Golden Number ... ..	13	Dominical Letter ... ..	G
Epact ... ..	12	Roman Indiction ... ..	13
Solar Cycle ... ..	16	Julian Period ... ..	6568

The Singhalese New year commences ... ..	April 11th
The Mahometan New year 1272 commences ... ..	September 13th.
Ramadan (the month of abstinence) commences ... ..	May 18th.
The Jewish year 5616 commences ... ..	September 13th.

337 years since the Portuguese	}	established themselves in Ceylon.
199 . . . . . Dutch		
58 . . . . . English		

## PHENOMENA.

In the year 1855, there will be two Eclipses of the Sun, and two of the Moon: of these, the following will be visible in Ceylon.

### 1.—*Partial Eclipse of the Sun, May 15th.*

Begins on the Earth generally at 12h. 2m. '8, Mean time at Greenwich, in Longitude 75° 56' E. of Greenwich, and Latitude 25° 33' N.

### 2.—*Partial Eclipse of the Sun, November 9th.*

Begins on the Earth generally at 5h. 35m. '1, Mean time at Greenwich, in Longitude 171° 38' E. of Greenwich, and Latitude 31° 21' S.

## COLOMBO TIME.

Ceylon being so far towards the East or Sun-rising, it is already mid-day here when it is morning in England. The day here is farther advanced than at Greenwich 5 hours 19 minutes and 33 seconds, which must therefore be added to the time in England to give the time here.

The quantities given under the head "Right Ascension" are to the nearest minute, and those under "Equation of Time" to the nearest second. By these data, with the use of a pocket sextant, the time may be readily obtained to within four seconds. Those whose objects require greater accuracy will most probably be provided with a Nautical Almanac.

## HOLIDAYS.

### GOVERNMENT.

Jan. 1...Mon., New Year's day.	June 28...Thurs., Queen's Corona- tion day.
Feb. 21...Wed., Ash-Wednesday.	Aug. 26...Sun., [Mon.] Pr. Albert's Birthday
April 6...Fri., Good Friday.	Nov. 9...Fri., Prince of Wales' Birthday.
— 9...Mon. } Easter Holidays.	Dec. { 26 Wed. } Christmas — 10...Tue. } holidays.
May 17...Thurs., Ascension day.	
— 24... " Queen's Birthday.	

### BANK.

New year's day.	Good Friday.	Christmas day.
-----------------	--------------	----------------

THE CALENDAR.  
1855.

## THE WEATHER.

COLOMBO.—The rains which accompany the setting in of the N. E. monsoon are usually over, the soil is still moist, the sky is clear, and the nights cold, with an along-shore or land wind blowing, which must be guarded against. Therm. Max. 86.2. Min. 73.4. Mean 79.8.

TRINCOMALIE.—The rains of the N. E. monsoon are now generally over. Strong winds from N. E. Fine weather throughout and most pleasant. Therm. Max. 82. Min. 71. Mean 78.

## THE WEATHER.

COLOMBO.—The along-shore wind (a strong parching wind from the N. E.) often continues to blow the greater part of this month night and day. It carries off the moisture of the ground and the skin rapidly, and gives rheumatism, &c. to those who expose themselves incautiously to it. Therm. Max. 89. Min. 72.1. Mean 79.8.

TRINCOMALIE.—Fine weather throughout, wind N. E. but more moderate. Occasional land wind after midnight and very cold. Therm. Max. 83. Min. 72. Mean 79.

## THE WEATHER.

COLOMBO.—The dry earth now receives far more heat from the sun than it parts with by evaporation or terrestrial radiation. The weather is becoming very warm. Notwithstanding the alternate sea breezes by day and land winds by night the heat is oppressive compared with that of the rest of the year. Therm. Max. 88·1. Min. 74. Mean 81·8.

TRINCOMALIE.—Fine weather throughout, wind more moderate and veers round to E. N. E. and East with morning land wind. Towards the end of the month the weather becomes warm. Therm. Max. 86. Min. 72. Mean 81.

## THE WEATHER.

COLOMBO.—Indications of the approach of the S. W. monsoon are to be observed in a ground swell in the sea and S. W. breeze more steady than the sea breeze of last month. The temperature, however, continues to rise, and all who can, leave for the mountains. Therm. Max. 88. Min. 73.1. Mean 81.7.

TRINCOMALAI.—This is the most oppressive month in the year. The sea breeze light from the Eastward which dies away soon after sunset and remains calm all night with the Therm: seldom lower than 86. Therm. Max. 90. Min. 77. Mean 84.

## THE WEATHER.

COLOMBO.—The rains mostly over and a steady S. W. wind blowing day and night; the difference between the wet and dry thermometer seldom exceeding 6°. Therm. Max. 84. Min. 74.9. Mean 80.2.

T. COMALIE.—Strong winds from S. W., clear weather, occasional (sometimes very violent) squalls from N. W. with lightning, thunder and heavy rain for an hour, cooling the air greatly, and the excessive heat of the monsoon may be considered over. Therm. Max. 89. Min. 76. Mean 83.

## THE WEATHER.

COLOMBO.—The first half of this month is usually marked by rains, due to the N. E. monsoon, which are very heavy though of short duration. By these the air is cooled and the soil refreshed, though extensive inundations often result. Therm. Max. 86.4. Min. 73.6. Mean 80.1.

TRINCOMALIE.—Land and sea breezes with occasional showers; towards the end of the month gloomy weather. Therm. Max. 87. Min. 74. Mean 81.

## THE WEATHER.

COLOMBO.—The rains from the N. E. of the preceding month often continue during this, usually with thunder and lightning and alternate sea breezes and land winds, so that the new year sets in with the soil saturated with moisture and colder than at any other time. Therm. Max. 85. Min. 68·9. Mean 78·4.

TRINCOMALIE.—Heavy rain with strong winds and squalls from N.E. Much lightning and thunder until towards the end of the month, when the weather clears up and is very pleasant. Therm. Max. 82. Min. 72. Mean 78.

## Account of the Calendar.

The JULIAN or COMMON CIVIL YEAR\* is that which is employed in chronology. This is in effect a solar year, commonly containing a certain number of whole days, the odd hours and minutes being set aside to render the computation of time in the common concerns of life more easy, and consists of 365 days or 13 months, 1 day; or 52 weeks, 1 day, for three years together; but every fourth year a day (or in the four years 6 hours for each year) being added to February, it then contains 366 days; this is called *bissextile* or *leap year*, consequently the mean Julian year, will be 365 days, 6 hours.

The MEAN SOLAR, ASTRONOMICAL, TROPICAL, NATURAL, or EQUINOCTIAL YEAR is the true standard of time, and is the period of time in which the earth performs a revolution about the sun, or passes from the first point of *Aries* to the same first point of *Aries* again; and has been assumed, according to Bessel (see *Connaissance des Temps*, 1831, Additions, p. 154.), equal to 365.242218 mean solar days = 365d. 5h. 48m. 47.6352s.

Although the Julian method of intercalation is perhaps the most convenient that could be adopted; yet, as the science of astronomy advanced the length of the astronomical year was found to be shorter than the Julian correction supposes by 11m. 12.3648s., it could not, without correction, very long answer the purpose for which it was devised, namely, that of preserving always the same interval of time between the commencement of the year and the equinox, and thus would a degree of confusion be introduced into the relative divisions of the year, and be productive of great inconvenience: at length it was discovered that an error of one day too much would take place in 129 years (for as 11m. 12.3648s. : 1 year :: 1d. : x); but in the time of Cæsar the length of the year was an astronomical element not very well determined. In the course of a few centuries, however, the equinox sensibly retrograded towards the beginning of the year in consequence of the precession of the equinoxes. When the Julian calendar was introduced, the equinox fell on the 25th of March; at the time of the Council of Nice, which was held *Anno Domini* 325, it fell on the 21st of March. This imperfection of the calendar was noticed as early as the time of the Venerable Bede; but the reformation of it did not take place till many centuries after: *Petrus ab Alhiaco* and *Cusa*, two learned Cardinals, not only pointed out these imperfections to the Councils of Constance and Lateran, but suggested the means for its correction; and in A. D. 1474, *Pope Sixtus the IVth* engaged *Regiomontanus*, an excellent mathematician, in this task of reform, though from the circumstance of the death of *Regiomontanus* the project was not carried into effect. And when the reformation was made, in 1582, the equinox had retrograded to the 11th of March; therefore, in order to make the calendar correct, *Pope Gregory the XIIIth* invited *Clauius* and *Ciaconius*, the most celebrated astronomers and mathematicians of the age, with others, to superintend the reconstruction of the calendar: they having found that by the introduction of the bissextile days, a difference had arisen of ten days between the calendar and actual time, owing to the odd minutes and seconds which the bissextile year occasioned the calendar to exceed the true period of the sun's progress, the Pope then issued a brief, in the month of March 1582, in which he abolished the use of the ancient calendar. And in order to restore the commencement of the year to the same place in the seasons that it had occupied at the time of the Council of Nice, Gregory directed the day following the feast of St. Francis, that is to say, the 5th of October, to be reckoned the 15th of that month. By this regulation the vernal equinox, which now happened on the 11th of March, was restored to the 21st. This last amendment of the calendar having taken place under the direction of *Pope Gregory the XIIIth*, was, out of respect to him, called the *Gregorian* or *New Style*, in opposition to the *Julian* or *Old Style*, and has been adopted by almost every Christian nation. The *Gregorian Style* was immediately accepted by all those parts of Europe which were under the papal authority. But the Protestants adhered to the *Julian Style* with obstinate pertinacity; and the Protestants of Germany have the credit of having first corrected such inconsistency, by throwing eleven days out of their calendar in 1700; while it is worthy of remark, that the Russians, regardless of

\* The first Julian year commenced with the first of January of the 46th before the birth of Christ, and 78 from the foundation of the city of Rome.

propriety, still adhere to the Julian style, and therefore, by another centurial leap-year having occurred, viz. in the year 1800, they now differ from us 12 days in their date of time. Now as the error of the Julian intercalation was found to amount to three days in 400 years, he ordered intercalations to be omitted on all the centenary years, excepting those which are multiples of 400. According to the Gregorian rule of intercalation, therefore, to know when it is *bissextile* or *leap year*, divide the year by 4, and the remainder shews how long it is after leap year; if nothing remains it is leap year, excepting the centurial years, which are only leap years when divisible by 4 after suppressing the two zeros. Thus 1600 and 2000 are leap years, because 16 and 20 are divisible by 4; but 1700, 1800, and 1900 are common years, and so on, because 17, 18, and 19 are not divisible by 4, but these would have been leap years by the Julian calendar. As the Gregorian method of intercalation has been adopted in all Christian countries, Russia excepted, it becomes interesting to examine with what degree of accuracy it reconciles the civil with the solar year; therefore the only thing in the correction of the calendar that requires a high degree of mathematical science is the determination of the length of the astronomical year; yet this has never been perfectly ascertained. Had the mean astronomical year been more accurately determined in the time of Julius Caesar, the Julian correction would, probably, have superseded the necessity of the Gregorian. Although the Gregorian calendar is far preferable to the Julian, yet it is not without its defects (perhaps, as *Tycho Brahe* and *Cassini* imagine, it is impossible ever to bring the calendar to perfect justness). According to the latest determinations of modern astronomy, the mean solar year consists of 365 d. 5 h. 48 m. 47.6352 s., or 365.242218 d. Now the Gregorian rule gives 97 intercalations in 400 years; 400 years therefore contain  $365 \times 400 + 97 = 146097$  days, and consequently one year contains 365.2425 days or 365 d. 5 h. 49 m. 12 s. This exceeds the true solar year by 243548 seconds, which amount to a day in 3546 years; for as  $243648 \text{ s.} : 1 \text{ year} :: 1 \text{ d.} : x$ . It is perhaps unnecessary to make any formal provision against an error which can only happen after so long a period of time; but as 3546 differs little from 4000, it has been proposed to correct the Gregorian rule by making the year 4000 and all its multiples common years. With this correction the rule of intercalation is as follows:—Every year, the number of which is divisible by 4, is a leap year, excepting the last year of each century, which is a leap year only when the number of the century is divisible by 4; but 4000, and its multiples, 8000, 12000, 16000, &c., are common years. Thus the uniformity of the intercalation by continuing to depend on the number 4, is preserved; and by adopting the last correction the commencement would not vary more than a day from its present place in 31250 years. For as the Gregorian intercalation gives 97 days in 400 years, consequently in 4000 years 970 days would be intercalated; but one day is now omitted at the end of every 4000 years, therefore only 969 days are intercalated, consequently the civil year will be  $365 \text{ d.} + \frac{969}{4000} = 365.24225 \text{ d.} = 365 \text{ d.} \text{ 5 h. 48 m. 46.4 s.}$  This exceeds the mean solar year by 27648 seconds, and it would require 31250 years to make the beginning of the civil and tropical year be a day apart, for as  $27648 \text{ s.} : 1 \text{ year} :: 1 \text{ d.} : x$ .

From the year 1582 to 1700 the difference between the old and new style continued to be ten days; but 1700 being a leap year in the Julian calendar, and a common year in the Gregorian, the difference of the styles during the eighteenth century was 11 days. The year 1800 was also common in the new calendar, and consequently the difference in the present century is twelve days, and so will continue till the year 1900, and from 1900 to 2100 will be thirteen days, and at every centesimal year, which is not exactly divisible by 4, will be an increase of one day more, excepting 400 and its multiples. In Great Britain the alteration from the old to the new style was for a long time successfully opposed by popular prejudice, but the inconvenience had been so generally felt in matters of history and chronology, that at length, in 1751, an Act of Parliament was passed for the adoption of the new style in the year following, in all public and legal transactions under the crown. The difference of the two styles, which then amounted to eleven days, was removed by ordering the day following the 2nd of September of the year 1752 to be accounted the 14th of that month, whereby that month consisted of only nineteen days: and in order to preserve uniformity in future the Gregorian rule of intercalation respecting the secular years was adopted.

The *SIDEREAL* or *ASTRAL YEAR* is the time elapsed from the sun's quitting a particular fixed star to its return to the same fixed star again, and it exceeds the solar year by 20 m. 19.9361 s., making the sidereal year 365 d. 6 h. 9 m. 7.5913 s.; this difference is called the *precession* or *retrograde motion* of the equinoxes, by which

the fixed stars gain about 50.1 seconds in right ascension every year; consequently the length of a sidereal year can then be determined by no method more obvious or more correct than this:—

As 360 deg. 50.1 s. : 365 d. 5 h. 48 m. 47.6352 s. : : 360 deg. : 365 d. 6 h. 9 m. 7.5913 s.

The ANOMALISTIC YEAR is the interval which is occupied by the sun in passing from *apogee* to *apogee*, or from *perigee* to *perigee*; it is greater than the sidereal year by the time required to describe the annual progression of the apogee: now the progression of the apogee (its increase of longitude) being 11.8 seconds, therefore the anomalistic year is complete when the sun has described 360 deg. 0 m. 11.8 s. Hence to find the length of an anomalistic year—

As 360 deg. : 365 d. 6 h. 9 m. 7.5913 s. : : 360 deg. 0 m. 11.8 s. : 365 d. 6 h. 13 m. 54.9263 s.

Therefore the anomalistic year is longer than the sidereal by 4 m. 47.335 s., and longer than the equinoctial by 25 m. 7.2911 s.

*Apparent or true time* is that which is denoted by the sun-dial, from the apparent motion of the sun, and differs several minutes in certain parts of the ecliptic from the mean time, or that shewn by the clock. The difference is called the equation of time and is set down in the almanac in order to ascertain the true time. This irregularity is produced by two principal causes, viz. the obliquity of the ecliptic to the equator, and the eccentricity of the earth's orbit, and by the small deviations from elliptical motion produced by the moon and planets.

A *lunar month or synodic revolution of the moon* is the time between two consecutive conjunctions of the moon, called the change or new moon. This period varies considerably, in consequence of the variation of the eccentricity of the moon's orbit.

A *mean lunation* is, according to Laplace, 29 d. 12 h. 44 m. 2.8032 s., and the excess in each year is 11 days, from which the epact or moon's age at the commencement of any year may be found; and this is used for finding the moon's age at any time in the year.

A *day* is that portion of time in which the earth makes one complete revolution on its axis, and is measured by the interval between two successive transits of any fixed star over the same meridian. The *civil day* is reckoned from one midnight to another, being divided into two periods of hours counted from one to twelve, twice over, among the ancient Egyptians and Romans, with modern English, Dutch, Germans, Spaniards, and Portuguese; but in astronomical calculations, the day is always supposed to begin at noon, and to end at the noon of the following day, the hours being reckoned up to 24. Therefore, if civil time be P.M. it agrees with astronomical time; but if the civil time is A.M., add 12 hours to it, and the sum will be the corresponding astronomical time of the preceding day.

The *Jewish year* is reckoned from the Creation, in lunar years consisting of 12 lunar months of 29½ days each and from new moon to new moon. The Jewish year in general contains 354 days.

The Mahomedan era commences with the introduction of the Mahomedan religion by Mahomet. Their year, like that of the Jews, consists generally of 354 days.

The Chinese divide the night and day into twelve equal parts, beginning their reckoning from midnight. Hence their hours are double the length of ours.

The common Chinese year consists of twelve lunar months and their intercalary year has thirteen. Their months have no subdivision, that is, they have no weeks. Their common way of dating is by the day of the month and the year of the reigning Emperor. As for example, 15th of the sixth moon in the 12th year of the Kia-King.

The moon with which their year commences, is that which falls nearest to the fifteenth degree of *Aquarius*, corresponding to the 3d or 4th of February.

The Chinese have no particular days of religious worship. Their great festival is the first of the year, on which they shut up their shops, dress in their best clothes, and pay visits.

## Explanation of Feasts and Festivals.

**THE DAY OF CIRCUMCISION, or NEW YEAR'S DAY.**—This day was kept as a festival by the Greeks in celebration of the completion of the Sun's annual course, and by the Romans in honor of their god Janus. The Day of Circumcision was instituted in the Christian Church A. D. 487, and introduced into the English Liturgy in 1550 in commemoration of the Circumcision of our Lord Jesus Christ, eight days after his Nativity.

**EPIPHANY, TWELFTH-DAY, or OLD CHRISTMAS DAY.**—is kept as a festival throughout Christendom in commemoration of the manifestation of the Lord Jesus Christ upon earth. Antiently it was celebrated as the Feast of the Nativity during twelve days, namely, from Christmas unto the 12th day onwards. The first and last of these days were denominated the *greater* and *lesser* Epiphany. The first, on account of the Lord Jesus having on that day assumed the human form; and the second, on account of the appearance of the star which conducted the Wise men from the East to Bethlehem, there to worship the infant Saviour.

**CANDLEMAS DAY, PURIFICATION of the VIRGIN MARY.**—was antiently called the day of *Christ's Presentation*; and is still kept as a solemn festival in memorial of the humiliation of the Blessed Virgin Mary, who whilst submitting to the Law that enjoined personal purification after childbirth, presented the infant Jesus in the Temple.

**SEPTUAGESIMA, SEXAGESIMA, QUINQUAGESIMA, and QUADRAGESIMA SUNDAYS,** are so called to signify in even and round numbers, the seventieth, sixtieth, fiftieth, and fortieth day before Easter.

**SHROVE TUESDAY.**—This day, preceding the first day of Lent, is so called from the Saxon word *Shrive*, to confess; because in antient times, on this day, every person in England was obliged to confess to his own parish priest in his own parish church.

**ASH WEDNESDAY, THE FIRST DAY OF LENT.**—Originally so called from the custom that prevailed of penitents, when admitted to the Church to express humiliation on account of their sins, appearing clothed in *sackcloth*, and having *Ashes* sprinkled on their heads.

**LENT,** signifies *spring*. The forty days before Easter, therefore, being observed by Christians as days of humiliation, fasting and prayer, were called the Spring, or Lenten Fast.

**LADY DAY.**—is celebrated throughout the Christian world under the title of *The Annunciation of the Blessed Virgin Mary*, or the day on which Almighty God sent the Angel Gabriel to announce to her the fulfilment in her person of the prophecies that foretelling the glorious scheme of salvation, declared a Virgin should conceive and bear a Son, &c.—(See Gen. iii. 15; Isa. vii. 14; ix. 6; Mic. v. 2, &c.)—Lady day is also in civil calculation, the 1st of the four quarter-days, and is so called, of the year.

**PALM SUNDAY.**—The Sunday before Easter, commemorated throughout the Christian Church, as the anniversary of our Saviour's last entry into Jerusalem, when the people took branches of Palm, and went forth to meet him and cried, Hosanna: blessed is the King of Israel, who cometh in the name of the Lord. This day is also called *Passion Sunday*, as the first day of the Passion week.

**GOOD FRIDAY,** called also **HOLY FRIDAY;** is the day which from the earliest period in the Christian Church has ever been kept in solemn awful remembrance of the Crucifixion of our blessed Lord and Saviour Jesus Christ.

**EASTER SUNDAY.**—The day on which the Lord Christ rose triumphant from the grave; and since then ever kept throughout all Christendom as a *Great Day*, a *Feast of Feasts*; and a *Sunday of Joy*. In secular transactions it is the most important of all the moveable feasts, as the day on which it falls regulates all the rest.

**ROGATION SUNDAY.**—the fifth Sunday after Easter, takes its name from the Latin word *rogare*, to beseech; the early Christians having appointed extraordinary prayers and supplications on the Monday, Tuesday and Wednesday succeeding it.

**HOLY THURSDAY or ASCENSION DAY,** is the day on which the Church celebrates the Ascension of our Lord into heaven.

**WHIT SUNDAY, or PENTECOST.**—This day is held by the Christian Church as a solemn festival, in commemoration of the descent of the Holy Ghost upon the Apostles on the day of Pentecost. On this day in early times converts to Christianity were most usually admitted to the Church by Baptism; they were baptised clothed in white; hence it became termed *White Sunday*, from which in later times was derived the term *Whit Sunday*.

**TRINITY SUNDAY.**—This is the Sunday following Whit Sunday; and on this day, the Christian Church more particularly calls to mind the doctrine of the Holy Trinity.

**ADVENT SUNDAY;**—commences the season set apart by the Church as preparatory to the festival of Christmas. On this season we are not only called upon to contemplate the inestimable blessings conferred on mankind by the coming of our Lord to “take away the sin of the world,” but also to prepare for that second coming, when He will appear to “judge the world in righteousness.”

**CHRISTMAS DAY, or THE FESTIVAL OF THE NATIVITY,**—commemorates the birth of our blessed Saviour—God manifest in the flesh—“to whom be glory and majesty dominion and power, both now and ever. AMEN.”

## Principal Native Festivals.

### SINGHALESE.

- 1.—**AWURUDU-MANGALLE**, the feast of the New Year, April 11.
- 2.—The day of anointing the head with oil after the New Year. This day is fixed by the Astrologer, and is generally celebrated a few days after the New Year.
- 3.—Full moon day of the month *Wesak* (April—May.) The ordination of Buddhist Priests at the Establishments of Kandy and other places generally takes place on this day; as well as pilgrimages to the Buddhist Temples at Kalany and other sacred places in the Island.
- 4.—**PERABARRA**, or the *Procession*, formerly celebrated exclusively in honor of the Indian deities Natha, Vishnu, Kotagram, and Pattini; but incorporated with the worship of Budha in the year 1775. It is held in Kandy and sundry other places in Udunuwera, Yatnuwera, Harispattoo Udupalata, Hewahetta, Matale, Four Korles, Saffragam, Ouwah and Seven Korles; commencing usually from the New and lasting to the Full moon in the month of July.
- 5.—**KAARTKA-MANGALLE**, the *Festival of Lamps*, celebrated in honor of Maha-Bali, the great mythological hero of India, and consisting of a general illumination for one night. This is a Kandyan Festival, and is not observed in the Maritime Provinces.
- 6.—**ALOOTSAL MANGALLE**, the *Festival of New Rice*. This is also a Kandyan Festival, celebrated in the month of January.
- 7.—Pious Buddhists also regard the Full, New, and First and Last Quarters of the Moon as sacred, and in general devote them to religious and devotional purposes.

## Weights and Measures.

### 1. MEASURE OF LENGTH.

12 Inches	=	1 Foot
3 Feet	=	1 Yard
5½ Yards	=	1 Rod or Pole
40 Poles	=	1 Furlong
8 Furlongs	=	1 Mile
69 1-9 Miles	=	1 Degree of a Great Circle of the Earth.

An inch is the smallest lineal measure to which a name is given, but subdivisions are used for many purposes. Among mechanics the inch is commonly divided into *eighths*. By the officers of the revenue, and by scientific persons, it is divided into *tenths*, *hundredths*, &c. Formerly it was made to consist of 12 parts called *lines*.

#### Particular Measures of Length.

A Nail	=	2½ Inches	} Used for measuring cloth of all kinds.
Quarter	=	4 Nails	
Yard	=	4 Quarters	
Ell	=	5 Quarters	
Palm	=	3 Inches	
Hand	=	4 Inches—Used for height of horses.	
Span	=	9 Inches	
Cubit	=	1 Foot 6 Inches	
Military Pace	=	2 Feet 6 Inches	
Geometrical Pace	=	5 Feet	
Fathom	=	6 Feet—Used in measuring depths.	
Link	=	7 Inches 92 hdtls.	} Used in Land Measure to facilitate computation of the content, 10 square chains being equal to an acre.
Chain	=	100 Links	
Mile	=	80 Chains	

### 2. MEASURE OF SURFACE.

1296 sq. Inches	=	144 sq. Inches	=	1 sq. Foot
272½ sq. Feet	=	9 sq. Feet	=	1 sq. Yard
4356 sq. Feet	=	30½ sq. Yards	=	1 Perch or Rod.
10590 sq. Feet	=	16 Perches	=	1 sq. Chain
43560 sq. Feet	=	2½ sq. Chains	=	1 Rod
3097600 sq. Yards	=	4 Rods	=	1 Acre
	=	640 Acres	=	1 Mile

#### Particular Superficial Measures.

Square of flooring, &c.	=	109 sq. Feet
Rod of Brick-work	=	272½ sq. Feet
Load of Inch boards	=	600 sq. Feet
Yard of Land	=	30 Acres
Hide of do.	=	100 Acres

In some places it is customary to allow 324 Sq. Feet to a Rod; sometimes a Rod = 21 Feet long and 3 Feet high = 63 Sq. Feet.

### 3. NAUTICAL MEASURES.

6082.66 Feet	=	1 Nautical Mile
3 Miles	=	1 League
20 Leagues	=	1 Degree
360 Degrees	=	The circumference of the Earth.

A Degree of the Meridian in the latitude of England at the medium of 52° was found by Colonel Mudge in 1800, to equal 69.114 English Miles. A sea league is therefore 3.4557 English miles in the same latitude.

### 4. MEASURES OF SOLIDITY AND CAPACITY.

#### DIVISION 1.—SOLIDITY.

1728 Cubic Inches	=	1 Cubic Foot
27 Cubic Feet	=	1 Cubic Yard
10648000 Cubic Yards	=	1 Cubic Rod Pole or Perch
64000 Cubic Rods	=	1 Cubic Furlong
512 Cubic Furlongs	=	1 Cubic Mile

## Particular Cubic Measures.

A Load of rough Timber	=	40 Cubic feet.
Load of Squared Timber	=	60 do.
Ton of Shipping	=	40 do.
Barrel bulk	=	5 do.
Floor of earth	=	324 do.

A Cord of wood=8 ft. long, 4 ft. broad, and 4 ft. deep, 128 cubic feet; a stack of wood 12 ft. long, 3 ft. broad, and 3 ft. deep=168 cubic feet; a solid yard of earth=1 load. A cubic foot of water weighs 1000 ounces avoirdupois, or 911 oz. 9 dwts. 4 grs., troy.

## DIVISION II.—CAPACITY.

4 Gills = 1 Pint	=	34 $\frac{3}{4}$ cub. ins., nearly.
2 Pints = 1 Quart	=	60 $\frac{3}{4}$ "
4 Qts. = 1 Gallon	=	277 $\frac{1}{2}$ "
2 Gall. = 1 Peck	=	554 $\frac{1}{2}$ "
8 Gall. = 1 Bushel	=	2218 $\frac{1}{2}$ "
8 Bush. = 1 Quarter	=	10 $\frac{1}{2}$ cub. feet nearly.
5 Qrs. = 1 Load	=	51 $\frac{1}{2}$ "

The four last denominations are used for dry goods only. For liquids several denominations have been heretofore adopted, viz:—For Beer the Firkin of 9 Gallons, the Kilderkin of 18, the Barrel of 36, the Hogshead of 54, and the Butt of 108 Gallons. These will probably continue to be used in practice. For Wine and Spirits, there are the Anker, 10, Runlet, 18, Barrel, 31 $\frac{1}{2}$ , Tierce, 42, Hogshead, 63, Puncheon, 84, Pipe or Butt, 126, and Tun, 252 Gallons; but these may be considered rather as the names of the casks in which such commodities are imported, than as expressing any definite number of Gallons: a Pipe of Claret containing 126; Port, 138; Sherry, 130; Lisbon, 140; Bucellas, 140; Madeira, 110; and Vidonia, 120 Gallons. It is the practice to gauge all such vessels and to charge them according to their actual contents.

Flour is sold nominally by measure, but actually by weight, reckoned at 7lbs. Avoirdupois to a Gallon.

A load of corn=5 bushels; a cart load of corn=40 bushels, and 7922 wheat or barley-corns are supposed to fill a pint measure.

## 5. MEASURE OF WEIGHT.

## DIVISION I.—Avoirdupois Weight.

27 $\frac{1}{8}$ Grains = 1 Dram	=	27 $\frac{1}{8}$ gr. Troy.
16 Drams = 1 Ounce	=	437 $\frac{1}{2}$ "
16 Ounces = 1 Pound (lb.)	=	7000 "
28 Pounds = 1 Quarter (qr.)	=	"
4 Quarters = 1 Hundred weight (cwt.)	=	"
20 Cwt. = 1 Ton.	=	"

This weight is used in almost all commercial transactions, and in the common dealings of life.

The particular weights belonging to this Division are as follows:—

7 Pounds = 1 Clove	cwt. qr. lb.	
2 Cloves = 1 Stone	=	0 0 14
2 Stones = 1 Tod	=	0 1 0
6 $\frac{1}{2}$ Tods = 1 Wey	=	1 2 14
2 Weys = 1 Sack	=	3 1 0
12 Sacks = 1 Last	=	39 0 0

} Used in the Wool Trade.

Several sorts of Silk are weighed by the Great Pound of 24 oz.

## Particular Weights.

A Firkin of Butter	=	56 lb.
" " Soap	=	64 "
" Barrel of Raisins	=	112 "
" " Soap	=	256 "
Puncheon of Prunes	=	1120 "
Barrel of Anchovies	=	30 "
Fodder of Lead		
" London and Hull	=	19 $\frac{1}{2}$ cwt.
" Stockton	=	22 "
" Bawtry	=	21 $\frac{1}{2}$ "
" Chester	=	20 "
" Derby	=	22 $\frac{1}{2}$ "
" Newcastle	=	21 "

## 7. ANGULAR MEASURE;

## OR, DIVISIONS OF THE CIRCLE.

60 Seconds	= 1 Minute	= 4 Seconds of Diurnal motion of the Earth reduced to time.
60 Minutes	= 1 Degree	= 4 Minutes
15 Degrees	= $\frac{1}{2}$ Sign of the Zodiac	= 1 Hour
30 Degrees	= 1 Sign	= 2 Hours
90 Degrees	= 1 Quadrant	= 6 Hours
360 Degrees, or 12 Signs	= 1 Circumference	= 24 Hours.

Formerly, the subdivisions were carried on by sixties; thus the second was divided into 60 thirds, the third into 60 fourths, &c. At present the second is more generally divided decimally into 10ths, 100ths, &c. The degree is frequently so divided.

The Zodiac is an imaginary belt encompassing the heavens, divided into 12 equal parts of 30 degrees each, called the Signs of the Zodiac. It extends about eight degrees on each side of the Ecliptic, and within it all the motions of the Planets are performed, except those of the new discovered asteroids Ceres and Pallas, etc.

*Signs of the Zodiac, and the Days on which the Sun enters them.*

## NORTHERN CONSTELLATION.

♈ Aries	. . . the Ram	. . .	} Appears in a line with the Sun.	March	20
♉ Taurus	. . . the Bull	. . .		April	19
♊ Gemini	. . . the Twins	. . .		May	21
♋ Cancer	. . . the Crab	. . .		June	21-22
♌ Leo	. . . the Lion	. . .		July	23
♍ Virgo	. . . the Virgin	. . .		August	23

## SOUTHERN CONSTELLATION.

♎ Libra	. . . the Balance	. . .	} Appears in a line with the Sun.	September	23
♏ Scorpio	. . . the Scorpion	. . .		October	23
♐ Sagittarius	. . . the Archer	. . .		November	22
♑ Capricornus	. . . the Goat	. . .		December	22
♒ Aquarius	. . . the Waterbearer.	. . .		January	19
♓ Pisces	. . . the Fishes	. . .		February	18

## 8. MEASURE OF TIME.

60 Seconds	= 1 Minute
60 Minutes	= 1 Hour
24 Hours	= 1 Day
7 Days	= 1 Week
28 Days	= 1 Lunar Month
28, 29, 30, or 31 Days	= 1 Calendar Month
12 Calendar Months	= 1 Year
365 Days	= 1 Common Year
365 $\frac{1}{4}$ Days	= 1 Julian Year
366 Days	= 1 Leap Year

In 400 Years, 97 are Leap years, and 303 Common.

The same remark as in the case of Angular measure applies to the mode of subdividing the Second of time.

## THE NATIVE DRY MEASURE.

## Cut Chundoos.

4	=	1 Cut Measure or Seer.
19 $\frac{1}{2}$	=	4 $\frac{1}{2}$ 1 Coornie.
48	=	12 = 2 $\frac{1}{2}$ = 1 Marcal.
96	=	24 = 5 = 2 = 1 Parrah.
768	=	192 = 40 = 16 = 8 = 1 Ammunam.
7200	=	1800 = 375 = 150 = 75 = 9 $\frac{1}{2}$ = 1 Last.

The English Bushel is equal to 84 Seers or 1 Parrah and 10 Seers.

## THE NATIVE LAND MEASURE.

Labas

8 = 1 Coornie.

80 = 10 = 1 Peyla.

320 = 40 = 4 = 1 Ammonam.

Among the Natives the extent of Land is defined by the quantity of Seed required to sow it, computed at the Ammonam Measure, and its sub-divisions. In fertile Lands the Seed is not strewed half so thickly as in poor soil; an Ammonam of good ground therefore will sometimes measure twice as many square feet as an Ammonam of poor soil.

## BRITISH INDIA.—GOVERNMENT WEIGHTS AND MEASURES.

1 tola = 180 troy grains; 80 tolas = 1 seer,  $2\frac{1}{4}$  lbs. troy; 40 seers = 1 maund = 83 2-15th lbs. avoird. (or 100 lbs. troy.) Grain is usually sold by weight throughout India.

*Calcutta.*—The guz = 1 imp. yard; The Bengal common coss or mile = 2000 yards;  $30\frac{1}{2}$  biggan = 1<sup>st</sup> imp. acres; the factory maund of 40 seers =  $74\frac{3}{4}$  lbs. avoird. the bazaar maund = 83 2-15th lbs. avoirdupois.

*Madras.*—The coid in cloth measure = 18 3-5ths inches; but the English yard of 36 inches is generally used; the cawny in land measure = 57,600 square feet, or about 1 acre, 11 roods and  $1\frac{1}{2}$  poles; the garze of 80 parabs or 400 marcals in corn or dry measure = about  $16\frac{1}{2}$  imp. quarters or by weight 9256 $\frac{1}{2}$  lbs. avoird.; 20 ollocks = 1 English Gallon; the maund of 8 vis, in measures of weight = 25 lbs. avoird.; the candy = 20 maunds or 500 lbs. avoirdupois.

In Calcutta, Madras, and Bombay, accounts are kept in rupees, annas and pice, thus 12 pice = 1 anna; 16 annas = 1 rupee;  $3\frac{1}{2}$  rupees exchange in account for 1 pagoda. In Ceylon accounts are kept in English currency; English weights are in use here, and the long and land measures are the same as in England; the coid is  $18\frac{1}{2}$  English inches.

*Bombay.*—The guz. = 27 inches; the maund of 40 seers = 28 lbs. avoird.; the candy of 20 maunds, each of 40 seers = 5 cwt., reckoned for grain at  $24\frac{1}{2}$  imp. bushels; the Surat candy of 20 maunds =  $740\frac{3}{4}$  avoirdupois.

*China.*—Measures of Weight.... 100 catties = 1 pecul =  $133\frac{1}{2}$  lbs. avoird.; 16 peculs and 80 chatties = 1 ton; 3 peculs = 400 lbs. avoird.;  $\frac{3}{4}$  catty = 1 lb.; 3 catties = 4 lbs. 84 catties = 1 cwt; 12 taels = 1 lb. avoird. Cloth Measure.... 32 covids = 13 imp. yards. Itinerary Measure.... Li, 180 fathoms = 632 yards; 200 lis = 1 degree.

The Chinese have four different measures answering to the foot; viz.,—

The foot of the mathematical tribunal, English inches.	..	..	13-125
The builder's foot, called kong hee	..	..	12-7
The tailor's and tradesman's foot	..	..	13-33
The foot used by engineers	..	..	12-66

*United States.*—Same as Britain, with former English measures of capacity: a barrel of flour weighs 19 lbs. nett; a barrel of pickled beef or pork 200 lbs.

## WEIGHTS OF ENGLISH COINS.

Gold		dwt.	gr.
Sovereign	..	5	$3\frac{1}{4}$
Half Sovereign	..	2	$13\frac{1}{4}$
Double Sovereign	..	10	$6\frac{1}{2}$
Silver.			
Crown	..	18	4 4-11
Half Crown	..	9	2 2-11
Shilling	..	3	15 3-11
Sixpence	..	1	19 7-11
Fourpence	..	1	5 1-11

## CEYLON RIXDOLLAR CURRENCY.

Challies

3..... 1 Pice

12..... 4 ..... 1 Fanam

144..... 48 ..... 12 ..... 1 Rix Dollar = 1s. 6d.

The following Coins are also current in Ceylon.

The Company's Rupee at 2s.

The Spanish and American Dollar at 4s. 2d.

The number of houses in the Gravets of Jaffna, according to the last return, was 4108.  
The area of the Town (i. e. Pettah) and Gravets, is seventeen square miles.

# VARIATIONS OF TEMPERATURE CORRESPONDING TO ALTITUDE.

As we ascend, the air becomes thin or rare, and as it becomes rare it also grows cold. No fact is better established than this, though, the rate of this cooling of the air as we ascend in it does not appear to be uniform, but to vary in different countries and even in the same country at different seasons. Were we to go by local data we might calculate it thus. The annual temperature of Colombo is probably about  $80^{\circ} 5$ ; that of Kandy is about  $74^{\circ} 5$ ; and that of Nuwera Ellia at an elevation of 6,210 ft. is about  $59^{\circ}$ ; giving a fall of one degree for every 280 ft. in the former case, and for every 295 ft. in the latter; results which accord very well with observations made elsewhere, and particularly with those which may be deduced from the other sanatoria of India.

ELEVATION above the Level of the Sea of the following Stations in the Island of Ceylon, determined from simultaneous Observations with the Mountain Barometer.

<i>Names of Places.</i>	<i>Elevation in English Feet.</i>

### CENTRAL PROVINCE.

The Government Agent—The Police Magistrate of Kandy—Medical Officer in charge of Civil Medical duties.

### *General Rules framed by the Board of Health and in force in the Western Province. \**

#### SMALL POX CHOLERA, &c.

1. The Police shall make known to the Superintendent of Vaccination, with the least possible delay, the occurrence of any case of Small Pox or any other Epidemic or contagious disease. In the Rural districts such information shall be afforded by the Native Headmen.

2. The Medical Officer appointed to inspect such cases shall, in every instance of Small Pox, give information thereof to the Superintendent of Police, who shall forthwith affix to the door of the house in which the case is found, such mark as shall sufficiently denote the existence of the disease therein.

3. Before such mark shall be removed, the Superintendent of Police shall communicate to the appointed Medical Officer the result of such case or cases of Small Pox, whether in death or in recovery. In either case he will receive instructions from the Medical Officer as to the safety of removing the mark from the house or permitting persons who have been affected to go abroad.

4. The Superintendent of Police shall remove to the Small Pox Hospital established at Maradain or elsewhere, any case of Small Pox in which he may be required so to do by the owner or occupier of a house or the head of a family, under the conditions of the 8th section of the Ordinance No. 10 of 1832, also all destitute persons affected with the disease, also all persons who may be found in the public streets or thoroughfares with the Small Pox disease upon them.

\* Similar Rules are also in force in the other Provinces.

5. In the execution of these duties the subordinate Officers of the Police are enjoined to use all possible tenderness and consideration for the sufferers, and for the religious or other feelings of their relations.

6. The Superintendent of Vaccination shall furnish to the Board of Health such periodical Returns and Reports as shall seem advisable. These will in their principal features correspond with those which the Superintendent of Vaccination has to furnish the Head of the Medical Department.

7. In the event of Cholera becoming epidemic, the Board of Health will communicate to Government such measures as may seem likely to arrest the progress of the disease.

8. The Board of Health will exercise supervision over the Hospitals for Small Pox at Marandahn, or in any other place where it may be deemed requisite to form a similar Establishment. The discipline and economy of such Hospitals shall rest as heretofore with the Principal Civil Medical Officer.

9. The financial arrangements of expenses incurred by Vaccinators shall continue as heretofore to be made by the Principal Civil Medical Officer.

#### VACCINATION.

1. The Board shall solicit from Government such aid from the Medical Sub-Assistants, to be appointed for the duty by the Principal Civil Medical Officer, under the sanction of Government, and of Native Vaccinators, as may be judged necessary.

2. No person shall be employed in a public capacity, who cannot produce satisfactory evidence of having undergone Vaccination or small Pox. The Proprietors of Estates and Manufactories, Heads of Families, and of Mercantile Establishments, are urged to adopt a similar precaution.

3. All Government Schoolmasters shall ascertain, previous to the admission of any child to their Schools, that the like evidence exists. The same rule is recommended to private Schoolmasters and all others who have the charge of children.

4. The Superintendents of Jails and Hospitals shall ensure the security of the inmates by the practice of Vaccination, in all cases wherein the Medical Officers may deem necessary.

5. The Board, under the authority of Government, shall issue notifications setting forth the advantages of Vaccination, the dangers resulting from its neglect, and the penalties attached to disobedience of the law. They shall call for the support and aid of all Christian Ministers and Catechists, of Moorish and Buddhist Priests, and of European and Native Practitioners. The vigilance and aid of the Native Headmen shall be secured by authority from Government.

#### RULES FOR THE GUIDANCE OF OFFICERS.

*Superintendent of Vaccination and his Duties.*—The Superintendent of Vaccination shall generally superintend the labours of the different Vaccinators. He shall, from time to time, during his inspection, satisfy himself that only genuine Lymph is employed by them, and that they perform the operation of Vaccination in a correct and satisfactory manner. He shall take care that the proper returns are forwarded at the periods specified. He shall furnish annually to the Board a detailed Report of the progress of Vaccination in the Western Province.

*Medical Sub-Assistants.*—The Medical Sub-Assistants engaged in Vaccination duties shall make a Monthly Report to the Superintendent of Vaccination, specifying the number of persons vaccinated by the different Vaccinators employed under them, whose Vaccination they, the Medical Sub-Assistants, have personally inspected. The quality of the Lymph employed in their districts, whether it has suffered deterioration from any cause; and the nature and extent of assistance rendered by the Civil Authorities, particularly the rural Headmen. If they have any communication to make calculated to further the cause of Vaccination, or with reference to the activity and efficiency of the Native Vaccinators, it should be embodied in such Reports.

The Medical Sub-Assistants shall vaccinate twice in the week, other Civil duties permitting. Their Vaccination should not extend to the remote stations, but once a month they should visit all the stations of the Native Vaccinators under them, in order that they may be enabled to make the report above mentioned to the Superintendent of Vaccination. They shall forward to the Superintendent of Vaccination, a weekly numerical return of Vaccination performed by themselves and the Native Vaccinators in their districts, and also a monthly nominal return. All weekly returns should be forwarded to the Superintendent of Vaccination on Mondays, and all Monthly returns should be despatched so as to reach the Superintendent by the 10th of the month.

*Native Vaccinators.*—Native Vaccinators shall make themselves practically acquainted with the different matters connected with Vaccination, by embracing all opportunities for instruction and improvement. The Medical Sub Assistants under whose direction they are employed, shall report periodically upon their general usefulness, diligence and activity, to the Superintendent of Vaccination. They shall vaccinate four days in each week. They shall forward to the Medical Sub Assistant of their district, or to the Superintendent of Vaccination, where no Medical Sub-Assistant is employed on such duties, a weekly numerical return in the same form as that prescribed for the Medical Sub-Assistants. They shall have one or more Vaccine stations in a village, according to its extent, and shall use their best exertions to promote efficient Vaccination by uniform kindness of manner, by great care in the performance of their duties, and by exhorting the patients to protect the vesicles throughout all stages, so that crusts may be properly formed. At the end of the month the Native Vaccinators shall furnish the Medical Sub-Assistant or Superintendent of Vaccination with a nominal return of Vaccination, in the same form as that prescribed for the Medical Sub-Assistant.

#### RULES FOR VACCINATING.

1st.—All persons who have not been satisfactorily vaccinated or had the Small Pox are liable to the most severe form of that disease. The protection of all such persons by efficient Vaccination is the object now earnestly desired.

2nd.—If a healthy child be properly vaccinated, by puncture at 8 o'clock on Monday, at the same hour on the following Monday the vesicles will be of a circular form and pearly appearance, well raised from the surface, with a flat top, not a pointed one, and with very little surrounding inflammation. *Such a child, although liable to Small Pox before, is now safe; and such a case should be invariably chosen from which to vaccinate others.*

3rd.—Four small punctures should be made, care being taken that the lymph is inserted under the thin skin.

4th.—The patients and their friends must be urged not to allow the vesicles to be rubbed at any time, so that they may dry and fall off of themselves.

5th.—Punctuality of attendance is essential, to avoid disappointment to patients, and to enable you to judge of the success of your efforts.

6th.—Efficient Vaccination leaves on the arm a distinct though superficial scar, which looks as if pins had been stuck into it. If there are not at least three such marks, or if seven years have passed since the last Vaccination, the person should be re-vaccinated.

## Minutes on Pensions.

### MINUTE

#### FOR THE CIVIL SERVICE.

1. UNDER instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to direct that the following Rules by which it is proposed that the Civil Service of this Colony shall in future be regulated in respect to Classification, Salaries and Pensions, be published for general information.

2. The Service will be divided into two Branches, to be termed the Senior Branch and the Junior Branch, and the latter will consist of five Classes.

3. A list of the Offices comprised in the several Branches and Classes, and of the salaries attached to them is annexed to this Minute.

4. These Salaries will commence from the 1st July 1845, from which date also will be computed the service entitling the newly added Officers to the periodical increase of Salary incident to their respective Classes.

5. The Pensions of the Civil Servants appointed prior to 1832 will be regulated by the rules hitherto in force, which will remain unaltered.

6. A Civil Servant appointed subsequently to 1832 will be entitled to pension at the following rates and under the restrictions founded upon the Provisions of the Act 4 & 5 William 4. Cap. 21, hereinafter specified.

For 15 years' service and less than 20, a Pension equal to four-twelfths of the Salary of his Office.

For 20 years and less than 25, five-twelfths.

For 25 years and less than 30, six-twelfths.

For 30 years and less than 35, seven-twelfths.

For 35 years and upwards, eight-twelfths.

These rates are to be the maximum rates in respect of each period of Service, and may be subject to diminution.

7. No Pension will be granted without the authority of Her Majesty's Government, in order to obtain which Certificates of Service, Age, good Conduct and of the ground of retirement must be submitted to the Secretary of State.

8. No pension will be granted to any Civil Servant who shall be under fifty-five years of age, unless upon Certificate from the Head of the Department to which he may belong, and from two Medical Practitioners, that he is incapable from infirmity of mind or body to discharge the duties of his situation; nor unless he shall have discharged those Duties with diligence and fidelity to the satisfaction of the Head of his Department. And in case the Civil Servant claiming such pension shall be himself the Head of a Department, then such pension shall not be granted unless he shall have discharged the duties of his situation with diligence and fidelity to the satisfaction of the Governor, by whom the same shall be certified to the Secretary of State.

9. The Pension shall be computed upon the amount of the Salary enjoyed by a Civil Servant at the time of his retirement, provided he shall have been in the receipt of the same or in the same Branch and Class for at least three years; otherwise the Pension shall be calculated upon the average amount of Salary received by such person for three years next preceding the commencement of such Pension.

10. It will be competent to Her Majesty's Government, in cases of peculiar and extraordinary merit, to grant special and higher rates of Pensions than those laid down in the preceding Regulations.

11. No Civil Servant will be held to have an absolute right to compensation for past Services or to any Pension under this Minute, and Her Majesty's Government will retain their power and authority to dismiss any Civil Servant from the Service without compensation.

12. In consideration of the claim to pension hereby established, an abatement at the rate of five per cent. will be made from the Salary of every Civil Servant appointed since 1832, to commence from the 14th February last.

13. The claim of a Civil Servant to Pension will be considered to have commenced from his first permanent appointment to any of the Offices in the List annexed to this Minute.

By His Excellency's Command,

P. E. WODEHOUSE,

*Act. Col. Secy.*

Colonial Secretary's Office,  
Colombo, 3d July 1845.

### MINUTE

#### FOR THE CLERGY AND TEACHERS.

HIS EXCELLENCY THE GOVERNOR is pleased to announce that the Right Hon'ble the Secretary of State has authorized the benefits of the Pension Scheme for the Civil Service of this Colony, laid down in the Minute of 3d July 1845, to be extended to all the Clergy and Ministers of the Christian Religion in Ceylon receiving stipends from the Public Treasury, and to the Masters of the Superior Schools; with the following modification however, in regard to the period at which the claim to Pension should commence.

By the Minute above referred to, the Pension scale in the case of the Civil Servants is fixed to begin at 15 years' service. But as the considerations which led to that regulation do not apply to Clergymen and Schoolmasters, who must necessarily be of mature age before they are appointed, and would enter, immediately on their arrival in the Colony, on the efficient discharge of their respective duties, Her Majesty's Government has decided, that any Clergyman or Schoolmaster who may be compelled to retire after Ten years' service, but under Fifteen, shall be entitled, under the same conditions as are laid down for the Civil Service Pensions, to a Pension not exceeding three-twelfths of his Salary.—After 15 years' service, they will follow in all respects the rules laid down in regard to Pensions to the Civil Service.

His Excellency has further to announce that the following Schoolmasters come within the scope of the regulation hereby established.

Principal of the Colombo Academy.

Mathematical Teacher of do.

Classical Teacher of do.

Teacher of Drawing and Design of do.

Head Master of the Model School of do.

Rector of the Native Normal Seminary.

Head Master of the Central School of Colombo.

Head Master of the Central and Normal Schools of Galle.

Head Master of the Central and Normal Schools of Kandy.

In consideration of the claim to Pension hereby established, an abatement at the rate of five per cent. will be made from the Salary of every one of the functionaries described in this Minute, to commence from 1st July last.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, 28th August 1846.

J. E. TENNENT,

*Col. Secy.*

### MINUTE

#### BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR desires to correct an omission in the above Minute of the 28th August, by inserting in the List of those entitled to Pension the Officer holding the appointment of Inspector of Schools.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, 19th September 1846.

J. E. TENNENT,

*Col. Secy.*

## MINUTE

## FOR THE JUDGES OF THE SUPREME COURT.

**HIS EXCELLENCY THE GOVERNOR** is pleased to announce, that the Right Hon'ble the Secretary of State has authorised the establishment of a Scheme of Pensions for the Judges of the Supreme Court of this Island, under the following regulations.

A Judge who is unable, after 15 years' service as such, to continue efficiently to discharge the duties of his Office, will be entitled to a pension not exceeding one-half of his Salary; such pension will not however be increased in consequence of prolonged service beyond fifteen years.

In the event of a Judge being compelled by ill health to retire after a service of 7 years, but less than 15 years, he will be permitted, on producing a Medical Certificate of incapacity to continue in the discharge of his duties, to retire on a pension not exceeding one-fourth of his Salary.

To a Judge who should retire before completing 7 years' service no Pension will be granted.

No Judge will be held to have an absolute right to compensation for past services, or to a Pension under this Minute: and no Pension will be granted without the authority of Her Majesty's Government; in order to obtain which, Certificates of service, age, and the grounds of retirement will be submitted to the Secretary of State.

In consideration of the claim to Pension hereby established, an abatement at the rate of 5 per cent. will be made from the salaries of the Judges of the Supreme Court; to commence from the 14th September last.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, 5th December 1846.

J. E. TENNENT,  
Col. Secy.

## MINUTE

## FOR THE GOVERNMENT CLERKS.

1. **HIS EXCELLENCY THE GOVERNOR** is pleased to direct the publication, for general information, of the following Rules, by which it is proposed that the pensions of all persons employed, or who may hereafter be employed on the Fixed Establishment and Provisional Establishment sanctioned by Her Majesty's Government, of the several Offices and Departments specified in the List annexed to this Minute, and not within the exceptions thereof, and not receiving a Salary less than £25 per annum, shall hereafter be regulated.

2. Every person so borne on the Fixed and Provisional Establishments as aforesaid, will be entitled to Pension at the following rates, and under the restrictions founded upon the provisions of the Act 4 and 5 Wm. 4, Cap. 24. hereinafter specified:

For 15 years' service and less than 20, a pension equal to four-twelfths of the Salary of his office.

For 20 years and less than 25—five-twelfths.

For 25 years and less than 30—six-twelfths.

For 30 years and less than 35—seven-twelfths.

For 35 years and upwards—eight-twelfths.

These rates are to be the maximum rates in respect of each period of service, and may be subject to diminution.

3. No Pension will be granted without the authority of Her Majesty's Government, in order to obtain which Certificates of service, age, good conduct, and of the ground of retirement must be submitted to the Secretary of State.

4. No Pension will be granted to any Person who shall be under fifty-five years of age, unless upon Certificate from the Head of the Department to which

he may belong, and from two Medical Practitioners, that he is incapable from infirmity of mind or body to discharge the duties of his situation; nor unless he shall have discharged those Duties with diligence and fidelity to the satisfaction of the Head of his Department.

5. The pension shall be computed upon the amount of salary enjoyed at the time of retirement, provided the claimant shall have been in the receipt of the same for at least three years; otherwise the pension shall be calculated upon the average amount of Salary received for three years next preceding the commencement of such Pension.

6. It will be competent to Her Majesty's Government, in cases of peculiar and extraordinary merit, to grant special and higher rates of Pension than those laid down in the preceding regulations.

7. No claimant for a pension will be held to have an absolute right to compensation for past services, or to any Pension under this Minute; and His Excellency the Governor will retain his power and authority to dismiss any Clerk or other Public Servant from the Service without compensation.

8. In consideration of the claim to Pension hereby established, an abatement shall be made from the 1st instant, according to the respective rates following; (that is to say,)

From salaries not exceeding the sum of £100, an abatement after the rate of £2. 10s. per Centum;

And from salaries exceeding £100, £5 per Centum;

9. These abatements (which are only applicable to salaries drawn on the Fixed Abstracts, and Provisional Abstracts sanctioned by Her Majesty's Government) will be made by the respective Heads of Departments, and by them remitted monthly to the Treasurer, accompanied by a Statement in Duplicate, in the annexed form, to be attached to the Accounts of that Officer.

10. The claim of a Public Servant to pension will be considered to have commenced from the period of his first permanent appointment on the Fixed Establishment, or Provisional Establishment sanctioned by Her Majesty's Government, comprised in the Schedule annexed to this Minute.

By His Excellency's Command,

Colonial Secretary's Office,  
Colombo, 3<sup>d</sup> January 1847.

J. E. TENNENT,  
Col. Secy.

## MINUTE

BY THE GOVERNOR.

WITH reference to the Minute of 8th September last, establishing a classification of the Salaries of the Masters of the superior Schools in this Colony, with a scale of periodical augmentations, His Excellency the Governor is pleased to notify that the Right Hon'ble the Secretary of State has sanctioned the addition of the following teachers as a Fourth Class to that Minute.

Teacher of the Female Seminary at )

Colombo .... £200 ..... (With an annual augmentation of .. £10

Do. of Consistorial Girls' School at      till it reaches £300.

Colombo . . . £200 . . . . .

Do. of Government School at Ma-	} With an annual augmentation of .. £10
tura.... £150 .....	
	till it reaches £250.

tura.... £150 .....	} with an annual aug- ment of £100 until it reaches £250.
.....	

These increases will commence to be reckoned from the 1st instant.

The Secretary of State has also been pleased to authorise these ladies being admitted to the benefit of the Pension Scheme established by the Minute of the 28th August 1846.

By His Excellency's Command.

Colonial Secretary's Office,  
Colombo, 31st July 1848.

J. EMERSON TENNENT,  
*Col. Secretary.*

## MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR having received instructions from the Right Hon'ble the Secretary of State, modifying in certain respects the rules under which Pensions to Public Officers of this Colony are now regulated, under the Minutes of the 3d July 1845, 28th August and 5th December 1846, and 30th January 1847, has directed that the same be published for general information.

1. In assigning superannuation or retiring allowances according to the scales specified in the above Minutes, the increased rates of allowance authorised by those scales after periods of five years' service shall not take effect immediately after the completion of each period; but the authorised rate shall be apportioned according as the service might exceed such completion and approach the next period of increase. Thus, for example, upon a Salary of £120 per annum the maximum allowance authorised by the Minutes after a service of twenty and not exceeding twenty-five years being 5-12ths or £50, the increase of £10 shall be

distributed by annual apportionments between the twentieth and twenty-fifth years of service as follows:

Service	20 years	Allowance	£42
"	21 "	"	44
"	22 "	"	46
"	23 "	"	48
"	24 "	"	50

and in like manner the Minutes authorising the allowance of 6-12th or £60 for service from twenty-five to thirty years, the apportionment shall be

For	25 years	£50
"	26 "	54
"	27 "	56
"	28 "	58
"	29 "	60

and in the same ratio with reference to longer or shorter service.

2. Should the term of service not warrant the assignment of an annual allowance, a gratuity may be granted after the rate of one month's salary for each year of service.

3. The apportioned rates above-mentioned, giving the maximum allowance for the last year of each period to which the scales of the Minutes are adapted, are however only to be granted in cases of decidedly faithful and meritorious service; but where the testimony as to fidelity, diligence and merit, is in any respect defective, a deduction will be made from the apportioned rate, either of one-fifth or of greater or less amount; or the grant of allowance will be altogether withheld, where there has been obvious negligence, irregularity or misconduct.

4. But in cases of special merit, it will remain open to Her Majesty's Government to award the maximum allowance warranted by the scales of the Minutes to the shortest terms of service, or to give such extraordinary recompense as they may deem expedient.

5. The services in respect of which superannuations are granted, ought in all cases to have been continuous, unless interrupted by reduction of office, or other temporary suspension of employment, not arising from misconduct, or voluntary resignation of the party.

6. In case of suspension of employment on reduction or abolition of office, temporary allowances may be assigned according to the above rules; on condition however that the parties receiving the same will be liable to be recalled into service, and with the understanding that they are to be re-employed as opportunity may offer, in preference to new applicants for office.

Colonial Secretary's Office,  
Colombo, 12th September, 1849.

By His Excellency's Command,  
J. EMERSON TENNENT,  
Col. Secretary.

# MINUTE

BY THE GOVERNOR.

WITH reference to the 12th clause of the Minute of the 3rd July, 1845, directing that an abatement at the rate of five per cent, should be made from the salary of every Civil Servant whose claim to Pension was thereby established. His Excellency the Governor is pleased to direct, under instructions from the Right Hon'ble The Secretary of State, that from and after the first January next, in the case of Officers holding acting appointments, and drawing half of the salary of their fixed office, and half of that of their acting appointment, such abatement shall in future be paid on the amount of the salary actually received by them, instead of on the full salary of their fixed office, as has hitherto been the practice; and that officers absent on leave, shall also in future pay abatement at the above rate, on the half salary received by them.

His Excellency has further to announce, that in the case of all Officers hereafter appointed to the Public Service, taking leave of absence in the regular manner, with abatement of salary, the period of service upon which their superannuation allowance will be calculated, will be at the rate of one month for every two months of such leave.

Colonial Secretary's Office,  
Colombo, 1st September, 1852.

By His Excellency's Command,  
C. J. MACCARTHY,  
Col. Secy.

# Examinations in Native Languages.

## MINUTE

BY THE GOVERNOR.

I HAVE had under my consideration the mode of examining parties desiring to pass an Examination in the Native Languages.

2. It appears to me, that some fixed Rules should be established, defining the nature of the Examination required to be undergone. I therefore propose the following.

3. The Student should be required to translate from two or three of the following works:

*In Singhalese.*—The *Dula Prabhodena*.

Histories published by the School Commission.

The Singhalese Regulations of Government.

The *Lampiyawa*—translated from the Pali.

The *Pansiye Panas Jateka*.

The *Tupawansa*.

The *Rajawallea*.

*In Tamil.*—The *Necthe Venpa*.

The *Koral*.

The *Thesavalame* or Country Law of Jaffna.

Simon Casie Chitty's Tamil Version of Turnour's Epitome of the History of Ceylon.

The *Calladakam*.

The Government Ordinances.

The *Kambaramayanum*.

The *Barathum*.

4. Translations should also be made from written Olas given by the examiners, also translations of some Cutcherry Papers, of some Leases, Mortgage or other Legal Documents, being usual in the Proceedings of Courts of Justice.

5. All Translations should be fairly written, sealed and sent to the Colonial Secretary.

6. The Student should then be required to translate a Fable from English into Singhalese or Tamil, as the case may be, and to translate part of an Ordinance.

7. The Student should be able to write the Native character well and with fluency.

8. He should be able to write Letters and Orders in the Native language on Judicial and Revenue matters.

9. The Student should be able to read with ease original communications from Headman and Government Officers, on all Revenue matters, and on all Judicial Reports. Selections from each should be made for this purpose by the examiners.

10. The Student should shew a knowledge of the Grammar of the Language, and be able to parse in it.

11. The Student should be able to converse perfectly and fluently in the Language in which he is examined.

12. I further propose that the Examination should take place half-yearly in the middle of January and the middle of July.

13. That a Board of Examiners should be appointed, consisting of two European Gentlemen, one an Officer of Government, two Native Gentlemen, and a President to be named by the Governor.

The Board should declare whether they consider the Student qualified for the Public Service, and give the character of the Examination passed.

Pavilion, Kandy, May 27th, 1852.

G. W. ANDERSON.

## MINUTE

BY THE GOVERNOR.

ON the recommendation of the Board of Examiners, His Excellency the Governor is pleased to sanction the following modifications of the Rules shown in the Minute of the 27th May, 1852, for the Examination of Candidates in the Native Languages.

There will in future be two Examinations: the first to qualify the successful Candidates for holding a first appointment in the Public Service; the second to qualify him for promotion.

At the first Examination, the Candidates will be required to speak with fluency the colloquial language, to read and explain the printed books published by the School Commission, to read and write such documents as are received into, and issued from Cutcheries, and to understand such Notarial or other deeds as are commonly produced in Evidence in Courts of Justice.

The reading of the Classical books, a knowledge of Grammar, and Translating from English Authors into Singhalese or Tamil, and of Government Ordinances, whether from English into the Native Languages, or *vice versa*, will form the subjects of a second Examination; which will not be held until twelve months after the first.

By His Excellency's Command,

C. J. MACCARTHY,

Colonial Secretary's Office,  
Colombo, August 15th, 1853.

Col. Secy.

## MINUTE

BY THE GOVERNOR.

WITH reference to the Minute of the 18th December, 1852, notifying the transfer of the Customs Establishment of this Colony to the local Government from the 6th January last, His Excellency the Governor is pleased to announce that the Right Hon'ble the Secretary of State has directed the incorporation into the Civil Service of this Colony of the following Officers of the Customs Department, who will reckon their rank from the date at which they were first appointed to the Public Service, viz.

F. SAUNDERS, Esq., Principal Collector of Customs - February, 1823.

G. VANE, Esq., Depy. Collector &amp; Landing Surveyor at Colombo 12th August 1834.

D. J. RONAYNE, Esq., Collector of Customs for the Southern Province. March, 1840.

P. F. FLANDERKA, Esq., Asst. Collector &amp; Landing Surveyor at Jaffna 6th Jan 1845.

F. B. STEPHEN, Esq., Landing and Tide Surveyor at Galle - January, 1840.

G. GUN, Esq., Sub-Collector and Landing Surveyor at Trincomalie 1st May, 1853.

By His Excellency's Command,

E. RAWDON POWER,

Colonial Secretary's Office,  
Colombo, June 9th, 1853.

Asst. Col. Secy.

## MINUTE

BY THE GOVERNOR.

1. UNDER Instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to notify, that Writers on the Civil Establishment of this Colony will in future date the commencement of their Civil Service, from the period at which they may obtain the Certificate required by the 19th clause of the Minute of the 14th February, 1855, as to their general attainments and proficiency in the Native Languages, and as to their competency to fill an appointment in the Service.

2. From the same period also they will date the commencement of their claim to Pension.

3. The practice at present in force of Writers paying their contributions to the Pension Fund from the date of their appointment as Writers is to be discontinued; and such contribution will in future commence from the date of their obtaining the Certificate referred to in the first clause of this Minute.

4. The Secretary of State has been pleased to direct the adoption of the above Rules respecting the commencement of the Civil Service of Writers, and of their consequent claim on the Pension Fund, in the hope that it will act beneficially in encouraging young gentlemen nominated to Writerships, in more speedily acquiring the knowledge necessary to qualify them for the duties they may be called upon to perform.

By His Excellency's Command,

C. J. MACCARTHY,

Colonial Secretary's Office,  
Colombo, 30th July, 1853.

Col. Secy.

## BATTICALOA BRANCH DIOCESAN SCHOOL SOCIETY.

*(Established 9th March, 1850.)*

## PRESIDENT :

The Right Rev. the Lord Bishop of Colombo.

John Morphey, Esq., Treasurer.—Rev. Samuel Nicholas, Secretary.

This Society has for its object the education of children of native converts, and the Christian instruction of Heathen youths. It supports, at present, 6 Boys' Schools in the Island of Pullentivoe and the villages around; and has under its control and superintendence a Girls' School also. The maintenance of the Schools depends on local contributions. Three of the School Bungalows are fitted up for Divine Service.

No. of Subscribers 52—Pensioners 16—No. of Patients admitted into the Society's  
Hospital from 1st October 1853 to 1st October 1854, 66.

This Society is supported by Monthly subscriptions of residents of the town of Trincomalie, with the occasional liberal contributions of Officers of the Navy visiting the station, and further by an annual grant of £25 from Government.

The Society has a substantially built and commodious Hospital, with 12 beds, in which the indigent sick are gratuitously treated, fed and clothed, to which is attached a general Dispensary (established June, 1846,) in which medicines of all kinds are furnished gratis to pauper applicants recommended by any member of the Society, and medicines are further sold to the community at large, for a barely remunerative profit on their cost price at Apothecaries Hall, London, from which establishment fresh supplies are annually received.

The Medical Attendant and Dispenser resides on the Hospital premises, and is accessible at all hours of the day and night.
