Hoping for New Year Happiness

THE human breast is a never failing bosom
that yields to the springing of fresh hopes.

Hope is a feeling of trust, expectation and
desires combined. This sense becomes more pro-
nounced when man finds himself in the midst of
want, worry, distress and distrust. Where there
is plenty of promises, the hope gets invigorated.
Promises are assurances such as the free flow of
necessaries of life at lower cost. But between
promise and fruition there is always a phantasm.
In the matter of the common man's living, the
illusion is created by the Black Market and the
Redtape side of Administration. Happiness re-
lates to the person concerned and to the surround-
ing circumstances.

Pinkala New Year as any other of its pre-
decessors has to be associated with the natural
feelings of hope and happiness. On the material
side man by nature seldom feels contented. Happi-
ness while denoting luck also indicates the need
to feel contented with one's lot; on the spiritual
sphere, of course, one need not worry oneself. For
nothing can happen except by the Will of Pro-
vidence.

This is Hindu New Year. And Hindus have
faith in God. Hence Pinkala will come and go
just as any other New Year.

Seminar on the Archaeology of Nallur
and the Formation of a Student
Archaeological Society

A group of enthusiastic and energetic students of St. John's College Jaffna who are doing a very useful H. N. C. E project work on the archaeology of Jaffna have formed a student archaeological society with the help of the Principal and Mr. N. Mylvaganam a teacher of history.

They had organized a seminar on the history and archaeology of Nallur on the 17th of March. At this seminar, three students who are involved in the project work read out preliminary reports about the nature, scope and problems in their project work.

Thereafter Mr. V. Sivasamy joint secretary of the Jaffna Archaeological Society spoke on aspects of the history of Nallur with reference to its liter-

It is also to be noted that the core of the Jaffna Museum was formed by the archaeological specimens from Jaffna collected by Mr. Twynam a Government Agent Jaffna and kept for a long time at the St. John's College,
