Ceremonial Opening on the 24th August 2012

The Camporee Logo...

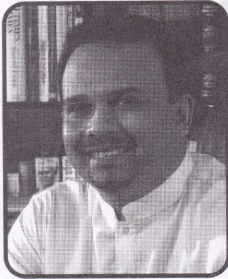

The central motif is from the adaptation of the Dutch coats of arms which the Colombo District Scouts Association has adopted as its crest. The colour maroon is the color of passion.

The tree and the bird the roots and the green background depicts environment in all its glory.

The scout logo in the middle reminds us of the three points of the promise and the ten points of the law. The lion signifies that we are all Sri Lankan. A nation bound by one scout promise

The shape is similar to the logo of the Colombo Municipal Council reminding us that we always work with them.

MESSAGE FROM THE CHIEF GUEST

It gives me great pleasure to contribute a message to the 49th Scout Camporee "A Passion for the Environment" organised by the Colombo District Branch of the Sri Lanka Scout Association and to be part of this important event for the Scouts of Colombo.

As Sri Lanka Scouts celebrate the Centenary year of Scouting we are proud of the contribution it has made to the Sri Lankan population during this period and are confident that the Scout movement will make a better contribution in the next century too. The Colombo District scouting has been maintaining high standards and traditions and I salute all the leaders of the past and the present for putting on this show case event 'The Camporee' annually which event is looked forward to by the scouts, parents, well wishers and the general public.

I am indeed happy that the organizers have selected the theme "A Passion for the Environment" which is the need of the hour and the Scouts of Sri Lanka will, I am sure take this message to all Sri Lankans so that we could ensure that the future generations will be able to enjoy the environment as much as we do.

As a member of the Sri Lanka Parliamentary Scout Association and a former scout I will do everything possible in my capacity to strengthen the Scout movement in Sri Lanka. I call upon all participants to gain the maximum experience and build new friendships during the Camporee and show the fellow Sri Lankans that we can all live in harmony under one roof leaving aside our caste, creed, race and religion.

**MESSAGE FROM THE
PROFESSOR NIMAL DE SILVA
CHIEF COMMISSIONER,
SRI LANKA SCOUT ASSOCIATION**

I am pleased to congratulate to the Colombo District Branch of Sri Lanka Scout Association for organizing the 49th Colombo Camporee at the Vihara Maha Devi Park for about 2000 Scouts to camp together for 4 days and further for selecting "Passion for the Environment" as the Camporee Theme. This is very much relevant today for Scouts to be the guardian of the environment, to learn, enjoy and preserve the environment that they live in. No doubt, this Camporee will provide an opportunity for camping Scouts to enjoy, make friends, learn from each other and carry sweet memories back. I wish the 49th Colombo Camporee a great success.

MESSAGE FROM THE DISTRICT COMMISSIONER

"Passion for the Environment" is the theme of this Camporee which will lay emphasis on the Scouts of today, the Leaders of tomorrow to look at the issue in hand in a more serious manner. The youth need an educative and hands-on approach to work towards sustaining this planet - Earth for generations to survive.

It gives me great pleasure to send this message for the souvenir of the 49th Colombo Camporee that would inculcate to the Cubs & Scouts the value of looking after our Environment, be it their Home, their School or the Camp. In this direction the Sri Lanka Scouts too will launch the Environment Badge further enhancing their commitment to the cause.

To the Scouts and Cub Scouts: I wish you all a very enjoyable and productive Camporee which is full of new learning. Go ahead and have fun, make friends with other brother Scouts and also the environment that we live in. I trust the experience you gather would provide you with a sound foundation to think further in protecting what we have.

Let me thank you Scout Leaders and your Parents for giving you the opportunity to camp. I must thank the Organizing Commissioner and his team for their untiring efforts to ensure this Camporee is a success. A word of thanks to the authorities and Service organizations who partnered us in providing for the Camporee

The Real Fun of Collecting Scouts on Stamps

Edward J. Brown

Collecting "Scouts-On-Stamps" the same as any hobby, requires both time and money. How much time? How much money? Just about as much of each as the individual collector decides to give.

Most collectors have more of the first than the last. Should this restrict the fun that he can have with his collection? Not really...in fact, some of the most interesting collectors that we meet are those whose collections have been made attractive because of their real interest in the hobby.

Occasionally we find a collector whose main purpose in collecting is to possess a "complete" collection. He, poor soul, is a prime target of those who would sell anything and everything even remotely connected with the hobby. This collector must also, he thinks, mount his collection in the finest (usually most expensive) manner to be certain that his collection is "top." Often the accessory cost exceeds the relative monetary value of his collection. He probably feels that he has real fun with his Scout stamps.

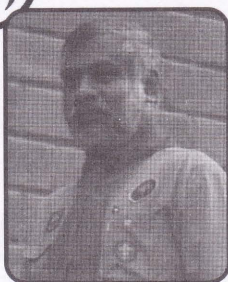

The real fun, however, comes from keeping the collection simple, at least in the beginning or if finances dictate, and interesting. Researching all of the Scouts-On-Stamps issues can be the greatest of fun. Many interesting hours can be spent this way. With as much information as one can find about his collection, it can be followed by producing his own mounting system and album. [This task is made much easier today with use of a computer and laser printer.] The completeness of data about his collection can have more real value to the collector and his stamp collecting friends than its market value.

The real fun is also found in the many new and wonderful acquaintances that the collector makes by correspondence and in person because of his hobby. Many would say that stamp collecting is an introverted hobby...not so! The real fun collector makes many lasting friendships in philately.

MESSAGE FROM THE ORGANIZING COMMISSIONER

2012 is a significant year to all Scouts, young and old not only in Colombo, but across the country as we celebrated the completion of 100 years of Scouting in Sri Lanka. Therefore I consider it as a privilege to be the organizing commissioner of the Camporee this year. Our organizing team hopes that this would be yet another outstanding Camporee, to be remembered by the Scouts with fond memories, for years to come.

Specially as we look forward towards the next two milestones, the Scouting centenary in Colombo and the 50th Camporee in Colombo.

The environment is central to the Scout Program and a key element of developing good citizens of the world. Since Scouting began, young people have been connecting with the outdoors, learning from nature and taking positive action for their local and global environment.

There are many more environmental challenges today, than when Scouting started. It is even more important to keep the environment central to Scouting today, to build on the momentum already established and to make Scouting a positive force for change. As we look in to the future the biggest threat to our existence is the threat to the environment, hence the theme of the Camporee "A PASSION FOR THE ENVIRONMENT" at the beautiful Vihara maha Devi Park.

I feel further honored that the Sri Lanka Scouts Association has selected this occasion to launch the World Scout Environment Program in Sri Lanka. Proficiency based environmental awareness program in the seven pronged Scout method.

The annual Camporee is the biggest event of the year for the Scouts of Colombo, and by far the greatest public relations exercise for all of us in Scouting. It gives the Scouts a rich experience of the brotherhood of the outdoors.

The Colombo Camporee brings to me a lot of fond memories of activities we did and the friendships made. They say that proof of the pudding is in eating. Please do join the fun and enjoy yourself and of course make new friends. As for me, it was at Camporees of a by gone era where I met many of the today's top officials in Colombo. Starting with the District Commissioner Riza and many past District Commissioners. May I take this opportunity to say a big thank you to each and every one of you for the support in making this event what it is.

I invite all of you to enjoy the Camporee where there will be lot to eat, lot to drink, lot to wash, lot to go, lot to sleep, lot to see and lot to do. Happy camping everyone, may the blessings of the triple gem be with you.

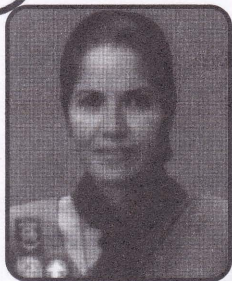

Yours in Scout service

MESSAGE FROM THE ORGANIZER -CUB DAY

It gives me great pleasure to pen a few lines for the souvenir of the 49th Colombo Camporee in connection with the Cub Day

It is a unique event where Cubs from schools all over the Island get together displaying their talents and skills. The Games and events planned for their event would provide an opportunity for the young to develop their inimitable skills and abilities.

This type of activity generates friendship and team spirit.

I hope the experience you gather will no doubt provide you the necessary strength and wisdom to carry on with life.

I thank all Akelas for their untiring efforts in making this day a success.

THOUGHTS OF A ROVER SCOUT

Who is a Rover Scout? A Rover is a youth between the ages of 17 and 24 who wants to continue his scouting experience in to adulthood.

Scouting is about teamwork, leadership and self-reliance for boys and girls. Rovering is for youth who are emerging from home and school to the world, learning to think for themselves, and taking their place in society.

Rovering is not about knots and first-aid. It is a preparation for you to become a man, and to learn how to be a good person. It will help you to avoid mistakes many boys make when becoming men. You will be guided, not by parents and teachers, but by your fellow rovers, and most importantly, by yourself.

After many years as a scout, I found rovering to be a different experience. Unlike my scout friends, who were all at school, my rover mates were a diverse group; some were working, some studying, and some ran their own businesses. Some were married, and some were single. Working and hiking with them gave me new experiences, and taught me how to work with many different kinds of people. I saw more of our country, including some things I would never otherwise have seen. It also allowed me to give back some of my scout training to others. It also helped me in my studies and my career.

If you are in the rovering age group, and would like to take your scouting skills and experience to the next level, join a rover crew. You will make new friends, learn new skills, see new places and gain unforgettable experiences.

Welcome to the Camporee 2012

This is the 49th Camporee that the Colombo District has organised. The story started in 1949 when Capt. Vernon Halpe who was then a teacher at Royal Primary school, together with Mr. Aliossen , held the first in this series of events, at the Royal Primary school (now part of Royal College) According to our records this was held from the 5th to the 7th of August 1949. After 48 Camporees, and with much experience, in organising Camporees, the District Commissioner, the Organising Commissioner and the team welcomes every one of you to this grand event. A list of Camporees we've had so far since 1949, would appear elsewhere in this hand book.

To make your life at the Camporee more enjoyable, we are jotting down some information which would be useful.

Law The Scout Law would be the law of the Camporee.

Arrival You may arrive at the Vihara Maha Devi Park to your camp site any time from 6.30 a.m. on Thursday the 23rd. Exactly where your camp site is would have been shown to your Scout Leader prior to this. Please do not bring vehicles inside. Please cooperate.

Camporee office The Camporee office would be open from 3.00 p.m. on the 23rd. All those Scout Groups who have not been able to collect the Camporee badges should collect them from the office without delay.

Scout Leaders' meetings Scout Leaders' meetings would be held every night starting at 8.30 p.m. If all the leaders come on time we could finish the meetings early, and release your Scout Leader back to you.

Toilets Special toilets are constructed for the use of the Campers. Please be careful when using them. You will not be the only person using them. In addition to that, there may be park toilets open most of the time ,where you will have to pay a small fee to use them.

Water In addition to the taps near the shower area, we will have water points close to the Sub Camps too. Please do not waste water. We suggest that you have some old news paper, cut to size of about 1Ft X 1Ft, wipe your plate clean before going to the tap to wash the plate. This is to prevent grains of rice, pieces of noodles etc collecting under the tap.

Lights out Every day from 11 p.m. would be the light out time. We understand that you would be working until late on the 23rd. But at least on the 24th & 25th & 26th we expect you to go to sleep by 11 p.m. If you are unable to sleep, please, at least do not disturb the others. Please try to reduce your late night sing song sessions to a minimum, to prevent disturbing the others who might want to sleep.

Refreshments, Groceries etc. There will be refreshments and groceries stalls at the Camporee for you to purchase your requirements.

Scout Shop The Scout shop would function from the evening of the 23rd. You could purchase stickers and other Scout material that you require from here

Skill-O -Rama The Scout activities will start at 9.00 a.m. on the 25th and the 26th. More details about this is given in a different section of this hand book.

Film Show We are trying to organise a special film show for you on the 24th night

Camp Fire We will have Sub Camp fires on the 24th starting at 8.30 p.m. These will be coordinated by the Sub Camp Chiefs. Prepare your environmentally friendly messages for the camp fire.

Site and Uniform Inspections These will be held daily starting at 8.00 a.m. these will be coordinated by the Sub Camp Chiefs. Please do make sure that you have your breakfast before the inspections.

49th Colombo Scout Camporee

Sub Camp Rallies These too will be held daily at 8.45 and will be conducted by the Sub Camp Chiefs.

Opening ceremony This is scheduled to start at 4.30 p.m. on Friday the 24th. It is very important that as many Scouts as possible participate in this. You may leave a few Scouts to look after your site. But we do hope that all the rest would come for the opening ceremony. Please do cooperate.

Closing Ceremony. This will start at 7.00 p.m. and will end with the TALENT SHOW. Please leave some Scouts to look after your camp site and the rest should come for the closing ceremony and to enjoy the talent show, which would start soon after the closing ceremony.

Fox Hunt. This would be a very interesting direction finding contest using radios. Competitors should have FM radios or your mobile phone which is radio enabled.

Religious observances This would be held on Sunday the 26th at 5.30 a.m. More details would be given later

Cub Day The Cubs will come to camp on Sunday the 26th by 9.00 a.m. There will be a separate set of activities for them.

Damage to Park property Please do not damage any park property, including plants and trees. If we do damage them, we may not be able to get the park for the Camporee next year.

Going out of and coming in to the Camporee grounds There will be no restriction on this on the 23rd (Thursday) and 24th (Friday). But from Saturday onwards people coming in and going out would be restricted. If you want to go out of the Camporee grounds for any reason on Saturday and on Sunday, you will need a pass. Each Troop would be given two passes, and please ask your Scout Leader to collect the two passes allocated to your Troop from your Sub Camp Chief. Please do not lose your pass. Please hand it back to your Scout

49th Colombo Scout Camporee

leader when you return. If you lose the pass when you are out of the Camporee grounds, in addition to losing a pass of your Troop, you may have to pay 25/= and purchase a ticket to enter the camp. Visitors would be allowed to come to the camp only after the Sub Camp Rallies. This would be around 9.00 a.m. All visitors unless they already have a ticket, will have to purchase a entrance ticket at 25/= each. All gates except the main entrance would be closed after 10.00 p.m. The main entrance would be kept open for emergency situations such as taking a casualty or a patient to the hospital

Departure Each Troop will have to clear the camp site and get an exit permit from the Sub Camp Chief, for your Troop to leave the camp site. Sooner you do this, sooner you could leave. Scout Groups are discouraged from staying in the Park after 12.00 noon, as the sub Camp Chiefs too would like to leave and we have to hand over the park to the authorities in good order.

First Aid Post The First Aid Post will be manned by St Johns Ambulance. Dr Manjula Sahabandu & Dr Chrishan Kularatnam will be on call during the duration of the Camporee.

Exhibition An Environmental exhibition and Cubs' Art exhibition will be held during the period .Please visit but do not touch any exhibits.

Finally We do hope that you will really enjoy this Camporee , visit the other camp sites and make many new friends. The District Commissioner, Organising Commissioner and all the members of the Organising Team will be working very hard, for you to achieve this.

Sinharaja Forest Reserve is a national park and a biodiversity hotspot in Sri Lanka. It is of international significance and has been designated a Biosphere Reserve and World Heritage Site by UNESCO.

The hilly virgin rainforest, part of the Sri Lanka lowland rain forests eco region, was saved from the worst of commercial logging by its inaccessibility, and was designated a World Biosphere Reserve in 1978 and a World Heritage Site in 1988. The reserve's name translates as Kingdom of the Lion.

The reserve is only 21 km (13 mi) from east to west, and a maximum of 7 km (4.3 mi) from north to south, but it is a treasure trove of endemic species, including trees, insects, amphibians, reptiles, birds and mammals.

Because of the dense vegetation, wildlife is not as easily seen as at dry-zone national parks such as Yala. There are about 3 elephants and the 15 or so leopards are rarely seen. The commonest larger mammal is the endemic Purple-faced Langur.

An interesting phenomenon is that birds tend to move in mixed feeding flocks. Of Sri Lanka's 26 endemic birds, the 20 rainforest species all occur here, including the elusive Red-faced Malkoha, Green-billed Coucal and Sri Lanka Blue Magpie.

Reptiles include the endemic Green pit viper and Hump-nosed vipers, and there are a large variety of amphibians, especially tree frogs. Invertebrates include the endemic Common Birdwing butterfly and the inevitable leeches.

Kanneliya-Dediyagala-Nakiyadeniya or KDN is a forest complex in southern Sri Lanka. The forest complex designated as a biosphere reserve in 2004 by UNESCO. The KDN complex is the last large remaining rainforest in Sri Lanka other than Sinharaja. This forest area has been identified as one of the floristically richest areas in South Asia. The forest complex is situated 35 km northwest of city of Galle. The rain forest is a major catchment area for two of the most important rivers in southern Sri Lanka, the Gin and Nilwala Rivers. This biosphere reserve harbors many plants and animal species endemic to Sri Lanka.

Knuckles Mountain Range lies in central Sri Lanka, in the Districts of Matale and Kandy. The range takes its name from a series of recumbent folds and peaks in the west of the massif which resembles the knuckles of clenched fist when viewed from certain locations in the Kandy District. Whilst this

name was assigned by early British surveyors, the Sinhalese residents have traditionally referred to the area as Dumbara Kanduvetiya meaning mist-laden mountain range (Cooray, 1984). The entire area is characterised by its striking landscapes often robed in thick layers of cloud but in addition to its aesthetic value the range is of great scientific interest. It is a climatic microcosm of the rest of Sri Lanka. The conditions of all the climatic zones in the country are exhibited in the massif. At higher elevations there is a series of isolated cloud forests, harboring a variety of flora and fauna, some of which cannot be found anywhere else in the world. Although the range constitutes approximately 0.03% of the island's total area it is home to a significantly higher proportion of the country's biodiversity.

Hurulu Forest Reserve of Sri Lanka was designated as a biosphere reserve in January 1977. The forest reserve is an important habitat of the Sri Lankan Elephant. Hurulu forest reserve represents Sri Lanka dry-zone dry evergreen forests. There are many other protected areas situated around Hurulu Forest Reserve viz. Ritigala strict nature reserve, Minneriya-Girithale and Mahaweli flood plains nature reserves, Wasgamuwa National Park and Kahalla-Pallekele sanctuary.

Bundala National Park is an internationally important wintering ground for migratory water birds in Sri Lanka. Bundala harbors 197 species of Birds, the highlight being the Greater Flamingo, which migrate in large flocks. Bundala was designated a wildlife sanctuary in 1969 and redesignated to a national park on 4 January 1993. In 1991 Bundala became the first wetland to be declared as a Ramsar site in Sri Lanka. In 2005 the national park was designated as a biosphere reserve by UNESCO, the fourth biosphere reserve in Sri Lanka. The national park is situated 245 kilometres (152 mi) southeast of Colombo.

The Bar Reef is a system of coral reefs just offshore from Sri Lanka's Kalpitiya peninsula. It has the greatest biodiversity of any coral reef in the waters around India and is one of the few pristine coral reef systems in Sri Lanka.

It is a complex of reefs which stretch parallel to the coast from the northern end of the Kalpitiya peninsula to the islands which separate Portugal Bay from the Gulf of Mannar. It has high ecological, biological and aesthetic significance, being home to 156 species of coral and 283 species of fish.

The Bar Reef was declared a marine sanctuary in 1992, the area of the reserve being 306.7 square km.

The Cover Story...

Creating a cover page for a souvenir in accordance to the theme "Passion for the Environment" initially proved somewhat a difficult task. It wasn't due to the lack of ideas; quite the contrary. The environment around us consists of so many elements that the possibilities seemed endless. It was whilst racking the brain on which aspect of the environment to highlight that it struck, why not select many pictures and depict the passion for the environment in the form of a collage? From then on, it was just a combination of inspiration and research and shall we say, everything 'fit into place' perfectly.

Upon observing the many pictures, I'm sure you would be struck by the beauty of some of the landscapes depicted. Did you know that most of these landscapes are from our very own motherland? Some of course, like B1—Adam's Peak are iconic, but did you notice that D4 is also a picture of two trails (Rathnapura/Palabathgala and Kuruwita/Erathna) leading to Adam's Peak? This picture was featured in the National Geographic magazine describing it as one of the 'must visit places' in the world. A proud moment for us indeed.

Another landscape you might have seen, yet missed noticing in the cover would be F5 – 'Maha Eliya Thenna' more popularly known as Horton Plains, designated as one of our National Parks in 1988.

Did you observed the mist covered landscape in B4? It's none other than the Knuckles mountain range and also incidentally one of our Sub-camps this year. Hiking is one of the great joys we Scouts indulge in. In C3 we have one of our very own Rover Scouts of Colombo District right on top of the Knuckles Range during a rambler hike, looking down upon the world.

"Rambler hikes? What are those?" You might wonder. A

Rambler hike is a somewhat strenuous five day hike every Rover Scout must venture upon in order to gain his BP Award – the highest award in Rover Scouting. On the topic of Rambler hikes, cast your eyes upon C6 – it's a picture taken of some of our Rover Scouts conquering Riverstone, a mountain in the Matale district in close proximity to the afore mentioned Knuckles range.

F2 is also of some 'Rambling Rovers' in the historic village Meemure. The prominent peak in the backdrop is Lakeygala, although situated in the remotest area of Kandy district, can yet be seen by ships coming into the Trincomalee harbour.

Any guesses as to what the animals in A4, E3, C1, E5 and B5 have in common? They are none other than the Asian elephant, blue whale, fin whale, jungle shrew and the purple faced leaf monkey. Sadly, all of them are in the list of endangered species of Sri Lanka. Just imagine, if we're not careful, the only place we'll see these animals again are on pages of souvenirs or magazines such as this.

So how can we contribute to protect our environment with a passion? It's quite simple. See the picture in A1? It was taken when some trees were planted by our fellow Scouts and some others at our very own district campsite – Saalawa. Did you know that one tree consumes about one ton of harmful Carbon dioxide gas from our eco system in its lifetime?

Also, F1 is a symbolic depiction of a concept called 'Green Engineering' where more and more people in the construction industry are adapting methods of reducing the damage caused by the construction process. Did you know that your Organizing Commissioner for this Camporee is a pioneer in this field and constructs what's called 'Eco-bricks' an eco friendly and cheaper way to build your houses?

There are countless ways you can help contribute towards conserving our environment and you will undoubtedly learn of more ways throughout this Camporee. Hope you find this souvenir useful and that you have a memorable Camporee!

100 வது வருடத்தில் மலர்ந்த கொழும்பு மாவட்ட 49வது சாரணர் கெம்போறியி

கொழும்பு மாவட்ட சாரணர்கள் தமது 49வது சாரணர் கெம்போறியை இவ்வாண்டும் வெகு சிறப்பாக கொழும்பு விஹாரமகா தேவி பூங்காவில் 23-08-2012 முதல் 27-08-2012 வரை கொண்டாடுகின்றார்கள். வரலாற்று முக்கியத்துவம் வாய்ந்த இச் சாரணர் கெம்போறியில் சுமார் 4000க்கும் மேற்பட்ட சாரணர்கள், குருளைச் சாரணர்கள், திரிசாரணர்கள் ஒன்று கூடி நடாத்தும் மாபெரும் சாரணர் கெம்போறியில் பல வெளி மாவட்டங்களிலிருந்தும் சாரணர்கள் கலந்து கொள்கின்றனர்.

கொழும்பு மாவட்ட சாரண ஆணையாளர் திரு. ரீஷா அகூர் அவர்களின் வழிகாட்டலில் இந்த சாரணர் கெம்போறியின் ஒழுங்கமைப்பு ஆணையாளராக உதவி மாவட்ட ஆணையாளர் திரு. தர்ஷண ரணதுங்க அவர்களும், அவரோடு இணைந்து ஒழுங்கமைப்பு குழுவினரும் இந்த கொழும்பு கெம்போறியின் வெற்றிற்கு அரும் பணியாற்றுகின்றனர். இன, மத, மொழி, பேதங்களை மறந்து சாரணர்கள் ஒற்றுமையாகவும், சமாதானமாகவும், ஒருவரையொருவர் தெரிந்து கொள்ளவும், நட்புறவாடவும், கலந்துரையாடவும், பொதுவான நிகழ்ச்சிகளில் சகோதரர்களாக கலந்து கொள்ளவும் இந்த சாரணர் கெம்போறியி வாய்ப்பளிக்கின்றது. நல்ல பல புதிய உணர்வுகள் இதன் மூலம் மலர்ந்து, நட்பு என்ற நல்ல பல மலர்கள் முளைத்து, உறவு என்ற புதிய பாலங்கள் கட்டி எடுப்பப்பட்டு இந்த பசுமையான நினைவுகள் வாழ்வில் என்றும் மறக்கமுடியாத நினைவுகளாகவே இருக்கும்.

கல்விச் செயற்பாடுகளில், இணைந்த ஒன்றாக சாரணியம் திகழ்கின்றது. ஒவ்வொரு சாரணணும் ஆளுமை விருத்தி பெற்று சமுதாயத்தில் சிறந்த நற்பிரஜையாக மிளிர்வதற்கு சாரணியம் வழி சமைக்கின்றது. இதனால் சாரணியமானது இன்று உலகளாவிய ரீதியில் ஓர் உன்னத இடத்தைப் பெற்றுள்ளது. 1907 ஆம் ஆண்டிலே இங்கிலாந்தில் பிறவுன்சி தீவிலே 20 சாரணர்களுடன் உருவாக்கப்பட்ட இச் சாரணியமானது இன்று உலகில் பல பாகங்களிலும் பல கோடிக்கணக்கான சாரணர்களை உள்வாங்கி வியாபித்திருப்பது சிறந்த ஓர் வழிகாட்டலின் குறிகாட்டியாகும்.

அன்பு, காருண்யம், மனச் சாந்தி, சகோதரத்துவம், கடமை, உணர்வு, கட்டுப்பாடு, துணிவு, தன்னல மற்ற

சேவை போன்ற சீரிய பண்புகளை வளர்ப்பதாக இது விளங்குவதால் சமுதாயத்தில் ஓர் உன்னதமான இடத்தைக் கொண்டுள்ளது.

“எதற்கும் தயாராய் இரு” என்ற மகுட வாசகம் மேலும் பற்றுறுதியை வலுப்படுத்துவதாக அமைந்துள்ளது. சாரணியத்தில் தன்னை இணைத்துக் கொண்ட ஒருவன் சமுதாயச் சாவல்களுக்கு முகங் கொடுத்து வாழ்கின்றான். தனித்தும், குழுவாகவும், பரஸ்பரம் புரிந்துணர்வுடனும், தீர்மானம் மேற்கொள்ளல், விரைந்து செயற்படல் போன்ற சிறந்த பயிற்சிகளும் ஒவ்வொரு சாரணனுக்கும் இன்றியமையாததாகும். “கட்டளைக்கு கீழ்ப்படிந்து நடத்தல்.” என்ற சாரணியக் கோட்பாடானது சான்றோரைப் பணிதல், முதியோருக்கு மதிப்பளித்தல் போன்ற பண்புகளை சமுதாய மட்டத்தில் பேணுவதற்கும் வித்திடுவதாக அமைகின்றது. எனவே இவ்வாறான வாழ்வை வளப்படுத்தும் சாரணியச் செயற்பாட்டில் தன்னை ஈடுபடுத்த வேண்டியது ஒவ்வொரு மாணவனதும் கடமையாகும்.

இவற்றை விட ஒரு மாணவன் தன்னை சாரணிய அங்கத்துவனாக சாரணியத்தில் இணைத்துக் கொண்ட நாளிலிருந்து அச் சாரணன் இலங்கைச் சாரணியச் சகோதரத்துவம், உலக சாரணிய அங்கத்துவம் என்பவற்றைப் பெறுவதோடு, சாரண உலகத்தில் இச் சாரணன் இறக்கும் வரையில் சாரணன் என்ற அந்தஸ்தைப் பெறுவதும் வேறு எந்த அமைப்பிலும் இல்லாத ஓர் சிறப்பு அம்சமாகும். எனவே சாரணியத்தை அனைவரும் முறையாக பின்பற்றினால் தமது எதிர்கால வாழ்வில் ஏற்படும் சகல சவால்களையும் முகங் கொடுத்து முன்னேறும் தகுதி பெறுவர் என்பதில் ஐயமில்லை.

வாழ்க சாரணியம்

“ஒரு நாள் சாரணன் எந்நாளும் சாரணன்.”

ஆ. ஜெகநாதன்

உதவி மாவட்ட ஆணையாளர்.
