MESSAGE FROM THE CHIEF GUEST

I'm pleased to send this message to the souvenir of the Prefects' Day of my Alam mater, to which I have been invited as a chief guest. Indeed this is an honor bestowed upon me and I'm much privileged to represent the veterans of our school. The prefects' Day of our school is a much awaited event in the school's calendar.

A prefect enjoys a great deal of authority and with it comes a great deal of responsibility; a responsibility to represent, to guide and to lead the school. As Winston Churchill once said; "The great price of greatness is responsibility". I sincerely hope that this is realized by each and every prefect today. With the change in trends over the years the "dealings" of a prefect might have changed, but the task remains the same; set examples, guide, lead and inspire. I wish the prefects Guild well and the very best in all their future endeavours. Hoist our flag.

CHIEF GUEST

MOOMOOMOOMOOMOOMOOMOOM LEADERSHIP

A good leader knows the way, shows the way and goes the way! Yes! this is what leadership is all about. You cannot lead the way if you do not know where you are going.

As a leader you should be able to guide those who are following you and above all, a really good leader will journey with the crowd. Believe me, being a leader is not an easy task.

It requires plenty of sacrifice, loyalty, patience, good conduct and good morals. You cannot become a leader overnight. It needs time to mould yourself into a perfect leader. It also needs tremendous self discipline and self giving but, it's a task that can be achieved.

This is our message to all leaders,

LEADERSHIP

Leadership is defined as the process in which an individual influences the group of individuals to attain a common goal. The goal is attained by mutual cooperation and cohesive behaviour. A leader infuses a sense of positivity and directs others to reach the specified goal.

Various theories since years have been formulated by psychologist to explain the traits of a leader certain traits of a good leader were listed by the researchers as intelligence, extraversion and adjustment, openessto experience, general self, efficacy and conscientiousness.

It has been inferred that on individual possessing these traits results as a good leader. Another theory suggests that great events lead an ordinary individual to emerge as a leader. Then there is a third theory which emphasises that leadership is a transformation or a process. Anyone can become a leader by learning the leadership skills.

THE GLORY OF OUR INSTITUTION

OMOOMOOMOOMOOMOOMOOMOOMOOMO

ONTO ONTO ONTO ONTO ONTO ONTO ONTO A leader is some one who stands not only for his cause but takes responsibilities and motivates other individuals also. There is a clear difference between being a boss and a leader. A leader is a motivation for others and inspires individuals to aim high and attain that aim. However a boss only supervises over subordinates power naturally comes to a leader but that power is got a tool of leader. Rather if one tries to control the circumstances with power it turn out to be authoritorion or ever suppressive in its expression. Leadership is not a quality but it is an individuals behavior. A leader show cases a positive attitude and high self esteem. He assertively works towards the goal but never gets push for it. A continuous self study training evaluation and imbibing positive things in life develop the characteristics of a leader. Situations are never in our hands but reaction is always that we can control. THE GLORY OF OUR INSTITUT

 \mathbf{M}

A leader not only reacts positively but also helps other members of the group to see the brighter side of the picture. It has also been noticed that only those persons are considered as a good leaders who have gained the trust and confidence of their subordinates. Communication plays a vital role in this regard. The other thing that people respect is knowledge. Proficiency in subject is the main driving force. The next factor is the execution of idea. A leader always executes the thing effectively. The works as a team and team welfare is his primary goal. A leader is looked upon by his subordinate critically also. A man of high moral values and integrity can only become a good leader. It has always been at matter of controversy as to what makes an individual different from others. To sum up leadership is a quality which is it present naturally is welcome or otherwise can be developed by acquiring desired skills. **Dupty Head Prefect** S.THULASI THE GLORY OF OUR INSTITUT
