Jaffna*

With the Best Compliments of

K. Ganesh

**Government Agent/District Secretary
Jaffna**

Jaffna District

Statistical Information

2007

*Statistics Branch
District Secretariat
Jaffna*

Preface

It is with great pleasure and satisfaction that I present the Statistical Information 2007. The information in this issue has been revised and updated to cover the year 2006 as far as possible. This document would provide essential information to plan the Development, Rehabilitation, Reconciliation, Resettlement and Reconstruction activities of the district by the Governmental, Nongovernmental and UN agencies for better planning of projects to the people of Jaffna District.

I wish to express my sincere thanks to Staff of Statistics Branch who had endeavoured hard to make this publication a success and the Local Heads of Department who furnished the relevant information. Any constructive suggestions for improvement of this publication from the users will be greatly appreciated.

I also regret for the delay in publishing this hand book due to number of difficulties encountered to obtain necessary data from all agencies in time.

Information of Jaffna District is also obtainable by email on request to gajaffna@sltnet.lk

K. Ganesh
Government Agent/District Secretary
Jaffna District
2007 November

Chapter 3: Demography

Population

According to the 1981 census the population of the District was 831,800 (Including Kilinochchi District which was part of Jaffna District in 1981) and based on the natural growth rate, it is projected that the population of Jaffna District would be more than 1,000,000 in 2006. But present population in December 2006 is 652,184. The difference between projected population and present population is due to following reasons.

- ❖ Migration out of the district and foreign countries. Migration to foreign countries such as Australiya, Britain, Canada, France Germany, India Norway, and Switzerland etc.
- ❖ The family size is reduced due to frequent displacements of the family members on account of the unsettled conditions.
- ❖ Displacement out side the district but within Sri Lanka (internal displaced persons) such as Kilinochchi. Mannar, Mullaitivu, Puttalam, Vavuniya, and other districts of the country.
- ❖ Decline in natural growth trend
- ❖ A higher rate of death particularly among the youth due to the conflict.
- ❖ Delay of marriage among youth
- ❖ Stagnation of economic development and unemployment.

Chapter 4: Agriculture, Livestock and Fisheries

Agriculture and Irrigation

Jaffna District is predominantly an agricultural area and always has been an area with high potential in agriculture crops such as red onion, chillies, potatoes tobacco, vegetables, banana and grapes cultivated for commercial purpose. Other crops such as paddy, pulses, coconut cultivation in subsistence level, palmyrah products also a subsistence source of income.

About 65,000 families and 30,000 farm Labourers are involved in agriculture and livestock in the District. In addition a large share of the population is involved in home gardens. Paddy is cultivated in 7568 hectare and other field crops are cultivated in 11,183 hectare in jaffna District. About 19261 agro wells and 2433 ditches are being used for agriculture purpose.

Paddy is produced during the Maha season under the rainfed conditions while vegetables are produced nearly all year around under rainfed or irrigated conditions. Mainly ground water resources are being used for agriculture purpose. There are two Lagoons in jaffna district. One is Vadamarachchi Lagoon and other is Upparu Lagoon. Vadamarachchy

Lagoon is situated in a North South Easternly direction from Thondaimanaru in the North and Chundikulam in the South East. It is about 47 Km. sea water intruded the peninsula through Thondaimanaru in the North and Sundikulam in the South. The Upparu Lagoon is situated in Ariyalai. It is about 9 Km. Originally sea water intruded through Ariyalai at high tide and the lagoon became saline. The Valukkai Aru is the natural stream to drain flood from Thellipalai caused by the North East Monsoon rain through Araly into the sea. It is 13 Km long from starting point. There is the tidal well at Nilavarai in Valikamam East division. It is inter connected with underground caverns and solution channels. In addition over 631 small ponds are also in Jaffna district.

The above irrigation schemes functioned satisfactory up to 1983 and there after most of it were damaged due to civil war. Such schemes need immediate reconstruction to safeguard the peninsula from intrusion of sea water and for purpose of agriculture.

Education

The long tradition dedication to education and the resulting high priority given to Education from colonial period, Jaffna has been one of the districts with high literacy rate in Sri Lanka. Education is one of the major concern for the people of Jaffna. There are 708 pre schools serving for 13,973 children with 1297 teachers who are working without proper facilities. The student population declined to 127,809 in 2000 and increased to 138,625 in 2006. The number of teachers serving in schools in 2006 was 7861 with a pupil Teachers

ratio of 17.63. Now 410 schools are functioning in Jaffna District. Due to the protracted civil war and consequent displacements the education sector suffered set back in teaching, learning process and infrastructure. Still many schools are in high security zone. Major constraints in implementing the rehabilitation and development programme are lack of adequate financial resources, presence of landmines, inadequate infrastructure, acute shortage of skilled manpower resources, teaching aids and equipment.

Chapter 7: Health

Jaffna Teaching Hospital is the main public health and medical institution for the people of Northern Province and for teaching of medical students of the university of Jaffna and Nursing and midwife students. 42 public health care and medical institutions are functioning under the Deputy provincial Director of health services (DPDHS). 40 Ayurvedic Dispensaries are under local bodies. One Ayurvedic Teaching Hospital is also available at Kaithady. The District is divided into 07 Medical Officers of Health Divisions (MOH) for preventive care services under whom 106 Public Clinics centers are functioning, In

addition 45 private Medical institutions and 78 pharmacies are functioning in Jaffna District.

The cancer unit, Thellipalai was commenced in 1983 and it served the whole population in the Northern province. Unfortunately following the conflict situation the functions of this unit discontinued and people had to travel to Colombo to receive the cancer care services. After the Memorandum of understanding this cancer unit had been reconstructed with Government and foreign Agencies fund.
