P R E F A C E

THE reception given to the first edition of this work, having far exceeded the anticipations of the Proprietors, the want of a reliable work of this nature has been fully established; and, in issuing the present volume it is merely necessary to point out the improvements and additions that have been effected.

The number of Towns and Cities has been considerably increased, and still more would have been included but for the principle by which the Proprietors are actuated—never to give any information that is not, as far as all possible care and labour can make it, perfectly reliable. With the next publication, however, further progress will be made, and other improvements added.

In addition to the Trade Returns, Tariffs, Populations, &c., the present volume contains full particulars (with Rates and times of transit) of the Steam and other Communications to the various places treated of, wherever anything like a regular mode of conveyance or correspondence exists.

All the London Agents to each of the Banks are named, so that the Merchant is enabled to see to whom to apply where financial information or assistance is needed in connection with any particular town or city.

The principal Products, and details as to the articles of which the Trade Returns chiefly consist will also be found; and tables of the local weights and measures.

Notwithstanding such enlargement and additions, the Proprietors, in order to make the book as compact as possible, have remodelled the shape, and economised the space, so that, although so much more information is given, the book does not form so bulky a volume as the last.

The work, as previously stated, is not intended to supersede any of the excellent annual local Directories, but to give a concise book of reference to every English, Foreign, and Colonial Merchant; and no effort has been, or will be, spared to render it as perfect as possible.

The Proprietors take this occasion of thanking all their Friends and Agents who have so ably assisted them in the compilation of the work.

CORRIGENDA ET ADDENDA.

Page 1 &c. Steam communication to India.

The despatch from this side by the "Messageries Impériales" has been altered to the *fourth Thursday in each Month*. This correction applies to the mention of this Company's arrangements throughout the work.

In the particulars as to the transit through Egypt in connection with the communication to India, &c., the regulation as to children has accidentally been occasionally omitted. The table of fares is as follows:—

TRANSIT THROUGH EGYPT.

For First-class Passengers	£4 10 0
„ Second-class „	2 5 0
„ <i>Children 3 to 10 Years of Age</i>	<i>Half Fare.</i>

The fares from London to Trieste by the Austrian Lloyd's Company are in one or two cases given as £1 too much; in every instance it should be as under:—

London to Trieste by various routes	£9 to £14
Second-class	£6 to £10

Since the first portion of this work went to press the PANAMA, NEW ZEALAND and AUSTRALIAN ROYAL MAIL COMPANY has gone into liquidation, so that the communication by that line has ceased.

COINS, WEIGHTS AND MEASURES.

MONEY.

The standard of British India is silver, gold though coined for merchants is not a legal tender, gold coins always bear a premium on the Government coined valuation. By a late order English Sovereigns and Half Sovereigns are received at the Banks and Great Treasuries at 10 Rupees 4 Annas, and 5 Rupees 2 Annas respectively, or exchange value of 2 Shillings per Rupee.

The Rupee weighs, 180 grains Troy or 1 Tola, the quality eleven-twelfths silver and one-twelfth alloy. The Rupee is so nearly equal in weight of silver to the English Florin, that in all estimates it is usually valued at an exchange of 2 Shillings.

WEIGHTS.

A Standard of weight has been proposed by the Indian Government but has never been enforced. It is based on the Tola of 130 grains, and makes the standard Mun or Maund equal to 100 lbs. Troy, but this is not used in commerce.

There are two systems of Weights used in commerce in Calcutta—

- 1 The Bazar Mun or Maund = $82\frac{1}{2}$ lbs. Avoirdupois.
- 2 The Factory Mun or Maund = $74\frac{1}{2}$ lbs. Avoirdupois.

By the first all country produce is bought and sold, except Indigo, Saltpetre, and Silk, which are weighed under the Factory Maund. Imports are generally weighed by the Factory Mun unless otherwise specified.

The Maund or Mun is divided as follows:—

- 16 Chittacks = 1 Seer.
40 Seers = 1 Mun or Maund.

Table for converting Avoirdupois Weights into Bazar Maunds.

The Salt Maund is $2\frac{1}{2}$ per cent. heavier than the Bazar Maund, having 82 Tolas to the Seer.

LINEAL AND SQUARE MEASURE.

- 14 Jussoos or lengths of the first Joint = 1 Hath.
1 Hath = 19.54 inches, but in Bengal = 18 inches.
4 Square Haths = 1 Square Cowrie.
- 4 Square Cowries = 1 Square Gunda.
20 Square Gundas = 1 Square Kutta.
20 Square Kuttas = 1 Beegah.

The standard of measure varies in every Province. In the North-west the standard is the Hakee Guz or Yard of 33 inches. Major Jervis, in his work on Indian Metrology, gives the Guz or Yard at 27.92 inches. In Bengal the Yard is assumed at 36 inches or 2 cubits of 18 inches.

The Linear Measure throughout India is based on the following system:—

- 5 Finger Breadths = 1 Palm.
6 Palms = 1 Cubit.

The land or Square Measure is based on the Beegah, and is subdivided in Bengal as in the above Table, but in no district is the Beegah the same, local usage is the rule, and it may measure from 1,000 to 5,000 square yards. The Government fixed the Beegah for the Revenue Settlements of the North West Provinces at 3,025 square yards.

WEIGHTS.

In Bombay the following are the Local Weights in use:—

4 Dhan or Yav	= 1 Raktica or Gunj	2·1267	Grains Troy	0·1182 Tola.
8 Raktica	= 1 Masha	8·5069	" "	·09452 "
4 Masha	= 1 Tank	2·4889	Drams Avoirdupois	·37809 "
72 Tank, or 30 Pa'is	= 1 Ser	11 $\frac{1}{2}$	ozs.	27 $\frac{2}{3}$ "
40 Sers	= 1 Mán	28	lbs.	1088 $\frac{2}{3}$ "
20 Máns	= 1 Khandi	560	" "	6·8056 Imperial Mán.

The Khandi for Cotton is 28 Máns or 784 lbs. Avoirdupois or 7 cwt.

The "Pakka Ser" is 14 $\frac{3}{8}$ lb. Avoirdupois or 72·59 Tolas. At Panwel the Ser weighs 72·83 Tolas.

The British Indian or Imperial Ser and Mán are 2·9387755 Bombay Sers and Máns respectively; and the Bombay Mán is 0·3402778 Imperial Máns.

The Bombay Ser weighs 317·51485 Grammes, and the Mán 12·700594 Kilogrammes.

LINEAL MEASURE.

The Gaz or unit of Lineal Measure not only differs in different provinces of India, but also, like the Ser, in the same province for different purposes. The English yard, however, is rapidly becoming the only standard unit, especially where English education has obtained a firm footing.

3 Jau	= 1 Angli	$\frac{3}{4}$	inches	
4 Angli	= 1 Muthi	3	"	
12 Angli	= 1 Big Hath or Bilisht ..	9	"	
2 Big Hath or 24 Angli	= 1 Hath or cubit	18	"	
2 Hath	= 1 Gaz or yard	3	feet	
4 Hath	= 1 Danda or Bam	2	yards	or 1·8287 Metres.
2,000 Danda	= 1 Kos or Kros	4,000	"	or 3657·5 "
4 Kros	= 1 Yojan	9 $\frac{1}{2}$	m.	or 14630 "

In Bombay the Half Hath is called Vent; and the measuring rod or Kathi for land, according to Jervis, is 9·3644 feet.

10 Pagodas = 1 Pollum	1 $\frac{1}{2}$ oz. Avoirdupois	3.038 Tolas.
8 Pollums = 1 Seer	4 lb. "	24.304 "
5 Seers = 1 Viss	3 $\frac{1}{8}$ lb. "	121.528 "
8 Viss or 40 Seers = 1 Maund	25 lb. "	972.222 "
20 Maunds = 1 Khandi	500 lb. "	6.0764 Imperial Maunds.

The Madras Maund is 0.303819 British Indian Maunds, and the British Indian or Imperial Maund is 3.2914286 Madras Maunds; 1 Bombay Maund = 1.12 Madras Maund, and 1 Madras Maund = 0.892857 Bombay Maund. The Madras Maund is sometimes stated at 30 lbs. Troy or 0.3 British Indian Maund = to 24.6857143 lbs. Avoirdupois, which makes the Pollum exactly 3 Tolas and the Khandi 6 British Indian Maunds.

The Mangelin for Pearls is 6 grains. 18 Madras Chows = 55 Bombay Chows.
The Pagoda Weight = 52.56 grains.

The Weights and Measures recognised by Government are as follows:—

Weights.	Avoirdupois.	lbs.	ozs.	drs.	Weights.	Avoirdupois.	lbs.	ozs.	drs.
180 Grains	= 1 Tola	= 0	0	6.58	40 Pollums	= 1 Viss	= 3	1	5.94
3 Tolas	= 1 Pollum	= 0	1	3.75	8 Viss	= 1 Maund	= 24	10	15.54

1 Dram Avoirdupois = 27.342 Grains. 1 Ounce Avoirdupois = 437½ Grains.
The Maund is generally spoken of as 25 lbs. Avoirdupois.

LAND MEASURE.

1 Munnee or Ground (60 feet + 40 feet) = 2,400 square feet.
24 Grounds = 57,600 square feet or 1 Cawnie.

or
1 Kole or Rod = 24 feet.
1 square Kole or Goolee = 576 square feet.
100 Goolees = 57,600 square feet or 1 Cawnie.*

In some districts the Cawnie is divided into Annas or sixteenths, each Anna being 3,600 square feet, or a square of 60 feet each way.

The Goolee is often called Coolee or Goontah.

Since an Acre is 43,560 square feet or 4,840 square yards, and a Cawnie is 57,600 square feet or 6,400 square yards, it follows that

1 Cawnie = 1.322,316 Acres.
1 Acre = 0.75,625 Cawnies.
And 640 Acres or 484 Cawnies = 1 square Mile.

1 Beegah of N. W. Provinces = 3,025 square yards or 1 Acre = 1.6 Beegahs.

CHINA.

EXTENT OF CHINA PROPER about 1,300,000 square miles.

POPULATION FROM 350,000,000, to 400,000,000.

PORTS OPEN TO FOREIGN TRADE.

Canton, Swatow, Amoy, Formosan Ports, Foochow, Ningpo, Shanghai, Chinkiang, Kewkiang, Hankow, Chefoo, Tientsin, Hong Kong (British Colony), Macao (Portuguese Colony).

PRINCIPAL PRODUCTS.

Bamboo, Camphor, Rice, Cotton, Wheat, Barley, Millet, Tobacco, Tea, Silk, Sugar, Cassia, Musk, Gems, Copper, Tin, Lead, Mercury, Arsenic, Iron, Porcelain Clay, &c.

TRADE RETURNS.

Last Return of IMPORTS for one Year, £67,384,975.

Consisting principally of Cotton and Woollen Cloths, Calicoes, Chintzes, Opium and Cotton from India, Metals, Beer, Ale, Coals, Hardware, Lead and Shot, Arms and Ammunition, &c.

Last Return of EXPORTS for one Year, £46,455,250.

Consisting principally of Tea, Silk, Silk Piece Goods, Cassia Lignea, Rhubarb, Camphor, Aniseed, Essential Oils, Nankeen, Porcelain, Lacquered Wares, Ivory and Ornamental Work, Canes or Sticks, Mats and Matting, &c.

N.B. The above figures show the total value of foreign trade with China, including the re-exports. These, however, must be deducted to arrive at the true amount.

	£113,840,225
Deduct re-exports	18,862,539
True value of foreign trade	£94,977,686

Hence it will be seen that foreign trade with China in the year 1866 amounted to close upon £95,000,000 sterling, and of that trade the share of Great Britain amounted to no less than £71,518,723, or nearly 63 per cent. of the whole.

* STEAM COMMUNICATION WITH CHINA.

CHINESE WEIGHTS AND MEASURES.

COINS.

In Canton accounts are kept in Taels, Mace, Candarines, and Cash. The Tael is equal to 10 Mace, 100 Candarines, or 1,000 Cash. The only money made in China is called Cash, and is cast, not coined, and is used only for small payments. It is composed of six parts, of copper and four of lead. It is round, with a square hole in the middle, marked on one side, and slightly raised at the edges. These pieces are carried on a string of wire. On account of their convenience, only 750 Cash are given for a Tael of fine silver instead of 1,000.

Foreign Coins also circulate here, especially Spanish Dollars, which are cut into very exact pieces, but afterwards weighed, and merchants generally carry scales, not much unlike the plan of the English steelyard.

The Tael, once reckoned at 6s. 8d. sterling, varies in value, generally in proportion to the price paid per ounce in London for Spanish Dollars. The value may be calculated as pence by multiplying it by 1.208. Thus, if the Dollar be 60d. per ounce, the Tael will be $60 \times 1.208 = 72.48d$.

Silver ingots are used as money, but Gold is considered as merchandise.

WEIGHTS.

Gold and Silver are weighed by Catty of 16 Taels, each Tael being equal to 10 Mace, 100 Candarines, or 1,000 Cash. 100 Taels = 120 ozs. 16 dwts. Troy, and so a Tael = 579.8 English grains, or 37.566 Grammes.

Table of Principal Weights for Merchandise:—

	lbs.	ozs.	dwts.	lbs.	oz.
1 Tael weighs Avoirdupois	0	1	5.333 =	0	1½
16 Taels or 1 Catty	1	5	5.333 =	1½	0
100 Catties or 1 Picul	133	5	5.333 =	133½	0
The Picul weighs 162 lbs. 8 dwts. 13 grs. Troy, or 60.472 Kilogrammes.					

In China dry goods and liquids are sold by weight. An English cargo is delivered according to English weights, which are then turned into Chinese Piculs and Catties.

LONG MEASURE.

The unit is the Coved, or Cobre, divided into 10 Punts, and equals 14·625 English inches, or 0·3713 metres.

There are four different measures according to the foot, viz. —

	Eng. Inches.	Metres.
The foot of the Mathematical Tribunal	= 13·125	= 0·333
The Builders' foot	= 12·7	= 0·3228
The Tailors' and Tradesmen's foot	= 13·33	= 0·3383
The Engineers' foot	= 12·65	= 0·3211

The Li = 180 fathoms, each 10 feet of the last-mentioned length, thus the Li = 1·897½ English feet ; 192½ Lis = a mean degree of the meridian nearly ; but, by European missionaries, the degree is made to measure 200 Lis, each Li = 1·826 English feet, thus making a degree = 69·166 miles = 11·131 Myriamètres.

RULES, &c.

EXEMPTIONS.—Gold and Silver Bullion, Foreign Coins, Flour, Indian Meal, Sago, Biscuits, Preserved Meats and Vegetables, Cheese, Butter, Confectionery, Foreign Clothing, Jewelry, Plated-ware, Perfumery, Soap of all kinds, Charcoal, Firewood, Candles (Foreign), Tobacco (Foreign), Cigars (Foreign), Wine, Beer, Spirits, Household Stores, Ships' Stores, Personal Baggage, Stationery, Carpeting, Druggeting, Cutlery, Foreign Medicines, Glass, and Crystal Ware.

Articles not in the list of duty-free goods, pay an *ad valorem* duty of 5 per cent., calculated on their market value.

CONTRAHAND GOODS.—Import and Export trade is alike prohibited in the following articles:—Gunpowder, Shot, Cannon, Fowling-pieces, Rifles, Muskets, Pistols, and all other Munitions and Implements of War, and Salt.

Saltpetre, Sulphur, Brimstone, and Spelter, being Munitions of War, shall not be imported by British subjects, save at the requisition of the Chinese Government, or for sale to Chinese duly authorised to purchase them. No permit to land them will be issued until the Customs have proof that the necessary authority has been given to the purchaser.

HONG KONG.

GOVERNOR—His Excellency Sir R. G. Macdonnell, C.B.

EXTENT, above 32 square miles.

POPULATION, 125,000.

TRADE RETURNS.

As the Port of Hong Kong is entirely free from every impost, no Export or Import Duties being leviable, and there being no charges even for lights or tonnage dues, direct information as to the value of the trade cannot be furnished. It is, however, not wholly impossible to gauge the magnitude of the operations conducted within the confined limits of this small island, and the following estimate of the trade done has been compiled on the report of sales effected daily, as given in the Morning Paper published in the Colony, which reports being exposed to the whole mercantile community, are subjected to a tolerably severe test; and, when it is added that the names of both the vendor and the vendee are published, their peculiar accuracy for all statistical purposes can hardly be doubted.

* Total Annual Return Sales of the Hong Kong Market, \$38,271,018, or about £8,610,979. 1s. 0d.

Consisting principally of Cotton Yarn, Grey Shirtings, T. Cloths, Long Ells, Spanish Stripes, Lastings, Camlets, Coals, Rice, Iron, Lead, Sugar, Beeswax, Ship Chandlery, Hardware, &c.

COINS, WEIGHTS AND MEASURES.

COINS.

The coins now in circulation in Japan may be enumerated as follows:—

- The Bu or Ichibu (silver) = 2·3 Momme (133·95 grs.) = 1s. 4d. $\frac{1}{10}$ sterling.
- The Iahu (silver) = 1·15 Momme (29·12 grs.) = $\frac{1}{2}$ Ichibu.
- The Nishu or 2-Shu piece (silver gilt) = 2 Shus = $\frac{1}{4}$ Ichibu.
- The Nibu or 2-Bu piece (gold and silver mixed) = 1·6 Momme (93·184 grs.)
- The Rio or Kobang (gold) = ·88 Momme (51·25 grs.) = 5s. 6d.
- The Zeni or Mongseng (iron) = $\frac{1}{100}$ Ichibu.
- The Hachi-Mongseng or 8 Mongseng (iron and copper).
- The Tempo or Hiyaku-Mongseng or 100 Mongseng (copper).

In addition to, and along-side of, the regular coined currency of Japan, there exists another uncoined and irregular currency. It consists of irregularly-shaped pieces of silver of small fineness, varying considerably in size, bearing a small Government stamp, but passing according to weight.

Accounts are kept on both systems of currency, varying according to place and occupation, as well as according to the subject to which the accounts refer.

In accordance with the 6th Article of the Convention, concluded June 25th, 1866, with foreign powers, arrangement have been made for issuing a new silver coin, equal to 4 Ichibus of circular shape, to replace the gold Rio or Kobang. It is probable a single coin will be selected as the standard of value instead of making gold and silver both a legal tender.

WEIGHTS, MEASURES AND CURRENCY OF JAPAN.

The system of notation in Japan is decimal, and most, though not all, of the weights and measures bear a decimal proportion to each other. In the coinage the decimal system has been neglected for one which, though less convenient, is more natural; the silver coins have been halved and quartered; the copper have been doubled and re-doubled. But even here the decimal has been called in, as if to preserve the calculator from the difficulties of the other system, imperfectly developed; 96 is allowed to pass for the square of 10.

WEIGHTS.

CHINESE.		AVOIRDUPOIS.	TROY.
		Drachms.	Grains.
10 Mo equal to 1 Ring.....	Li or Cash	·0213	·5824
10 Ring „ 1 Fung	Fan or Candareen	·213	5·824

(10 Momme	equal to 1 Liang or Tael	21·33)	
160 Momme equal to 1 Ring..	Kin or Catty	1½ lb.	
(100 Ring	equal to 1 Tan or Picul	133½)	

The two lines in parentheses express the equivalent in Japanese weights of certain well-known Chinese weights, which are much in use among foreigners in Japan. They have no existence as pure Japanese weights, any more than Hiakume, Quamme and two or three others, which appear in most foreign works containing Japanese tables of weights and measures.

The following table shows the approximate value in Japanese weights of the various denominations of the English Avoirdupois and Troy scales:—

AVOIRDUPOIS.

1 Drachm =	·4695 Momme.	1 Hundredweight =	13461· Momme
1 Ounce =	7·5117 „	1 Ton =	269220 „
1 Pound =	120·187 „		

TROY.

1 Grain.. .. . =	·01717 Momme.	1 Ounce =	8·242 Momme.
1 Pennyweight =	·4121 „	1 Pound =	98·1 „

MEASURES.

The following is a Table of the Japanese Long Measure, or Carpenters' Measure as it is often called, with the English values of each division.

1 Ring	=	·011954 inches, or	·000996 feet.
10 Ring = 1 Bu	=	·11954 „	·00996 „
10 Bu = 1 Sung	=	1·1954 „	·09962 „
10 Sung = 1 Shaku	=	11·954 „	·9962 „
6 Shaku = 1 Keng	=	5·9772 „
60 Keng = 1 Choo	=	368·636 „
36 Choo = 1 Ri	=	12910·9 feet or ..	2·4452468 miles.

Below are the Japanese equivalents of the principal English measures.

1 Inch	=	·08378 Shakus
1 Foot	=	1·005362 „
1 Yard	=	3·016086 „
1 Pole	=	16·588473 „
1 Furlong	=	663·539 „
1 Mile	=	5308·312 „
1 Geographical Mile	=	6119·304 „
1 Degree	=	367158· „ or 28·330111 Ri.

CLOTH MEASURE.

10 Bu = 1 Sung = very nearly 2½ inches.	10 Shaku = 1 djoo = very nearly 12½ yards.
10 Sung = 1 Shaku = very nearly 1½ foot.	

SUPERFICIAL MEASURE.

The integer of this measure is the Kanedjaku, or the metal shaku, with which we have already had to deal. Its multiples, and the value of each, are as follows:—

1 Square Shaku	=	·99244 Square Feet.
36 Shaku = 1 Tsubo	=	35·72784 „
30 Tsubo = 1 Se	=	107·184 „
10 Se = 1 Tang	=	1071·84 „
10 Tang = 1 Choö	=	10718·4 „ or nearly ¼ of an acre.

Below are given the values, in Japanese measurement, of the principal English measures.

1 Square Foot	=	1·010748 Square Shaku	·028070 Tsubo.
1 Square Yard	=	9·09675 „	·25268 „
1 Square Pole	=	295·6443 „	8·2123 „
1 Rood	=	305·75 „
1 Acre	=	1223 „
1 Square Mile	=	782725 „

The following table gives all the Japanese measures of capacity, with their corresponding Chinese names, and their respective values in English cubic and Imperial liquid measurement:—

10 Sai	=	1 Shiyaku (Choh) =	1·1075 cubic inches.
10 Skiyaku	=	1 Ngoö (Koh) =	11·075 „ or ·3195 pints.
10 Ngoö	=	1 Shoö (Shing) =	110·75 „ or 3·195 „
10 Shoö	=	1 To (Tau) =	1107·5 „ or 3·9942 gallons.
10 To	=	1 Koku =	6·409 cubic feet or 4·9928 bushels.

CUSTOMS' TARIFF.

PRELIMINARY OBSERVATIONS.

As this Tariff is framed upon an elaborate system, and enters into a minute investigation of all articles of Import, over which it takes an extensive range, it has been found impossible to adhere to the plan adopted in other cases, but with the following explanatory observations, the Tables annexed will afford all necessary information.

Imports are divided into thirty-six classes, comprehending 1,530 heads, and where these separate heads comprise various shades of quality, they are, in several instances, further subdivided into numerous items, each one having its own distinct value. This fact renders it obvious that, as economy of space has to be regarded, such valuations must be omitted, but it may afford a guide to an approximate estimate of the actual duty, if it be stated that the equitable intention is, that this valuation should be based upon the *bonâ fide* value. In cases where more detailed information is essential, a reference from the Class may be made to the official Tariff,* where full particulars will be found.

Commencing the classification with live animals, the others follow in a natural order, ranging from animal productions and articles into which these are manufactured down to the various manufactures of vegetable or mineral origin.

The basis upon which a duty is levied upon all these, is one of 30 per cent. Added to this there is a still further charge of 5 per cent., but from this again there are certain exemptions which will be found printed in italics. A few also are specially charged 2 per cent. extra.

From this general principle there are exceptions:—

Some articles, as coal and salt, and others, the introduction of which would benefit, or undoubtedly contribute to the development of the resources of, the country, are *free*.

The exceptions from the 30 per cent. duty are in favour of a few articles which pay 5 per cent., and 20 per cent., and of those more numerous instances, where a 10 per cent. is levied. Such occur in the latter case when the general principle is a regard for the interests of the country, a consideration for the poorer classes, or where again the protection of native manufacturers or the advancement of science is consulted.

On the other hand, a protective duty is charged where the article imported enters into competition with a native manufacture. Thus a duty of 40 per cent. is levied upon furniture, ready made clothes, and certain other articles.

Fermented liquors, and some other items, pay 50 per cent.

In connection with the valuations the tare allowed in the estimate of the duties is specially enumerated. Certain articles are prohibited; as daggers, treacherous weapons, and drawings or representations offensive to morality. The latter are destroyed.

When gold or silver forms part of any manufacture it becomes liable to double duties; and, in a similar way, ivory, mother-o'-pearl, or tortoise-shell, increases the valuation by 50 per cent.

Goods partially manufactured are charged as though completed. Articles liable to distinct duties, or manufactured from materials enumerated in distinct classes, pay upon that material which preponderates. When in the same article there are the materials of two separate classes, or when there are accessories liable to distinct duties, these, in such cases, are charged in addition.

Passengers are allowed a reasonable amount of clothes and necessaries *free*. The tools and certain household goods of immigrants, as well as those of artists for the exercise of their trade or profession, are *not liable to duty*.

N. B.—An additional 5 per cent. is chargeable on all articles excepting on those printed in italics, and, besides this, a further 2 per cent. on a certain few, which are printed in SMALL CAPITALS. These remarks must be applied throughout to all the classes.

CUSTOMS' TARIFF.

Owing to its extent, the variety of the articles enumerated, the distinctive prices and qualities of each, and besides the alterations to which these are liable upon revision; the necessity of combining economy of space with utility for those seeking information has prevented an adherence to the form of the other published Tariffs.

All articles of import are ranged under seven divisions. The three first comprehend Dry Goods of all descriptions; the four last, Hardware, Eatables, Drinkables, and Drugs.

Duties are levied upon a valuation which is revised at intervals of six months.

The general rate upon all articles is 18 per cent., *except* upon the following:—

Silk manufactures; Precious Stones, unset; Jewelry of Gold or Silver, with or without precious stones; any instrument or utensil where such Jewelry, in the handle or otherwise, increases the value by one-third. In these instances 10 per cent. is charged.

The following articles are *free*:—Gold or Silver, coined or in bullion; Books; Paper for Printing purposes; Plants of every description; Fresh Fruit; Ice; Wood for Fuel and Charcoal; Animals for breeding purposes.

The following also are *free* on its being verified that such articles are applicable to the purposes declared:—Objects stated and claimed to be for religious uses: Scientific Instruments and Apparatus; Machinery for the amalgamation of metals and for the establishment of new manufactures and occupations; Furniture and Tools of Immigrants, and of such things as they require exclusively on settling; Agricultural Seeds.

Five centimes for each eight arrobas,* or its equivalent in measurement, is charged for wharfage.

Five per cent. is allowed for breakage of bottles;—for leakage from casks of wine and such liquids 10 per cent. for those from places north of the line, 6 per cent. for those from the south of the line, and 3 per cent. from inside ports.

The duty on damaged goods is estimated in accordance with the value realised at auction.

Duties under \$50 are payable in cash:—over \$50, in bills, at three and six months.

Articles not in conformity with the manifest are charged with double duties.

CUSTOMS' TARIFF.

CALCULATIONS, CURRENCY, WEIGHTS AND MEASURES ARE ESTABLISHED AT VALPARAISO ON THE DECIMAL SYSTEM.

The Dollar, \$, is the monetary standard. This is divided into cents. Its equivalent value in sterling is about 4s. 3d., and thus:—1 Dollar 20 Cents, which would be written \$1. 20, would be equal to 5s. 1d., or thereabouts, in English currency.

The weights and measures in Kilogrammes and Metres are adopted from the French system. Thus:—1 Kilogramme = 2½ lbs. English, or 2·2048 lbs.

The Metre = 39·371 inches, or 3·280 feet.

The Decimetre, Centimetre, and Millimetre are respectively the $\frac{1}{10}$ th, the $\frac{1}{100}$ th, and the $\frac{1}{1000}$ th parts of the Metre.

The litre is a cubic decimetre, and contains 1·761, or nearly 1½ pint.

GENERAL OBSERVATIONS.

All articles imported into Valparaiso pay an *ad valorem* duty of 25 per cent., excepting those which have been specified in the foregoing scale. These exceptions consist chiefly of certain agricultural implements, carpenters' and other artisans' tools, stores needed in repairs of vessels, and other sundry objects of utility for industrial purposes, which pay 15 per cent.

Bullion, ornaments, and certain jewelry, chiefly used in the manufacture of gold lace and embroidery, household plate, gold and silver articles and jewelry, precious stones, &c., gold and silver watches, pay 2 per cent.

But in such case they must be distinct from other articles liable to a higher duty, or the full rate will be charged.

EXEMPTIONS.

Raw Cotton, in the seed, or cleaned; Animals from foreign parts, alive or preserved; Fire Engines and their appurtenances; Cases of tools for Carpenters', Gardeners', or any other business; Corn Seed of any description; Objects intended for Divine Worship, provided at the port of shipment they have been declared as being on account of the Communities, Monasteries, or Churches for whose use they are intended, and that they be of such description and quantity as would be exclusively applicable to the service of the altar; Effects which at the port of shipment have been sent on account and for the use and consumption of the diplomatic agents accredited by any power to the Government of Chile; Effects of diplomatic Chilean ministers, for their own use and consumption, upon a value which, at a tariff valuation, is not in excess of the amount of one year's pay of the said functionaries, and provided always that such effects be imported within four months preceding or four months after their return to the Republic; Effects which are imported or which are purchased in the warehouses of deposit on account of the State, of corporate bodies, or for Societies of charity; Personal Baggage, by which it is to be understood such things as clothes, shoes, jewelry, household plate, printed books (previously revised), and eatables, all for the use of the person to whom they belong, and in a quantity proportionate to his position and circumstances, but not furniture, although second-hand, nor entire pieces of any kind of stuff; Portions of shipwrecked vessels, in which is

not to be comprised the "rancho," nor the provisions on board at the time of the shipwreck; Fresh fruit, flour from wheat; Printing-presses and their appurtenances; Surgical, Mathematical, Scientific and similar Instruments; Slate pencils; Firewood; Printed books (previously revised), firmly bound; Machinery, which in the opinion of the President of the Republic, may be useful for the development of agriculture, mining, or the arts and sciences; Coined money; Gold in dust or bars; Paper specially adapted, or that which is unsized, for printing purposes, and slips of paper for telegraphic impressions; Slates, with or without lines, for instruction in schools; Foreign plants, and seeds of the same; Silver in brass or amalgam; Lithographic presses; Produce of fishery, procured in National vessels; Prepared printing and lithographic ink; Samples are subject to the same import duties as the articles from which they are taken, but should these be less than a dollar, they are exempt from any charge.

PROHIBITIONS.

Eatables in a decayed state, and other articles prejudicial to health; Paintings, Statues, and other objects which, by their character, tend to the perversion of morality and becoming behaviour; Wild Animals, Reptiles, and Poisonous Insects, except when in special cases they are sanctioned by the President; Gunpowder, except for mining purposes; Armoury, Fire Arms, and every description of war material, which are only allowed to be imported into the port of Valparaiso at the special permission of the President of the Republic, who will give his sanction or not, as he may think proper; and Playing Cards and Tobacco, which can also only be imported by entry made on account of the "Factories Jeneral del Estanco."

FIRST-CLASS CLIPPER PACKETS,

Sailing regularly at short intervals for

AUCKLAND	TARANAKI	HAWKES BAY	CANTERBURY
WELLINGTON	NELSON	OTAGO	SOUTHLAND.

This Line, which now embraces the old original one of Messrs Willis & Co., was established in 1858, to meet the rapidly increasing requirements of New Zealand by the organisation of a Service specially adapted for the safe and comfortable conveyance of PASSENGERS and FAMILIES. Upwards of 700 First-Class Ships have already been despatched by it, conveying to the Colony many thousands of Persons without a single serious accident or mishap.

The advantages offered by the PASSENGERS' LINE in regard to **COMFORT, ECONOMY, and DESPATCH**, cannot, perhaps be more satisfactorily shown than by the simple statement of the fact that three-fourths of the whole of the New Zealand Traffic has gradually been attracted to it; and that almost all old Colonists returning there proceed in these vessels.

All Particulars as to the **FREE GRANTS** and **ASSISTED PASSAGES**, and how to obtain them, together with full information on all questions relating to Ships, Rates of Passage, Freight and Insurance, Shipment of Luggage, Remittances, &c., &c., may always be obtained by writing to **SHAW, SAVILL & Co.**

The Corporation grant Drafts, and negotiate or collect Bills payable at the above places, on terms which may be ascertained at their Office; they also issue Circular Notes and Letters of Credit for the use of Travellers by the Overland Route.

They undertake the Agency of persons connected with India and the Colonies, make Investments in the Public Funds, and other British and Foreign Securities, and receive Pay, Pension, Dividends and Interest, for constituents.

They also receive Deposits of £100 and upwards, repayable (in one sum) at a notice of ten days, and allow interest thereon at 1 per cent. below the Bank of England's minimum rate of Discount, rising and falling therewith, but not rising above 5 per cent. Deposits subject to longer notices of withdrawal, or for fixed terms, generally bear higher rates, which may be ascertained on application.

Applications for the sanction of the Directors to Credits established by firms here in favour of parties abroad must be sent in not less than three days before despatch of the Mail, otherwise they will be deferred until the Mail following. Bills for Collection in India and the Colonies, and other transactions involving correspondence by the Overland Mails, also applications for Drafts, are required to be sent in one clear day before the day of despatch.

The Corporation undertake the safe custody of Indian and Colonial Government Paper, Shares in the Capital Stock of the Government Banks, and other Local Stocks, and draw Interest and Dividends on the same as they fall due.

They also make the necessary Registry of Indian Government Loan Notes, so as to obtain payment of the interest in England.

N.B. Powers of Attorney and other Forms are supplied at their Office.

RAPID PROGRESS OF THE INDIAN BRANCH.

In proof of this it may be mentioned that the Indian Branch of this Office, without any claim whatever to the support of the public beyond that arising from a simple statement of facts, has, in about sixteen years, issued Policies assuring nearly EIGHT MILLIONS sterling. This is ample evidence that the public have pronounced in favour of the low Premiums and general liberality of the terms INTRODUCED by this Company for India. It is estimated that the local New Business of the ALBERT annually exceeds that of all the other European Offices in India put together.

The Company transacts the business of the following Indian Banks:—Delhi and London, Simla, Punjab, United, Uncovenanted Service, Agra Savings, Mussoorie Savings, Oude and United Service, Oude, and Allahabad Banks.

Rates of Premium for India, with Forms of Proposal, may be obtained from the Secretary, at the head Office as above, or at any of the Branches or Agencies in this Country or in India.

CONSUMPTION.

ARE EFFECTUALLY CURED BY
KEATING'S COUGH LOZENGES.

Judged by the immense demand, this Universal Remedy now stands the first in public favour and confidence; this result has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony and throughout India and China; they have been highly esteemed wherever introduced. For COUGHS, ASTHMA, and all Affections of the Throat and Chest, they are the most agreeable and efficacious remedy.

RECENT TESTIMONIALS.

Dear Sir,—Having tried your COUGH LOZENGES in India, I have much pleasure in testifying to their beneficial effects in cases of Incipient Consumption, Asthma, and Bronchial affections; so good a medicine ought to be known to be appreciated. I have prescribed it largely with the best results. W. B. G.,
To Mr. THOMAS KEATING. *Apothecary H. M. Indian Medical Service.*

OLD BANK, STRATFORD-UPON-AVON.
(Branch of the Stourbridge and Kidderminster Banking Company),
STRATFORD, May 7th, 1868.

Dear Sir,—Having had a severe Cough this winter, I was advised to try your LOZENGES, which are invaluable; having purchased one box costing only 1s. 1½d., completely set me up; and must, therefore, strongly recommend them as a certain cure. I remain your most obedient Servant,
To Mr. KEATING, 79, St. Paul's Churchyard, London. W. HOBBS, Manager.

Prepared and Sold in Boxes, Tins, and Bottles of various sizes, by THOMAS KEATING, Chemist, &c., 79, St. PAUL'S CHURCHYARD, LONDON. Sold Retail by all Druggists and Patent Medicine Vendors in the World.

TESTIMONIAL.

HUNGERSHOLE LODGE, TUNBRIDGE WELLS, KENT, November 30th, 1867.

Sir,—Will you be kind enough to send me one of your boxes of WORM TABLETS for my child: she is six years old. I got one box last year, and it cured her—not a worm have we seen till now. I believe them to be very valuable, as it has proved on my child. I have recommended them to many, as it has proved a great blessing to her. I remain yours truly,

To Mr. KEATING.

SEYSSEL ASPHALTE COMPANY.

FLOORS, ROOFS, AND TERRACES.

COMMITTEES OF PUBLIC WORKS will find the "PYRIMONT" SEYSSEL ASPHALTE the most useful and economical material for Paving

GARDEN WALKS AND HOUSES,
BATHS AND WASH-HOUSES,
HOSPITAL CORRIDORS & OUT OFFICES,
LAVATORIES,

ABATTOIRS AND MARKETS,
LANDING PIERS,
RAILWAY AND STEAM BOAT STATIONS,
BARRACKS—CAVALRY AND INFANTRY.

and every work where WET WALLS are to be provided against, and FLOORS AND ROOFS executed. Vermin of every description excluded, and the highest sanitary status attained.

Orders must describe the class of work for which the material is wanted, and the superficial area in each class of work, that the shipment may embrace the proper qualities and quantities. Payment in England is required to ensure attention to an order.

NOTICE TO SHIPPERS.

Merchants and others requiring the Shipment of ASPHALTE from London for use ABROAD should instruct their correspondents to obtain it DIRECT from the "PYRIMONT" SEYSSEL ASPHALTE COMPANY, as many complaints have reached the Company that, when the order expressed only "Asphalte" or "Seyssel Asphalte," bituminous material, unsuited for the purpose, has been received; and, beside much damage done to other portions of the cargo, in consequence of the blocks becoming soft, even at a moderate temperature, and forming one mass in the hold of the vessel, all such fictitious and spurious "Asphaltes" are utterly valueless for any description of work, more especially in India and all tropical climates.

ALL BLOCKS of ASPHALTE shipped by this Company are IMPRESSED on TWO opposite SIDES with the words

**PYRIMONT
SEYSSEL.**

A LIST OF WORKS to which the genuine PYRIMONT ASPHALTE of SEYSSEL has been successfully applied, with their respective thicknesses, and also full instructions for its application, can be had at the

Offices: 5, PARLIAMENT ST., LONDON, S.W.

HUBBUCK'S PATENT WHITE ZINC PAINT.

By their process, which is patented, the Pure White Zinc Paint is cheaper than White Lead.

For internal and external painting, HUBBUCK'S Zinc Paint is the most durable and beautiful, and does not stain or discolour with the London atmosphere, or in the neighbourhood of Gas and Chemical Works. In all climates it is superior to other Paint for the inside and outside of Houses, Ships, Light-houses, Iron Roofing, and Bridges.

ADULTERATIONS.

Some Paint Grinders have been selling adulterated Zinc Paint. No workman can produce good work with such material. Those who have had HUBBUCK'S Patent white Zinc Paint will not use any other Paint for their best work.

To prevent the prejudice which the inferior article must produce, each cask of pure White Zinc Paint is stamped—

"HUBBUCK, LONDON PATENT."

Adulterated Zinc Paint, so marked, having been shipped to Foreign Markets, the Patentees offer a reward of FIFTY POUNDS for information which shall lead to the conviction, in an English or Colonial Court, of those who have pirated their mark.

Grinders, Exporters, and Retailers are all liable for its sale.

THOMAS HUBBUCK & SON,
WHITE LEAD, OIL, PAINT, AND VARNISH WORKS,
24, LIME STREET, LONDON.

"For public schools, and all rooms occupied by children, there will now be no excuse for using poisonous paints. Parents have remarked that their children, on returning to newly painted houses, have suffered in health. The reason is evident; the breath extracts the poison from White Lead, and the lungs draw in the deadly vapour."

"Among other tests to which it has been subjected, has been that of painting the hold of a sugar vessel, which after a voyage to St. Kitt's and back, was found, after washing, to be as white as the first day the paint was applied."—*John Bull*, September 14, 1850.

HUBBUCK'S ANTI-CORROSIVE PAINTS,

The most valuable protection to Iron Roofs, Bridges, Piers, Ships, and Buildings, exposed to stormy weather and scorching sun; they soon become extremely hard, do not blister, and are very durable.

They are made of Stone, Slate, Copper, White, Blue, Green, or any other Colour that is desired.

HUBBUCK'S ANTI-OXIDATION COMPOSITION,

For Coating Iron and Wood Ship's Bottoms: a preservative against fouling and corrosion. This composition is ready for immediate use, and obviates the waste of carrying unmixed Paints, Oils, Driers, &c. It is also applicable to all the purposes of other Paints.

HUBBUCK'S PALE BOILED OIL

Has less colour than Raw Linseed Oil, is a quick, hard, and certain drier for White and Light Coloured Paints.

PAINTS AND OILS PROPERLY PACKED FOR EXPORTATION.

(SECURED TO THEM BY RECENT PATENTS.)

An improved method of fixing Tester and Curtain Rods together, and of fixing the Brackets which support the Testers and Pillars of Bedsteads. (*Patent dated 21st April, 1860.*)

An improved mode of attaching the Sides and Ends of Bedsteads, whereby a more massive and more ornamental appearance can be given to the Pillars. (*Patent dated 9th June, 1860.*) This object being further attained by the use of improved Moulds or Chills employed in casting the Pillars. (*Patent dated 20th November, 1861.*)

An improved method of making the Dovetail Joints of Bedsteads, whereby the Lath Bottoms can be attached and tightened in the simplest and firmest manner, by an inexperienced person, and without any spanner or other loose article, or any part liable to derangement, such as a turning stud. DR. J. COLLIS BROWNE'S CHLORODYNE, THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary aching of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. COLLIS BROWNE (late Army Medical Staff), to which he gave the name of

CHLORODYNE,

and which is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

CAUTION.—BEWARE OF PIRACY AND IMITATIONS.

CAUTION.—Vice-Chancellor Sir W. PAGE WOOD stated that Dr. J. COLLIS BROWNE was, undoubtedly, the Inventor of CHLORODYNE; that the story of the Defendant FREEMAN was deliberately untrue, which, he regretted to say, had been sworn to.—See *Times*, 13th July, 1864.

Sold in Bottles for 1s. 1½d., 2s. 9d., and 4s. 6d. None is genuine without the words "Dr. J. COLLIS BROWNE'S CHLORODYNE" on the Government Stamp. Overwhelming Medical Testimony accompanies each Bottle.

SOLE MANUFACTURER:

J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

CAUTION.

ROBERT WATERS'S

QUININE WINE,

Guaranteed to contain in each wine-glassful one grain of the finest Sulphate of Quinine.

In a CAUSE lately instituted in the High Court of Chancery by Robert Waters, against certain manufacturers of an article called Orange Quinine Wine, which has been sold with a label stating "each wine-glassful guaranteed to contain one grain of the purest Sulphate of Quinine."

The defendants admitted on oath, notwithstanding such statement, *that no Sulphate of Quinine is used in the manufacture of their Wine.*

The guarantee given by ROBERT WATERS with every bottle has earned for his QUININE WINE its world wide-celebrity, and, as the efficacy of the Wine as a tonic depends on the quantity and quality of the Sulphate of Quinine held in solution, the public are CAUTIONED against spurious IMITATIONS, and being misled by the unscrupulous statements of other manufacturers, and to be particular that they purchase none other than ROBERT WATERS'S QUININE WINE, in bottles, with capsules and labels bearing his trade-mark, without which none is genuine.

WATERS & WILLIAMS.

2, MARTIN'S LANE, CITY.

THE NORFOLK CHRONICLE.

ESTABLISHED 1761.

Is the best medium for Advertisers who desire to reach the Upper and Middle Classes of Society.

As an old-established Conservative and Church of England Journal, it circulates largely amongst the Nobility and Clergy; but its principal supporters are the leading Agriculturists of Norfolk and the adjacent Counties.

As a Newspaper it is marked by the accuracy of its Reports, and its Comprehensive Local Intelligence.

It is published every FRIDAY AFTERNOON, by the Proprietor, HENRY STEVENSON, at his Office, MARKET PLACE, NORWICH.

Price 3½d. unstamped; 4½d. stamped.

OXFORD JOURNAL.

ESTABLISHED IN MAY, 1753.

Published on FRIDAY EVENINGS, in time for the Mails to all parts of the Kingdom, by J. W. LOWNDES, at the Office, 65, Corn Market Street, Oxford.

The OXFORD JOURNAL is one of the very few Papers in the United Kingdom that can boast of an existence of more than One Hundred Years. It is an Agricultural, Commercial, and Family Newspaper, and enjoys a very influential and extensive circulation in the University, City, and County of Oxford, as well as in the adjoining Counties. It has a very large business connexion, as its Advertising Columns sufficiently testify; and it has long been the leading Paper in the County. It is, therefore, the best medium for Advertisements, particularly for those relating to Agricultural matters, to which it devotes a large portion of its space, and it is, consequently, much read by Farmers.

On account of its large and influential circulation, it is extensively patronised by Auctioneers, London as well as Local, and by the English and Scotch Insurance Companies; and its circulation in the University, amongst the Clergy in various parts of the Kingdom, and amongst Schoolmasters and Schoolmistresses in the district, renders it a very desirable medium for Book Advertisements.

It is sent to many of the Clubs and News Rooms in London and the large Towns in the Kingdom, and is regularly filed at Peale's Coffee House in London; and by the following London Agents:—Messrs. Barker & Sons, Mr. R. F. White, Mr. Deacon, Messrs. Reynell & Co., Messrs. Hammond & Nephew, Mr. G. Street, Messrs. Street Brothers, and Messrs. Mitchell & Co., by whom Advertisements are received.

THE YORK HERALD,

PUBLISHED EVERY SATURDAY,
TWELVE PAGES: Unstamped 3d.; Stamped 4d.

Credit Price, 3s. 6d.; Stamped, 4s. 6d. a Quarter.

THE YORK HERALD is one of the Largest and most popular Provincial Newspapers published, issuing
8,000 COPIES WEEKLY,

which are circulated over the Counties of York (North, East, and West Ridings), Durham, Cumberland, Northumberland, Westmoreland, and parts of Lancashire and Lincolnshire; the principal towns of which are supplied with the Unstamped Edition, by early Trains. THE YORK HERALD therefore cannot be excelled as an

ADVERTISING MEDIUM.

The interests of Advertisers are promoted and ensured, by the steady and increasing support which it receives, and the mass of Advertising business with which the Proprietors are intrusted.

The NEWS DEPARTMENT is conducted with much care and at great expense, supplying such a summary of COMMERCIAL, MONETARY, AGRICULTURAL, SPORTING, LOCAL, DISTRICT, and GENERAL INTELLIGENCE, as to render the HERALD acceptable and useful to every class of readers.

ADVERTISEMENTS from Persons requiring SITUATIONS, &c., inserted at 1s. for Thirty Words.

PROPRIETORS—Messrs. HARGROVE, 34, Pavement, York.
