his notice? Why did he not prevent them from getting any further rights to import direct?

Mr. Nugara is an aggrieved man. I agree with him. We are entitled to know, particularly from the point of view of the Exchange Control Regulations, why no action has been taken up to date. That is the reason why we are asking for this commission of inquiry. I will go on to explain why I think the Exchange Control Department is not taking the action they should have taken.

As I pointed out, the Lake House is not an ordinary institution. We are, therefore, urging that this matter is too important and the party concerned assumes too large a place in the public life of this country to be ignored, to be brushed aside or set aside. It is the duty of this House to see that full publicity is given to their transactions and the whole matter brought to the notice of everybody in this country. Let the public know what is happening. In point of fact, they wield a tremendous political influence and they have played a major part in the political life of this country. Should not the public, therefore, know what this institution has been up to during the last few years? That is why we are asking for a commission of inquiry. We are asking that in the full glare of publicity the whole matter be inquired into. And one of the things that might have to be inquired into also would be the reasons for the delay or the failure of the Exchange Control Department

I think the Hon. Minister of State will agree that there have been a number of cases where, as soon as a person is found to have violated the conditions of the licence to import goods, the import permit has been cancelled. Why was not the same action taken in this case? So far as we know, no such action has been taken. We would like to have confirmation from the Hon. Minister that some action has been taken. To the best of my knowledge, they still continue to import photographic material, newsprint, Duckhams oil and various other articles.

Well, Sir, after I made that statement on the Floor of this House the Exchange Control authorities did get busy. One Mr. Tennekoon was sent to London. It is noteworthy that Mr. Tennekoon went to London. Although they were informed in April 1969, he went to London only somewhere in September.

Mr. Tennekoon visited Mr. Nugara and left this document behind, dated 10-9-69. I am reading from a copy of it. All the documents referred to here will be tabled for the benefit of any hon. Member who wants to read them.

"I, R. M. Tennekoon, Additional Deputy Controller of Exchange, Central Bank of Ceylon, being officially authorized by the Central Bank of Ceylon, to investigate the matter of exchange control irregularities by Messrs. G. B. S. Gomes, R. S. Wijewardene, L. C. Gooneratne and others, hereby acknowledge having taken over from Mr. Aelian Nugara of 10 Birchington Road, London N. 8, photostat copies of the following documents: "—

This document, which is dated 10. 9. 69, itemizes the documents Mr. Tennekoon took over.

Mr. Tennekoon went to London and met Mr. Nugara. I have a letter from Mr. Nugara which admits it. It reads:

On 5th September the Central Bank cabled me saying that Mr. Tennekoon, Additional Deputy Controller, representing the Controller, would be arriving in London.

Ey letter dated 6th September, Controller of Exchange, Mr. C. F. Fernando, confirmed this cable and said that Mr. Tennekoon has been authorized to examine and take over any documents which I may wish to make available for the purpose of investigating the malpractices referred to. On 10th September, the Additional Deputy Controller, Mr. Tennekoon, did examine the original documents in the presence of my representatives, "—

The representative is a member of us all the British Journalists' Union. He is also one of the signatories.

Digitized by Noolaham Foundation noolaham.org | aavanaham.org

—"Mr. Maclean, Secretary, Central London Branch, National Union of Journalists. He also has signed as a witness."

He was also present. He signed as a witness. So, this is after he had signed the document-

-"He examined the persons on my representations and then took over copies of 31 of the documents, being part of the originals kept by him. He said these documents were sent over to the Central Bank via diplomatic bag by London High Commission when he had received a cable direct to him from the Central Bank confirming receipt of them at Colombo end. Since then he tells me he has been addressing the Controller a number of times asking that I be written to direct to confirm receipt of documents at Colombo so that further information could be supplied to the Controller.

At Mr. Tennekoon's request, I cabled the Central Bank on Saturday, 25th October, but up to date nothing has been sent to me by the Exchange Controller in Colombo. Difficult to understand attitude since facts were given over a month and a half ago and yet not a word from the Controller."

You will see, therefore, that Mr. Tennekoon, who had seen the originals, was satisfied with the veracity of the charge; so it is he who sent the photostat copies here; obviously, he could not send the originals. He sent photostat copies, and here he has itemized the copies he has taken.

We have been waiting, and Mr. Nugara has drawn attention to the fact that since 1969 he has been waiting, for some action by Government. I shall tell you why we are a little perturbed about it. I shall now describe the documents that have been earmarked.

documents he has taken. He has itemized all the documents that he has taken.

I am rather surprised that some of these gentlemen are so anxious to protect Lake House. I should have thought that they would have been as keen as ourselves to inquire into this matter and get to the bottom

The next item is No. 10: dated 6.4.66 from Mr. Gomes to the Swiss Bank Corporation, Zurich, instructing them to transfer from his account a sum of £ 500 by draft payable in London to Mr. M. A. Zirad of Hong Kong. I read that out last time, and I am not reading it again.

The next item is numbered (11)— Receipts dated August 29,1968, from Mr. H. C. de Lanerole of California in respect of £ 100 given to him by Mr. L. C. Gooneratne in August, 1968: Mr. Lanerole, who is permanently resident in the United States (Address: 731, Iris Avenue, Sunnyvale, California 94086, U.S.A.), visited Ceylon in 1968 on a holiday and then came to London on his way back to the States. Mr. Gooneratne was in London at the same time.

Next: "Received from Aelian Nugara the sum of one hundred pounds only (£ 100) representing amount kept by Mr. L. C. Gooneratne for handing over to me."

All these people are accumulating money and handing over money-£ 100 and various other amounts. That is why we are interested to find out what is the actual position in regard to this matter.

Next: "Copy of Statement from Swiss Bank Corporation, Zurich, dated 6.8.63 addressed to Mr. Gomes at 113, 5th Lane, Colombo, in respect of payment—one of regular payments-received by the Bank for credit of his account £ 1,496. 11sh. 4d. in this case, being payment received for credit of Mr. Gomes' account with Mr. Nugara. This is a listotize by the laha Bank driven one of the suppliers of

goods to Associated Newspapers of Ceylon. The lower part of the document shows the source of the payment to the Bank—Ekmon & Co., AB., Goteberg, Sweden (supplier of goods to Associated Newspapers of Ceylon)."

The document says this: "Swiss Bank Corporation, Foreign Exchange Department, No. 2243, Zurich, 6.8.63—payment dated 2.8.63, No. 67594. Skandinaviska Banken, Goteborg." It is addressed to Mr. G. B. S. Gomes, No. 113, 5th Lane, Colombo. As per enclosure £ 1,496 11sh. 4d. is the amount deposited. The net value is 18,078.50 francs (Swiss francs) to his credit on S Fr.—account.

The depositing party is Ekmon & Co. A. B. Goteborg.

"We have credited your account as follows: £ 1496. 11s. 4d. Account No. 675944."

This shows that a firm from whom they purchased certain articles has now paid Mr. Gomes, to his account in the Swiss Bank Corporation, a sum of £1496 which is 18,078 Swiss francs.

Next, Documents 13 and 14 are receipted invoices from Henlys Ltd., The Hyde, Hendon, London N.W. 9, in respect of a portion of spare parts imported into Ceylon for Mr. Wijewardena's Jaguar car. This is Henly's invoice—Document 13:

"Sold to A. Nugera, Esq., Associated Newspapers of Ceylon, 15, Fleet Street, E. C. 4. Flex pipe, Silencer, Mounting, Mounting Control Box."

The amount is £31.7s.1d. These are parts imported into Ceylon for Mr. Wijewardena's Jaguar car. I do not want to read all the items that have been imported, barring Documents 13 and 14 which Mr. Tennekoon had seen. The total amount involved is something like £64.

Then there is a letter dated 3.10.1963, which is marked document No. 15. I am reading still from Mr. Tennekoon's documents. This is signed by Mr. Gomes:

"I am enclosing letter to my Swiss Bank, which I shall be much obliged if you can stamp and post by air mail. I trust you have now settled down in the new office and that you are not too cramped for space. There have been no new developments from Exchange Control re. our London Office set up and I think the best we can now do is to hope that they have dropped the whole thing."

Mr. Gomes is now satisfied that the Exchange Control is no longer going to chase after them.

According to the documents here, S. N. Wickremesinghe, is the son of Wickremesinghe. M. Different sums of money have been in this account deposited times. The following different deposits have been made:

13th December, 1967 £ 31st December £ 20 1st January, 1968 £ 100 20th January £ 50 7th February withdrawals 24th February . . 10 29th March another £ 10 29th March £ 190 5th July £ 75 14th October £ 247 16th October £ 25th November

So, there have been a fair number of deposits into this account. The deposits total a fair sum of money. I am not prepared to say how they got the money—I do not know. That is one of the reasons why we are asking for a commission of inquiry—to probe into this matter and to find out the facts. The country is entitled to know what has happened.

Then there is a letter dated 25th April 1968 from Mr. R. S. Wijewardene to Mr. A. Nugara asking for spare parts for his Jaguar car to be purchased and sent out urgently. Mr. Gomes who was in London paid for the goods by cheque. Item 20 gives the list:

The text of the letter written by R. S. Wijewardene to A. Nugara, on 25th April 1968, reads:

"The attached list is also required urgently. I shall be grateful if you can oblige.

As a sequel to this there is a list of articles purchased, that is, item 20 in Mr. Tennekoon's list. That is the list of spare parts attached Mr. Wijewardene's letter, the text of which I read out just now; that is item 19. That sets out the parts ordered for the Jaguar car.

Item 21 is a letter dated 19th April 1968, from Henlys to Mr. A. Nugara, Associated Newspapers of Ceylon This is dated even attention was drawn to the Exchange Control Regulations, which was on April the 10th. The letter reads hus:

"Further to our telephone conversation we have much pleasure in confirming the first part of the request made in your letter of the 5th instant has been despatched by Airmail parcel post and we enclose herewith our Invoice No. GWS 15223 accordingly.

We are pleased to detail on the enclosed proforma Invoices the various items requested for parcels two, three and four, which we trust you will find self-explanatory and conforming with the details also listed in your communication under reply.

With regard to parcel number three, on detailing the prices of all the items listed, we have found the cost involved was some thing in the region of £ 7 in excess of the cost of a new steering box complete. We have, therefore, as you will note, detailed the list as a steering box which we will despatch in two parcels and sincerely trust that our actions in this particular connection meet with your full approval."

This letter has been signed by E. Northwood, Spares Manager Henlys.

Sir, some of these letters are not very clear, and I do not think I can read all these documents.

"My little daughter is thrilled with the coloured photographs."

In other words money has been freely used for the purchase of various luxury articles of one type or another. This is also one of the documents taken by Mr. Tennekoon, setting out the various articles that they have bought. There is something here which refers to a thing worth 95 guineas.

Then there is a letter dated 20.6.68 from "Mr. E. E. C. Abayasekera, Director/Secretary of Ceylon, about his bank, the Martins Bank, London, sending Mr. Nugara a cheque for £50, and stating that the clarinet mentioned was purchased and sent to him through Mr. and Mrs. S. to Ceylon in 1968 for the summer holidays on two sales promotion tickets under the contract between Air Ceylon and the Associated Newspapers of Ceylon Ltd." This letter is from Mr. Abayasekera to Mr. Nugara. Mr. Abayasekera has an account in St. Martins Bank and he uses £50 for the purpose of buying a clarinet, and so on. As to whether this was in fact brought, I am not aware.

Then there is a very interesting letter, also one of the documents mentioned in Mr. Tennekoon's letter, dated 11.8.55. It is a document in the handwriting of Mrs. Kusuma Gunawardena, wife of the Hon. D. P. R. Gunawardena, acknowledging money paid to her from the London Office funds.

"Please hand over the money to bearer, my nephew. Thank you.

[ආචාර්ය එන්. එම්. පෙරේරා]

I understand that the footnote at the bottom states that money is provided for the purchase of shares in the TWA and KLM.

Item 31 is a letter from Mr. Gomes—the usual enclosure for posting to Switzerland from London plus additional enclosure to be cashed and proceeds to be handed over to Mr. Abayasekera when he comes to London.

I am not going to read all these documents in detail. With your permission I would like all these documents to be included in Hansard as otherwise I might take too much of time to read them all.

As a matter of fact there is a photostat copy of a customs declaration which sets out all sorts of nice articles like Elizabeth Arden Blue Grass Dusting Powder and so on meant for Mrs. Gomes. These are customs documents which go to prove that these articles were sent.—[Interruption]. These are British customs declarations re exports. All these are addressed to Mr. Wijewardene.

There are certain other documents in my possession which were not itemized by Mr. Tennekoon apart from the customs decalrations I referred to in respect of Elizabeth Arden Blue Grass Dusting Powder, Blue Grass Bath Oil, Blue Grass Compact Presentation Sets and Bath Cubes sent to Mr. R. S. Wijewardene paid for by Mr. L. C. Goonaratne who was in London at that time.

Then there is a letter from Mr. R. S. Wijewardene from Hotel Victoria Roma sending travellers' cheques and asking for spare parts for Mr. Goonaratne's car to be sent out to Ceylon. This is document No. 33 which I am tabling.

I have a number of letters signed by Mr. R. S. Wijewardene drawing attention to these spare parts. I am tabling all these documents lized by Noolaham tabling all these documents lized by Noolaham

Now you understand why the Exchange Control Department is reluctant to take action, why they are dilly-dallying. I quote:

"When asked what that matter was, he said, 'You know those documents in your possession,' adding that the action I had taken in reporting matters to the authorities in Ceylon had caused irreparable damage to the Directors of the Associated Newspapers of Ceylon, Limited; that the Inland Revenue was re-assessing the Directors who would have to pay millions of rupees in taxes and penalties. At this stage. I interrupted him and asked him to come to the point and state what his business with me was. Mr. Abeywardena then explained that he had been sent by the Associated Newspapers of Ceylon Limited, and asked to contact me and pay me a lump sum. He mentioned the figure of £ 2,900 Sterling made up of £ 2,600 being original claim made on my behalf by the National Union of Journalists on account of redundancy payment and in lieu of notice pay; the extra £ 300 being an ex-gratia payment; that this sum would be paid to me in cash Sterling."

From where are they getting all this money? Surely, we are entitled Are we not entitled to ask that a full inquiry be made into this business. How do they still continue to hold this money? From where are they getting all this money ?-[Interruption]. Hon. Member for Bandaragama, please do not disturb, this is an interesting Debate. I am coming to your uncle also. Wait a minute.

### I quote:

"and what I had to give in return was a receipt saying that I received payment. He stressed that no figure should be given in the receipt but state, "In full settlement of my claim against the Associated Newspapers of Ceylon, Limited."; additionally, that I had to give over to him all documents in my possession for destroying by him."

That is the important point. They wanted to pay him and get all the documents in order to destroy them. And the Exchange Control Department is delaying action in order to give them time to carry on all the (The Hoperstreet Ho

> I say it is desirable that a commission of inquiry should be appointed to go into this whole business.

#### I quote:

"I told Mr. Abeywardena that the offer he was suggesting on behalf of the Associated Newspapers of Ceylon Limited shocked me, that I was not prepared to discuss any matters with him, that he should contact my union, the National Union of Journalists."

That is why I said I want to pay a tribute to that man. He is in dire circumstances at the present moment, but he is maintaining his integrity refuses to be browbeaten. Various people have been used in order to browbeat and cajole him to give up all the documents.

Contracts are still being given to Mr. Rajaratnagopal. You are supposed to be having your Commission of Inquiry into his conduct and, nevertheless, you are using him for other nefarious activities in order to bring pressure on people.

Nothing could be more pleasing than to get that statement from the Hon. Prime Minister. That is all we want. We are asking for this commission of inquiry because we are satisfied that the Department of Exchange Control is not keen about pursuing this matter. Otherwise they would not allow all these things to happen meanwhile. Nine months have passed. As I told you, Mr. C. H. Fernando came to me a few weeks back and wanted to cross-examine me and find out facts from me, when in point of fact all the facts were available to him. I happened to know that because already I knew that Mr. Tennekoon had sent the documents, and Mr. Nugara's complaint is that the has a vanaham of a vanaham of the Opposition.

had no acknowledgment from the Exchange Control Department of the documents sent by Mr. Tennekoondocuments that were in the possession of Mr. Nugara. Therefore, we are entitled to conclude that there is some hanky-panky about this business, that an effort is being made by the authorities concerned to soft-pedal this whole business, to give time to the Lake House people to bring maximum pressure on Mr. Nugara and to get hold of the documents. And then the whole thing is finished. You cannot take further action once the original documents have been destroyed. That is why we are anxious that there should be a full inquiry into this whole matter.

That is our case. This is not a question of confidence or no confidence in the Government. This is an appeal to the Government to see that a proper inquiry is held. Let it be done in public so that everybody can be confident that justice has been done, that no attempt has been made to try and soft-pedal this matter so far as their own friends are concerned.—[Interruption]. When all is said and done, everybody knows that the "Daily News" and other Lake House papers have been very close to this Government. Whether we like it or not is a different matter.

ආචාර්ය එක්. එම්. පෙරේරා (සහා ඛිමි බක්. බය් ටෙරිණා) (Dr. N. M. Perera)

That is the case that we are making. I have placed before the House whatever documents are in my possession. I know there are further documents. I know there are more documents in the hands of Mr. Nugara. But these are sufficient for the purpose of taking necessary legal action. You do not need to wait nine months when they have violated your Exchange Control regulations in the way that they have done, when there are all these documents available.

In these circumstances, we have no alternative but to press the Government and ask that a full inquiry be held, when the whole question can be gone into. I do not want to read the Motion again, but it sets out precisely what we want. I am sorry I have taken more time than I intended to, but I do hope hon. Members will appreciate the manner in which we have placed this matter before the House. We are not making charges against the Government. We are asking that a full inquiry be held. I do not know-more things may come to light, or it may turn out to be not true. So, it is a matter for a full commission to inquire into and find out the facts. These are the facts that we can gather; these are not easily available. Generally, these are things that do not come to the surface. It is very difficult to ferret out information of this type. It is rarely that we get a man like Mr. Nugara who is prepared to come out and give us all the facts.

(கௌரவ டட்ளி சேஞநாயக்க)

(The Hon. Dudley Senanayake)

Mr. Speaker, although it was my intention to take part in this Debate later, unfortunately circumstances do not permit me to do so. Hon. Members are aware of the fact that during the course of this evening I have to be elsewhere. I am referring to the reception I have to accord at "Temple Trees" to His Excellency the President of India. Therefore, I propose to intervene at this stage in this Debate.

The Hon. Minister of Finance undoubtedly will furnish the House with most of the necessary particulars—something I shall not be doing myself. I would like to state a few relevant facts as far as this Motion is concerned.

Firstly, let us all agree on one point, namely, that it is the duty of every Member of this House, be he in the Opposition or on this side, to bring any wrongdoers to book. As far as that is concerned, I can assure you that, in the same way that it is the objective of hon. Members opposite, it is the objective of this Government as well, and during the course of this Debate the House will have ample proof in that regard.

Then, again, when considering the incidents that have been alleged, let us also realize that we must look at this case without any prejudice whatsoever either in favour of the people who have committed this or in that they should be dealt with in a manner special and different to the manner in which normally matters of this nature are dealt with.

Now, in the first place I wish to state that the departments concerned, namely, the Department of Inland Revenue and the Exchange Control Department, which are the departments primarily concerned with this matter, have certainly—I would like to state on the Floor of this House—acted most commendably indeed.

I think the hon. Member for Yatiyantota (Dr. N. M. Perera) read out a letter. In fact, I asked for a copy of the letter wherein he stated that this matter had been brought to the notice of the Exchange Control Department so long ago as 10th April 1969. When he was reading that letter I did not hear a reference to any matter that had anything to do with Lake House, and that is why I asked for a copy of the letter. There is nothing here about Lake House or about any individual.

டூறைக்க එதி. එම්. පෙරේරා (கலாநிதி என். எம். பெரோர) (Dr. N. M. Perera) That is only the beginning of it.

But the hon. Member made the accusation that this particular department was apprised of this fact

so long ago as 10th Aprli 1969 and nothing had been done. Not having heard anything about Lake House mentioned in the letter which he was reading, I asked to see the copy myself. I should like to ask whether there is any reference to Lake House or any of its directors.

The question is asked: what is to be done if a Ceylonese does this, that, or the other?

ආචාර්ය එන්. එම්. පෙරේරා (සාහා භිමු என். எம். பெரோரு)

There is subsequent correspondence.

(The Hon. Dudley Senanayake)

But this did not start on that day 10th April 1969—the date given by the hon. Member as the date on which this matter was first taken up with the Exchange Control Department. It was certainly not on 10th April 1969. Perhaps the hon. Member will be able to furnish other correspondence to prove that it was taken up later, but certainly the Exchange Control Department is free of the charge that the matter was brought to its notice as long ago as 10th April 1969 and that it slept over it.

The hon. Member also stated, as a reason for the doubt in his mind as regards proper action being taken in this matter, that from the Exchange Control Department one Mr. C. H. Fernando went to him and asked for certain particulars. Why?

Speaking for myself, if such a person came to me I would not have resented any such questions.—
[Interruption].

I have been the Prime Minister before, and I may have been Prime Minister longer than anybody else. There have been times when people came to me with all kinds of questions and I readily answered them because I felt it my duty to furnish all particulars.

I have no doubt that the hon. Member's intention was to bring to book those who were guilty of this alleged malpractice, and if the Exchange Control Department wanted further information surely he cannot blame the officer—I believe he said it was Mr. C. H. Fernando—for trying to obtain such further information? However, that is irrelevant and I mentioned it only in passing because the hon. Member referred to it.

Now, let us first realize that the Inland Revenue Department took action on receipt of that information. Are you in any way criticizing the Inland Revenue Department or suspecting.

I am glad. I also would like to join you in complimenting the Inland Revenue Department for the manner in which it has acted. Let us realize that it was not as a consequence of the hon. Member bringing this matter up in this House, but prior to that, on its on initiative, that the department took this action; and it is all to the credit of the department that it did so.

The department has raided a number of places—powerful and wellknown institutions and the houses of individuals, however powerful or whatever their connexions. It has raided more than 100 institutions since 1964. Large sums of money have been collected by the Department of Inland Revenue as a result of these raids. I take this opportunity on the Floor of the House to commend the actions of the Department of Inland Revenue.

It does not follow that in every case in which the Department of Inland Revenue has conducted a raid we must have a concurrent or parallel inquiry. I shall give you my reasons.

Now, the Exchange Control Department was the other department mentioned. As the hon. Member himself mentioned in the course of his speech the Exchange Control Department sent out a special representative—one Mr. Tennekoon; not the Governor of the Central Bank but another Tennekoon-and he has carried out certain investigations at the other end. A report has been submitted to the Minister of Finance. Further action has to be taken, I understand, and the C.I.D., the Attorney-General and, I believe, Scotland Yard are going into

released the exchange for the special officers of the C.I.D. to go and investigate this matter. A team of three is now in London.

Those are the actions that have been taken. There is no endeavour whatsoever to shield any person if he is guilty.

At a time when there is a scarcity of foreign exchange, exchange has been released for these officials to investigate the matter because the Government considered it to be important and urgent. All the data available has to be collected. The Attorney-General has to be consulted in this matter as to whether evidence is sufficient for further action in regard to legal proceedings. All those matters are being gone into.

Those are the facts. We are pursuing this matter.

I am glad the hon. Member for Yatiyantota (Dr. N. M. Perera) has not made any allegations that the Government is in any way trying to circumvent the law or to protect anybody. I am glad the hon. Member made no such allegation, because sometimes some individuals make very loose statements about matters of this nature for political advantage.

For instance, the hon. Member for Kolonnawa (Mr. Ilangaratne) spoke about various things that Lake House has done to Anagarika Dharmapala. I can tell him the things that Lake House has done to my father also, because, I remember, when I was an undergraduate of the University of Cambridge every time my father was criticized—and he was severely and bitterly criticized—I used to get a copy of the newspaper sent to me by Lake House, at Cambridge. I can produce editorial after editorial, not about Anagarika Dharmapala's times, about later times.

So Lake House is free to criticize anybody and take any attitude. deplore the attitude sometimes taken that Lake House is the Government. this matter. The Government ohas Theathon. Member for Yatiyantota,

when making his speech, said, "You did this; you did that." I protested and said "I?" Then he said, "Not you; Lake House" as if Lake House and I are synonymous or Lake House and my Government are synonymous.

If I am going to associate everything printed in the "Aththa" paper with my hon. Friend there, he will be ashamed of himself. But I want to refer to one matter. The other day the "Aththa" of 1st January 1970 carried a big, interesting New Year headline for the population of Ceylon. It was in huge letters. The headline was to the effect that a company of which I am a director had evaded paying taxes. This is a foul lie. And the word is not unparliamentary, Sir, because I am talking about the "Aththa" and not about my hon. Friend. Now that is the stuff your "Aththa" publishes. And I can presume that the "Aththa" is closer to my hon. Friend than Lake House is to

What are the facts of the case? I am a director of a company, a family company, called Narangoda Estates Company, and the hon. Member knows my Narangoda Estates Company because he has been tubthumping in the vicinity. Now, there is another company called Narangoda (1965) Company which has nothing to do with this company. There is no connection at all between that company and this company. It is true that some correspondence has passed mistakenly between the two. And in fairness to the other company it was later found that that company had not in any way evaded payment of tax. But the "Aththa" has seized upon this and published it as some great New Year message!

company that the Minister is director of has evaded paying taxes."

I will tell this to hon. Members. You can criticize me for anything— I am human and I have made many mistakes—but I do not think anybody can criticize me on a matter like this. In fact, there was a time in 1953 when I ceased to be Prime Minister when, lo and behold, I was told by the Department of Income Tax that I had paid Rs. 30,000 in excess as tax over a number of years, and that money was returned to me. So I must present this sort of propaganda. can criticize me on what I am doing in my public policies using all those methods although you have not succeeded yet. Your latest method is to try to make me out to be a rogue before the people of this country. You have been getting your replies recently from the people about that kind of propaganda.

Now, I have been talking about the action that has so far been taken on this matter. The Income Tax Department is taking action which has not finally concluded; the Exchange Control Department is taking every action, enlisting every possible means, in pursuing this matter to get the data that is necessary for proper action. That is the situation now and I can assure hon. Members that there will be no endeavour, no favour shown to anybody, to protect anyone who has been found guilty of any malpractice.

not know why hon. Member brought in all these characters like Mr. Ratnagopal in his The hon. Member himself knows that Mr. Ratnagopal cannot bear the sight of me. He knows that for the last so many years he has going round the maligning me. The hon. Member himself knows it very well.

The only connection I have is that some years back he eloped with a daughter of a cousin of mine. That cousin of mine is no other than the hon. Member for Dambadeniya's (Mr. R. G. Senanayake's) sister. That is the only connection I have got.

As far as the Lake House is concerned, my only connection is that my brother's daughter has married one of the directors.—
[Interruption]. I do not personally mix myself. Others are entitled to mix up. I have so far refrained from mixing up. The hon. Member for Baddegama (Mr. Neal de Alwis) raises the query as to how you know. Well, if you have something to tell me about my mixing up, please do.

Briefly the position is this. The departments that have to take action on this matter are taking action. Far from there being any interference by the Government to protect any individual, every opportunity and assistance is given to those departments to pursue the matter.

I had all this time refrained from discussing this matter with the heads of departments concerned. The first time I discussed this matter was when you were bringing your Motion a few days back. That was the first time I ever had any discussion either with the Income Tax Commissioner or with the Governor of the Central Bank. I had a discussion in the presence of the Minister of Finance and the Secretary to the Treasury and said, "Now, let me have the facts about what you have done, so that I may have those facts before me when this Motion is discussed." Their advice about this commission matter will be read by the Hon. Minister of Finance who is the proper authority, I suppose, to read the advice tendered to him by the heads of his departments.

(Mr. Speaker)

I should like to bring to the notice of hon. Members of the Opposition that they have already taken  $2\frac{1}{2}$  hours of the  $3\frac{1}{2}$  hours allotted to them, and that was why I appealed to them to be brief. There are four more Members to speak, and I would request hon. Members of the Opposition to be brief so that the last Member on the list may not be deprived of the opportunity to speak.

Mr. Speaker, I should like to preface my speech by echoing the view expressed by the Hon. Prime Minister himself that there should not for a moment be any suspicion in the mind of any hon. Member of this House that there is an attempt to shield any offender, however big he may be. Sometimes they are described as gods and king-makers.

I am grateful to the hon. Member for his intervention, for I completely forgot him. I was speaking generally of hon. Members of this House. I am now conscious of his feelings.

Now, Sir, this is not a comedy. This is a serious Debate and not the time to throw mud at one another. I very humbly say that, and in saying that I am not trying to be superior. I think this is a serious Debate, and I would say that we all join the Opposition, Digitized by Noolaham particularly the hon. Member for

Yatiyantota (Dr. N. M. Perera), in the desire that offenders must be brought to book. There is no question of lending any support to offender.

The question is that there are very serious implications in this Motion. As a student of previous parliamentary affairs I found that there have been very intelligent discussions as to what is the proper scope and sphere of a tribunal of inquiry or what you might call a commission. The implications have to be kept in mind.

Let me remind experienced Members of Parliament and lawyers like my good Friend the hon. Member for Agalawatta (Dr. Colvin R. de Silva) that in dealing with a matter of this nature the opportunity should not be taken to merely vent political wrath collected over decades. It does not help us to untangle the tangle.

The propriety of parliamentary inquiry initiated by Parliament has to be considered sometime or other. I read a very well thought out expression made by the hon. Joint Member for Colombo South (Mr. Bernard Soysa) in one of his contributions in this House on an earlier occasion. He then drew the attention of the House to the dangers of rushing into various modes of inquiry without careful thought and in doing so he used the argument: telling whirligig of time has its revenges. Political parties, political majorities, sectarian views, can be used for the oppression of different people."

If anyone wanted evidence that a commission of inquiry is being urged merely on political grounds, due to political resentment or political revenge, certainly we have any amount of evidence of it. There was the hon. Member for Kolonnawa (Mr. Ilangaratne) who I think at one stage displayed a cartoon. Probably it has pained him. I dare say it did. No-

Several reasons were given in support of the Motion. It was said that Lake House is a branch of some imperial organization; that Lake House engineered the defeat of the Coalition perial organization; that Lake House has expressed opinion against them; that Lake House stood in the way of Ceylon's independence. Now, these were the reasons given. I wish to make one or two comments on this matter and I must say that in doing so I do not intend to hurt or offend anybody. That is not my business.

පරීක්ෂා කිරීමට කොම්සමක්

The hon. Member for Yatiyantota (Dr. N. Z. Perera) presented his case in a particular way. I remember the first occasion when he tabled papers. He read from some photostat copies documents, I believe. Here I would like to pause and say a word. When photostat copies of alleged documents were produced on a previous occasion my learned and hon. Friend, the Member for Agalawatta (Dr. Colvin R. de Silva), took a very proper objection, namely, that short of an assurance by the producer of those documents that he had personally examined them, they were not admissible in this House. I personally and humbly, whether other people agree with me or not, think that that is a very sound objection. Otherwise, any hon. Member can innocently and honestly bring a document, which, if it is a photostat, can easily be a forgery or fabrication, and set affoat any number of accusations which might hurt innocent people.

I do not think that even the hon. Member for Yatiyantota, besides saying that a particular document was handed to him in London by Mr. Nugara, has said that he examined or compared it with the original. But if things are as one visualizes, namely, that these are letters emanating from persons here—I mean, the directors of Lake House who are in the position of offenders and accused at the moment—then one would think that the originals are resting in the files of the bank. But we are told that these are photostats of originals in the hands of Mr. Nugara. Even assuming for a moment the genuineness of all

body like to be cartooned itized by Noolaham these things, as remarked by the hon. noolaham.org | aavanaham.org

එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා පරීක්ෂා කිරීමට කොමිසමක් පරීක්ෂා කිරීමට කොමිසමක්

[ඉසදීන් මොහමඩ් මයා.]

Member for Agalawatta (Dr. Colvin R. de Silva) himself, the originals may themselves be photostats. He mentioned something like that. Then we should straightway get cautious about them. I am not here to throw a veil on any offence if in fact it has been committed, but I say it is a very, very dangerous thing for this responsible and honourable House to proceed on the basis of photostats of photostats.

However, the matter is before the House. I believe Leaders on our side do not propose to take any objection in the way objection had been taken on an earlier occasion. I think they are wise not to give the impression that there is now going to be any obstruction to the ventilation of a public

grievance.

The hon. Member for Yatiyantota (Dr. N. M. Perera) presented his case on the first occasion in this House. He said, "A man called Nugara got in touch with me "-you can correct me if I am wrong; I am speaking from recollection—" and he gave me certain documents which, if true, disclosed certain offences on the part of certain directors of Lake House." And he said, I remember reading—"All that I am asking you is to take action." Those are the words with which he ended. Therefore, obviously his implication was that there was some offence committed or there was reason to believe that offences had been committed and therefore they must be looked into, and if in truth and in fact offences had been committed, they must be brought to book. That was the line he took.

Now, with regard to that matter, the Hon. Minister of Finance will amplify it later. But briefly the Hon. Prime Minister has stated what action has been taken, with all the energy they could command, that provision has been made for exchange control and that officers have been sent abroad to investigate this

matter.

Now, the combined Opposition has visions of the Constitution, namely, brought before the House a Resolution asking for a commission of inquiry. From what one can gather tion or thereafter should not enter

from the speech of the hon. Member for Yatiyantota, there was lethargy and delay, action was not as expeditious as was possible and therefore he would request a commission of inquiry. Thereafter, we heard balefuls of political reasons and I hope I will be forgiven for getting the impression that he was saying, "Now please vary the procedure of investigating offences in this case because Lake House constitutes a very big political enemy of ours. It has hurt and offended us in the past and it continues to hurt and offend us now."

One must remember that if anybody has enemies newspaper organizations are bound to have enemies. If hon. Members speak of political enemies, newspapers must be having enemies by the thousands because anybody who has been criticized or whose actions have been criticized is bound to have grievances of his own, and probably it is not very surprising that newspapers make themselves very unpopular in that way, and in the political field too you can hardly expect a newspaper to agree with every political party. Maybe, they reserve to themselves the right to criticize anybody, and we know that not a day passes without some attack on the Government by some newspaper or other, and the Lake House newspapers have not been found restraining themselves in that respect. Therefore we do not propose to take over the press, to close the press or invent some special procedure to investigate the offences by certain persons in the Lake House management.

Now, this question was discussed at some length in a Debate concerning the hon. Member for Yatiyantota. He was holding eminent ministerial rank at that time as Minister of Finance, and it was alleged of him by the then Opposition that he had entered into certain transactions which offend against one of the provisions of the Constitution, namely, that a person who is a Member of Parliament either at the time of election or thereafter should not enter

එක්සත් පුවෘත්ති පනු සමාගමට වීරුද්ධව චෝදතා පරීක්ෂා කිරීමට කොමිසමක්

into contractual engagements; and the then Opposition moved for an inquiry by a Select Committee. And in trying to equip myself for the present Debate I looked at those proceedings and I found a very, very educative contribution by the hon. Member for Colombo South, and if I may say so with respect he has displayed an almost accurate grasp of the history and use of Select Committees and tribunals for investiga-

May I pause to say a word about it? Under the new constitution we have taken over the functions, the powers and the traditions of the British Parliament. The Select Committee was part and parcel of the investigative methods used by Parliament from those times, and when it was found that the Select Committee was deficient in certain respects because it could not rid itself of its political bias -no doubt, Members of the Government and Members of the Opposition sit on the Select Committee, but it was found that it suffered from that handicap, and that very often it issued two reports, because, somehow or other, political issues got involved and party considerations could not be forgotten—as a superior alternative to it the Tribunals of Inquiry procedure was introduced under the 1921 Act which my hon. Friend, the Joint Member for Colombo South (Mr. Bernard Soysa), has frequently referred to in the earlier Debate that I mentioned.

Now, the whole scope of a Select Committee inquiry or an inquiry by tribunal is confined to a particular sphere. It is not expected to take the place of the ordinary machinery of law and justice in the country. It has been contrived specially to investigate the conduct of men holding public office, office of trust, where there are allegations that they have not lived up to moral standards expected of them. One has only to look at the history of Select Committees—you get innumerable references to them in textbooks dealing with them—or tribunals of inquiry set up under the for the moment—are being presented 1921 Act, to find that bigthey by have am toushow that they have indulged in

always been confined to the investigation of conduct of public men where allegations are made that they have not acted impartially or honourably—not with regard to offences. If any offences are alleged against public men or any other men, be it Lake House men or some other men, they will have to face a trial under the ordinary law of the land in the ordinary courts of the land. That is part and parcel of our concept of democracy. In fact, I remember reading the hon. Member for Colombo South ending his contribution on the last occasion with ringing words, that there will be no more democracy. When he was speaking against the appointment of a Select Committee to investigate certain allegations that were being made against the hon. Member for Yatiyantota, he said: "This is not the proper procedure. This is an inquisitorial procedure. And, since the facts alleged constitute a disqualifying factor under the constitution it must be left to the courts of the land." And quite rightly having taken that view at a very early stage of the Debate, I find the hon. Member Yatiyantota—then of course, for Minister of Finance-stating that he took legal advice which he is entitled to, and, apparently acting upon such legal advice, stating he would not participate in the Debate. believe he did not.

If I may say so with respect, quite apart from the question of whether the principles were being applied correctly or not on that occasion, the principles enunciated by the hon. Member for Colombo South on that occasion apply fairly and squarely in this case. In that case they were concerned with the conduct of a Member of this House, a Minister of this House, concerning the legality or the propriety of his continuing to be a Member. But in this case it is a very far-reaching departure that is being proposed in this Motion.

We have referred to the conduct of three or four men who happen to be directors of the Lake House. Documents—I assume them to be genuine

එක්සත් පුවෘත්ති පනු සමාගමට විරුද්ධව චෝදනා එක්සත් පුවෘත්ති පනු සමාගමට විරුද්ධව චෝදනා පරීක්ෂා කිරීමට කොමිසමක් පරීක්ෂා කිරීමට කොමිසමක්

certain activities which would constitute a violation of the provisions of the Exchange Control Act and the provisions of the Inland Revenue Act. Therefore, it is suggested, very strongly suggested—I should say, almost making a case out against these men—that they have committed offences against the land. Whichever way you may put it, this is an escape from the position, constitutional and legal, that men charged with offences must stand trial in the ordinary courts of the land, must have the safeguards given to accused persons under the law of this land. And that law in a democratic state, in our legal system, is no discriminator between the rich and the poor, the powerful and the not powerful. Hon. Member for Yatiyantota, I am not speaking facetiously.—[Interruption]—colourfully referred to as gods. Well, it is supposed so, but still they would be entitled to the individual rights under the legal system of this country.

Now what is the position in the case of commissions? It has been abundantly proved that one of the central ideas in the trial process in our legal system is this: when offences are being investigated—I am speaking of the trial and pre-trial stages—all prejudice must be kept away. In fact, the law requires that the prosecution will lead no evidence as to character against the accused at first, that it must go on the facts which are relevant. Everything else is rigorously excluded, and the trial must take place in conditions of fairness according to the concepts which we believe.

But what is supposed to be done now? Speaker after speaker on tage, porthe other side got up and levelled accusations against these men and the institutions to which they belong. Can we get a fair verdict in those circumstances? And what will has been happen? You will open this to a fact-finding agency. In effect what it means is a substitute commission as a fact-finding agency in place of the existing law enforcement machinery.

So this tage, portion one's back been you accept it after Means been the lives. I has been the lives. I have been the lives. I have been the lives after means is a substitute commission as a fact-finding agency in place of the existing law enforcement machinery.

In principle I am against this idea of a commission, and I will give more reasons as I go on. What can a commission find?

One has only to look at Chapter 12 of the Criminal Procedure Code and see the wide powers the Police Department, the C.I.D., have to investigate offences. My Friend the hon. Member for Dompe knows his criminal law. You cannot possibly have wider powers than the powers set out in Chapter 12.

Did the hon. Members who spoke —I do not know whether in their hurry they did that-go through the Exchange Control Act? Can any commission be given more powers of interrogation, of questioning, search, of requiring production, those provisions under Section 39 of the Exchange Control Act? The law enforcing machinery the Inland Revenue Exchange Control officials have the advantage of expedition. Politics or no politics, I am really asking hon. Members on the other side, are you moving a vote of no-confidence in the Public Service of this country? There may be a man or two here or there who will allow his political zeal to have the better of him. But surely, by and large, they are honourable men as good as ourselves, decent men who want to do a job and so on. Is it to be said that just because you have a powerful organization called Lake House and its newspapers, they are going to affect our Inland Revenue Commissioner, the Exchange Controller, and various young officers who serve

So this savours of political advantage, political manoeuvring, setting one's back against people who have been your enemies. I dare say, I accept it. I do not rebut it. Member after Member from the Opposition has been saying that Lake House has been their worst enemies in their lives. It may or may not be so. There is a principle that if you are biassed against certain persons, you do not go and interfere in the

process of justice directed against them because you are not certain whether you are fair or correct. Yet, on large national questions it may not be possible to be so correct or so accurate. However, one has seen the display of it here today. What is going on in this Debate is going to be published in the newspapers tomorrow—all the accusations.

There is the hon. Third Member for Colombo Central (Mr. P. G. B. Keuneman) who in his ardour for justice is taking down notes. Well, I am sure he will come out bellyfull against Lake House. You create an atmosphere like this, and, as the hon. Member for Yatiyantota (Dr. N. M. Perera) rightly said, in the end there may be nothing in it.

(ஜனப் இஸ்ஸதீன் முகம்மது) (Mr. Izzadeen Mohamed)

At the very opening remarks of the hon. Member for Colombo South Bernard Soysa), in very eloquent and telling language, he states—this was on the question of the appointment of a Select Committee on the Giridara Mills that it was the intention of these people to make the Minister of Finance fight as one of the gladiators who entered the circus defending himself against a whole host of enemies. The position is much worse here. You have put men who are charged with a legal offence or offences into the Roman circus to fight as gladiators. You can only see the vast legion of enemies you are bound to have.

Later he gets into the discussion more seriously and says this: reading from Hansard of October 1964, Vol. 57, column 4453:

"If there is something criminal done by an hon. Member of this House or any other House, if there is something in which he violates statute law in some form, then, Sir, that would be a matter in regard to which one does not appoint a Select Committee."

Quite right. I entirely agree. I am not cavilling at what he says. I adopt it. It was a perfectly correct exposition. He went on to say that there are so many modes of inquiry. Already he had said that this can only pertain to men who hold offices of public trust and not to anybody else, any ordinary citizens. I quote:

"You do not do so where it is quite plain or where you can establish that some law has been broken or violated. You go to the Select Committee procedure where you believe that there is misdemeanour, an improper use of office."

He says you do not go in for Select Committee procedure where there is a violation of law; where you believe there is but misdemeanour, an improper use of office, you may ask even for a public commission of from the Government side. strict violation of the law is not being

[ඉසදීන් මොහමඩ් මයා.]

alleged you can ask for a public commission of inquiry. In other words, he was expounding this theory which is perfectly correct both in practice and procedure. Then you do appoint a tribunal of inquiry or Select Committee only to investigate the conduct of public men in public offices, commanding public trust, if they have not lived up to the traditions of that office, but not when criminal offences are alleged against them.

Then he says almost in the language of a lawyer:

"....where there is a written Constitu-tion, as we have, where we have any kind kind of written or codified law, in regard to any matter which involves the interpretation and the application of that law to any particular given situation, whoever else may have the authority or may not have the authority, the courts of this country can always inquire and adjudicate. That is established."-

What he says about the passage of that Motion sounds almost like something coming from Cicero. This is what he says:

in this House, will spell the end of parliamentary democracy in this country and the rights of Private Members."— GFFICIAL REPORT, 14th October, 1964; Vol. 57, c. 4464.]

The hon. Member then went on to quote American statesmen and principles of the American Constitution.

The hon. Member also said:

"We are all interested in the maintenance of the highest standards of public conduct. We are also interested in the maintenance of the liberty of the subject."—[Official Report, 14th October, 1964; Vol. 57, c. 4463.]

I desire to associate myself with those sentiments expressed by the hon. Member for Colombo South on that occasion.

Mr. Speaker, I am sorry time does not permit me to refer to the speech we have just heard from the hon. Appointed Member (Mr. Izzadeen Mohamed). It was a learned discourse with quotations from Cicero on how parliamentary democracy must be saved and so on, including the hon. Member's views on the constitutional propriety of the setting up of commissions of inquiry.

As time is short, I shall stick to the strictly relevant questions of the Debate, and the hon. Appointed Member must forgive me and not be annoyed if I do not deal with his speech, because I do not think it falls

within that category.

I am sorry that for reasons of State the Hon. Prime Minister is not able to be with us when I am speaking, because I want to congratulate him on his excellent performance. It was a fine exhibition of doing three things at once. It was a fine exhibition, first all, of skating on thin ice; secondly, of drawing red herrings across the trail; and, thirdly, of avoiding essentials. I have seen all these things being done separately, but rarely have I seen them all being done in one speech, and, therefore, I would like in his absence to offer my congratulations to the Hon. Prime

He started by saying that everybody knows that the U. N. P. is not Lake House and that Lake House is not the U. N. P. But I do not know that and there are very many people who do not know that. If there is a distinction between the two it is a distinction without a difference.

He told us how in the good old days when he was an undergraduate, Lake House used to criticize his late reverend father. Those days are long past. Maybe he himself has been criticized from time to time by Lake House. After all, those who have Lake House as a friend do not need any enemies, but they certainly are not the enemies of Lake House now. They have saved each other on more than one occasion, and the last general election is one of the most well-known, or, if you will excuse me, one of the most notorious.

The Prime Minister quivering with indignation tried to draw a red herring across the trail about the "Aththa." I would normally not have referred to this matter, but I am going to refer to it because the Prime Minister made such a point of this. Quivering with indignation he said that the "Aththa" on January 1st this year had published a New Year Message to the entire country alleging that a company with which he is associated, Narangoda Estate Company, had avoided paying income tax, and the Prime Minister went on to give a character certificate for himself saying that he is not a man who would do such a thing, that he actually got a refund of Rs. 30,000 and so on. My Hon. Friend could have saved himself and this House the time spent on this display of righteous indignation because, first of all, there was no issue of the "Aththa" on 1st January. Secondly, there was no New Year message involved. The story he is referring to is one which appeared in the "Aththa" in December of last year.

#### කෙනමන් මයා.

(திரு. கெனமன்) (Mr. Keuneman)

And what did it say? It said that the Narangoda Estates Company had not paid Rs. 12,000 in stamp duty for the registration of the company. There is not one word about evasion if income tax. It quotes certain letters and correspondence on the question of stamp duty. If my Hon. Friend does not know the difference between "income-tax" and "stamp duty" then he should not be the Prime Minister of this country.

It is precisely this type of red herring that is being drawn across the trail. He keeps on telling us, "I never evaded income-tax." Who charged him with evading incometax? Nobody charged him with that. My Hon. Friend should be more careful before he makes remarks of this sort.

Let us look at the essentiality of this matter. Let us not be diverted by these red herrings and skating on thin ice. I want my Hon. Friend the Minister Finance who of apparenty, to make the key-note speech which he has refrained from doing so far, to answer this simple question: is it or is it not an offence under the Exchange Control laws of this country for any Ceylonese any Ceylonese company to maintain or operate a bank account in a foreign country without the permission or the knowledge of Department of Exchange Control? That is the first simple point. I am sorry we have to reduce this to simple A, B, C.

### ගරු වන්නිනායක

(கௌரவ வன்னிநாயக்க) (The Hon. Wanninayake) You know the answer.

කෙතමන් මයා.

(திரு. கெனமன்) (Mr. Keuneman)

I know the answer. It is an offence. Now, my Hon. Friend is very careful about dates except when it comes to the "Aththa." There, it does not matter. The difference between the 1st of January and December is not a very big question. But he said that it was not in April that the Exchange Control Department became aware of the detailed facts. That was admitted. On the 17th of May 1969 according to Hansard—I do not want to quote it again—all the letters were quoted by the hon. Member for Yatiyantota (Dr. N. M. Perera). Every single person was named and every single bank account was named. Let me summarize, then, the position.

On the 17th May 1969 the Exchange Control Department of this country was apprised of the following facts: that Mr. G. B. S. Gomes, one of the directors of Lake House, maintained account No. 4395921 in the Swiss Bank Corporation, No. 99, Gresham Street, London, E. C. 2. The second account that he maintained was account No. 267171 in the Swiss Bank Corporation, Switzerland, and the third account that he maintained was No. 675944 in the same bank. These are three precise bank accounts maintained by a named person. Surely the Exchange Control Department knows whether that person has declared these bank accounts or not. They must know that. Are they ignorant of that fact? If they have not been disclosed and the fact is given, did they begin gations?

I want to ask—they are talking about investigations of the Exchange Control Department—when did you start this investigation? Did you start it after the matter became a public scandal or before that?—[Interruption]. Before that? All right. Why did you not say that? And what have you done? Have you taken nine months to find out whether they had these accounts or

එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා පරීක්ෂා කිරීමට කොමිසමක්

not when documents were given to you; when, apparently, the originals of the documents had been inspected by your Mr. Tennekoon? It is an offence merely to maintain and operate an account.

Mr. L. C. Gooneratne maintained account No. 267192 in the Swiss Bank Corporation and another account in Barclays Bank, London—two accounts. Mr. R. S. Wijewardene maintained account No. 489866 Y F in the National Bank of Switzerland, Geneva, Switzerland.

Now, all this information was given in great detail and supported by documents on the 17th May 1969. I want to say straightway that we are quite prepared to leave the income tax part of this matter out of the question for the reason that we are confident that the Income Tax Department is doing its duty. In any case all transactions of the Income Tax Department are secret. Neither that department nor the Minister can reveal any such thing. Therefore, we do not wish to drag any of those matters into a public debate. Certainly, the Lake House cannot be the only body which is in trouble with the Income Tax Department. I think the Commissioner, Mr. Sittambalam once told the Public Accounts Committee that some 70 per cent of income tax payers are in some trouble or another with the Income Tax Department. So, we are not raising that issue now. If the Lake House has not paid some income tax that was due to the Government, then I am sure, that will be properly

What we are raising is a public matter relating to exchange control and I do not have to tell my hon. Friends that foreign exchange is the lifeblood of the country today. We are living a hand to mouth existence economically because of our foreign exchange position. Therefore, all exchange control transactions and especially those which violate the laws must be considered very seriously. Here you have a clear case of three people who are charged on information given to you in May last year,

nearly eight months ago, of maintaining and operating foreign accounts. A number of letters were read by the hon. Member for Yatiyantota (Dr. N. M. Perera). What do they all amount to? They amount to the fact that undeclared accounts have been maintained by certain directors of the Associated Newspapers of Ceylon Ltd. who are operating them for various purposes, whether it be for getting spare parts for their Jaguar cars, cosmetics, or whatever it may be. question at issue is not on what they spent the money, but that they had money abroad and did not declare them and were operating these accounts.

I think it is necessary to say very clearly that, as far as I am concerned, the Government is dragging its feet on this matter. The Hon. Prime Minister says now that the Government has sent three C.I.D. officers to London. It seems to me that Mr. Tennekoon has got enough information to launch a prosecution. I am not a prosecution official, but if half of these documents that the hon. Member produced are accurate, then there is a clear case of evasion of Exchange Control laws of this country. Therefore, why has not the Government all this time acted on the basis of the material that it has in its possession? That is what I want to know.

The Hon. Prime Minister said that he does not want a concurrent and parallel inquiry—these are his very words—and added that when the inquiries that are being conducted by the Income Tax Department as well as the Exchange Control Department are over, he is prepared to consider our Motion. That is why I think they are dragging their feet. They want to drag this out as long as possible and particularly till after the next elections. That is the clear impression left on me.

I think the question was raised by the hon. Appointed Member (Mr. Izzadeen Mohamed) "Why is it that you want to have an inquiry when it එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා පරීක්ෂා කිරීමට කොමිසමක්

is possible to institute criminal proceedings?" Sir, the hon. Members opposite—I am also a person who sponsored that Motion and I know about it-raised the demand for an inquiry into bribery and corruption by members of the former Government. Everybody knows that bribery and corruption is a criminal offence. People can be prosecuted and sent to jail for bribery and corruption. I did not hear my hon. Friends opposite then saying, "It is not necessary to have a commission of inquiry ; les us go to the courts; courts are quite sufficient." No, Sir.—[Interruption]. You are absolutely wrong. I was one of those who demanded a committee of inquiry. Now do not come and talk about things that you did not know then. That is all I want to say. Why is it that they are so worried? My Friend, you may be a Minister but please keep your mouth closed. Do not get into hot water-

(சபாநாயகர் அவர்கள்)

(Mr. Speaker)

Do not take notice of him.

කෙනමන් මයා.

(திரு. கௌமன்)

(Mr. Keuneman)

All I want to say is this; apart from one or two side issues about Mrs. Kusuma Gunawardena, the main point that was raised by the hon. Member for Yatiyantota (Dr. N. M. Perera) which is new is the attempt that has been made by Mr. C. P. G. Abeywardena, representing Lake House, to buy over Mr. Nugara and to get certain documents from him and destroy them. A certain amount of evidence was led to that effect.

That naturally creates a feeling of alarm among the people. It is not that we think that Lake House is any better than any other villain. All crooks must be treated alike. That is not the issue. If there is an attempt by powerful people to tamper with evidence, which may be the material of an investigation, then it is necessary it should be brought to public knowledge as far as possible for public investigation.

[කෙනමන් මයා.]

The Hon. Prime Minister says, "Oh! I am no friend of Ratnagopal. He worked against me in Dedigama. And I am no friend of C. P. G. Abeywardena." I believe Mr. C. P. G. Abeywardena was appointed to some committee or commission and we tried to stop it.

(An hon. Member)

කෙනමන් මයා.

(திரு. கெனமன்)

(Mr. Keuneman)

That is right. And he says he does not know that person. He cannot say he does not know that person. When he was reminded of it he turns a blind eye to it and refers to something about Ratnagopal. If he says that he has nothing to do with Ratnagopal I will readily accept that. But he knows Abeywardena.

We are not asking that Lake House should be treated in a different way from other offenders but to try and equate Lake House with people who might break the state laws and income tax laws. Lake House is an immensely rich and powerful organization. It makes and breaks governments. In Stanley Baldwin's immortal phrase, "It is a power without responsibility, the prerogative of the harlot throughout the ages." I think one cannot find a better example of that than Lake House.

Therefore, in view of all these, it is necessary where Lake House plays such a big role in informing and misinforming entire lakhs of people about what they say, that all these transactions should be brought into public view, particularly for the reason that justice must appear to be done. With the close association that Lake House has had with the Government, with the Members of the Government and with the Prime Minister,

, එක්සත් පුවෘත්ති පනු සමාගමට විරුද්ධව චෝදනා පරීකෘෂා කිරීමට කොමිසමක්

it is all the more necessary that whatever is being done about this matter should be done in such a public way that there can be no doubt whatsoever in anybody's mind that there is any attempt to see that justice is interfered with. That is why we have asked for a commission of inquiry.

We do not ask for a commission as an alternative to criminal proceedings. If you have evidence for instituting criminal prosecution please go ahead. We cannot dictate to you whether you should prosecute a person criminally or not. That is a matter on which you must be advised by your legal advisers. We are not your legal advisers. In any case, all I want to say is that there is nothing against the appointment of a commission even when you are carrying on certain investigations by your technical departments responsible for it. We are in no way trying to stop that investigation because there are ramifications of this matter which cannot be covered by any legal question. That is why we have moved the Motion.

The hon. Member who introduced the Motion said at the outset that it was not a Vote of No Confidence against the Government but the Government can make it so if it takes Lake House to its bosom. It is for the Government to make that choice. Otherwise we invite them to join us in the House and let this matter be looked into by a competent commission, one of the representatives of which should be selected from a panel nominated by the Leader of the Opposition. Then the whole country can have confidence and then there will be no more need to refer to this matter in this House or publicly.

අන්න බලන්න. කරුණාකර ගරු අග මැතිතුමාත් ඒ වගේ කෙළින් පිළිතුරු දෙන් න, "මගේ බෑණා අසුවන නිසා මා ඒකට විරුද්ධයි" කියා. උත්තර දෙන්න අගමැතිතුමා මෙතැන නැහැ. රාජා ඇමනි තුමා හිටියා. උත්තර දුන්නා. අවංකවම කිච්චා, තමන්ට කොටස් තිබෙන නිසා ඊට විරුද්ධ වෙනවාය කියා. එහෙම නම් ඇයි මේ ආණ්ඩු පක්ෂයේ ගරු මන්තීවරුන් කොටස් කරුවන් ගේ අයිතිය ආරක්ෂා කිරීමට දූෂණයට පක්ෂ වෙන්නෙ? මින් පසුව සමාජ ජීවිතයේ පාරිශුද්ධිය ගැන කථා කරන් නව තුමුන් නාන් සේ ලාව අයිනි යක් තිබෙනවාද? තමුන් තාත් සේලා මේ රටේ සමාජ ජීවිතයේ පාරිශුද්ධිය ගැන කථා කරන්නේ රෙදි ඇඳගෙනද? පවුම් 50 ක් අත මීට මොළවා ගත්තාය

[පින්ස් ශුණසේකර සො.] කියන සිද්ධිය ශැන මා කථා කරන්නට යන්නෙ නැහැ. පවුම් 50 ක් ශැන කථා කරන්නට වටින්නේ නැහැ. එහෙත් ගරු කථානායකතුමනි, මා විසින් මතක් කළ යුතු එක සිද්ධියක් තිබෙනවා.

මා පාසල් යන අවධියේදී සුපුසිද්ධ සිංහල ලේඛකයකු වූ මාර්ට්න් විකුම සිාහ මහතාගේ " පව්කාරයාට ගල් ගැසීම" නමින් වූ පොතක කථාවක් කියවා තිබෙනවා. අප මේ අද හැන් දැවේ කරන්නේ ත් පව්කරුවකුට ගල් ගැසීමයි. මේ රටේ තිබෙන් නා වූ ලොකුම පාපකාරී ආයතනයට විරුද්ධ පාර්ශ්වයේ සිට ගෙන අප ගල් කැට ගැසුවාට ඒ ආයනනය ඒ වාසින් පෙරළෙන්නේ නැහැ. දෙපැයක් ඇතුළත මේ යෝජනාව පරාජය වෙනවා ඇති. ඒ බව ද නට මාස හය කට පෙර අයවැය ලේඛන විවාදයේදීත් මා කීවා. ඒ වාගේම මේ රටේ දේ ශපාලන අවබෝධයක් ඇති සියලු දෙනාම ඒ බව දුන් නවා. මීට මාස කීපයකට පෙර මේ ලේක් හවුස් ආයතනයේ දූෂණ හෙළි දරව් වූ පළමුවැනි අවස්ථාවේ දී කොළඹ නගරයේ පමණක් නොව ලංකාවේ සියලුම පුධාන නගරවලම පාහේ අළවන ලද පෝස්ටර් වශයක් තිබෙනවා. ලේක් හවුස් ආයතනයේ ලොක්කන් හා අගමැතිතුමා අතර ඥති සම්බන්ධයක් තිබෙන නිසා, මේ ආණඩුවේ ඇමති වරුන් ලේක් හවුස් ආයතනයේ කොටස් කාරයන් වන නිසා, ඒ වාශේම මේ ආණුඩුවත් ලේක් හවුස් ආයතනයත් සමග වෙනත් සම්බන්ධකම් තිබෙන නිසා මේ ආණඩුවේ උදවිය ලේක් හවුස් ආයතකුයට විරුද්ධව අත ඔසවත්තේ නැනි බවට පරම විශ්වාසයක් මේ රටේ ජනතාව තුළ තිබෙනවා. අන්න ඒ නිසා මේ විධියේ පෝස්ටර් රාශියක් නගර රාශියක ඇළෙව්වා. මම ඒ පෝස්ටර්වල පුධාන පාඨ දැන් කියවන්නම්.

"ලේක් හවුස් විනිමය වංචාව—කෝටි ගණන් ගංගා ගත්ත බේරේ බෑණා බේරේද?"

ඔව්, බේරේ බැණා බේරෙනවා නේද?

"අප මොකවතු් කරන්නේ නෑ" යනු වෙන් තව දෙනියක් ඇතුළත උත්තර දේවී.

ගරු ඩී. පී. ආර්. ගුණවර්ධන (கௌரவ டீ. பீ. ஆர். குணவர்தன) (The Hon. D. P. R. Gunawardena)

Mr. Speaker, I did not have any intention of speaking on this Motion, but in the course of the speech of the hon. Member for Yatiyantota (Dr. N. M. Perera) he made certain remarks, and that is the reason why I am compelled to say a few words.

The hon. Member for Yatiyantota said in the course of his speech, "Then there is a very interesting letter also in one of the documents of Mr. Tennekoon, a letter dated 11th August 1965. I have not seen the letter. It is a document in the handwriting of Mrs. Kusuma Gunawarඑක්සත් පුවෘත්ති පතු සමාගමට විරුඬව චෝදනා පරීක්ෂා කිරීමට කොමිසමක්

D. P. R. Gunawardena, requesting money to be paid to her at the London office. That letter reads as follows: 'Please hand over the money to bearer my nephew. Thank you. Sgd. Kusuma Gunawardena. 11th August 1965'."

Yes. It is only my misfortune that I have a fair number of nephews more numerous nieces. is true that Mrs. Kusuma Gunawardena travelled to London when the Air Ceylon started the first VC service. That was in 1965. It is true that a letter signed by her was taken to a certain person mentioned by the hon. Member. It is true that £50 was handed over to that person. But I to say this much. person who was responsible for seeing that this was given to her is Mr. Esmond Wickremasinghe. He is a person I have known long before he became a director of Lake Housefrom the time he was at Royal College, before he entered the university; he was a very active member of the Lanka Sama Samaja Party during the war; as a matter of fact, after we escaped from prison, after we broke prison, he was the only person who was allowed to come and see me in the secret house in which I was living; he is a person who has done tremendous work for the L.S.S.P.

Another thing. Very often, when friends go to England—and we have friends who are there—one of the things we ask them to bring is books. As a matter of fact, a good deal of this money—I cannot tell you exactly how much, about £44—was spent in bringing certain books for the person concerned.

When I go to England even as a Minister, and I find I do not have enough money, there are friends in England, some eminent doctors, from whom I can get money without any obligations. I do not think any exchange control regulations are violated if you have friends of yours in England and you get money from them, and that transaction is concluded abroad.

එක්සත් පුවෘත් ති පනු සමාගමට විරුඬව චෝදනා පරීකුෂා කිරීමට කොමිසමක්

So far as this £50 is concerned, I think at least £44 or £45 was spent in bringing books for the person who was responsible for seeing that this money was given.

As a matter of fact, a couple of months ago when I was having lunch at my residence somebody knocked at the door and my wife (Mrs. Kusuma Gunawardena) who was having lunch with me went up to the door and found an officer from the Central Bank. He wanted to see her. I asked her to ask the person what it was about. He said it was about some money she seems to have obtained when she was in England in 1965. She wanted to know whether this person should be allowed to come in. I said, "Ask him to come in. If we can help the officers of the Central Bank to find out all that is possible about this matter, we should help them to do so." I understand that two other officers came once or twice and she has made a full state-

So far as I am concerned, I can tell you that I have never been a special darling of Lake House at any stage in my life—not even today as a Minister.

As far as this Motion is concerned. Sir, with the information the Exchange Control Department and the Inland Revenue Department got, I am inclined to believe that it is possible to take action against some people at least who were responsible for the violation of Exchange Control Regulations if in fact there is any fraud or anything like that. I think the Government is taking steps to see that that is done, and that is the reason why, in my opinion, at this stage the acceptance of this Motion might hinder the two departments—the Central Bank Exchange Control Department and the Inland Revenue Department. That is the reason why I do not propose to vote for this Motion.

I know this much. That was the time the Inland Revenue Department moved from its old place to its more spacious quarters in Ceylinco. I am told that it was possible to find documents—you could pick up important documents, income tax returns and other things—at Hospital Street.

I am merely trying to mention another matter. A few weeks later I was charged for non-payment of income tax. I thought I had been sending in my income tax returns more or less regularly and whenever they imposed any punitive fees too, I had always paid that. I was trying to find out what had happened by Noolaham that practice.

එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා පරීක්ෂා කිරීමට කොමිසමක්

I was charged at the Colombo South courts, and I found, Sir, that I was assessed on the fact that I was bachelor without any children! That was news to me. But of course I must say it is not the present Commissioner of Inland Revenue who did this. It was another person and at that stage there was a lot of quarrels going on with regard to various officers in the Income Tax Department, as it was then known. I remember particularly a person, who I believe was related to the Army Commander then, Mr. Wickremasinghe, and connected to some other civil servants who had not sent in their returns, and as a matter of fact that was one of the things that came to light in the end.

So I am wondering whether it is safe sometimes to bring up these matters. If you have the material—and I believe you have been studying the material—material you are quite sure of, you can go ahead, but when you come to an investigation of this type you can never say what the consequences will be.

I do not want to say anything more. The Government and the Opposition should co-operate in finding ways and means of preventing exchange frauds of this type, if there are any. I understand the amount involved is very large so far as exchange is concerned. If it is true that commissions and other things have been earned and disposed of in this way, it is a very serious matter.

As a matter of fact as soon as this question came up in Parliament the Government took steps to see that the Eastern Paper Mills Corporation took over the entire imports of newsprint. Now it is no longer imported by various companies and individuals. As a matter of fact even in 1965 the import of newsprint was done by the Eastern Paper Mills Corporation and we have reverted to

I do not want to say anything more than that. I am interested in helping everybody to find information to see to it that precious foreign exchange for which we have to go to other countries and beg is not wasted in this way. Whether it is due to the inefficiency of the officers of the Central Bank, to their negligence or their ignorance, I do not know, but it is our duty as Members of Government or Opposition to see that precious foreign exchange is not wasted.

So far as I am concerned, I am not ashamed to say this. Even when I go to England, if I do not find enough money, particularly to buy books, I generally have some good friends, particularly a very old friend of mine, Dr. Worral, one of the earliest Trotskyists in England, to help me. As a matter of fact he was a Member of the Communist Party in 1929. He was expelled for writing an article against Thallemann and other stooges of Stalin in Germany. He is a medical man. He has written a number of books and he is still there. When I visited England in 1966 I spent quite some time with him.

So far as I am concerned, most of the £50 referred to has been used for the person concerned in buying books. As a matter of fact, the money was given for the purpose of bringing books for that person, largely books which are rare here; they are very expensive. That is the reason why this was done, and that is the reason why I asked her to co-operate with the officers of the Central Bank and give all the information relating to it.

I do not want to say anything more than that. I hope the country will realize that the Hon. Prime Minister and the Government are doing everything possible to see, if any offence has been committed by anybody

I am glad of this opportunity of informing the House, and through the House the country, of the steps that have been taken with regard to these inquiries. Before I come to that I should like to make a few preliminary remarks.

The various sections of the Opposition do not seem to be agreed about the purpose and the scope of this Motion. The hon. Member for Panadura (Mr. Leslie Goonewardene) said, "I am not so much interested in this inquiry about inland revenue and foreign exchange". The Prime Minister said that those inquiries were going on in the normal way. The hon. Member for Panadura said, "I am not very much interested about those two matters, although those are the two main features of the Motion. But I am interested in another question, namely, how certain S. L. F. P. Members Parliament were bribed to cross over to the other side in 1964." That was the main purpose of his supporting the Motion.

Now, the Mover of the Motion did not say a word about that. He was concerned with foreign exchange, and also exonerated the Inland Revenue Department to some extent and said, "Well, they are going on with their work. We have nothing to quarrel about it." Even the hon. Third Member for Colombo Central (Mr. Keuneman) said the same thing: "We will not pass any strictures on the Inland Revenue They are Department. Department. They are going ahead with the inquiries." The Mover of the Motion did not refer to any of those objectives. But the prime objective the hon. Member for whether they are relatives of the panadura had in view was an inquiry Prime Minister or whether they are winto the alleged payment of money to

some S. L. F. P. Members by I do not know whom. I think it is hardly fair that the junier partner of the Coalition should charge the senior partner with that kind of allegation. No wonder dissension has already started there. I am sure it will accentuate as they go on.

Surely, we must be fair even by the Opposition. The junior partnerso they say, but sometimes they behave as if they are the senior partner-says that some S. L. F. P. Members of Parliament—what reflection on the Sri Lanka Freedom Party and its leadership—were given money to cross over to the Opposition in 1964, and asks how much money was given to them. I do not know whether there were photostat copies at that time.—[Interruption.] At that stage you took objection to my saying that, and I left the Chamber.

Then, the hon. Member Kolonnawa (Mr. Ilangaratne) had another purpose. He said he was supporting this Motion mainly because Reverend Dharmapala was attacked by the papers sometime ago and therefore why should not the Government hold an inquiry into the allegations made against the Lake House Press? The point I want to make is this. The various sections of the Opposition are not agreed the purposes and about objectives of this resolution. We are of that view, and it is quite clear to us and to the country. Naturally they want to make use of an occasion like this to get some political kudos. I do not think that we would have done a thing of that kind while we were in the Opposition.

The other point I want to make is this: they tried, consciously or most for any man to take a risk with unconsciously, to give the impression

එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදතා පරීක්ෂා කිරීමට කොමිසමක්

to the country that all the inquiries were initiated after they raised this question in Parliament. That is far from the truth. Before this question was raised in Parliament both inquiries, one in respect of foreign exchange and the other in respect of inland revenue, were started by the two respective departments.

This is what happened. The Controller of Exchange, in the first instance, wrote a letter asking for more information. The reply to that letter was not received.

He met Mr. Nugara, got at certain documents and photostats, came back, and reported matters to the Controller of Exchange.

I shall tell you, Sir, what has happened since then and the various steps we have taken.

In a way I can understand the fears the Opposition entertain because they do not know the steps that we have taken. I am positive, Sir, that after I detail and enumerate the steps that we have taken, one by one, the Opposition will be satisfied that sufficient action is being taken.

The Exchange Control Department asked for further details. There was no reply to that letter. On further correspondence he had said that he would make available in London the documents to an officer of the Central Bank, and an officer was sent to London. When my hon. Friend raised that question in Parliament, the officer of the Central Bank was in London. The officer met Mr. Nugara who handed over the photostat copies of some documents. His report

went from Ceylon—and the photostat copies were handed over to the Deputy Governor of the Central Bank.

Meanwhile, the Controller of Exchange was making investigations locally while the foreign investigations were going on in both institutions. The facts obtained as a result of local investigations and the photostat copies were placed before the Attorney-General who assigned Crown Counsel to advise the Controller of Exchange.

—and jeorpardize the success of these inquiries. After all, there are due processes of law prescribed and unless we go through them the present inquiries that are going on will be affected, will be obstructed, and wrong action will prejudice even the success of the inquiries. As the Prime Minister said, after the inquiries are over, maybe in a few weeks or months, it will be time to find out, if necessary, whether the officers have taken sufficient care to see that the investigations were carried out on the lines on which they were to be carried out.

I am advised by the investigating authorities in respect of the two institutions that the appointment of a commission at this stage is not at all helpful to the inquiry that is now being conducted.

I have been officially advised by the investigating authorities. Surely, he must accept that from me.

Before I conclude I must also refer to one fact about the "Aththa" paper. There was a reference to some news about a company in which the Hon. Prime Minister was a director. I am reliably informed by the department that no arrears of stamp duty are due from him, that all the payments due from him have been made on the due dates.—[Interruption]. There is some mistake about a letter, but the factual position is that all dues have been paid.

Now that I have given a detailed account of the steps that have been taken one by one and in view of the fact that the inquiry is still going on in London and reports are being sent from time to time, I think we should give the inquiring bodies some time

I have a very brief point to make and that is this. We would appear to have documents of which the photostats, which have been placed before this House, are the photostats of the originals which are with the government departments concerned. That is the reply to the hon. Appointed Member (Mr. Izzadden Mohamed) who, I think, as a lawyer will agree with me that that is what distinguishes this matter from a case where you simply come flourishing a photostat in respect of the original of which you have no guarantee. We have the guarantee of the originals from none other than the Government itself; for it is the Central Bank representative, Mr. Tennekoon, who has seen the originals, and we have merely produced the copy of the receipt he gave and copies of the documents for which he gave the receipt. So let us not waste time on that.

The next point is this. There have never been documents of this completely circumstantial nature placed before this House in its whole history as a Parliament. I take the responsibility of saying that, because I remember what a walloping I got from the present Prime Minister's father for having dared to expose, or, rather, to place before him a document which concerned, an Hon. Minister of his

teristic.

I hope hon. Members from Jaffna will forgive me, but there is according to the tradition of the Bar what is known as a Jaffna defence to a case filed on a forged note. You never answer and say it is a forged note. You file a forged receipt!

In the same way, the Prime Minister of that day produced a letter, totally irrelevant to the matter, from an Admiral of the Fleet in the Mediterranean to say that a Dutchman in Rotterdam was wrong in respect of a conversation he had had with his own Minister.

That is how these things go, but I say, having had to follow these things from that day into this, there has never been placed material of such complete circumstantiality before this House on a matter of this nature.

Let us take the next point. What, in the name of all that is sensible, is delaying what is apparently a most obvious and straightforward criminal action that can be filed on the material that appears already to be admitted? We have the documents, we have the bank accounts, we have the admission, that is to say by the documents, of the fact that the moneys are in the accounts and are being disposed of and spent by the persons who have the accounts; and it has never been claimed up to date after this matter was stated not only in this honourable House but outside that the allegations in respect of these documents are untrue. This is an institution that does not hesitate on appropriate occasions to challenge hon. Members who make speeches in this House to repeat their speeches outside; in other words, threatening them with libel action.

So I say, even by their conduct they are indicating that they really have no defence. I do not want to judge them. All I am saying is that, from the point of view of those who have to decide on whether there is a prosecution properly available on the material to hand, it passes all under-Government. His answer was charactanding that that prosecution has not

slender material people are arrested, are brought to the magistrate's court, are even often remanded pending investigations, on the basis of the allegation which they as suspects are made the subject of. How important must you be in a country, how powerful must you be as an institution, for you to be able to travel in the upper regions above the normal processes of the courts?

I am sorry to join issue with my good Friend, the hon. Appointed Member. He said, "Let us keep to the court procedures." I take him upon that issue. Why in the name of heaven are those court procedures yet not operating? Are you waiting for as perfect a case as you can make until after the elections when it is not your Government that will make the case? I ask you that-[Interruption].

All right. Will you not let me have my shot at you. Must you only have your shots at us? Take them my Friends. The Hon. Minister Finance dares to say here that we are creating the impression in the country that his investigation really got going after the exposures here. Well, we asked him. He says, "No." He will not dare to give the date. failed to give us the date. I say to his face across the House that his failure to give the date is the proof of our allegation.

I am not giving way in this instance to the Hon. Minister of Finance, whom I have always treated with the utmost respect and with the greatest honour in this House. In this instance I will not let him behave like a petty thief here.—[Interruption]. I am giving way on this occasion, on that kind of behavious. I will not even give way to the Hon. Prime Minister. One must take one's medicine if one chooses to put the cap and bells on one's head. Sir, with each statement he made I asked for the dates, and he did not give them to me. I was not referring to dating with some girl in the evening. I was referring to the dates of the steps that he said he

There is one more point. This Government has not distinguished by patience in respest of things, by patience in taking matters to the court in respect of things in which it feels deeply concerned. The most recent example is the so-called coup trial. They rushed to Ratnapura and illegally arrested Reverend Henpitagedera Gnanaseeha. That was proved in the court. They extracted a statement from him and placed it before a magistrate, and it was shown to be a totally illegal act resulting in the keeping of that statement out of that trial. That is not my point here. The case was proved to be such that the Attorney-General who indicted these men had himself to get up and admit, "I have no case". They did not hesitate to rush because they were very very keen on that particular smear trial.

Why are you not so keen, my Friends, on the question of Lake House and its behaviour as proved Digitized by Noolahamandoshown in these documents? That

එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා පරීකෘ කිරීමට කොමිසමක්

[ආචාර්ය කොල්වින් ආර්. ද සිල්වා] is my question. I am not concerned as to whether anybody is the relation of anybody. I am sorry, it is improper as far as I am concerned to refer to anybody's relationship. I am concerned with the simple, objective fact. I say, Lake House, if it is innocent in this matter, should be the first to ask for the prosecution so that it may prove to the world, in the forum in which the hon. Appointed Member (Mr. M. Izzadeen Mohamed) is so anxious to have this cleared, its innocence in such a manner that anyone who refers to that matter thereafter can immediately be hauled before a civil court, or, in the new fashion the Hon. Prime Minister has inthe criminal court, troduced, defamation. That is what I wanted to bring out.

We have suffered from Lake House. I have suffered from Lake House. It does not matter. This is not a mere legal issue. I am very glad that the Hon. Minister of of Industries, even while he made his plea for his Government, agreed that on this matter, in slightly different circumstances, he would have supported our demand for commission of inquiry. I am glad of it. Why am I glad of it? For this reason. That it is an admission that even an Hon. Minister of this Government feels compelled by the situation to admit that we have a just case.

The Government says that a commission of inquiry will impede investigation. You will pardon me, the investigation of the criminal acts of anybody can be left to the police and, I assume, will be carried through by the police. But this is an issue of a far wider character than the mere allegation of criminality that is involved. These gentlemen, even if they were criminals, are not, as far as I am concerned, guilty of something that is a mere criminality. I would not be the least bit concerned, if it were a mere criminal matter, to refer to it in

එක්සත් පුවෘත්ති පතු සමාගමට වීරුද්ධව චෝදනා පරීකෘණ කිරීමට කොමිසමක්

this House. They can defend themselves and others can attack and prosecute them.

Here is one of the biggest monied—I would not use any other term—institutions; propertied institutions; moralizing institutions; a lecturing and self-claimed educative institution; the watch-dogs of the nation: can any hon. Member look himself in the face conscientiously or in the mirror tonight and say to himself that in respect of this matter there is not a far, far wider thing to inquire into and investigate than the mere question whether there is a charge in a court of law?

We may, through this inquiry, alight upon the procedures, the illegal and improper procedures, by which hundreds of millions of rupees of the foreign exchange of this country are being drained away. I do not wish to refer to any of the matters referred to by the hon. Member for Panadura (Mr. Leslie Goonewardene). We have a right, I say, to ask the Minister of Finance to make a division of labour amongst us just as there is a division of labour between him, his Prime Minister and the hon. Member for Bandaragama (Mr. George Kotelawala). I am the only person who does not refer to him as "the hon. Member of the Supreme Court."

What I say is this. If in this commission you look into those matters you may discover that you have a bigger hole to plug in your Exchange Regulations, a bigger draining away, and you may find other and bigger fish than even Lake House. That is why we ask for a commission of inquiry.

the speech of the Hon. Prime Minister and of the Minister of Finance, I take it my good Friend, the hon. Member for Bandaragama (Mr. George Kotelawala) will not take it as a personal affront to the value of the contribution that he made, and I trust the same can be said of the hon. Appointed Member (Mr. Izzadeen Mohamed).

The Hon. Prime Minister started on a very high tone plane. He said that he was grateful that all hon. Members of the Opposition and the Government could join together in stamping out corruption, that we should all bring cases like this to his notice and that we should co-operate in bringing offenders to book. If I may say so respectfully, I would agree. I have never said anything else on the Floor of this House and if I may be permitted to remind the Hon. Prime Minister it is not the party to which I belong that has ever been remiss in this matter; and I am quoting in this matter a few incidents of history from 1960 onwards or even earlier, going back to the days of Mr. Bandaranaike, to prove the truth of what I say.

Whenever a commission of inquiry has been demanded attacking the Government of the S. L. F. P. and whatever allies it happened to have at that time including the M.E.P. in the days of Mr. Bandaranaike, and whoever made those allegations, we have not refused it. I remember one occasion I think when, spearheaded by many people including the then Member for Kottawa (Mr. Robert Gunawardena), then a member of the L.S.S.P., a demand was made for the appointment of a Bribery Commis sion. Was it refused? Was it rejected? Was it ever said that we would prefer not to have a commission?

After all the Bribery Act was there. There were laws enacted. The ordinary law could have taken its course. But how can the ordinary law take its course when it has got to be ad-

ject to a political direction? These are not Supreme Court judges who irremovable during good behaviour. These are officials, each and everyone of whom could be told what to do. Whether they will be told to do anything particular is another question. But even the hon. Member for Avissawella, the Minister of Industries, gave us the case that as soon as he gave some information to the then Minister of Finance, myself, people pursued him as a bachelor with income tax assessments. What does all this go to prove? Are we dealing with an independent officialdom capable of enjoying the confidence of the people? Far from it.

Take the other cases. Take every single allegation that has been made by an Opposition one by one. In 1960 within weeks of our assuming office an allegation was made that there was a leakage in regard to information relating to customs duties on cars under the Revenue Protection Ordinance. I think the Hon. Prime Minister expressed great surprise on that occasion. He said "I never believed that your Government would consent to it." But he only made the opening speech when I stood up and said "You can have your Commission", and he welcomed it and said, "In that case there is nothing else to debate. We shall have the Select Committee to go into that matter." And that we did, and ultimately it was found, I think, that there was nothing in it. And I think it was found that the hon. Member who had purchased the largest number of cars on that occasion without any information whatsoever was the Minister of State. Fair enough. We do not mind it. But this is not a question of stifling inquiries.

More recently an allegation was made that Mrs. Bandaranaike, the hon. Member for Attanagalla, had received a Morris Oxford car in some way as a bribe-let us not mince words-to influence some decision connected with the nationalization of insurance in or about 1963. That was the allegation. It was sponsored by the hon. Member for Kolonne and ministered by officials who are sub-van supported very ably, reminiscent of

එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා පරීක්ෂා කිරීමට කොමිසමක්

[එf්ප්. ආර්. ඩයස් බණ්ඩාරතායක මයා.] his greater days as an advocate, by the Hon. Minister of State. And what was the upshot of it all? The Hon. Minister of State himself can, perhaps, draw a little consolation from the fact that at least he proved himself to be a better judge than an advocate when he came to sit as Chairman of that very same Select Committee and was constrained to acquit Mrs. Bandaranaike of any fault whatso-

But the point I make is this. Why was the ordinary law not allowed to take its course? Why were officials not permitted to operate under the provisions of the Bribery Act? Why did the Government on that occasion consider that the appropriate course of action was a Select Committee of the House? What is the reason? What is the difference? In nature and substance the difference is this. Every time you have proceeded under the ordinary law with the officials who have to advise you the results have beeen manifestly plain to the country, disastrous as far as your Government is concerned. Mackie Ratwatte's bribery case was not exactly a distinguished record of how you set in motion the ordinary lawwas it? It was an extraordinary law. The Parliamentary Group were informed that the Attorney-General had advised that there was a castiron case. A couple of foreigners were brought, re-deported back to Ceylon, to testify, and carried in motorcades to their destinations. proud record indeed! The ordinary law was set in motion in a beautiful

Then take the 1962 coup appeal. You inherited that, and having inherited it what did you do? You decided that there was no foreign exchange to retain lawyers to argue the appeal! No one was even going to oppose the application for special leave to appeal. Instructions were given. That is how you people operate the ordinary law, and the net result was, special leave to appeal was allowed ex-parte. Of course, it is the ordinary law. The Hon. Prime Minhard ister says you have foreign exchange tion under the U.N.P. Government!

to pay for Inspectors of Police of the C. I. D., for A. S. Ps of the C. I. D., to go to England to conduct special investigations now. But is it because in one instance your actions could be calculated by the result you desired to produce? In the one case you wanted that special leave allowed. present case you want those investigations to drag on and on while giving the impression to the country that you are doing a great deal of work while actually achieving very little.

Is that all? In 1966, while the Hon. Minister of State was functioning for and on behalf of the Hon. Prime Minister, he suddenly discovered that a coup d'etat had taken place. That is a laugh. Is it not? In the light of subsequent events I think it is one of the funniest things and I think the hon. Third Member for Colombo Central gave it the name which has made it famous subsequently as a kakkussi coup. By virtue of subsequent results you might as well say that Their Lordships of the Supreme Court have finally pulled the plug, thanks to your endeavours to activate the ordinary law. Special tribunals three-judge appointed—a court—and investigations were made. "Fourth floor democracy" got established in this country. It became prudent for any person charged with any offence to stay clear of the windows. This is the ordinary law in action under the influence of the Hon. Minister of State and his Government. And what is the upshot of it? Cases are filed, people are kept in jail for three years at a stretch, witnesses are produced. Your Permanent Secretary for Defence and External Affairs who advised you gave evidence and immediately after he sat down the judges said, "We acquit the most important accused, Mr. Udugama."

A man is sent abroad as Army Commander at midnight. He is flown abroad; he is brought back in the early hours of daylight; he is taken into custody as he comes back; he is whisked away and locked up in jail da This is the ordinary law in acඑක්සන් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා පරීකෘත කිරීමට කොමිසමක් එක්සත් පුවෘත්ති පනු සමාගමට විරුද්ධව චෝදනා. පරිකෘෂා කිරීමට කොමිසමක්

Will you blame us if we say that your actions under the ordinary law have certainly not inspired anyone with much confidence, and if this is the way you activate the ordinary law, all I can say is, perhaps it may be better to have it in the hands of some impartial organization which will be capable of acting without the pressures consequent upon an imminent dissolution of Parliament. Now, if a dissolution of Parliament can and does occur, may I ask who is the official who is responsible for the administration of the ordinary law? You talk in terms of the Exchange Control Department and the Inland Revenue Department, the same Inland Revenue Department that concocted a case and made the hon. Member for Avissawella (Mr. D. P. R. Gunawardena) into a bachelor! They might decide for instance to reverse their entire line of action in regard to the activities of Lake House directors. Let us not mince words. Lake House is an important element in your politicking.

The Hon. Minister of Industries says that Mr. Esmond Wickremasinghe is an old friend. Maybe he was. There was a time when in spite of the great affection they have now they were not so friendly and the Hon. Minister of Industries used to say so many rude things about Mr. Esmond Wickremasinghe, right here House, this in as Chairman the Board of Directors Lake House then. Now he members his old friendship and new friendship but in ween there was a period in which they were not so friendly.—[Inter-Well, I am glad to hear ruption. that. I do not think that at that stage it was so evident in this House-not by your public declarations. But anyway, whatever that may be, all I can say is this: Lake House as an institution can pretend to be a shade political if it likes. Nobody in this House is going to believe that Lake House is not vitally interested and concerned in the maintenance and continuance of a U.N.P. Government by Inamhamitosayson

not saying that the U.N.P. is interested in the continuance of Lake House, but it is difficult to resist the converse as a proposition of facts which is probably very true.

Now, you turn round and say that you want the investigation not to be impeded. Our feeling is that if you appoint a commission you are ensuring the continuity of the investigation, an investigation that can very easily bog down with a dissolution of Parliament and come to a premature and sticky end. We are not concerned with shutting off something; we want to ensure that it continues regardless of shifts in political fortunes one way or another, or influence that can be brought to bear. We believe that an independent Royal Commission is capable of it especially reinforced by one member—we are not asking for more than one—to be nominated by the hon. Leader of the Opposition to ensure its non-partisan political character.

Now, the Hon. Prime Minister says this. May I remind him this. I hate to say things when he is not here. I am not going to use harsh language or say anything of an unfair character, but I do propose to make the point for what it is worth, and that is that the Hon. Prime Minister has not always adopted uniform standards in this matter.

I recall the 1962 coup which took place on 27th January 1962. We all know as a matter of history what happened and I do not propose to repeat it. But I will say this. Within a week we found the then leaders of the Opposition consisting of many people—my hon. Friend the Member for Yatiyantota (Dr. N. M. Perera), the Hon. Minister of Industries (Mr. D. P. R. Gunawardena) and the Hon. Prime Minister as the then Leader of the Opposition and several others— [Interruption]. He is referring to Shelly. I will come to Shelly in a moment. I am going to read the coup record. I will tell you who Shelly is. In 1967 N.L.R. at page 228—the judgment starts at page 193—this is what එක්සත් පුවෘත්ති පතු සමාගමට වීරුද්ධව චෝදනා පරීක්ෂා කිරීමට කොමිසමක්

"4th defendant proceeded to tell him of certain code names, such as 'Handsome' for Stanley Senanayake, 'Satha' for Sir Oliver Goonetilleke, 'Parsee' for Sir John Kotalawala, 'Shelly' for Mr. Dudley Senanayake, 'Mac' for the 19th defendant, 'Smartle' for Lieut. Col. Attygalle; and that the code word was 'Yathura'."

So now you know who Shelly is, in case of interest. That is by the

I am on the point about the Hon. Prime Minister. Immediately after the coup took place the Prime Minister who was then Leader of the Opposition met Mr. C. P. de Silva, the Leader of the House at that time, and said, "We must ask for a debate on this matter. We are not at all satisfied with the kind of investigation that is going on. And I think Mr. C. P. de Silva at that time supported by the Minister of Industries said "No. Let the Government conclude its investigations. But do not give them indefinite time on this. Give them two weeks. In two weeks let them find out what they can" and said that a White Paper could be issued informing the House of the fact so that there could, if need be, a debate on that. And two weeks time was allowed on that basis. And on the 13th of February Parliament met and I read the White Paper that has since come to be a part of the story of that coup.

Immediately after that, the Hon. Prime Minister got up and made a speech in the course of which he said many things. He said for instance that he finds it extremely difficult to believe in a coup d'etat run by only Christians and Catholics and said he found it extraordinarily difficult to believe that such a thing should have taken place.—[Interruption]. But he found no difficulty in believing in a coup d'etat by corporals—let alone Buddhists—by minor fry of no great importance—by N. C. Os and corand lance corporals and porals

privates.

Never mind that. The Hon. Prime Minister said he could not believe it. He said, "allegations are being made hotly here that I am a party to the coup by this horrible man Felix Dias

Bandaranaike—allegations without form or substance, which is merely a political smear campaign adopted.

Their Lordships in the Supreme Court, also in 67 N.L.R. at page 229, quoted the evidence given by Mr. Stanley Senanayake whom they believed incidentally, and who is today a Deputy Inspector-General of Police appointed by this Government. This was the evidence of Mr. Stanley Senanayake accepted by their Lordships in the Supreme Court:

"To continue, I asked D.I.G. how he proposed to carry out this scheme. said that there was a big organization behind this and Sir John Kotelawala was in it and also Mr. Dudley Senanayake who was reluctantly in it and that there were even higher people in it. I am asked what I understand by 'higher people'; I did not give this much thought at that did not give this much thought at that

Then again at page 242, this is what Their Lordships said, a judgment of the present Chief Justice included, along with the former Chief Justice and Justice L. B. de Silva:

"Mr. Kannangara suggested to Lionel Senanayake that he deliberately implicated Sir John Kotelawaia and Mr. Dudley Senanayake at the instance of Mr. Bandaranaike and C.I.D. officers, after Stanley Senanayake had agreed to fall in line. There was an implied suggestion that Stanley Senanayake had also allowed himself to be used as a tool in order that these two persons may be implicated falsely. The passage in his statement which immediately follows falsely. The passage in his statement which immediately follows was elicited by Crown Counsel with our permission: "I was aware that I.G. Police would not be a party to any scheme to arrest the Ministers. To continue, I asked D.I.G. how he proposed to carry out this scheme. He said that there was a big organization behind this and Sir John Kotelawala was in it and also Mr. Dudley Senanayake who was reluctantly in it and that there were even higher people in it. I am asked what I understood by 'higher people': I did not give this much thought at that

Now, what I want to demonstrate is this: the truth of what we said is demonstrable. The Hon. Prime Minister, ably assisted by the Hon. Minister of State, tried at that stage to create defences. The Hon. Minister of State said, "This is a coup by Felix." Coup de Felix I think was his phrase. It was a coup within a coup. Well, I do not know whether he still believes that.

He can have his own beliefs. If I demonstrate the phrase he actually used up to date, he will be ashamed of himself. Certainly this is not a strange thing because he is continually being forced to swallow his own words about coups, lavatory or otherwise. His own record in this matter is a dismal one. He talked in terms of people getting acquitted on legal matters, but let us face facts. Three judges of the Supreme Court have found every single top accused implicated by the S. L. F. P. Government guilty of the offences on which they were charged. And you choose to give them top jobs thereafter— Rs. 3,500, Rs. 5,000, a month! It is all right.

This is your type of democracy under the ordinary law, and all I can say is, if we have no confidence in the ordinary law as administered by you, please do not blame us. If you are sincere and honest in what you are professing that you want corruption out of this country then I think it is up to you to agree that the best way of doing it is to investigate the facts and set about it properly and correctly under provisions of law which ensure impartiality and ensure circumstances in which such an investigation will not run aground and come to a grinding halt due to your own actions.

Now, it is easy for you to talk. The Hon. Prime Minister says, "I have nothing to say. Lake House is against me. They even sent me dirty letters. They even sent me copies of dirty letters that they wrote against my father." Well, maybe, they felt the Prime Minister should know his own father best. Well, that is their lookout. The Prime Minister says, "Rajaratnagopal is no friend of mine. The only connection I have is that a niece of mine eloped with that man." Maybe, he is right. I cannot help feeling

that the niece demonstrated certain family characteristics there, because the Prime Minister politically did exactly the same thing when he eloped with the Federal Party! And so, ultimately, if you stop to examine it,

where does this kind of argument take us?

The Prime Minister says, "You are trying to smear me as a dishonest man." No, Sir. I am not trying to do that. I am not trying to say that the Prime Minister has ever stolen money from anybody. I have never said that, and never will. A man placed as he is placed does not need to steal money, and I am glad to say, fortunately, the way I have been placed I have never had the need to steal money either. Eut let us be fair about one thing. This only proves that circumstances have placed him and, to a lesser extent myself, in circumstances where we are not subject to certain temptations. But let us not, therefore, be sanctimonious about it because, we should all realize, "There, but for the grace of God, go I". This is not a question of feeling specially virtuous about anything. The Hon. Minister of Industries got up and made a speech. I really felt sorry for him. I really and truly felt sorry for him. He spoke from the heart and said why he did it. He said, "I am not a rich man".

I will tell you why. If you listen to me for a moment you will realize why I am sorry for you. I am sorry for you because intellectually you have not even the capacity to understand the basis of what you said. The Hon. Minister in fact said, "Look"-I should paraphrase what he said— "look, I admit that my wife wrote a letter to Mr. Nugara. I admit that she asked Mr. Nugara to give £50 to my nephew." He talked about his nieces also. I do not know why. Maybe he had his reasons. But, having talked of his nephew, he said, "Well, I asked him to give my nephew £50. I did this at the request of an old friend of mine."—as I said, old friendships are revived—"He wanted the £50 collected." And he said, "The money was used to purchase books, rare books, Marxist books."—[Interrup-Well, I presume Esmond tion]. Wickremasinghe is re-educated: It is necessary now. But whatever that may be, the Hon. Minister said it was used to buy rare books-£ 40 odd worth of them, for Mr. Esmond Wickremasinghe, which take it were duly transported back and given to him. I am not going to dispute those facts. I shall accept every one of them as true. And the Minister said, "If I am broke and I happen to be abroad, I think nothing of taking a little money from any old friends I happen to have. Presumably, old Trotskyites in London have money!

We are not prepared to interpret the law in any way that suits them because it affects them. When we are charged with releasing secrets of a budgetary character or anything else, we are quite prepared to submit ourselves to investigation. We do not turn round and say, "Look, some special interpretation must be made to our advantage."

There is nothing wrong in borrowing some money. I understand; I sympathize; and I do not say that it therefore becomes wrong. £ 50 is a small matter. Nobody is interested in prosecuting Mrs. Gunawardena. That is not the issue. Her name got dragged into this, as indeed the names of several others. We are interested in Lake House. I appreciate that. That is why I am asking for a commission. Your opinion is worthless; mine is worthless. Let us, therefore, have the opinion of an independent commission. That is all I am saying. I agree that the law is an ass, especially when it operates in the case of the Hon. Minister of State, as has been amply proved. That is why we say we must have a commission of inquiry to go into the matter. Why are you insisting on trying to baulk the inquiry? It is easy for the Prime Minister to say, "I am an honest man. I am not going to protect anybody." Look at the conduct of the Hon. Minister of State in the 1962 coup case. Did it not in this House in effect have the result of furnishing defences to coup suspects at that time? Has it not in fact created the conditions in which the same coup suspects, having been released on a point of law by the Privy Council, have got jobs of a very high-salaried order in government corporations and under this Government? Is it not true that the Hon. Minister of State has justified those appointments with the argument,

එක්සත් පුවෘත්ති පතු සමාගමට විරුද්ධව චෝදනා පරීකෳණ කිරීමට කොමිසමක්

"Well, what is wrong with the coup suspects? These people have been acquitted. They are entitled to the jobs" I am not saying that. I would be more impressed if you appointed someone who successfully carried out a coup. A man who failed in a coup should not think that that is efficiency; that is the hallmark of inefficiency. If a man cannot run even a coup successfully why should you imagine that he can run a hotels corporation successfully. No wonder you are running at a loss. I can understand it if you set a premium on efficiency, but why set a premium on inefficiency? Unless it be for some reason where you feel obliged to him I do not see the argument.

In this situation you say, "We are not protecting Lake House." The Hon. Minister of Industries said, "We have blocked off one loophole at least; the Eastern Paper Mills Corporation is now handling imports of paper." Well, I accept his statement. There is nothing to argue about that. Fair enough. But does that help you? Have you really shut the stable door even now? Lake House consists of a group of companies associated with each other as holding companies in many forms. There is Lake House Investments Ltd., the Lake House Book shop, the Lake House running this, that and the other. All of them.

others—have not been given the opportunity to traffic in foreign exchange? That can only be done by taking away the opportunity to take licences for the import of anything at all. Unless you seal that possibility, this racket in exchange will continue. Merely taking away the import of newsprint is not going to affect them.

You all want to print propaganda favourable to you. That is fair enough. That is your point of view. You are entitled to it. But the country must be protected.

Whether it is in the form of books, or printing inks, there must be some form of protection. Not only books, there are other things too like Lake House photographic materials. I do not care what it is. But a man who is proved to be a crooked trader committing exchange frauds, a crooked importer, must not be permitted to continue his imports from abroad. That is the essential thing.

On that I notice a total silence on the part of this Government, excepting the little contribution of the Hon. Minister of Industries who at least had the courtesy and grace to refer to one aspect of the matter which drew his attention. But has it been done here? Has any attempt been made in this situation to block off loopholes? The same gentlemen today enjoy a very high position in society. They are members of the same clubs as many people in high positions do in Colombo society. Some of them may even be socially meeting at the same level people within the Government, even enjoying ministerial status, having access to them. Is this a desirable feature?

Of course, one may say, "The law must be the same for the rich and the poor." I think I overheard the hon. Appointed Member saying that all people should be treated alike under the law. Well, I have said it before—I do not know whether the hon. Appointed Member was here—that the only trouble is that under the law some are more equal than others and

those with foreign exchange in their pockets are even more equal than all others. The tragedy is in such situations you cannot have administration under the ordinary law, as administered by this Government, capable of inspiring confidence in anyone. In those circumstances I must say that we in the Opposition would appeal to every single hon. Member of this Government who is honest and sincere in his endeavours of wanting an impartial investigation, a continuity in this investigation, not to be stifled in consequence of, shall I say, an impending dissolution of Parliament at some stage before the investigation could be completed.

It is all well and good to say that we are rushing into matters prematurely. That is just not true. In the 1962 coup case we only asked for two weeks. In this instance, the Government, according to the dates furnish ed by the hon. Member for Yatiyantota (Dr. N. M. Perera), certainly had information from about the 18th of April at the very earliest. The Hon. Prime Minister, I think, was right in rejecting the April 10 statement as not being a clear statement by Mr. Nugara. I would respectfully submit that is perfectly correct. that But it still leaves us with the situation that certainly by May 1969 this Government was apprised of the I know that some C.I.D. officers have gone abroad.—[Inter-The Exchange Control ruption]. Department and the Central Bank-you can regard them as two different things when you choose to do so, but my respectful submission is that every one of these institutions, whether it be a corporation or a department of the Government, is in one form or another directly under the control of the Government. That is as it should be; it must be so. would not, for example, say that the Police Department in our time was something different. If anything that they did was wrong, then we are responsible for it. Fair enough. They must take our orders, and they did.—[Interruption].

[එfප්. ආර්. ඩයස් බණ්ඩාරනායක මයා.]

My respectful submission is that in this instance the investigations now being done, as spoken to by the Hon. Minister of Finance, are in effect going to produce the result of trying to create confidence in the people that the Government is very seriously concerned in investigating something, but doing it in such a manner that the investigations will never end and can never be completed, for you could not take action from May 1969 up to January 1970, and your C.I.D. officers left Ceylon only in December 1969, in case you do not know it. I know it. I know one of the officers myself. He is at the moment still trying to recover from the cold winter. He has not got down to investigations yet. He is wrapping himself up in blankets and nestling in bed most of the time. He has not got down to the case yet.

Are you serious in investigating something to bring the offenders to book and sealing off foreign

exchange?

I have concluded, Mr. Speaker. I have nothing further to add, except to say this, that while we welcome the Prime Minister's statement of fact that there must be a non-partisan approach to the elimination of corruption, just as much as when he was in the Opposition he found it difficult, whilst stating the general principle, to accept that what we were doing in the 1962 coup was a proper investigation, we find it difficult for much the same reasons, which I have adumbrated in some detail—I am sorry the Prime Minister

had to be away for an official reception, and I have avoided making statements of a personal character calculated to sling mud at anybody—we find it absolutely impossible to accept the impartiality of the present investigations in respect of the Lake House Group.

We must therefore ask this House to press the request contained in the Motion to a Division, and I would respectfully ask every hon. Member of this House concerned with the elimination of corruption finally and utterly from our midst to join with us in supporting the hon. Leader of the Opposition.

10, Birchington Road, Hornsey, London N. 8., Reg. Airmail Post, April 10, 1969.

The Controller of Exchange, Central Bank of Ceylon, P. O. Box 883, Queen's Street, Colombo 1, Ceylon.

DEAR SIR,

I believe it is a violation of the Ceylon Exchange Regulations for any Ceylonese individual, or for that matter for any Ceylon company or organization, permanently domiciled in Ceylon, to have unapproved accounts abroad.

If your answer is in the affirmative, could you please advise me what steps could be taken if it is brought to your notice that—

- (a) The Ceylonese Directors of a limited liability company incorporated in Ceylon have over a period of years been systematically, through various devices, syphoning large sums of foreign exchange into their individual private accounts both in England and Switzerland?
- (b) That such illegal funds have been used for other illegal money transactions with individuals not resident in Ceylon while a good proportion of such moneys have and continue to be used for the personal benefit of the individuals concerned on their annual visits abroad?
- (c) Can a Ceylonese invest large sums of foreign exchange, through his or her overseas holdings referred to under (a) for the purchase of shares in foreign airline (American and Continental)?

Naturally, documentary evidence, including Bank statements and advice notes (originals), as well as letters to the respective Banks in the individuals own handwriting would be made available to support such complaints.

I also understand, certain aspects of a complaint of this nature would fall under the jurisdiction of the Company's Act of Ceylon, in that all shareholders may not be aware of the activities of those concerned. Perhaps also, the Commissioner of Inland Revenue would be a third party interested

From a National point of view, I wonder what the Opposition Members of the present Government would think of the situation if these matters even accidentally came to their notice?

I await an early reply,

Yours faithfully, Sgd. AELIAN NUGARA.

The Controller of Exchange, Central Bank of Ceylon, Dept. of Exchange Control, Colombo 1, CEYLON.

DEAR SIR,

I acknowledge receipt of your registered letter Ref. IN/2091, dated 18th June:

2. BRIEFLY, details of the activities carried out by the persons concerned which, in my view contravene both your Exchange Control and Import Control Laws are given below:

Firstly, the persons concerned are as follows:

Mr. G. B. S. Gomes, 113, Fifth Lane, Colombo 3. He is the Managing Director of Associated Newspapers of Ceylon Limited, a director of Associated Newspapers subsidiary companies and CHAIRMAN OF THE CEYLON FINANCE DEVELOPMENT CORPORATION. As far as I can prove with documents (valid in any Court of Law) he maintains three foreign Bank accounts, two in Switzerland (Zurich), and one with the same Bank's London Branch. Mr. Gomes is a director of other Ceylon companies too.

Mr. L. C. Gooneratne, 30/1, Bagatalle Road, Colombo 3. He is a Director of Associated Newspapers of Ceylon Limited and also a director of the subsidiary companies of Associated Newspapers of Ceylon. He maintains an account at Zurich as well as one with a British Eank in London W. 1. Commissi Digitized by Noolaham Foundation පරිශිෂ්ටය

Mr. Gooneratne came over to London with his wife on 22nd June on Air Ceylon, joining the plane from Karachi, on Sales Promotion tickets issued by Air Ceylon under their contract with Associated Newspapers of tract with Associated Newspapers of Ceylon. He and his wife stayed at a Hotel in London S. W. 1. from the night of the 22nd till the morning of the 28th June when they moved into flat No. 9, 59 Gloucester Terrace, London W. 2. which they have rented at a rental, I am told, of seventeen guineas per week. I am also told by a nephew of his that Mr. Gooneratne, his wife and their son who is studying in England will be going over to the continent early in July on 14 days holiday and will in all probability not return to Ceylon at least after the middle of August

Did—& returned to Ceylon on 5th Aug.

> Mr. R. S. Wijewardene, 50/9, Siripa Road, Colombo 5. He is Chairman of Associated Newspapers of Ceylon Limited. He maintains an account in Geneva. He also has a London account but I have no documents to prove the London account.

I have in my possession documents, including Bank Statements, to prove the existence of the accounts detailed above. The statements give besides other details, their account numbers. I also have in my possession, again valid in any Court of Law, documents to prove the source of the income into these accounts, including original advice notes to show that the sources of income are suppliers of goods to the Ceylon companies owned/controlled by these gentlemen.

You might well ask for proof also of the manner in which these foreign bank balances have been acquired and augmented —whether through secret commissions, overstating of invoices for goods shipped to Ceylon, etc. The answer to this and any other queries you may wish to raise will be found in the documents in my possession.

For obvious reasons, at this stage, I am in this letter restricting details to the minimum. If you wish to make a serious investigation, all the documents, including original Bank statements, advice notes as to source of income, letters from firms, etc., will be produced before any authorised representative you may wish to send to London to investigate the matter. If you feel the expenditure in sending anyone to London is too much for your department, you might like to consider authorising a senior official of your High Commission in London to carry out the

investigation. If the latter course is followed, I must be told in writing by you of the name of the official so authorised and such official must be of senior rank. In this case the documents and all relevant information will be produced before the official concerned in the presence of my own representative. The meeting can be held at a mutually convenient date and time but of necessity must be held outside High Commission premises and also not at the residence of any High Commission official.

You will note that I am restricting details of the complaint to Exchange Control and Import Control as I believe you will be concerned only in these aspects of the case.

On the import side I can produce receipted invoices and original letters to prove that various restricted goods costing hundreds of pounds have been imported into the country by at least one of the gentlemen concerned, using ruses to side track your laws.

The documents in my possession number many and date from August 1963 to August 1967. They will also show other foreign exchange transactions in contravention of your laws, including instructions to the Bank asking that various sums of money ranging from £225 to £1,500 at a time be paid from the Swiss account to various named persons. These persons include people in England, Singapore, and Brooklyn, USA. Some of these named individuals are Ceylonese.

In the case of the other two directors of the main firm in question, when the time comes I shall give details to show that they too have moneys in Banks in London—one has an account in a well known London Bank—the other has moneys held in the name of a son on deposit account. Documents to prove both these statements will be produced.

# †† Note .- arrived on 13th-

went to continent with son & daughter-in-law, returned after 12 days and left on 5th August for Ceylon with sister & bi-1-the Gooneratnes

†† I learn another Director of Associated Newspapers of Ceylon will be coming over to London on the 13th on an S.P. Air Ceylon ticket and will while in London be joining the son on a holiday to the continent. The ticket for the director was bought last week, on the director's instructions, from Pan American Airways in London for a trip to Copenhagen, Brussels and Berlin and back to London, costing just under £ 80.

I look forward to hearing from you—please acknowledge receipt.

Yours faithfully, Aelian Nugera. P.S.

Would you please let me know whether a Ceylon national, not domiciled abroad, can invest in shares in foreign airlines? I believe this too is in contravention of your laws? If so, how is it that Mr. Gomes instructed his London Bank, sending completed share application forms with his written instructions, asking that they purchase for him a specified number of shares in each of two named foreign airlines?

#### Dear Mr.

I'm enclosing letter to my Swiss Bank, which I shall be much obliged if you can stamp and post by Air Mail. I trust you have now settled down in the new office and that you are not too cramped for space. There have been no new developments from Exchange Control re our London office set up and I think the best we can now do is to hope that they have dropped the whole thing.

With kind regards, Yours sincerely,

## Dear Sir.

Further to our telephone conversation we have much pleasure in confirming the first part of the request made in your letter of the 15th instant has been dispatched by Air mail parcel post and we enclose herewith our Invoice GWS. 15225 accordingly.

We are pleased to detail on the enclosed proforma Invoices the various items requested for parcels two, three and four, which we trust you will find self-explanatory and conforming with the details also listed in your communication under reply.

With regard to parcel number three, on detailing the prices of all the items listed we found the cost involved was something in the region of £ 7.0.0 in excess of the cost of a new Steering Box complete. We have therefore, as you will note, detailed the list as a Steering Box which we will dispatch in two parcels and sincerely trust our actions in this particular connection meet with your full approval.

Assuring you of our continued interest and our best attention at all times.

We beg to remain, Yours faithfully,

Sgd. R. Northwood,

My dear Mr. Nugera,

Thank you very much for having sent the photographs "medicine" and the literature on the organ so promptly. My son-in-law collected it from Mr. Ponnambalam on the foll. day after arrival.

My little daughter is thrilled with the coloured photos. They were taken at Mr. (illegible)'s daughter's wedding. I only hope the colour doesn't fade with time as most colour snaps do. I suppose you must have met Mr. & Mrs. H. C. N. de Lanerolle as they were hoping to spend a few days in London before.

Regarding the organs, there are two which seem interesting from the literature you sent (1) the Crucionelli Concert 61 Piano organ costing about 85 gns. made by Selmer, London, and the other the Gemini—a transistorised Electric Organ costing 95 gns. Could you kindly get me the necessary information as to whether they are tropicalized, etc. (illegible). I wonder what the tone is like. Would you please ask (illegible) to have a look at them with you if possible when you have ham Foundation.

the time to spare (illegible) what 1 like. He has seen some organs too which he says cost about £95.

Dear Aelian,

I am writing to ask a couple of favours from you and hope you will be able to find the time. I am enclosing a letter to St. Martins Bank which I am requesting to send on £50. Of this £10 is for Percy Colombage's son, Chandralal, whom you will, I understand, be meeting when he comes to London. Could you hold the balance for me and if possible purchase a clarinet? This is for one of my sons. I had hoped to get this purchased and brought by Sumana Gomes, but I have had no hope from the party I wrote—a shop in London (illegible). I have since been advised that it would not be safe to rely on these people as the instruments they sell may not be satisfactory. The two reliable makers are, I am informed, Selmers, and Boosey & Hawkes. The clarinet I want is a B flat clarinet. As you can imagine these are very scarce now in Ceylon and the price is prohibitive. If you could arrange to procure one for me I wouldn't mind a second-hand one, provided it is recommended as satisfactory as it is for a beginner. I don't think you would have time to send it by J.S.G. who kindly undertook to carry it for me. If so, would you be able to send it by anyone else whom you know well enough to ask or otherwise keep it till I make the arrangements. I will, of course, pay any duty if necessary and could see that the money is available when required. I am sorry I don't have the address of the two firms I have mentioned, but perhaps you will be able to get at them. I know how tied up you are and I hate to add to your burden, but there is no one else I could ask at present. Many thanks for any help you can give.

I am sorry the London office matters have still not been resolved and the Directors are awaiting Mr. Gomes' return before they take any decision. The (illegible) has altered with the new FEECs Scheme and we should be able to work out a satisfactory solution soon. Many thanks and kindest regards.

Yours sincerely, Sgd. (Illegible).
