ஈயம் பலகை, கவரைந்து, கண்முன்றும்,

With the body as the game board, the fifty one letters as the squares therein, the five (sense-organs as) dice balls, and (the forehead, neck and heart as) the three locations, the great Gambler (God) plays His game pervading everything. I cannot really understand the secret underlying this magic sport (without His Grace).

## Week of World Recognition

OCTOBER 2, of all days of the year, has acquired a special significance. Birth days have an importance all their own varying in degree according to the achievement of those associated with those occasions. The recognition is mostly local, confined to a village or a town or even a district. But, where country wide attention is paid, the birth day naturally becomes an event of great import. And if, the happiness is shared by the peoples of the world then of course the birth of the person concerned must have a definite bearing on the progress of humanity itself. Mother India has been the birth place a large number of savants and sages, scholars and statesmen who had contributed greatly to the general advancement of the world as a whole. Of all these men of repute Mahatma Gandhi occupies a singularly remarkable place by virtue of the impact his life has made on the progress of civilised humanity particularly because his contribution to the general welfare had been based on religious principles, moral code and humanitarian conduct.

Like unto the discoverers of scientific wonders, Gandhiji was able to focus the attention of entire world on that great potential — Soul Force by his extensive and intensive experiments with truth, his abhorrence of violence and detestation of falsehood. It may be rightfully said of this peerless patriot that of all leaders of liberation movements he alone had made use of the mysterious might-Soul Force-generating it from dedicated exercise of religious discipline that meant the truth and nothing but the truth. The striking story of the life of this exemplary exponent of the principle of Ahimsa is good reading for centuries and centuries, particularly during the present times when Ahimsa has usurped the throne and every single person is being held to ransom by the threat of armed thugs at all levels.

October 2, has then a perpetual glory, of having been that proud—occasion when a saviour of humanity was ushered into this world by Providence. Let us all strive hard to maintain the magnanimity of this great event by dedicating our future to the cause of Truth and Ahimsa and therefore to religion.

## Special Archana To Saneeswarar

Sir,

It is reported in the "Hindu" newspaper that His Holiness Sri La Sri Amba'avana Desika Paramachariya Swamigal, revered Head of the Thiruvavaduthurai Atheenam has inaugurated the performance of special archanas for Lord Saneeswarar at Suriyanarayana swamikoil near Mayuram, Tamil Nad, for the prosperity of mankind. This is a very welcome and elevating event. In this context, it is inspiring to recall with gratitude that the title of Navalar was conferred by the self same Thiruvavaduthurai Atheenam decades ago on our Sri La Sri Arumuga Navalar, and that the title so conferred on our illustrious countryman was a source of very great effect and resulted in very meritorious repercussions in the life and career of Sri Navalar (then known as Sri Kandappillai Arumugam) and enabled him considerably to render immense services to the cause of Hinduism (Sainism) with the grace of Almighty Shivaperuman.

Doubtless, the performance of the Arshanas on the present occasion will prove a blessing to all creation, for which also let us be thankful to the revered Head of the same Atheenam.
